Spalding's Athletic Library

A. G. SPALDING

Anticipating the present tendency of the American people toward a healthful method of living and enjoyment, Spalding's Athletic Library was established in 1892 for the purpose of encouraging athletics in every form, not only by publishing the official rules and records pertaining to the various pastimes, but also by instructing, until to-day Spalding's Athletic Library is unique in its own particular field and has been conceded the greatest educational series on athletic and physical training subjects that has ever been compiled.

The publication of a distinct sports and pastimes and designed to occupy the premier place in America in its class was an early idea of Mr. A. G. Spalding, who was one of the first in America to publish a handbook devoted to athletic sports, Spalding's Official Base Ball Guide being the initial

number, which was followed at intervals with other handbooks on the sports prominent in the '70s,

Spalding's Athletic Library has had the advice and counsel of Mr. A. G. Spalding in all of its undertakings, and particularly in all books devoted to the national game. This applies especially to Spalding's Official Base Ball Guide and Spalding's Official Base Ball Record, both of which receive the personal attention of Mr. A. G. Spalding, owing to his early connection with the game as the leading pitcher of the champion Boston and Chicago teams of 1872-76. His interest does not stop, however, with matters pertaining to base ball; there is not a sport that Mr. Spalding does not make it his business to become familiar with, and that the Library will always maintain its premier place, with Mr. Spalding's able counsel at hand, once without saying.

counsel at hand, goes without saying.

The entire series since the issue of the first number has been under the direct personal supervision of Mr. James E. Sullivan, President of the American Sports Publishing Company, and the total series of consecutive numbers reach an aggregate of considerably over three hundred, included in which are many "annuals," that really constitute the history of their particular sport in America year by year, back copies of which are even now eagerly sought for, constituting as they do the really first authentic records of events and official rules that have even

been consecutively compiled.

When Spalding's Athletic Library was founded, seventeen years ago, track and field athletics were practically unknown outside the larger colleges and a few athletic clubs in the leading cities, which gave occasional meets, when an entry list of 250 competitors was a subject of comment; golf was known only by a comparatively few persons; lawn tennis had some vogue and base ball was practically the only established field

sport, and that in a professional way; basket ball had just been invented; athletics for the schoolboy—and schoolgirl—were almost unknown, and an advocate of class contests in athletics in the schools could not get a hearing. To-day we find the greatest body of athletes in the world is the Public Schools Athletic League of Greater New York, which has had an entry list at its annual games of over two thousand, and in whose "elementary series" in base ball last year 106 schools competed for the trophy emblematic of the championship.

While Spalding's Athletic Library cannot claim that the rapid growth of athletics in this country is due to it solely, the fact cannot be denied that the books have had a great deal to do with its encouragement, by printing the official rules and instructions for playing the various games at a nominal price, within the reach of everyone, with the sole object that its series might be complete and the one place where a person could look with absolute certainty for the particular book in which he

might be interested.

In selecting the editors and writers for the various books, the leading authority in his particular line has been obtained, with the result that no collection of books on athletic subjects can compare with Spalding's Athletic Library for the prominence of the various authors and their ability to present their subjects in a thorough and practical manner.

A short sketch of a few of those who have edited some of the leading numbers of Spalding's Athletic Library is given herewith:

JAMES E. SULLIVAN

President American Sports Publishing Company; entered the publishing house of Frank Leslie in 1878, and has been connected continuously with the publishing business since then and also as athletic editor of various New York papers; was a competing athlete; one of the organizers of the Amateur Athletic Union of the United States; has been actively on its board of governors since its organization until the present time, and President for two successive terms; has attended every champion-

ship meeting in America since 1879 and has officiated in some capacity in connection with American amateur championships track and field games for nearly twenty-five years; assistant American director Olympic Games, Paris, 1900; director Pan-American Exposition athletic department, 1901; chief department physical culture Louisiana Purchase Exposition, St. Louis, 1904; secretary American Committee Olympic Games, at Athens, 1906; honorary director of Athletics at Jamestown Exposition, 1907; secretary American Committee Olympic Games, at London, 1908; member of the Pastime A. C., New York; honorary member Missouri A. C., St. Louis, honorary member Olympic A. C., San Francisco; ex-president Pastime A. C., New Jersey A. C., Knickerbocker A. C.; president Metropolitan Association of the A. A. U. for fifteen years; president Outdoor Recreation League; with Dr. Luther H. Gulick organized the Public Schools Athletic League of New York, and is now chairman of its games committee and member executive committee; was a pioneer in playground work and one of the organizers of the Outdoor Recreation League of New York; appointed by President Roosevelt as special commissioner to the Olympic Games at Athens, 1906, and decorated by King George I. of the Hellenes (Greece) for his services in connection with the Olympic Games, appointed special commissioner by President Roosevelt to the Olympic Games at London, 1908; appointed by Mayor McClellan, 1908, as member of the Board of Education of Greater New York.

WALTER CAMP

For quarter of a century Mr. Walter Camp of Yale has occupied a leading position in college athletics. It is immaterial what organization is suggested for college athletics, or for the betterment of conditions, insofar as college athletics is concerned, Mr. Camp has always played an important part in its conferences, and the great interest in and high plane of college sport to-day, are undoubtedly due more to Mr. Camp than to any other individual. Mr. Camp than probably written more on college

Camp has probably written more on college zines of America are always anxious to secure his expert opinion on foot ball, track and field athletics, base ball and rowing. Mr. Camp has grown up with Yale athletics and is a part of Yale's remarkable athletic system. While he has been designated as the "Father of Foot Ball," it is a well known fact that during his college career Mr. Camp was regarded as one of the best players that ever represented Yale on the base ball field, so shen we hear of Walter Camp as a foot ball expert we must also remember his remarkable knowledge of the game of base ball, of which he is a great admirer. Mr. Camp has edited Spalding's Official Foot Ball Guide since it was first published, and also the Spalding Athletic Library book on How to Play Foot Ball. There is certainly no man in American college life better qualified to write for Spalding's Athletic Library than Mr. Camp.

DR. LUTHER HALSEY GULICK

The leading exponent of physical training in America; one who has worked hard to impress the value of physical training in the schools; when physical training was combined with education at the St. Louis Exposition in 1904 Dr. Gulick played an important part in that congress; he received several awards for his good work and had many honors conferred upon him; he is the author of a great many books on the subject; it was Dr. Gulick, who, acting on the sucrestion of Lames E. Sullivan

acting on the suggestion of James E. Sullivan, organized the Public Schools Athletic League of Greater New York, and was its first Secretary; Dr. Gulick was also for several years Director of Physical Training in the public schools of Greater New York, resigning the position to assume the Presidency of the Playground Association of America. Dr. Gulick is an authority on all subjects pertaining to physleal training and the study of the child.

JOHN B. FOSTER

Successor to the late Henry Chadwick ("Father of Base Ball") as editor of Spalding's Official Base Ball Guide; sporting editor of the New York Evening Telegram; has been in the newspaper business for many years and is recognized throughout America as a leading writer on the national game; a staunch supporter of organized base ball, his pen has always been used for the betterment of the care

TIM MURNANE

Base Ball editor of the Boston Globe and President of the New England League of Base Ball Clubs; one of the best known base ball men of the country; known from coast to coast; is a keen follower of the game and prominent in all its councils; nearly half a century ago was one of America's foremost players; knows the game thoroughly and writes from the point of view both of player and an official.

HARRY PHILIP BURCHELL

Sporting editor of the New York Times; graduate of the University of Pennsylvania; editor of Spalding's Official Lawn Tennis Annual; is an authority on the game; follows the movements of the players minutely and understands not only tennis but all other subjects that can be classed as athletics; no one is better qualified to edit this book than Mr. Burchell.

GEORGE T. HEPBRON

Former Young Men's Christian Association director; for many years an official of the Athletic League of Young Men's Christian Associations of North America; was connected with Dr. Luther H. Gulick in Young Men's Christian Association work for over twelve years; became identified with basket ball when it was in its infancy and has followed it since, being recognized as the leading exponent of the official rules; succeeded Dr. Gulick as editor of the Official Basket Ball

Guide and also editor of the Spalding Athletic Library book on How to Play Basket Ball.

JAMES S. MITCHEL

Former champion weight thrower; holder of numerous records, and is the winner of more championships than any other individual in the history of sport; Mr. Mitchel is a closs student of athletics and well qualified to write upon any topic connected with athletic sport; has been for years on the staff of the New York Sun.

MICHAEL C. MURPHY

The world's most famous athletic trainer; the champion athletes that he has developed for track and field sports, foot ball and base ball fields, would run into thousands; he became famous when at Yale University and has been particularly successful in developing what might be termed championship teams; his rare good judgment has placed him in an enviable position in the athletic world; now with the University of Pennsylvania; during his career has trained only at two colleges and one athletic club. Yale and the

University of Pensylvania and Detroit Athletic Club, Yale and the triumph was that of training the famous American team of athletes that swept the field at the Olympic Games of 1908 at London.

DR. C. WARD CRAMPTON

Succeeded Dr. Gulick as director of physical training in the schools of Greater New York; as secretary of the Public Schools Athletic League is at the head of the most remarkable organization of its kind in the world; is a practical athlete and gymnast himself, and has been for years connected with the physical training system in the schools of Greater New York, having had charge of the High School of Commerce.

DR. GEORGE J. FISHER

Has been connected with Y. M. C. A. work for many years as physical director at Cincinnati and Brooklyn, where he made such a high reputation as organizer that he was chosen to succeed Dr. Luther H. Gulick as Secretary of the Athletic League of Y. M. C. A.'s of North America, when the latter resigned to take charge of the physical training in the Public Schools of Greater New York,

DR. GEORGE ORTON

On athletics, college athletics, particularly track and field, foot ball, soccer foot ball, and training of the youth, it would be hard to find one better qualified than Dr. Orton; has had the necessary athletic experience and the ability to impart that experience intelligently to the youth of the land; for years was the American, British and Canadian champion runner.

FREDERICK R. TOOMBS

A well known authority on skating, rowing, boxing, racquets, and other athletic sports; was sporting editor of American Press Association, New York; dramatic editor; is a lawyer and has served several terms as a member of Assembly of the Legislature of the State of New York; has written several novels and historical works.

R. L. WELCH

A resident of Chicago; the popularity of indoor base ball is chiefly due to his efforts; a player himself of no mean ability; a first-class organizer; he has followed the game of indoor base ball from its inception.

DR. HENRY S. ANDERSON

Has been connected with Yale University for years and is a recognized authority on gymnastics; is admitted to be one of the leading authorities in America on gymnastic subjects; is the author of many books on physical training.

CHARLES M. DANIELS

Just the man to write an authoritative book on swimming; the fastest swimmer the world has ever known; member New York Athletic Club swimming team and an Olympic champion at Athens in 1906 and London, 1908. In his book on Swimming, Champion Daniels describes just the methods one must use to become an expert swimmer.

GUSTAVE BOJUS

Mr. Bojus is most thoroughly qualified to write intelligently on all subjects pertaining to gymnastics and athletics; in his day one of America's most famous amateur athletes; has competed successfully in gymnastics and many other sports for the New York Turn Verein; for twenty years he has been prominent in teaching gymnastics and athletics; was responsible for the famous gymnastic championship teams of Columbia University; now with the Jersey City high schools

CHARLES JACOBUS

Admitted to be the "Father of Roque;" one of America's most expert players, winning the Olympic Championship at St. Louis in 1904; an ardent supporter of the game and follows it minutely, and much of the success of roque is due to his untiring efforts; certainly there is no one better qualified to write on this subject than Mr. Jacobus.

DR. E. B. WARMAN

Well known as a physical training expert; was probably one of the first to enter the feld and is the author of many books on the subject; lectures extensively each year all over the country.

W. J. CROMIE

Now with the University of Pennsylvanias was formerly a Y. M. C. A. physical director; a keen student of all gymnastic matters; the author of many books on subjects pertaining to physical training.

G. M. MARTIN

Annual Meeting

Minutes of the Fifth Annual Meeting of the Public Schools Athletic League, held at the office of General George W. Wingate, 20 Nassau Street, December 1, 1908, at 4 P. M.

President Wingate in the chair, and sixty-five members of the

League present in person or by proxy.

The President addressed the meeting as follows:

PRESIDENT'S ADDRESS

GENTLEMEN:

This meeting marks the end of the fifth year of the Public Schools Athletic League. It is gratifying to know that during it the progress of the League has been steady and uniform, that it is now more popular among the children, the school authorities and the public, and is achieving wider and better results

than in any previous year in its history.

Like all other philanthropic organizations which depend for support upon voluntary contributions, the recent financial stringency seriously effected its income. In fact, it probably suffered more than most others, inasmuch as its main support has been from Wall Street, and during the last year and a half there have been few Wall Street men who have not felt so poor as to be

obliged to cut down their contributions.

Yet while a year ago we were obliged to close our office, to dispense with all paid employees and were without funds to conduct our spring games, the Treasurer's report will show you that we were able, through the exertions of our officers and directors among their friends, to raise sufficient money to pay off our debts, carry on our activities, and to now have a cash balance in the treasury. This was largely owing to the contributions of \$1,000 from Mr. S. R. Guggenheim, \$500 each from Messrs. John D. Rockefeller, William K. Vanderbilt and Harry P. Whitney, \$300 from Mr. Frank L. Polk, \$250 from Mr. John S. Huyler, and to contributions from a number of the District Leagues

Our work in the schools has now become an important part of the educational system, and its value is recognized by all, both in and out of it. In fact, it is about the only new thing affecting many which I can recall which has not met with opposition from one source or another. The attendance at our games is larger, the competitors show a constantly increasing proficiency, and records are constantly being broken. What to my mind is

C. WARD CRAMPTON, M. D.
Secretary of the Public Schools Athletic League and Director Physical Education
Public Schools of Greater New York.

of much more significance, the tests for the "button" of the League show an improvement of over twenty-five per cent. in the general physique of the boys. The reports of the League show that in 1904 there were but 1,162 buttons won in all Greater New York, many schools winning less than 6. In fact, it was then common in a test of 400 boys to find less than 6 who could "chin" themselves 4 times on a bar. In the tests held during the present year there were 4,000 buttons won, and in many schools over a third of the boys passed the chinning test, many

"chinning" themselves over 10 times.

I regret to say that for some reason which I do not understand, unless it is that the standard for the high jump (4ft. 4in.) is too high, there is less interest taken in the competition for the button in the High Schools than in the Elementary ones. During the term last year the High School competitors for this trophy were very few, many High Schools, such as the High School of Commerce and Commercial High, not competing at all, so that there were but 102 buttons won by all the High Schools, as against 80 in 1905, a very slight increase, particularly as compared with the enormous increase shown in the Elementary Schools. This should not be allowed to continue. Few contests are of more value.

The purpose of establishing the "button" is to improve the physique of all the boys by giving each a reward to strive for. It is undoubtedly a valuable thing to stimulate such an interest in athletics in a school as to induce it to produce a number of "star performers" which create a school spirit and promotes a general interest in athletics. But our main end is to help the mass of the boys, particularly those who feel that they will never be able to earn a place upon any of the school teams, and

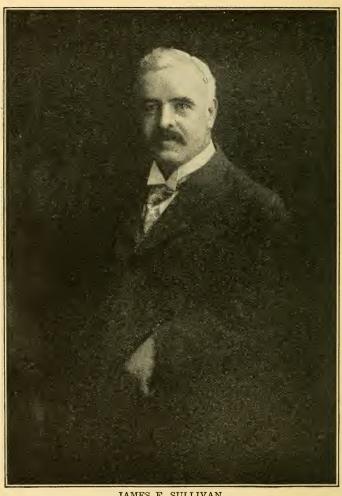

therefore do not attempt to develop themselves.

It is for this purpose that we also are making a special feature of "Class Athletics," in which all the children of a class connete and each class is ranked according to the average result. This is working very satisfactorily. As every deficient boy takes so much from the class record, and class emulation is keen, a public opinion is created which is doing much to induce all the mem-

bers of the different classes to improve themselves.

The moral improvement in the boys, as well as in the effects of our games on the discipline of the schools, still continues, and constitutes one of the most gratifying features of our work. The spirit of personal honor, of square, manly sport and of contempt for trickery and falsehood, which has been created, is most creditable and cannot but have an important and valuable effect in molding the character of our public school children.

The field of the activities of the league covers very many items.

JAMES E. SULLIVAN, Chairman Games Committee Public Schools Athletic League; Member of the Board of Education of Greater New York.

Besides the "button" test and the usual athletic games, we have base ball, basket ball, shooting, cross-country running, swimming and many other forms of exercise. These will be treated upon at length in the reports which will be submitted to you, and I therefore shall not refer to them. The great skill which our High School boys are obtaining in marksmanship is believed by President Roosevelt and all military men to be of national importance in increasing the military strength of the country and thus making for peace.

thus making for peace.

Our work has been much helped by the completion in the early Fall of the beautiful Curtis Athletic Field which the city has constructed at Staten Island. This was largely owing to the action of the city authorities in allowing the school children using this field for their games to be carried over the municipal ferry without charge when going in squads, in charge of their

teachers.

The tracks at the Astoria and Brooklyn Fields are completed. The grand stand (which contains the dressing rooms and lavatories) at the Astoria Field is about completed. That at Crotona will probably be finished this year. It is hoped that the one at Brooklyn may be done during next summer. When these are done, facilities will be afforded which are much needed and which will greatly help athletes in the schools.

There is a great need, however, for athletic facilities close to the homes of the children, where they can go without paying

carfare, which to many is a prohibitory tax.

It is therefore earnestly hoped that it will be possible to effect some arrangement by which the upper floors of some of the recreation piers may be fitted up so that they can be used for games by the children during the Fall, Winter and Spring months.

The system of school police which has been adopted by many of the schools has proved to be a success and does much to

assist in the management of the games.

It cannot but be gratifying for you to know that the success which our League has attained is inducing the formation of many similar bodies. New Orleans, Seattle and many other cities have followed our example. There is scarcely a day upon which your President or Secretary fails to receive one or more letters asking for information in regard to the work of the League. The fact that a recent letter of inquiry came from a school in Marash in Turkey will give you an idea of the distance to which the interest in our work has extended. Our last reports were long ago distributed and we have sent our a great many copies of the Manual and other literature.

Although the work of the League has been so extensive and

EMANUEL HAUG,
Assistant Secretary Public Schools Athletic League.

met with such general commendation, and although the newspapers have been full of the reports of its games, the number of our citizens who show their interest in its work by identifying themselves with it has been surprisingly small. We have 88 patron members who have each made donations of over \$100 and many of them of over \$1,000. We have 88 life members who have contributed over \$50. But we have at the present time but little over 100 annual members. In other words we have been unable to induce more than this small number to agree to pay \$10 a year to support an institution which is doing the work that is being done by the Public Schools Athletic League. If it were not for the special contributions made by a comparatively few, its work could not be kept up.

This is a matter which is not right and should be remedied. How this is to be done requires our most careful consideration. Undoubtedly the hard times have much to do with it, but not entirely. While the Board of Education has manifested the greatest interest in our work and has assumed many of the expenses which the League has hitherto borne, there are a great many which it is not possible for it to bear and which must be provided from individual sources. The medals and other expenses of the games and many other similar matters cannot be

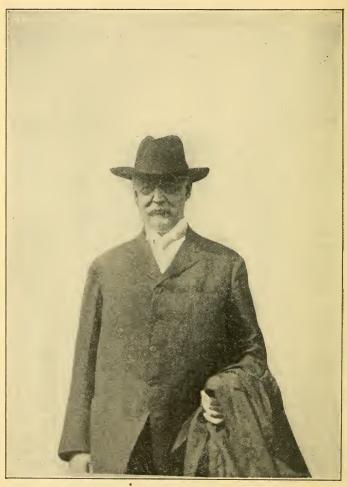

provided by the city and yet are indispensable.

It would seem as if in a great city like this where there are tens of thousands of graduates of the Public Schools who have attained wealth and prominence, there should be no serious difficulty in inducing at least one thousand of them to agree to become annual members of an institution like this, which is seeking to give to those who sit in their old school seats those opportunities for play and wholesome exercises which they when boys got in the streets and vacant lots, but which the growth of the city and the congestion of the streets have now rendered impossible. I earnestly hope that the new Board of Directors will give careful consideration to this matter.

I shall not speak to you in detail of the work of the Girls' Branch, as that will be covered by the report of Miss Leverich, its President. I may say, however, that its exercises, and particularly its folk dancing, have been very beneficial to the girls

of our schools and are becoming widely extended.

The League is under the greatest obligations to the various commanding officers of the National Guard of New York and Brooklyn, who have granted the use of their respective armories for its games, and those of the school without which they could not have been held. It is also indebted to the officers of the various District Leagues and to the many male teachers who have unselfishly given to the athletic training of the boys, time

which they needed for their promotion studies, and which they could ill afford to lose. The extent and value of this is not generally appreciated. The Elementary and High School Games Committees are important bodies and have done grand work. The League is also indebted to President Winthrop and to a number of others for many prizes, a list of which will appear in

the reports.

I cannot close without expressing the profound regret which we all feel at being deprived of the services of Dr. Luther Halsey Gulick. The work he has taken up and which has obliged him to leave us is perhaps as important as that of the Public Schools Athletic League. But this does not affect our sense of his loss. He is the one who is entitled to the credit of originating this organization. To his industry, fertility of resources and large acquaintance its success is largely to be ascribed. We wish him every success in his new field.

The reports of the Secretary, the Treasurer, the President of the Girls' Branch, the Chairman of the Marksmanship Committee, the Chairman of the Games Committee, and the Treasurer of the Girls' Branch were read and ordered on file.

It was moved and carried unanimously that the President, or in her absence the Secretary of the Girls' Branch, be entitled to

act as a member of the Executive Committee.

The question of a solicitor for the Girls' Branch was referred to the Executive Committee.

The terms of office of eleven directors having expired, the following gentlemen were unanimously re-elected:

General George W. Wingate,
Darwin R. James, Jr.,
Harry Payne Whitney,
Dr. Edward W. Stitt,
S. R. Guggenheim,
Dr. Luther Gulick.

The following new members were unanimously elected to fill the vacancies:

Felix Warburg (vice Edward S. Lauterbach).

Frank L. Polk (vice Charles M. Morse).

Walter B. Gunnison (vice Dr. John T. Buchanan). Evert Jansen Wendell (vice Charles B. Stover).

It was moved and unanimously carried that in future all trophies donated to or bought by the Public School Athletic League be (as far as practicable) permanent trophies to be held by the school winning same for one year, and that whenever the finances of the League permit, the school winning such a trophy shall, upon losing same, receive in place thereof, a plaque or other memorial suitably inscribed.

That gold, silver and bronze medals be given as heretofore.

On motion, the meeting adjourned.

THE GEN. GEORGE W. WINGATE MARKSMANSHIP TROPHY.

Report of the President of the Girls' Branch of the P. S. A. L.

April 1, 1909.

The Girls' Branch of the Public Schools Athletic League began the work for the third season, October 1, 1907. The plan of conducting free classes for teachers in folk dancing and athletics for girls for which the teachers in return were to instruct girls of their own school, after school hours, had proved so successful in the preceding season that it was decided to carry out the same plan this year on a larger scale.

Four teachers' classes were organized and instructed by Miss Burchenal, and a fifth class by Miss Wollaston, with an enrollment of 25 teachers from 11 schools, and with an enrollment of 225 teachers from 75 schools. These teachers in turn instructed

about 10,000 children in folk-dancing and athletics.

During the winter and spring, inter-class athletic trophies were presented by members and friends of the League to thirty-five Elementary Schools and four High Schools, and these thirty-nine schools held inter-class contests under the rules of the Girls' Branch.

In order to avoid any danger that might arise in the development of folk-dancing among school children, a committee of the Girls' Branch organized for the purpose, formulated some recommendations, to be published in their Handbook and sent to all the schools. These recommendations included the following:

I, That the folk-dancing be used for school and social purposes only, and not to form any part of pay entertainments.

2. That the dancing be done by large classes, thus avoiding

the exploitation of individuals.

3. That the use of special fancy contume be discouraged; the uniformity being possible to accomplish by the use of uniform colored ribbon or scarf. The idea being to use the dancing as a form of athletics rather than an exhibition.

4. That notoriety and inter-school games should be avoided, and that only inter-class contests in the various schools be en-

couraged.

On May 25, 1908, the Girls' Branch held a festival of folk-dancing in Central Park, at which two thousand girls from forty schools took part. Two thousand invited guests were present, and the Seventh Regiment Band stationed in the center of the field furnished the music. Many of the children present had

never walked on grass before, and it was a memorable occasion

for them.

The policy of the preceding season was continued, and six teachers' classes were organized. Four of these were instructed by Miss Burchenal, one of them by Miss Marsh, and one by Miss Wilson—the two last members of the Physical Training Department of the Public Schools. These classes had an enrollment of 395 teachers from 166 schools, and these teachers in turn instructed about 19,000 children, an increase of 9,000 over last year. Among the teachers attending Miss Burchenal's classes there were fourteen supervisors of the Department of Physical Training. Up to April I, sixty-five elementary schools and five high schools have arranged to hold inter-class contests this spring, but twelve of these have had no trophies offered to them.

Mrs. Henry Siegel, one of the directors of the Girls' Branch, has given to the Girls' Branch the athletic pins which are awarded

to all the members of winning classes in these contests.

The annual indoor demonstration of the Girls' Branch was held at Stuyvesant High School, March 31st, four hundred and fifty girls from eight schools took part in this. The May festival of last year will be repeated on a larger scale both in Van Cortlandt and in Prospect Park in Brooklyn.

C. WARD CRAMPTON, M.D., Secretary, P.S.A.L.

HIGH SCHOOLS SHOOTING TROPHIES.

Report of Dr. C. Ward Crampton, Secretary of the P. S. A. L.

The progressive concentration of the population of the world into cities, and the consequent congestion within city limits has brought the present generation face to face with a problem of

paramount importance and of stupendous magnitude.

City conditions damage the human race. The children of the city breed poorly and infrequently, and steadily our birth rate has fallen, so that America is hardly breeding enough Americans to maintain itself. It is hardly superior to France in this respect. We are looking forward to a future when the city will be peopled with a retrograded stock which cannot maintain either an industrial supremacy or a political or military integrity.

As this situation concerns the future, it alarms but the few who are aware of the facts and are able to read their significance. Play, athletics and games are absolutely necessary for health and physical efficiency, but as they may be temporarily disregarded by any individual because they have not an immediate

money value, the tendency is to disregard them.

The happiness and continuity of the race depends upon physical equipment, and physical things must become the concern of this generation, otherwise the curse of our neglect will fall upon the

city of the future.

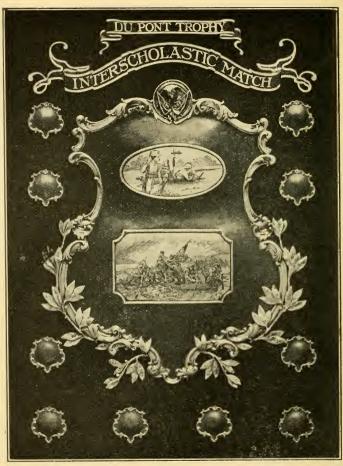

Nor is this a matter which concerns the future alone. It is stated on good authority that ten thousand Americans die daily from tuberculosis, and tuberculosis is preventable. Thousands of thousands of dollars are spent yearly in efforts to cure this disease, the death loss per year represents thousands of millions, and societies and cities have given much concern to the prevention of its spread, yet the fundamental fact that the tuberculosis germ cannot successfully attack a healthy pair of lungs is wholly disregarded.

Should the Public Schools Athletic League realize its ideal and discharge its full function of providing healthful, joyous and constructive play, folk-dancing and athletics in the fresh air and sunshine for every boy and girl of the city of New York, tuber-

culosis would become impossible.

Progress-

Since its inception five years ago the League has made marvelous progress. Over 150,000 children take part in its activities annually, yet there are 500,000 more, at least 300,000 of whom

INTERSCHOLASTIC OUTDOOR MARKSMANSHIP TROPHY.

must certainly be reached. It is merely the matter of funds at the disposal of your officers which determines the efficiency of its work and the speed of its progress toward the discharge of

its full duty.

The outline of the League's work is given in the President's report, and the details by the Chairman of the Games Committee and the Assistant Secretary, the presentation of which demonstrates the high character of service enlisted in this magnificent task, as well as the solidity of the League's progress.

The Work of the School Teachers.

One important feature of the work which deserves detailed consideration is the devoted service of the principals and teachers of schools. Thousands of New York City teachers, urged on solely by their enlightened and enthusiastic interest in the welfare of their boys and girls, spend hour after hour when their classroom work is ended, training and exhorting their boys and girls toward the higher life of athletic ideals; a life of health, joy, efficiency and loyalty. The Department of Education may well be proud of its teachers and the city congratulate itself upon its servants. All honor to them and their devotion!

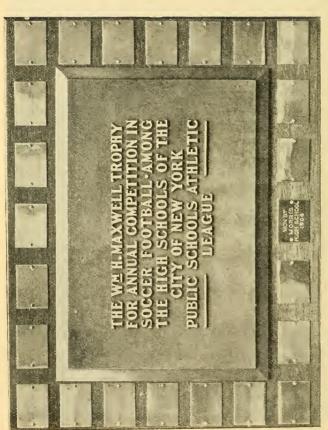

Extensive and Intensive Athletics.

When the League sprang into existence there was but one form of athletics extant, the "intensive" form, and its first concern was to develop along existing lines. It provided games at which school teams composed of the best athletes of the school could compete against each other for prizes and trophies and inaugurated seasons of basket ball and base ball in which the school teams could take part. These methods stimulated great athletic activity, but did not reach the submerged 90 per cent of the boys who were too weak and undeveloped to take part. Nevertheless, this plan made athletics well known and eagerly sought after by all, and paved the way for the "extensive" form of athletics, the button test and class athletics, which were subsequently introduced. These latter forms reach all the boys, however undeveloped they may be, and provide a stimulus for rational training and attainment.

The intensive form, with its representative teams, will always be of great value, however, as it is a magnificent means of developing an interest in athletics and solidifying school spirit.

Loyalty.

There is nothing that makes a school more a school than athletics. It is true that only five boys from Public School 19, Manhattan, formed the basket ball team which won the city championship, but it is equally true that for three months of the

SOCCER FOOT BALL TROPHY-PRESENTED BY DR. WILLIAM H. MAXWELL. Cast by Jno. Williams (Inc.), New York.

year 1,800 boys and 1,500 girls followed the fortunes of these five boys through their district and borough contest, and over 2,000 of them traveled to Brooklyn to cheer them to victory in their final game. In no other way can a school so quickly find itself as an organization, and a school once organized and solidified becomes a unit for scholastic and ethical management. When we remember that school loyalty is but the awakening of an inherent ability for loyalty that will relate itself later to civic and national loyalty, we cannot estimate its value too highly. Our huge foreign population within the schools is being worked over into Americans, and loyalty to our flag and institutions must be inculcated or America will become an anarchy.

The Press.

The public press has taken a large part in supporting our work. William R. Hearst, of the *American* and *Journal*, presented many valuable trophies for competition for school boys. The New York *Sunday World* has for the last three years provided sets of medals to over one hundred individual schools each year for their own school meets. Last year fully 50,000 boys took part, truly intensive athletics widely extended.

The New York *Herald* has fostered the base ball tournaments of the League, supplying trophies and making arrangements for the final games, at which over 20,000 boys attended. The Brooklyn *Eagle* has supplied marksmanship badges, and stands well

behind the League in all of its propaganda.

Base Ball.

The Public Schools Athletic League of New York City conducted in 1907 the largest base ball tournament that has ever been held. One hundred and six teams entered, and during the season played their games, finally leaving borough champions, which competed for the championship of the Greater City. In 1908, practically the same number of schools took part, and the season was carried through with great success. The American League Park was secured through the courtesy of the officials of the American League, and the twenty thousand tickets that were issued were all used.

There has undoubtedly been great enthusiasm in the City of New York over the final games of the recent National Championship, when Chicago and New York played the final series, but the enthusiasm of these twenty thousand school boys and teachers, with the representatives of every municipal department, from

office boys to the Mayor, could not be equaled.

During the whole season there was a noticeable lack of complaints received by the Secretary of the Public Schools Athletic

League. This was due to the spirit of fairness which has come with the increase of interest in athletic competition and the

careful method of assigning umpires.

It is sometimes said that the school boys cannot play good base ball, but when in the deciding game between Public School 24, Manhattan, and 10, Brooklyn, which resulted in a victory for the Brooklyn school, only two runs and only one error were made, it must be said that the New York boys can play unusually good base ball.

A. G. Spalding provided the Championship Trophy, which is perhaps the highest attainable schoolboy trophy of the city. The New York *Herald* gave a medal for the boy making the best batting record in the final series, a trophy to the school scoring the greatest number of runs, and the school having the least number of runs scored against it. Public School 24, Manhattan, won the latter two trophies, and Dumas, of Public School 9,

Brooklyn, won the medal with a batting average of .529.

The Public Schools Athletic League also holds the largest high school championship base ball series. In 1908 nine teams were entered, and the Spalding Trophy was won by the Commercial High School with a score of eight games won and none lost. The Herald Plaque for scoring the greatest number of runs went to the High School of Commerce, and the trophy for having the least number of runs scored against it was won by the Boys' High School; Carson, of the High School of Commerce, won the Herald medal for the best batting average, with a record of 580.

When we consider that many of the schools in New York City are so situated that the pupils cannot take part in base ball except by going to the suburbs, the fact that one hundred and six teams were entered from a total of three hundred and forty-six schools which could possibly have entered a team, it is astonishing that such a record could be made. Base ball, however, is the game which has the strong grip upon the American boy, and the Public Schools Athletic League is working to the end that every American boy in New York City will play the game and play it well.

Influence.

The good results of athletic work in the city schools cannot be measured. Good scholarships, ethics, morals, citizenship, health and joyous recreation have their own large share.

A few instances will suffice:

Public School 6, Manhattan, was declared the champion of the city of New York on a Saturday night, winning it by a single point from Public School 77, Manhattan. On Monday morning the coach of Public School 6, Manhattan, discovered that his one valued point was obtained through the dishonesty of one of his

boys who ran unfairly on the relay team. He quickly made his way to the Board of Education and laid his laurels at the feet of the Public Schools Athletic League, regretfully, but he could not hold his magnificent prize unfairly. When honesty can stand the strain of an occasion like this, comparable only to the honor of an election to the Presidency of the United States, it must

be freely granted that athletics train for honesty.

Athletics help scholarship. Many a big, vigorous boy out of sympathy with his school work is driven to his lessons by his mates so that he can become eligible to represent his school. The school paper of Public School 30, Manhattan, Mr. Paul, principal, recently reached my hands. It contained the records of the broad jump. The champion jumper of the school was ineligible to compete, even though his jump nearly equaled the record of the city, and the boy editor stated, "It is a pity he can't jump as well with his lessons." I wrote the principal expressing the hope that such a good athlete might do better in his studies, and received the reply in a week or so stating that his class mates had attended to the matter, and the boy had won his way to a high

scholastic standing.

A school principal, Mr. Henry E. Jenkins, at Public School 171, Manhattan, demonstrated his wisdom conclusively when he asked for the appointment to his school of the most expert basket ball player of the Normal College team. There are as many strong. vigorous incorrigibles in his neighborhood as there are anywhere in the city. These boys, proud of their own badness, had made life miserable for various teachers in their separate classes, and had bid fair to destroy the morale of the school. Mr. Jenkins collected them in one class and put Miss Kirtland in charge with carte blanche to go ahead. "Can I do anything with them I want to?" Miss Kirtland asked. "Yes," said the wise principal. Shetook a defiant class to the gymnasium and in an hour brought them back tired, peaceable and interested, but not defiant. This treatment lasted throughout the term. Basket ball and athletics first and books afterward, but nevertheless books. The time was well spent, for every one of these boys left her class and was advanced to the grade beyond. Moreover, it made for permanent good, for many of these boys have now left the school and are doing creditable work in earnestly struggling through high school or winning their places in the world of affairs.

The Girls' Branch.

There are as many girls in the city as these boys, and they are just as important to our League.

The Girls' Branch of the League provides instruction for the public school teachers of the city in appropriate folk-dances and

athletics, so that these teachers may organize after school, clubs within their own schools. These lead to inter-class contests which are great neighborhood occasions.

Over 19,000 girls have been provided with healthful and joyous recreation, and while there are 285,000 more, the work is

beginning to count.

As an instance of the strong grip that folk-dancing and athletics for our girls has taken upon the city population, a little girl not more than seven years of age, in an East Side school, took part in a friendly competition of folk-dancing and athletics between her class and others of the school. She was the smallest tot of them all, and clad in her plaid skirt, the plaid of her Highland clan, danced the Highland Schottische with an abandon and enthusiasm which could not be equaled. The whole family was there to see her, and exult in her part of the competition. The Highland girl and the Highland dance won the day, and the little one and her mates of the triumphant class bore home the little trophies, the Winged Victory, which have been provided for such occasions through the generosity of Mrs. Henry Siegel.

Two days afterward this little one was seen on the street with her three-year-old sister teaching her the steps of her national

dance.

The women of the East Side appear to be stolid, and it is no wonder, for their lives have been hard and wearisome beyond the ken of their more fortunate sisters. Yet the light that shines through their eyes, and the tears that roll down their checks when they see their children dancing the little Landlers and Comarinskaias that they danced in the heyday of their youth before the cottage doors of Germany and Russia, makes any effort on the part of the city or any body of devoted men and women a thousand times worth while. Their appreciation is beyond words, and it means that America has crept close into their hearts when America provides for their children the songs and dances of their own native land. Perhaps if an American were transported to Borneo he would be not less thrilled by the strains of "Dixie."

The League is winning its way toward its great goal, the physical efficiency of its boys and girls and the inculcation of the great athletic ideals of courage, honesty, courtesy and strength. It has the support of the public and of the city administration, and will return large dividends to them in the form of able men and women trained in body and soul, for their own happiness and the welfare of the State.

DISTRICT ATHLETIC LEAGUES.

The officers of the before-mentioned District Athletic Leagues have assisted the League in each and every of its activities with the result that more schools have entered into actual participation of athletics than ever before. Both the Elementary and High Schools Games Committees have become more united bodies and transact the business of their schools in good shape. The meetings are well attended and the discussions are keen and the result is always satisfactory to all concerned. It would be a profitable thing to the League if the District Athletic

Leagues could manage to elect regularly the same delegate, providing the delegate attended to his duties. The High Schools Games Committee is to be congratulated on the manner in which

it has transacted the business the past year.

Last fall it was suggested that both the Elementary and High Schools Games Committees elect a permanent chairman. The result was: High Schools-William H. Andrews, Boys' High School; Elementary Schools-F. B. Graham, Public School 10. Manhattan, resigned; Leo I. Kearney, Public School 25, Manhattan.

"SUNDAY WORLD" CHAMPIONSHIP MEET.

Held at Curtis Field, Staten Island, October 3, 1908.

As in the previous two years the Sunday World again offered medals and prizes to the first one hundred elementary schools that would apply and promise to hold a set of games during the spring of 1908. By the time, however, that all requests had been received it was found necessary to allow one hundred and fourteen schools to compete. Close on to twenty thousand boys took active part in these meets.

A slight change in the order of events was made this year in

order to enable more boys to enter.

On Saturday, October 3, the final meet was held at Curtis Field, Staten Island. A finer day for a meet could not have been asked for and the result was that every boy entered was on hand. The grandstand was packed as never before, and all around the fence an enthusiastic crowd watched the boys. Eleven hundred boys answered to their names as the various events were run off.

The manner in which the games were conducted were perfect. After the first pistol-shot there was not a hitch throughout the

lengthy programme.

The John S. Huyler Band of Public School 21 furnished the music for the occasion.

Through the efforts of the Sunday World free transportation

on the Municipal Ferry was secured for the competitors.

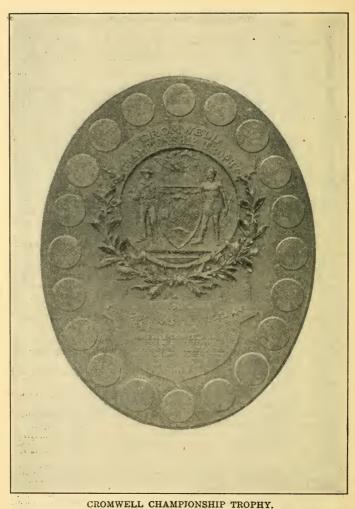

Invitations were sent to the city and school officials and others interested in the work of the Public Schools Athletic League.

ELEMENTARY SCHOOLS SOCCER FOOT BALL

Note-For rules on "Soccer Foot Ball" see Rules II, III and IX. "Athletic Rules," pages 171, 173, 185.

The second tournament for elementary schools was held from October 17 to November 14, 1908. Only six schools were represented, due to the lack of practice facilities. A marked improvement in the knowledge of the games and in the playing was shown by all the teams. All games were keenly contested, as will be seen by the close scores. Public School 24, Manhattan, who finished second last year, won the championship with a clean score of five games won, none lost and none tied. While they

scored 12 goals, only one goal was scored against them.

The Clarence Mackay Trophy becomes the property of Public School 24 for one year. Gold medals were presented to the win-

ning team, the second team receiving silver medals.

ELEMENTARY SCHOOLS INDOOR CHAMPIONSHIP TROPHY FOR THE BOR-OUGH OF BROOKLYN.

HIGH NCHOOLS CROSS-COUNTRY CHAM-PIONSHIP TROPHY, Donated by Mr. William L. Jones, Won by H. S. of Commerce, Dec. 5, 1908,

ELEMENTARY SCHOOLS INDOOR CHAMPIONSHIP GAMES.

Note—For rules see Rules II, III and VII, "Athletic Rules,"

pages 171, 173, 179.

Not less than seven indoor records were shattered at the Sixth Annual Elementary Schools Indoor Championship Games held Saturday afternoon, December 18, 1908, at the Forty-Seventh

Regiment Armory, Brooklyn,

The 878 boys representing seventy-three schools were entered in the various events, and it was evident from the very beginning that there would not be a walk-over by any school for the City Championship. In all there was 94 relay teams entered representing the four weight classes as follows:

80-lb. Class 35 teams 95-lb. Class 66 115-lb. Class 23 Unlimited Class

This showed that the schools are endeavoring to get in as many pupils as possible. There were very many close finishes which kept the officials on their guard. The conduct of the boys

was excellent.

The Public Schools Athletic League Band of Public School 21, Manhattan, furnished the music for the occasion, but it was doubtful if the audience heard them, owing to the "rooting" and shouting and the ringing of bells of the great crowd of enthusiastic spectators in the gallery.

Public School 6, Manhattan, and Public School 77, Manhattan,

tied for the championship of the city with 13 points each.

To show how well the points were distributed among the schools the following table may prove interesting:

Number of Manhattan schools scoring points.... 16 Number of Brooklyn schools scoring points..... 12 Number of Bronx schools scoring points..... 6 Number of Queens schools scoring points..... 2

The total number of points won by the boroughs is as follows: Manhattan, 94 points; Brooklyn, 45 points; Bronx, 29 points;

Queens, 5 points. Total, 176.

ELEMENTARY SCHOOLS BASKET BALL TOURNA-

MENT, 1908-1909.

Note-For rules on "Basket Ball" see Rules II, III and VIII,

"Athletic Rules," pages 171, 173 and 183.

This was without doubt the greatest basket ball tournament ever conducted by the Public Schools Athletic League. One hundred and five teams were entered, representing 65 schools classified by boroughs as follows:

Manhattan 18 Junior 12 Senior 19 Schools Bronx 7 Junior 8 Senior 9 Schools Brooklyn 15 Junior 10 Senior 17 Schools Queens12 Junior 9 Senior 12 Schools Richmond 7 Junior 7 Senior 8 Schools making a total of 46 Senior and 59 Junior teams.

The games were well conducted and well played, due mainly

to the efficient management of the Basket Ball Committee.

The final games for the City Championship brought out a great crowd of loyal and enthusiastic spectators. Each game had an attendance of over 3,000. The playing was exceptionally good, showing that the boys were well acquainted with the details of the game.

Gold medals were given to Public School 19, Manhattan, for winning the Senior City Championship, and Public School 62 for winning the Junior City Championship. Silver medals were given

to the other borough winners.

To Public School 19, Manhattan, was also awarded the Pratt Trophy, and to Public School 62, Manhattan, the Vanderbilt Trophy, which they will hold for one year.

SUNDAY WORLD FIELD TROPHY FOR HIGHEST PERCENTAGE OF ENTRIES IN THE SUNDAY WORLD GAMES.

ATHLETIC BADGE COMPETITION.

Note-For rules on "Athletic Badge Competition," see Rules II, III and IV of "Athletic Rules," pages 171, 173, 174.

The standards have been set as follows:

Class A:

60-yard dash, 83-5 seconds. Pull up (chinning on bar), 4 times. Standing broad jump, 5 feet o inches.

Class B:

60-yard dash, indoors, 8 seconds. 100-vard dash, outdoors, 14 seconds, Pull up (chinning on bar), 6 times. Standing broad jump, 6 feet 6 inches.

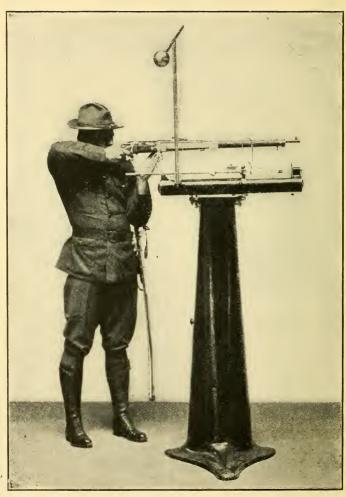

For High School boys:

200-yd. run, 28 seconds. Pull up (chinning on bar), 9 times. Running high jump, 4 feet 4 inches.

The following is a summary of the schools that have held the Athletic Badge test during the year and the number of badges won:

All age, weight and height classifications were abolished in Athletic Badge Test this year, and boys were given a Class A. (formerly Junior) or a Class B (formerly Senior) badge according to qualifications.

President Winthrop of the Board of Education donated a trophy, "The Soldier of Marathon," which was awarded to the school having the highest percentage of enrolled pupils qualifying for the athletic badge. The trophy was won by Public School 32, Bronx, with 59 per cent. After each school sent in its report the school reporting the highest percentage was officially tested. As the official test showed a higher percentage than the next highest reported, the trophy was awarded to Public School 32, Bronx, to be held until the next test.

Class Athletics-

Note-For rules on "Class Athletics," see Rule V, "Athletic

Rules," page 177.

This kind of athletics actively engages a greater number of boys than any other. The performance of each boy has its definite bearing on the record of the class. Accordingly, pressure is brought to bear on the less active boys by the other members of the class, compelling them to practice faithfully in order that the class may win. The scheme is therefore somewhat automatic in its working.

Trophies are given in each borough for the four grammar grades in the elementary schools, namely, fifth, sixth, seventh and eighth grades. At least 80 per cent of the boys enrolled in a class must actually take part in the competition in order to

have the record count. The classes reporting the highest record in each borough are officially tested, and in order for a record to stand the results at the official test must be higher than any other reported results. The classes are tested in the order of their

standing until such an official record is secured.

The following table gives a complete summary of the number of participants. The great falling off in the class running was due chiefly to the inclement weather which prevailed during the spring, thereby preventing the schools from holding their trials. A good many reports had to be rejected as they were not sent in on time.

ELEMENTARY SCHOOLS BASE BALL TOURNAMENT.

After as strenuous a season as has ever been seen since the League conducted a base ball tournament the final game for the city championship was played at Crotona Park, June 23. At no time during the entire season was it possible for any one to predict which school would win the city championship.

After the borough championships had been decided the city committee arranged a round-robin schedule whereby each team played every other team one game. Weather conditions made it

necessary to postpone several games.

Both Manhattan and Bronx teams met their opponents and defeated them. The final game was therefore of great interest to all, as it was the one which would decide the city championship.

Public School 28 of the Bronx succeeded in defeating Public School 169 of Manhattan by the score of five to four, and was awarded the Spalding Trophy "Play Ball" for one year. The school also wins both the Herald plaques for scoring the highest number of runs against its opponents and for having the least number of runs scored against it. Simpson, shortstop of Public

The Third Annual Cross-Country Run of the High Schools was held Saturday, December 5, 1908, over a 31/4-mile course, starting and finishing at Celtic Park, Long Island City. and proved a success. By this system each school team occupied a certain "block" on the starting line. Positions on the line were

At the start all the boys sprinted for the lead, but at the halfmile post on top of the first hill they were already strung out. with Thomas of Commerce leading the pack, closely followed by one of his schoolmates, with Major in third place. At the end of the first lap Thomas had fallen back, and McDonald of DeWitt Clinton had taken a lead, a few yards in front of Major. The time of the first lap was 5 minutes 382-5 seconds. Major moved up in front at the one-and-a-half-mile post and was leading by fifty yards, with the pack drawn out for more than half a mile. Major increased his lead at the two-and-a-half-mile post by one hundred vards, maintaining this lead to the end and finishing with a fine burst of speed, in 17 minutes 2-5 second.

The thousands of schoolboys at the finish saw many exciting tussles between the runners, notable among them being that between William Haas and L. Armt, of the High School of Commerce, in which the former finally got the place by a few

inches.

The High School of Commerce and DeWitt Clinton High School of Manhattan had a lively fight for team honors, the

former winning by a score of 66 to 78.

It is interesting to note that the winning school presented a well-chosen team in which there were no star performers to help out. Yet all of the team finished in good condition and well forward

Manual Training High School succeeded in carrying off the honors at the championship games for the third consecutive time at the Forty-Seventh Regiment Armory, Saturday evening, January 23, 1909. Before a large crowd of admiring spectators the 350 competitors assembled on the floor ready for their events. Despite the fact that the competitors were permitted to remain on the floor the order and conduct was excellent.

The All-Around Championship Trophy, "The Sprinter," presented by Felix M. Warburg, becomes the permanent property of Manual Training High School. They also hold permanently the Freshman Relay Trophy which was competed for since 1903. No less than five records were broken, some of which will stand

for many years to come. The new records are:

220 yds. Junior-The time being cut from 26 seconds to 25 3-5 seconds.

440 vds. Senior-The time being cut from 562-5 seconds to

55 3-5 seconds.

880 vds. Freshman Relay-The time being cut from I minute 44 4-5 seconds to I minute 44 I-5 seconds.

Running High Jump-The height being raised from 5 feet

4 1-2 inches to 5 feet 8 3-4 inches.
12-lb. Shot—The distance being increased from 42 feet 8 1-4 inches to 44 feet 8 1-2 inches.

Manual Training High School captured the Maxwell Trophy for the second consecutive time with a clean score of seven games won, none lost and none tied. In these seven games they scored twenty-five goals and had but one point scored against them. Townsend-Harris Hall was responsible for this one point.

The tournament lasted from October 10 to December 3, 1908. Following is the standing of the teams at the end of the tournament:

The Third Annual High Schools Indoor Swimming Championships were held February 27, 1909, at the Sportsman's Show, Madison Square Garden, at the invitation of the officials in charge who presented the medals and trophies.

Although the individual number of entries did not exceed last year's the results showed a great improvement on the part of

the swimmers.

A few elementary events were added to the program, which were well contested.

With fewer schools entered it was possible this year to arrange a schedule which would not run into a new term, thereby assuring all players a chance for the medals which are presented yearly to the winning team. Stuyvesant High School succeeded in going through the tournament without losing a game. They scored 280 points while having 138 scored against them. Townsend-Harris Hall, who captured the championship the past two years, finished last this year.

HIGH SCHOOL CHAMPIONSHIP RELAY RACES.

The novice and championship relay races were run as a separate meet this year at the Brooklyn Athletic Field, Friday, June 11, 1900.

A total of twenty teams were entered in the four relay races. Manual Training won the point trophy with Boys' High School

a close second.

The relay team from DeWitt Clinton High School broke the record for the half-mile 120-lb. class by 2-5 seconds.

HIGH SCHOOLS OUTDOOR NOVICE AND CHAMPIONSHIP GAMES.

Note-For rules see Rules II, III and VII, "Athletic Rules,"

pages 171, 173, 179.

The games were held Saturday, May 29th, at Curtis Field. The program contained the full list of championship events, except the relays; ten novice events, and three events closed to the Evening High Schools. This is the first time that the Evening High Schools were permitted to take part at a P. S. A. L. meet, and judging from the number of entries proved a success. Owing to the many events, it was decided to hold both the novice and championship relay races at some later day.

Several records were broken and several surprises sprung.

The new records made are:

Discus, raised from 104ft. 10 3-4in. to 121ft. 1in. 12-lb. shot, raised from 44ft. 6 1-2in. to 47ft. 3-4in. Pole vault, raised from oft. 10in. to oft. 107-8in. 880-yds., lowered from 2m. 5 2-5s. to 2m. 4 1-5s.

The greatest surprise, however, was sprung in the half mile, when Kiviat of Curtis, an unknown athlete, beat a field of seven-

1—L. Caparell, P.S. 25, Brooklyn, winner 8-lb. shot put, outdoor novice games, May 29, 1909. 2—Burton Googins, Brooklyn H.S., winner pole vault championship, 1909. 3—A, Grill, P.S. 109, Brooklyn, winner 60 yards dash, 95-lb. class, novice games, May 29, 1909. 4—L, Cohen, P.S. 25, Brooklyn, winner running broad jump, 95-lb. class, novice games, May 29, 1909. Relay Team P.S. 109, Brooklyn—1, Kessler; 2, Schminsky; 3, Eisenberg; 4, Ritskin; 5, Levenson; 6, Weinstein; winners 410 yards (115-lb. class) relay championship, June 12, 1909.

teen starters in one of the most thrilling encounters ever seen between schoolboys in many a day, and at the same time breaking the record by 3-5s. He also won the mile from a field of seventeen starters.

Morris High School won the novice meet, while Manual Training carried off the honors in the championship. Among the Evening High Schools, the Long Island City Evening High School won the greatest number of points.

HIGH SCHOOL BASE BALL TOURNAMENT.

Owing to the large number of entries considering the short time in which the games had to be played, the base ball schedule was arranged into two divisions, namely, the Manhattan-Bronx-Richmond Division and the Brooklyn Division. The former

1—F. Goodwin, P.S. 5. Manhattan, winner 100 yards dash, unlimited weight class, novice games. May 29, 1909. 2—Joseph Ginsburg, P.S. 7, Manhattan, winner running broad jump, 115-1b, class, outdoor novice games, May 29, 1909. 2—F. Katz, P.S. 43, Brooklyn, winner standing broad jump, 35-1b, class, indoor championships, Dec. 12, 1908. 4—A. Kiviat, Curtis H.S., winner 880 yards and one-mile run, high schools outdoor championships, May 29, 1909. 5—S. Radnitz, Manual Training H.S., winner 220 yards run, senior high schools novice games, May 29, 1909.

division had six schools, the latter five schools. The winners of the two divisions were to play a series of two out of three games for the championship. The majority of the Manhattan games were played at American League Park, while Brooklyn used the Commercial Field mainly. Most of the games were very closely contested, and it was therefore impossible to say who would be the division representative in the final round until

the last game had been played.

Morris High School and Commercial High School were the final contenders for the championship. The first game of the series was played at American League Park, Saturday, June 12th, and resulted in a victory for Morris by the score of 5—3. Owing to the weather conditions the second game could not be played until the following Saturday. This was played at Washington Park, Brooklyn, and resulted in a second victory for Morris by the score of 3—2 in a twelve-inning game, which was claimed to have been one of the hardest fought games of the tournament.

Morris High School was awarded the Spalding Trophy, which it will hold for one year. The Herald Plaque for scoring the highest number of runs during the tournament was also awarded to Morris High School, they scoring a total of 49 runs, not including the 8 runs scored in the final two games between the

division winners.

The Herald Plaque for having the lowest number of runs scored against it during the tournament was also awarded to Morris High School with a total of 8 runs.

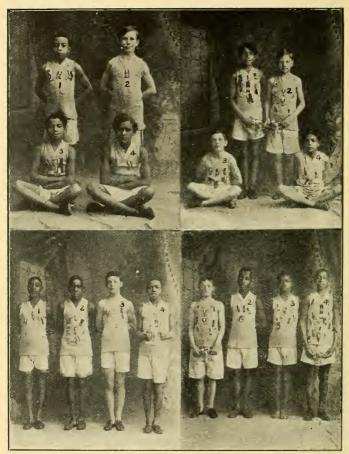

The runs in the supplementary series were not counted in the

final scoring.

The Herald medal for the best batting average was won by Van Riper, Boys' High, with an average of .600.

The standing of the schools in the two divisions is as follows:

MARKSMANSHIP.

Note-For rules on "Marksmanship" see Rules II, III and

XII, "Athletic Rules," pages 171, 173, 187.

This has been the banner year for shooting among the pupils of the high schools. Shortly after the opening of school in September, the coaches took the boys in hand and gave them good, steady practice on the sub-target guns. The progress the boys made in shooting in a few weeks convinced the coaches that it would be advantageous to hold a series of dual matches among the ten schools, beginning November 1.

At the conclusion of this series, the Schoolboy Rifle and Sub-Target Rifle Shooting Tournament was held in Madison Square Garden in connection with the Sportsman's Show. This took the place of the tournament held under the auspices of the N.R.A.

last vear.

Curtis High School managed the Invitation Shoot for the sec-

ond time in a very commendable way.

The Whitney Shoot was held as usual at the 71st Regiment

Armory.

During the year over a thousand boys were regularly at practice and on May 24, there were reported as qualifying as marksmen and sharpshooters, a total of 434, as compared to 273 last

year. The medals were provided by the Brooklyn Eagle.

Through the generosity of Commissioner Frank L. Polk, twenty-two Krag-Jorgensen rifles were donated to the league to be used by the eleven high schools now equipped with the subtarget gun machines. Eleven sub-target gun machines have been donated to the league. These are distributed among the following schools, the name of the donor being given opposite the name of the school:

ROUND ROBIN TOURNAMENT DUAL MATCHES.

After two months' practice on the sub-target rifle it was decided to have a round robin series of dual matches among the ten high schools. The conditions called for a team of eight, each boy to shoot a string of seven shots. The team winning the greatest number of matches during the series to be awarded the sub-target banner, and to the boy making the highest aggregate score a silver medal.

A condensed report of the tournament follows:

Schoolboy Rifle and Sub-Target Rifle Shooting Tournament.

Held at the Sportsman's Show, Madison Square Garden,

much larger scale and showed better results. Over one thousand boys participated in the various matches. Although eight ranges were constantly in use beside the sub-target machine range many boys had to be turned away daily for lack of time. Both the team and individual scores show great improvement over the

previous four years.

The league was fortunate in receiving trophies for team competitions from the Winchester Repeating Arms Company, the Sub-Target Gun Company, the I. E. Du Pont de Nemours Powder Company, the Peters Cartridge Company, and the New York State Rifle Association, and for individual competition from the Winchester Repeating Arms Company, The Hopkins & Allen Arms Company, the Remington Arms Company, Schoverling, Daly & Gales, and the Sub-Target Gun Company.

The Union Metallic Cartridge Company's "Championship Chal-

lenge Cup" was again put up for competition.

Through the courtesy of the National Rifle Association, the league was enabled to hold competition for the Junior Marks-

man Medals.

The tournament had the endorsement of many prominent army, state and school officials. The success of the tournament was due largely to the untiring efforts of Capt. George W. Corwin, and his assistants, who voluntarily offered their services as range officers.

HIGH SCHOOLS TENNIS TOURNAMENT.

Eleven high schools were represented in the second Tennis Tournament conducted by the League from April 24 to June 12. Time did not permit of playing a round-robin series, so the schools were classified into two divisions, namely, the Manhattan-Bronx-Richmond division, with six teams, and the Brooklyn division with five teams, the winners of the two divisions to play off for the city championship.

Morris and Manual Training were the winners and the deciding game was played June 12, and resulted in a victory for

Morris by the score of 3/o.

Athletic Fields.

The four athletic fields of the Board of Education are now in excellent condition. The grand-stands at Curtis, Crotona and Astoria Fields are completed and contain dressing rooms, locker rooms, shower baths, etc. All fields have a full athletic equipment. The grand-stand at the Brooklyn Field will be built during the year.

Supervisors are in charge of fields from 3 to 6 on school days and from 9 to 12 and 1 to 6 on Saturday and holidays. The fields have also been thrown open to the public on Sunday afternoons from 1 to 6 o'clock. No competitive games are allowed

to be played, however.

By special act of the Board of Education schools were given permission to hold a field day at any of the fields. Although notice of this was sent out rather late one hundred and twelve schools were allowed exclusive use of the four fields.

The schedule for the use of the fields is as follows:

Trophies.

The League now has one hundred and thirty-four trophies. Seven trophies have been permanently won during the year. Eleven new trophies have been presented to the League. The League has decided that all trophies presented shall in future be perpetual trophies.

The following trophies were donated during the year:

David A. Boody Trophy—For high schools heavyweight relay championship, indoor, second prize.

Frederick L. Upjohn Trophy—For elementary schools 115-lbs.

relay, indoor, second prize.

W. H. Reynolds Trophy—For elementary schools 95-lbs. relay, indoor, second prize.

Annual.

The Year Book of the Public Schools Athletic League was published in May. Two thousand copies were sent to subscribers and friends of the League. It contains the annual reports of the officers, a detailed record of all athletic activities conducted by the League, and photographs of our latest trophies.

Handbook.

Over ten thousand Handbooks were furnished the League by the American Sports Publishing Company. Copies were sent to all the schools in the city, to the members of the League, libraries, and many out-of-town institutions.

School Bands.

The two bands were given several opportunities of showing the progress they have made during the year at the various meets held during the year. Not only to the meets conducted by the League were they invited to furnish the music, but also to meets conducted by individual schools, districts, and evening recreation centers.

Public School 21, Manhattan, Band, known as the "Huyler Band," has sixty-five members, and Public School 20, Richmond,

band, 25 girls and 22 boys.

Use of Armories.

Through the courtesy of the Colonels of the various regiments the League was able to hold its various indoor meets. Individual schools, district leagues, and evening high schools were also granted permission to hold their annual meets at the armories.

The shooting teams of the high schools were also accommodated at various armories, which certainly helped the shooting very much.

Summary.

The League can look back over the past year and view the work it has accomplished with pride. Every athletic activity has shown an improvement upon former years. The Elementary and High Schools Games Committee and the Board of Rifle Coaches held meetings regularly and conducted the athletic affairs of the schools admirably.

Among the activities in which there was a great improvement may be mentioned the Athletic Badge Test, Class Athletics and Marksmanship. The number of boys participating and qualifying has been nearly twice as many as reported during the previous year. Many new records were made which will be hard to break.

The officials at our meets and games were most satisfactory. Teachers of both elementary and high schools were used wherever possible.

The League takes this means of extending its thanks to all who have at any time assisted at the games.

Hints on Training

I. Always warm up slowly and cool off gradually when finished.

2. Stop practice before you are exhausted.

3. Dress lightly for practice or competition, but put on warm clothing at once when you have finished.

4. Practice regularly; a little each day, if possible.

5. Have regular hours for eating and sleeping.

6. Don't Smoke.

TRAINING SCHEDULE.

FOR RUNNERS.

(a) Warm up; never fail to do this.

- (b) Practice five or six starts. Before taking the line trot a dozen steps up the track and back. On the start run at full speed about twenty vards; slow up gradually and walk back to the line.
- (c) Wait a minute; take a few deep breaths; trot a few steps and repeat the start, running a few yards further than before. After two or three trials put as much speed as possible into the start, run moderately for a few yards and finish at top speed.

 (d) Once a week run your full distance at top speed. This

may be done oftener for distances under 100 yards.

(e) Always end practice by walking about until breathing becomes nearly normal; then take a rub down and dress.

FOR JUMPERS.

(a) Warm up.

(b) Devote a large part of the practice to getting the "take

off" properly.

(c) Decide which foot you will jump from, then starting on this foot from the "take off" run back six, eight or some even number of strides and mark off the spot where you strike on your last stride. Let your jumping foot strike this mark in the run to the "take off." Run with the natural stride until the last two paces, which may be lengthened a few inches. If you do not hit the "take off" right, move your starting mark backward or forward by just the distance that you go over or fall short, Some jumpers have two marks. This is often helpful; the first mark serving as a guide to bring the jumper to the second mark on the proper stride.

(d) At first try easy jumps, raising the knees quickly and as high as possible when the jump is being made. Practice this until you learn how to land and to control your body while in the air.

(e) Do not try for height or distance in the high and broad jump more than once or twice a week, and take a good rub down

and dress quickly when you have finished practicing.

FOR SHOT PUTTERS.

(a) Warm up by swinging the arms, bending the body and springing forward, at the same time giving the body a sharp turn forward and to the right.

(b) Practice should be done from a stand so as to get the spring with the legs, the turn and lunge of the body and the

heave with the shoulders.

(c) Before making a put always limber the muscles of the arm and shoulder by stretching the arm up to its full length.

(d) Use a light shot until the fundamental motions are mas-

FOR HURDLERS.

(a) Warm up and practice starts the same as for running.

(b) Practice with one hurdle at first to get the stride and to overcome any hesitancy in taking the hurdle.

(c) Go no higher than is necessary in clearing the hurdle.

Both time and strength may be saved in this way.

(d) Later practice with two or three hurdles, aiming to get a uniform stride between the hurdles and to maintain a good balance. A good preliminary exercise is to raise the legs alternately, bringing the knees to the level of the armpit.

(e) Once or twice a week take the full number of hurdles

for time.

WARMING UP PROGRAM.

(a) Take a dozen steps, rising slightly on the toes at each step.
(b) Trot a dozen steps. Repeat, swinging the arms at the sides.

(c) Trot thirty steps, lifting the knees well at each step. Re-

peat, lifting the heels high.

(d) Take several deep breaths. Now trot fifty steps at a good swinging pace, then walk fifty.

(e) Breathe deeply.

Always do this, no matter what your event may be.

Athletic Courtesy

The League endeavors to foster clean sport between gentlemen. The following statements express the spirit to be sought and maintained in such sport. It is the privilege and duty of every committee and person connected with the League to embody these principles in his own actions and to earnestly advocate them before others:

(1) The rules of games are to be regarded as mutual agreements, the spirit or letter of which one should no sooner try to evade or break than one would any other agreement between gentlemen. The stealing of advantage in sport is to be regarded

in the same way as stealing of any other kind.

(2) Visiting teams are to be honored guests of the home team, and all their mutual relationships are to be governed by the spirit which is understood to guide in such relationships.

(3) No action is to be taken nor course of conduct pursued which would seem ungentlemanly or dishonorable if known to

one's opponent or the public.

(4) No advantages are to be sought over others except those

in which the game is understood to show superiority.

(5) Officers and opponents are to be regarded and treated as honest in intention. When opponents are evidently not gentlemen, and officers manifestly dishonest or incompetent, future relationships with them may be avoided.

(6) Decisions of officials are to be abided by, even when they

seem unfair.

(7) Ungentlemanly or unfair means are not to be used even

when they are used by opponents.

(8) Good points in others should be appreciated and suitable recognition given,

Athletic Rules

RULE I.

ATHLETIC MEMBERSHIP.

The Public Schools Athletic League recognizes as athletic members all Public School boys, members of Elementary and High Schools and College of the City of New York, who take part in athletic competitions that are given under the direction of the League.

RULE II.

(a) General. ELIGIBILITY,

Attendance of at least twenty school days shall be required of all pupils before they shall be entitled to represent the school in athletics.

No boy who has represented any outside organization shall be eligible to compete for any school organization of this League until twenty school weeks have elapsed from the time of such competition, except that summer schools and vacation playgrounds under the jurisdiction of the Board of Education and public playgrounds under the Park Department are not considered outside organizations. Outside organizations which school boys may not represent and still be eligible to represent their schools are such as athletic clubs with a formal constitution and by-laws, Y. M. C. A.'s Settlements, Evening Recreation Centers, etc. This rule is also intended to apply to the various clubs formed within these organizations; that is, a boy may not represent in athletics a club of one organization against a club of another organization and still be eligible to represent his school, because such clubs are really departments of these organizations. This does not in any way debar boys from taking part in athletic competitions that are closed to their own organization. even though it may be between different clubs within that organization.

Boys taking part in unsanctioned events render themselves

liable to suspension.

Only those pupils who maintain a grade of scholarship which will entitle them to promotion (if continued without improvement) shall be entitled to represent the school in athletics.

No pupil, under penalty of discipline in his school, shall be eligible to represent such school, the Principal of the school to be the sole judge concerning this.

Only those pupils who are in good standing as amateurs shall

be eligible to represent their school.

Boys who maintain their amateur standing may participate in athletics during the summer vacation.

(b) Elementary Schools.

Elementary school boys are allowed to represent both their

church and their school in athletics.

No elementary school pupil coming from another school shall represent the school unless he has attended the school for twenty school weeks, except

(a) He has been promoted from one school to another;

(b) He has been transferred from one school to another by order of the District Superintendent or the Board of Superintendents;

(c) He has been transferred on account of a change in

residence;

(d) He has been admitted from a school outside the public school system of Greater New York.

In order to be eligible for athletics, elementary boys must have received for the month previous a mark of at least "B" in effort, proficiency, and deportment.

Elementary school boys are allowed to enter one event only

at any set of games. Spiked shoes not allowed.

No entry shall be accepted unless countersigned by the Principal of the school.

(c) High Schools.

No high school pupil shall represent his school unless he has attended a school for twenty school weeks, except

(a) He has been promoted from an elementary school where-

upon he shall be eligible immediately;

(b) He has been admitted from a school outside the New York Public Schools, whereupon he shall be eligible after an attendance of twenty school days.

No high school pupil who has reached the age of twenty-one shall be eligible to represent his school in any branch of athletics.

A boy shall be eligible to represent his school in athletics during any "marking" interval who has placed 14 hours (13 hours) of prepared work to his credit at the last rating in the office records,

Note.—In those high schools where physical training is not conducted according to the syllabus 13 hours, instead of 14, shall be considered as constituting eligibility.

N. B.-Drawing and shop work in manual training schools

shall count one hour for two.

Any extraordinary case shall be submitted to the High Schools

Games Committee.

A graduate of a three-years' course in the high schools who returns to take up post-graduate work is permitted to take part

in athletics, providing he is eligible according to all the rules of the Public Schools Athletic League.

No pupil who is a graduate of a four-year secondary school

course shall be eligible to represent any school.

Only those pupils who are taking full work in a regular course

shall be eligible to represent the school.

No pupil shall be allowed to compete in the mile run unless he has reached the age of sixteen years and six months. No pupil shall be allowed to compete in the junior events if he is sixteen years old or older. A birth certificate shall be accepted as proof of a high school junior's age. If such certificate cannot be secured other evidence may be submitted to the High Schools Games Committee.

Any boy who has matriculated in any college or who has played on a college team shall not be eligible to represent a high school.

No entry shall be accepted unless countersigned by the Principal or the school's representative on the High Schools Games Committee.

Committee.

Any high school pupil known to have bet or acted as agent for others in betting on athletic contests, shall be debarred from competition for one year.

SPECIALS.

In all games under the jurisdiction of the Public Schools Athletic League net receipts and net losses shall be equally divided between the competing schools, except that in case of the visiting team objecting to assuming expense of fields selected by the home team. Visiting teams shall not share any profit and loss, but shall receive one-half of their traveling expenses.

For all games in the Public Schools Athletic League tournaments officials shall be furnished by the office unless both contesting teams agree upon other officials and give notice thereof

beforehand (at least one week).

RULE III.

CLASSIFICATION OF COMPETING ATHLETES.

Elementary Schools.

An elementary school boy shall be considered a novice until he has won a medal in Public Schools Athletic League games open to all elementary schools, or, in an event sanctioned by the Public Schools Athletic League and open to all elementary schools of the city.

In track and field events, swimming, skating, etc., the following classifications are made: Midget, 80 pounds; light weight, 95 pounds; middle weight, 115 pounds; unlimited weight, boys

of any weight.

The Games Committee may arrange special classes of events to meet special needs. For example: events may be given for boys who have never even competed in a set of athletic games; or, weight classes may be arranged other than those regularly prescribed.

High Schools.

A novice in high school is an athlete who has never won a prize in competition that is open to two or more secondary schools or organizations, except that there shall be two classes of novices in high schools, namely, track and field, and the loss of noviceship in one class shall not debar a boy from competing as a novice in the other class. Boys entering high schools from elementary schools shall be considered novices in athletics.

In the High School Novice Championships, a boy who competes in the novice meet retains his noviceship throughout that

meet, this to include novice relay.

Members of a track team in the high schools that win a trophy shall not lose their noviceship unless they receive personal

prizes.

Where junior and senior events are given in high school games, boys under 16 years of age shall be considered juniors, and all other boys under 21 years of age shall be considered seniors. The boy's age on the date of competition shall determine the class in which he shall compete.

In events where weight classes are used the following classifications shall be recognized: Midget, 100 pounds: middle

weight, 120 pounds; unlimited weight, boys of any age.

General.

Boys will be weighed in athletic costume, minus shoes. A boy shall not be allowed to weigh in a second time in any set of games in case he is found to be over weight at the first weighing. The scales will be set at the weight specified for each class, and any competitor raising the beam so that it touches above shall be ineligible to compete. The average weight of teams will not be taken for relay teams. Boys found to be too heavy for the class in which they enter will not be allowed to compete in any other class.

RULE IV.

ATHLETIC BADGE COMPETITION.

The standards have been set as follows:

The Athletic Badge Test may be held at any time during the year:

The names of successful boys should be sent to the office of the Public Schools Athletic League not later than May 1. During the month of May the official test will be held.

STANDARDS.

Class A.—Bronze Badge.

60-vard dash, 83-5 seconds. Pull up (chinning on bar), 4 times. Standing broad jump, 5 feet 9 inches.

Class B.—Bronze Silver Badge.

60-vard dash, indoors, 8 seconds. (or) 100-yard dash, outdoors, 14 seconds. Pull up (chinning on bar), 6 times. Standing broad jump, 6 feet 6 inches.

Note.—All age, weight or height classifications are abolished in the Athletic Badge Test, and boys are given a Class A or Class B badge according to their qualifications.

Only those boys shall be admitted to the Athletic Badge Test who received a mark of at least "B" for the month previous in effort, proficiency and deportment, and who are making satifactory effort to secure good posture.

In order to win a badge a boy must qualify in all three events

in his class.

Winners of last year's badges are not debarred from competition.

The following general rules shall govern the final competition. There shall be but one trial chinning, one in the dashes and three in the jumps.

60 Yards Dash and 100 Yards Dash.—The general rules of competition, as set forth in the P. S. A. L. Handbook, shall

govern this test, except there shall be no finals.

Chinning.—The boy shall extend himself to his full length before and after each pull-up, and shall be obliged to raise his body without a kick, snap, jerk or swing to such a height as to

bring his chin higher than the bar.

Jumping.—The rules of the P. S. A. L., as set forth in the Handbook, Rules XXV. and XXVII., shall govern this test, except that, as there is no real contest, i. e., there is no striving for first, second or third places, the finals shall be dispensed with. With reference to false starts, a competitor shall be penalized in accordance with Rule X.

The following order of events is suggested:

Chinning, Jumping, Running.—As the first two events can in most cases be tried out at the schools, thus leaving the smallest possible number of boys to take the third test of running, which must of necessity be held at some armory or athletic field.

No boy shall be admitted into any contest who has not received a mark of at least "B" for the month previous in effort, proficiency and deportment, the Principal of the school to be sole judge in this matter.

D 1

Duplicate lists of the successful competitors, classified as seniors and juniors, should be made out on blanks furnished by the Public Schools Athletic League. One copy should be forwarded to the Secretary of the League, and the other placed on file in the school.

The Public Schools Athletic League will furnish to each school an engraved certificate on which the names of the successful

candidates may be inscribed.

The Athletic Badge Competition shall take place once a year,

and the reports must be sent in before May I.

The Juniors of the elementary schools shall receive a Bronze Athletic Badge; the Seniors in elementary schools shall receive

a Bronze and Silver Athletic Badge.

The Winthrop Trophy will be awarded for one year to the school that qualifies for the Athletic Badge and highest percentage of its enrolled grammar boys (fifth, sixth, seventh and eighth year pupils). Boys below the fifth year may compete for the Athletic Badge but are not to be counted in determining the school's percentage. The school reporting the highest percentage in the Athletic Badge competition will be officially tested, and if the percentage attained at the official test is still higher than any other reported percentage, the school will be awarded the trophy. If, however, in the official test the school falls below other reported percentages these other schools will be tested in the order of their standing until a school is found whose official percentage is higher than any other reported percentage.

Each school is expected to conduct its own tests. If assistance is required, application should be made to the Secretary of the

P. S. A. L.

Badges can be secured only through the Supply Department of the Board of Education. Requisition for the same is to be made in the usual manner.

High Schools-

220-yard run, 28 seconds. Pull up (chinning on bar), 9 times. Running high jump, 4 feet 4 inches.

In order to be eligible for the Athletic Badge competition, a high school boy must maintain the same scholastic standing that is required in other branches of athletics. The competition for Athletic Badges in each high school shall be in charge of the school's representative on the High Schools Games Committee. He shall forward the names of the successful candidates to the Secretary of the League on blanks furnished by the League for this purpose.

The high school boys shall receive a Silver Athletic Badge. These tests may be held twice each year in high schools, but no boy shall receive more than one badge during any school year.

Reports must be sent in before June 1.

RULE V.

CLASS ATHLETICS, 1908-1909.

Athletics for All the Boys-

In this form of athletics a record is made by the whole class instead of by an individual.

At least 80 per cent. of the boys enrolled in the class must

take part in order to have the record stand.

The number taking part must not be less than eight.

Trophies to be held one year will be awarded in each Borough by the Public Schools Athletic League to the 5th, 6th, 7th and 8th year classes for the best Class Records made in each of the following events:

> Standing broad jump, tested in the fall. Pull up, or "chinning," tested in the winter. Running, tested in the spring.

(Distances for running: 5th year, 40 yards; 6th year, 50 yards; 7th_year, 60 yards; 8th year, 80 yards.)

Classes may be tested as follows:

STANDING BROAD JUMP.

The best record made in three trial jumps is taken for each boy. The class record is determined by adding the individual records and dividing the total by the number of boys competing. Jumping must be done from a line. Many schools cannot have a "take off" without considerable inconvenience.

PULL UP (CHINNING).

The boy shall extend himself to his full length before and after each pull-up, and shall be obliged to raise his body without a kick, snap, jerk or swing to such a height as to bring his chin higher than the bar.

RUNNING.

In order to lessen the possibility of error in timing the competitors, the following method has been adopted: The boys are lined up behind the starting mark in the order in which they are to run; the timer, who also acts as starter, stands at the finish line and gives the signal for each boy to start. As the first runner crosses the finish line the second runner is given the signal to start. As the last boy crosses the finish line the watch is stopped. The record is found by dividing the time elapsed by the number of boys competing. If an ordinary watch is used the first boy should be started when the second hand is over the "60" mark.

Blanks will be furnished for reporting the tests, which are to

be sent in as follows:

Standing broad jump, on or before December 1. Pull up, on or before April 1. Running, on or before June 1.

Each school is expected to conduct its own tests.

All boys are considered eligible for Class Athletics, subject to

the approval of the Principal.

When the records are all in, the three classes in each Borough having the best records for their grade will be tested officially. If a record is then made better than any other record sent in, the trophy will be awarded to the class making it. If, however, the records made at the official test are lower than other reported records, the classes will be tested in order until a record is made at an official test that is higher than any other reported or official record.

The trophies are perpetual. They are in the form of a shield, with bronze plates for engraving the names of schools that win them from time to time. These trophies are offered for competition once each year. Each school winning a trophy will receive an engraved certificate as its permanent property.

This form of athletics is especially desirable, as it gives every boy an opportunity to take part, and the size of the school does

not in any way affect the chances of winning a trophy.

The boys should practice by themselves in the yard, on the street, at home, or elsewhere, prior to the tests.

Frequent preliminary tests are recommended.

RULE VI.

CHAMPIONSHIP MEETS,

Indoor and outdoor track and field, base ball and basket ball championship meetings shall be held annually at such times and

places and with such schedules of events as may be decided

upon by the Games Committee.

Indoor and outdoor track and field Novice meetings shall be held at such times and places and with such schedules of events as may be decided upon by the Games Committee.

All entries shall be sent to the Games Committee, which Com-

mittee may reject any entries it may deem objectionable.

The Games Committee shall choose all the officials for the Championship Meetings, and shall decide all questions concerning the competitions.

RULE VII.

LIST OF CHAMPIONSHIP EVENTS.

There shall be special lists of championship events for the Elementary Schools, High Schools, and College of the City of New York.

ELEMENTARY SCHOOLS INDOOR CHAMPIONSHIP EVENTS.

880 Yards Relay Race.

The number of entries allowed from each school shall be determined upon by the Elementary Schools Games Committee.

The distance for any midget race shall not exceed 440 yards for the team and, wherever possible, it is recommended to have

the race limited to 360 yards for the team.

Two substitute entries shall be allowed on each relay team; such entries to be made in regular form on entry blanks and to be printed on the programme. The entrance fee will be 10 cents per boy, including substitutes on relays. Two substitute entries shall be allowed on each relay team. Boys entered as substitutes shall not be entered in regular events.

No substitute entries shall be allowed in individual events.

There will be a trophy for the all-around championship at each meet, the school scoring the greatest number of points in

each meet to win the trophy for that meet.

The points are scored—for individual and relay events alike—on a basis of 5 points for firsts, 3 for seconds, 2 for thirds, and 1 for fourths. All the events on the programme count toward the all-around championship trophy.

Gold, silver, and bronze medals will be given to those finishing

first, second, and third, respectively, in each event.

The signature of the Principal must appear on all entry blanks.

RULE VIII.

RULES GOVERNING BASKET BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

Regular basket ball rules, as they appear in Spalding's Official Basket Ball Guide, shall be used, but time shall be fifteen (15) minutes halves with ten (10) minutes intermission.

As far as possible all games shall be played on neutral courts. There shall be two classes in elementary schools basket ball, namely: Boys weighing not to exceed 95 pounds, and boys weighing not to exceed 125 pounds.

The weighing-in for basket ball shall be done at the beginning of the basket ball season by the Chairman of the Games Committee in each District Athletic League, assisted by at least two other members of the Committee. Boys weighing within the prescribed limits at that time shall be eligible, as far as

weight is concerned, throughout the tournament.

Members of teams must have received for the month previous to any games in which they play a mark of at least "B" in effort, proficiency and deportment. Public Schools Athletic League Rules of eligibility shall apply in basket ball, the same as in other branches of athletics.

All boys who play at any time during the tournament must be weighed in on the date set by the District Committee. In order that teams may not be handicapped by disqualifications of players on account of scholarship, deportment, etc., fifteen boys may be weighed in, if desired. The players must be selected from these boys. If, for any cause, a player becomes ineligible, he cannot be reinstated during the tournament.

In each District Athletic League, if not otherwise determined by said League, the Chairman of the Games Committee thereof

shall have full power to arrange and conduct its games.

When winners of District Athletic League games play for section championships within any borough, the Games Committee Chairman of the leagues within the borough shall form the Committee on Management.

Representatives of the District Athletic Leagues shall send to the Chairman of the Basket Ball Committee the names of the

winning teams in their districts.

Each borough representative on the City Committee must send to the Chairman of the Basket Ball Committee the name of the team winning the championship of his borough.

No boy is allowed to play on more than one basket ball team. Any neglect in forwarding the names of the teams to the Chairman of the Basket Ball Committee will forfeit the right of teams to compete.

The ball to be used in all match games shall be the Spalding

Official Basket Ball No. M.

The League will furnish paid officials for the interborough

games.

The school winning the City Championship in the 120 lbs. class will hold the Pratt Trophy until the next annual tournament.

The school winning the City Championship in the 95 lbs. class will hold the Vanderbilt Trophy until the next annual tournament.

Gold medals (five regular and one substitute) will be given to

the teams winning the City Championships.

Silver medals (five regular and one substitute) will be given

to the other teams winning the championships of their respective boroughs.

Placques or certificates will be given to the teams winning Borough Championships in the different classes.

HIGH SCHOOLS.

The High Schools Basket Ball Championship shall be decided not by a tournament, but by a series of games whereby each school will play every other school entered in the championship. Spalding's Official Basket Ball Rules shall govern the contests, except "when an official calls a foul, the opposing team shall receive one point without a try for goal."

The halves shall be fifteen minutes each.

Each school shall present to the official at every game a team certificate naming the boys eligible to play. The "team certificates" are to be signed by the official and forwarded with score and remarks to the Secretary of the League.

Rules as to eligibility apply to these championships as to other

contests.

The ball to be used in all match games by the high schools shall be Spalding's Official Basket Ball No. M.

The League will furnish paid officials for the Basket Ball

Championships.

After the selection of neutral courts for the Basket Ball Championships, no games shall be played nor practice allowed on said courts.

The school winning the City Championship will hold for one

year the Dodge Trophy.

Gold medals (five regular and one substitute) will be given to the team winning the City Championship.

RULE IX.

RULES GOVERNING SOCCER FOOT BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

Regular P.S.A.L. rules of eligibility shall apply.

The tournament shall be held during the Fall, and must be

completed by January 1.

The rules as printed in Spalding's Association Foot Ball Guide shall be official, except that the game shall consist of two halves of twenty (20) minutes each, with ten (10) minutes intermission, and that any number of substitutes shall be allowed at any time during the game.

The Mackay Trophy shall be awarded for one year to the winning school. Placques shall be awarded to borough winners.

Eleven regular and two substitute medals shall be given: Silver medals to borough winners, and gold medals to city champions.

A game won shall count one point. A tie game shall count one-half point to each school.

HIGH SCHOOLS.

The schedule for this tournament shall be arranged by the High Schools Games Committee. It shall take place in the Fall.

P.S.A.L. rules of eligibility shall govern.

The rules in Spalding's Association Foot Ball Guide shall be official, except that the game shall consist of two halves of thirty (30) minutes each, with an intermission of ten (10) minutes, and that any number of substitutes shall be allowed at any time during the game.

The home team shall furnish the ball, which shall be Spalding's

Official.

A game won shall count one point. A tie game shall count

one-half point to teach team.

The Maxwell Trophy will be awarded for one year to the win-

ning school.

Gold medals will be given to the winning teams (eleven regular and two substitute medals).

RULE X.

RULES GOVERNING BASE BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

A schedule will be arranged in the different District Athletic Leagues for the District League championship. A committee consisting of the Chairmen of Games Committees in the District Leagues of each borough will then arrange a schedule for the winners of these District League championships to play for borough championships. The City Committee will have general charge of the competitions, and arrange a schedule for the winners of the borough championships.

The League will furnish paid officials for the interborough

games.

The general rules of athletics, as they appear in this book, shall govern these contests in all questions that may arise as to eligibility.

The ball to be used in all match games for the elementary

schools shall be Spalding's Official Boys' League Ball.

The rules, as published in Spalding's Official Base Ball Guide for each year, shall govern all competitions in the elementary schools, except that a full game may consist of seven innings. This to be decided by the Elementary Schools Games Committee.

The school winning the City Championship will hold for one

year the Spalding Trophy.

Borough trophies will be awarded for one year as follows:

ManhattanHuyler Trophy.BronxSpalding Trophy.BrooklynMcCarren Trophy.QueensEagle Trophy.RichmondSpalding Trophy.

Gold medals will be given to city champions, and silver medals to borough champions. There shall be nine regular and two substitute medals.

HIGH SCHOOLS.

A schedule for the high school tournament shall be arranged by the High Schools Games Committee at its first meeting after the opening of school in the fall.

The general rules of eligibility shall govern base ball the same

as other branches of athletics.

Spalding's Official Base Ball Rules shall apply in the high schools tournament.

Officials shall be appointed by the League.

A City Championship Trophy shall be awarded for one year to the winning school.

Gold medals (nine regular and two substitute) will be given

to the winning team.

RULE XI.

RULES GOVERNING CROSS COUNTRY RUNNING.

Regular P.S.A.L. rules of eligibility shall apply.

In championship competitions there shall be five members per team and three substitutes.

The course shall be three miles in length, and must be so marked that runners may be able to follow it without difficulty.

Only those boys shall be allowed to take part in competitions who have prepared themselves by participation in preliminary runs.

Points shall be awarded in the order in which runners finish:

One for first, two for second, three for third, etc.

The Jones Trophy shall be awarded for one year to the team scoring the smallest number of points.

Silver medals shall be given to the first five boys to finish.

RULE XII.

RULES GOVERNING THE MARKSMANSHIP COMPETITION.

This competition shall be open to the high school boys and shall take place at least once a year.

I. The competitions will be held simultaneously at the dif-

ferent schools, or they may be held at an armory.

2. There will be an officer in charge at each school chosen by the Committee of Coaches of the P.S.A.L. This committee will

consist of a special delegate from each of the competing schools. Such delegates will be chosen by the Principal of each school.

3. The team will consist of five regular men and two alter-

nates.

4. Each man will fire ten shots; five shots at each of the two targets that will be provided. Each target must be completed within one minute of the time that the gun is unlocked.

5. The 200 yards target will be used and the shots taken standing. The officer in charge or the boy chosen from each team will verify the regulations and adjust the machine. He shall be in sole charge of the competition, shall call the men to the gun, shall appoint a timer, and decide all points not embodied in these rules. His decision shall be presented to the Committee of Coaches.

6. There will be no sighting shots and each contestant is to have a reasonable time for sighting and adjusting and immediately thereafter allowed one minute to make his string of five

shots.

7. There will be no coaching allowed, except by boy member of team delegated, though each shot will be called by the officer

in charge.

8. Each target will be marked with the name of the school, the name of the man shooting and his record as computed by the officer in charge. The total record per man and the total record of the team will be computed by the officer in charge and sent with the targets to the Chairmen of the Committee of Coaches.

9. The Committee of Coaches will render its decision within

one week of the date of the competition.

RULE XIII.

RULES GOVERNING THE TENNIS TOURNAMENT.

Each school shall be represented by two players for singles and one team for doubles.

The boys who play in the singles shall not compete in the

doubles in the same match.

A schedule shall be arranged between the schools during the tournament.

Each team shall play each other team.

Each match shall consist of four single matches of five sets

(best two out of three) and one match of doubles.

If a school win two single matches and the doubles, that school shall have won the day's match, otherwise the single players shall change adversaries and finish the match.

The school winning the greatest number of school matches shall be awarded the championship.

Each school shall pay an entry fee of \$2.50.

The home team shall provide balls for the match.

The school winning the championship shall receive \$10.00 for a permanent trophy.

RULE XIV. INDUCEMENTS.

No school, under penalty of expulsion from the League, shall through any of its officers, or by any other means, directly or indirectly, offer any inducement to a pupil of any other school to sever his connection with such school for athletic purposes.

RULE XV.

PROTESTS.

All protests referring to the eligibility of the contestant must be submitted in writing to the Games Committee.

All other protests must be submitted to the Referee of the games, who has it in his power to allow the protested individ-

uals or teams to run under protest.

No protests with reference to scholarship, amount of work, time in school or age of boys shall be considered when the same have been certified to by the Principal by his signature on the entry blank. Evidence as to any of these points may be presented to the Principal who shall have full power to pass upon it.

In case of a boy who is large and mature for his age, the Principal shall be requested to look up the record of his birth with all possible care, as a precaution in case he is protested, and

have him secure a birth certificate if possible.

In case of impossibility to produce birth certificates, all evidence in regard to age of pupil shall be submitted to the Games Committee and the Committee shall have full power to pass upon such evidence.

The League holds it within its jurisdiction to decide all protests made in events sanctioned by it. These protests are settled by the Games Committee and their decision is final.

In case a boy's amateur status is questioned, the matter shall be referred to the Secretary of the League for action.

RULE XVI.

ENTRIES.

All entries for competitions held under the Public Schools Athletic League must be made on the entry forms adopted by the League.

These entry forms must be carefully filled out and must be signed by the Principal of the school; otherwise, they shall be

rejected. No post entries shall be received.

If any competitor enters an event and then fails to compete he must send a valid excuse to the Secretary of the Public Schools Athletic League. Failing in this, he may be suspended.

RULE XVII.

SANCTIONS.

All events or games, whether given by public schools or other organizations, that are open to public school boys, must be sanctioned by the Public Schools Athletic League.

Any championship emblem accepted by any school of the League should state specifically the nature of the championship

and of what organization the recipient is champion.

Any boy who competes in games or events that are not sanctioned by the Public Schools Athletic League renders himself liable to suspension, and, if he persists in this participation in unsanctioned events, he may be cut off entirely from competition in all events or games given under the sanction of the Public Schools Athletic League.

By a recent ruling of the Amateur Athletic Union, school boys competing in events given by organizations outside the

League are obliged to register with that body.

The following conditions must be complied with before sanction can be given by the League:

CONDITIONS.

A club or organization giving a public school event must secure the sanction before announcing same.

The conditions under which the race will be held must be

printed plainly on the entry blank.

At least five days before the event takes place the names of the contestants must be submitted to the Secretary of the Public Schools Athletic League for approval or disapproval.

In accepting this sanction, the club or organization agrees to abide by the decision of the Games Committee of the Public Schools Athletic League in so far as the eligibility of the different contestants or schools is concerned.

Promoters of athletic meets must distinctly state whether the scholastic event is open to the public schools of Greater

New York or the Public Schools of the United States.

The Secretary will notify all schools of the class invited of every event for which sanction has been issued.

All protests as to eligibility, etc., will be settled by the Games Committee of the Public Schools Athletic League.

When an event is sanctioned and prizes duly announced, the event must be run and prizes awarded according to announcement.

RULE XVIII.

RECORDS.

No record shall be allowed unless the performance has been timed by at least three timekeepers or measured by at least three field judges.

The Games Committee shall investigate every performance to which their attention is called, and shall reject any record which shall not be supported by the affidavits of at least six witnesses, including the officials, certifying as to the place, time of day, state of weather, condition of path or field, force and direction of wind, level or grade of grounds, weight, measurement and material of implement, and correctness of announced time or distance.

In hurdling events the competitor must clear every hurdle and all the hurdles must remain standing; otherwise no record shall be allowed.

No record shall be allowed unless made in open competition. A record made at any championship meet of the Public Schools Athletic League shall be known as a Public Schools Athletic League record. A record made at a meet sanctioned by the Public Schools Athletic League, but not open to all schools, shall be known as an interscholastic record.

By-Laws

ARTICLE I

OBJECTS.

Section 1. The particular object for which the corporation is formed is to promote useful athletics and gymnastics among the attendants in the elementary, high and collegiate departments of public educational institutions of the City of New York, and in connection therewith to co-operate with and support athletic associations, provide athletic grounds and teachers, organize games, offer prizes and conduct competitions.

ARTICLE II.

MEMBERSHIP.

Section 1. Membership shall consist of Annual, Life and Honorary members, and of Patrons.

SEC. 2. Any person twenty-one years of age and upward may become an Annual member upon being elected, and upon payment of \$10.00 per year.

Sec. 3. Any member by paying \$50.00 in one sum may become a Life member.

SEC. 4. Honorary officers and members may be elected.

Sec. 5. Any member paying \$100.00 in one sum may become a Patron.

SEC. 6. Candidates will be elected by the Executive Committee.

SEC. 7. Membership confers upon a member no ownership in any property of the League itself.

SEC. 8. Each member in good standing shall be entitled to receive a certificate of membership, bearing the corporate seal of the League, signed by the President and Secretary.

Sec. 9. The annual dues of each member shall be payable on the first day of January in each year in advance. In case of the failure of any member to pay such dues within ninety days after notice shall be sent to him by the Secretary, his membership shall cease.

SEC. 10. Any member guilty of ungentlemanly conduct, or of intentional violation or habitual neglect of any by-laws, rule or regulation of the League, or conduct prejudicial to the interest of the League, may be suspended or expelled by a two-thirds vote of the Executive Committee after an opportunity has been given him to be heard before it. No such action shall be taken against him for any of these causes until the charges made against him shall have been reduced to writing, filed with the Secretary, and a copy thereof served upon him.

ARTICLE III.

DIRECTORS.

SECTION I. A Board of Directors, which may not exceed 30 members, shall have control and the management of the affairs and funds of the League.

SEC. 2. The Directors named in the articles of the association shall be divided by lot into three classes; the first shall hold their offices for three years, the second for two, and the third for one.

SEC. 3. The Directors shall have power to fill vacancies which may occur in their body from time to time until the next annual election.

SEC. 4. At each annual meeting the offices of the Directors whose terms then expire, and also all vacancies, shall be filled by election by the members.

SEC 5. The High Schools Games Committee and the Elementary Schools Games Committee shall each be entitled to name annually a representative for election as Director of the League.

SEC. 6. Ten members shall constitute a quorum of this body.

ARTICLE IV.

MEETINGS.

SECTION I. The annual meeting of the League, for the elec-

tion of Directors, and for such other matters as may properly come before it, shall be held on the first Tuesday in December in each year, due notice of which meeting shall be sent by the Secretary to each member. Election shall be by ballot.

SEC. 2. At any meeting of the League ten members shall constitute a quorum.

ARTICLE V.

OFFICERS.

Section I. The officers of the League shall consist of a President, First, Second and Third Vice-Presidents, Treasurer and Secretary. The office of Secretary and Treasurer may be held by one person. All officers, except the Secretary, must be Directors.

SEC. 2. The officers of the League shall be annually elected at the first meeting of the Board of Directors to be held after the annual meeting of the League. They shall hold office at the pleasure of the Directors and until others are elected in their places.

SEC. 3. The President shall perform the usual duties of the office, and shall preside at all meetings of the Directors and of the League.

SEC. 4. In the absence of the President, or in case of his inability to act, the First Vice-President, and in his absence the Second Vice-President, and in case of his absence the Third Vice-President shall discharge his duties. Should all three be absent from any meeting, the Directors or members present shall choose one of their number to act as Chairman, who shall perform all the duties of the President for the time being.

SEC. 5. The Secretary shall attend the meetings of the League, of the Directors and of the Executive Committee, and keep the minutes of the proceedings, recording ayes and nays upon all questions where such a vote shall be demanded by any Director. He shall conduct and preserve all correspondence, serve all notices, and perform the usual duties of the Secretary. He shall have the custody of all the papers relating to the affairs of the League.

SEC. 6. The Treasurer shall be the custodian of all the moneys and securities of the League. He shall collect and disburse all its moneys, keep accounts of his transactions, and make a written report of the financial condition of the League at its annual meeting, and to the Board of Directors at any such time as it may require. Except salaries and other sums specially authorized by the Directors or the Executive Committee, he shall pay no claim against the League exceeding \$25.00, unless the same are first approved by the Finance Committee. He shall deposit all moneys belonging to the League to its credit in an account to be opened in its name and keep in a bank to be designated by the Directors.

Sec. 7. The Directors may at any time require the Treasurer to give security in such amount as they shall deem proper.

ARTICLE VI.

COMMITTEES.

SEC. I. There shall be an Executive Committee, composed of the President, Treasurer, Secretary, and two Directors appointed annually by the President, which shall have all powers of the Board of Directors when not in session. This Committee may meet and transact business at the time specified for any meeting of the Board without further or other notice, and shall also meet at the call of the President. Three of this Committee shall constitute a quorum.

SEC. 2. The President shall appoint a Finance Committee consisting of three Directors, which shall devise and report ways and means for the support of the League, subject to the approval of the Board. It shall examine, audit and certify the accounts of the Treasurer and all bills and claims against the League, except for salaries and sums specially authorized by the Board or Executive Committee.

SEC. 3. No claim against the League exceeding \$25.00, save those above excepted, shall be paid by the Treasurer until the same shall have been first approved by the Finance Committee.

- SEC. 4. The President shall appoint a Games Committee to consist of three Directors, which shall have charge of all games authorized by the League. Such Committee may associate with it persons who are not Directors.
- SEC. 5. There shall be such other committees as may be authorized by the Directors. The members thereof shall be appointed by the President unless otherwise prescribed by the Directors.

ARTICLE VII.

NOTICES.

SECTION I. All notices to members and also all notices to all officers and directors shall be sufficiently served, if mailed to them at the address given by them to the Secretary and Treasurer, respectively.

ARTICLE VIII.

Section 1. Woman's and other auxiliary and associate leagues may be established under regulations to be made by the Executive Committee.

ARTICLE IX.

AMENDMENTS.

Section I. These by-laws may be changed or amended by the unanimous vote or written consent of all the Directors without previous notice at any meeting of the Board. Also by a vote of two-thirds of all the Directors at any meeting, provided notice specifying the intended change shall have been given at a previous stated meeting, or such notice shall have been served on each Director at least five days before the meeting.

No person who is a member of this club and is under eighteen years of age shall smoke. Violation of this rule should involve

suspension.

Laws of Athletics

RULE I.

OFFICIALS.

Every meeting of the Public Schools Athletic League shall be under the control of the following officials:

A Games Committee.

One Director.

One Assistant Director.

One Referee.

Three or more Judges at Finish.

One Chief Field Judge.

Four or more Field Judges. One Recorder of Times.

Three or more Inspectors.

Three Timekeepers.

One Starter.

One Clerk of the Course with assistants.

One Announcer.

One Chief Scorer with assistants.

One Marshal with assistants.

One Official Reporter.

RULE II.

GAMES COMMITTEE.

The Games Committee shall have general supervision over the games, but it shall not interfere with officials in the performance

of duties assigned to them by these rules.

If possible, it shall decide all protests except (a) those that must be settled immediately by the Referee, (b) those concerning a boy's amateur standing, which matter must be referred to the Secretary of the Public Schools Athletic League.

RULE III.

THE REFEREE.

It shall be the duty of the Referee to decide all questions relating to the actual conduct of the meeting, whose final settle-

ment is not otherwise covered by these rules.

The Referee may change the order of events and add to, or change, the arrangements of heats. After heats have been drawn, however, he shall not be allowed to transfer a contestant from one heat to another.

If a foul is made in a heat other than the final, and the foul, in the opinion of the Referee, is intentional, or due to culpable negligence, he may disqualify the contestant guilty of fouling, and may allow the hindered contestant, or contestants, to compete in another trial heat.

In a final heat, however, he may disqualify the competitor who is at fault and shall use his own discretion as to ordering another race between the competitors hindered by the foul.

In the case of a dead heat in track events where the competitors cannot agree on method of settling, the Referee may decide.

Any competitor acting in an ungentlemanly manner, whether toward competitors, spectators or officials, may be disqualified by the Referee from that and all other events at the meeting. If the Referee thinks the offence worthy of further punishment, he shall make a full report on the case to the Secretary of the Public Schools Athletic League for further action.

If for any reason the Referee as selected cannot attend, the Senior Judge shall act as Referee and have all his powers. In

this event the second Judge becomes Senior Judge.

The Referee, and he only, shall signal the Starter that every thing is in readiness for the heat, or race, and the race shall not be started until the Starter has received such signal.

The Referee may delegate to the Senior Judge this duty of

signaling to the Starter.

RULE IV.

INSPECTORS.

The Inspectors shall be assigned their positions by the Referee. They shall watch closely the conduct of the competitors during the course of the race, and in case of a foul, whether a claim is made or not, they shall make a report at once, before the next heat, or race, is called, of what they have seen to the Referee. They have no power to make decisions.

RULE V.

JUDGES AT FINISH.

There shall be three or more Judges at finish, namely, a Senior Judge, Second Judge, Third Judge, Fourth Judge and so on. The Judge whose name appears at the head of the list shall be Senior Judge, second on the list Second Judge and so on.

The Judges shall stand at the finish line and pick the contestants in the order in which they cross the finish line, the Senior Judge picking first boy: Second Judge, second boy; Third Judge, third boy; Fourth Judge, fourth boy, and so on. Their

decision is final and without appeal. In case of disagreement a

majority shall govern.

Any competitor crossing the finish line without a number shall not be selected by the Judges unless with the consent of the Referee.

In absence of the Referee, the Senior Judge shall act as

Referee.

RULE VI.

THE CHIEF FIELD JUDGE.

There shall be appointed a Chief Field Judge, who will represent the Referee. It will be his duty to see that the field events are started promptly, and that there will be no unnecessary delay in the competition. He shall receive from the Field Judges and report to the Chief Scorer the results of the competition in the field events.

RULE VII.

FIELD JUDGES.

They shall measure and judge each trial of each competitor in all events where the performance is measured. Their decision is final and without appeal. In case of disagreement the majority

shall govern.

In case a boy is competing in a track event as well as a field event, they shall excuse him from his part in the field event for as long a period as is necessary to take part in the track event, and shall then allow him to take his missed turns within a reasonable time after the track event. If the boy is competing in two field events that are taking place at the one time the same rule shall apply.

RULE VIII.

RECORDER OF TIMES.

The Recorder of Times shall read the watch of each of the Timers after each heat and shall make known the official time to the Referee of the meeting and the Official Announcer. In the case of a new record he shall be careful to receive the signatures of the Timers vouching for the performance.

RULE IX.

THE TIMEKEEPERS.

There shall be three Timekeepers. They shall time all events which are recorded by time and shall report individually to the Recorder of Times their record of the time of each heat and race.

Should two of the three watches mark the same time and the third disagree, the time marked by the two watches shall be accepted. Should all three disagree, the time marked by the intermediate watch shall be accepted.

If two watches only are started on a heat, or race, and they

fail to agree, the longest time shall be accepted.

To have a record allowed three watches must be started on a

heat or race.

The flash of the pistol shall denote the actual start of the

race or heat.

In time handicap events the Timekeeper shall receive the time allowance of each competitor from the Clerk of the Course and shall start them with the word "GO."

RULE X.

THE STARTER.

The Starter shall be in charge of the competitors after they have been assigned to their marks by the Clerk of the Course.

He shall start the heat, or race, by the report of the pistol, except in the case of time handicap events, when the competitors shall be started by the Timekeepers with the word "GO." The following formula shall be used by the Starter: I. Take your mark; 2. Get set; 3. The report of the pistol.

Until the pistol has been purposely discharged it shall not be considered an actual start. In case the pistol goes off accidentally, the Starter shall recall the competitors by discharging his

pistol twice.

The Starter shall not start the heat, or race, until he receives the signal from the Referee that everything is in readiness. The Referee may delegate to the Senior Judge this duty of signalling to the Starter.

A false start is one where any part of the person of a competitor touches the ground in front of his mark before the Starter purposely discharges his pistol. The competitor shall keep his

hands behind the mark assigned to him.

The following penalties are imposed by the Starter for false starts: In all races up to and including 125 yards the competitor shall be put back one yard for the first and one more for the second attempt; in races over 125 yards and including 300 yards, two yards for the first and two more for the second attempt; in races over 300 yards and including 600 yards, three yards for the first and three more for the second attempt; in races over 600 yards and including 1,000 yards, four yards for the first and four more for the second attempt; in races over 1,000 yards and including one mile, five yards for the first and five more for the

second attempt; in all races over one mile, ten yards for the first and ten more for the second attempt. In all races the third false start shall disqualify the offender from that event.

Should any boy attempt to advance from his mark after the Starter has given word to get ready, the Starter shall disqualify

him from that event.

RULE XI.

THE CLERK OF THE COURSE.

The names and numbers of all the competitors in each event shall be given to the Clerk of the Course, who shall call them by name and check them off on the programme immediately before the event.

After the competitors' names have been called, the Clerk of the Course shall, in handicap events, assign them to their respec-

tive marks

The Clerk of the Course shall not allow any competitor to start without his number, except with the consent of the Referee.

The Assistant Clerks of the Course shall perform whatever duties are assigned them by the Clerk of the Course.

RULE XII.

CHIEF SCORER.

The Chief Scorer shall keep track of the order in which each competitor finishes and also the time for the event. He shall also keep a tally of the laps made by each competitor in all races round a turn and shall announce by means of a bell or pistol shot when the leading man is entering on the last lap.

The Assistant Scorers are subject to the Chief Scorer and shall

perform whatever duties are assigned them by him.

RULE XIII.

THE MARSHAL.

The Marshal shall prevent any but officials and actual competitors from entering into the inner circle or remaining therein.

Any competitor entering into the inner circle before or after competition, and not there for the purpose of competition, must leave the inner circle when requested by the Marshal. If, after the second request, the competitor still refuses to leave, the Marshal, or his assistants, must report the matter to the Referee who may disqualify the offender.

The Assistant Marshal shall be under the control of the Marshal and shall assist him in keeping the inner circle as clear as

is possible.

RULE XIV.

OFFICIAL ANNOUNCER.

The scorers shall make known to the Official Announcer the results of each event and he shall announce them to the spectators

RULE XV.

OFFICIAL REPORTER.

The Official Reporter shall receive from the Scorers the order of finishing and the time made by the competitors in the running events and the height or distance covered by the competitors in the field events. This information he shall immediately make known to the representatives of the press.

RULE XVI.

THE INNER CIRCLE.

With the exception of officials and actual competitors, no one shall be allowed within the inner circle. Competitors must leave the inner circle immediately after the finish of their event, or when requested to do so by the Marshal.

No attendant, friend or trainer shall be allowed to accompany

the competitors on the track or infield.

RULE XVII.

THE COMPETITORS.

The competitors shall report to the Clerk of the Course at the starting point of each competition, after they have been called to the inner circle.

Each contestant must provide himself with a number corresponding to the number opposite his name on the programme. This number he must wear conspicuously while he is competing, and without it he shall not be allowed to start except with the consent of the Referee.

In handicap events, competitors, whether they be scratch or limit mark men, must start from positions in which they are placed by the Clerk of the Course.

If in straightaway races the competitor does not confine himself to his own lane, but instead crosses into the lane of his opponent, the Referee shall disqualify him.

In races around a turn, the competitor shall, after turning the last corner, continue in a straight line to the finish and not cross either to the outside or the inside in front of any of the other competitors.

Any competitor who wilfully jostles, crosses in front of, or otherwise impedes an opponent, shall be disqualified by the

Referee from that event.

The Referee shall further disqualify from the meeting any competitor who, in his opinion, is trying to lose, to coach, or to impede in any way the chances of another competitor. He shall further notify the Games Committee, who will take further action.

Any competitor acting in an ungentlemanly manner, whether toward competitors, spectators or officials, may be disqualified by the Referee from that and all other events at that meeting, and if the Referee thinks the offence worthy of further punishment, he shall make a full report on the case to the Secretary of the Public Schools Athletic League for further action.

RULE XVIII.

PROTESTS.

Protests against any competitor entered in any games may be made verbally or in writing, to the Games Committee before the meet, or to the Referee during the meet.

If the protest is a claim of foul committed during the meet, the Referee shall decide the matter at once as laid down in the

duties of Referee (Rule III.).

If possible, the Games Committee shall decide all protests before the events are run off. If it is a case requiring the taking of evidence, the Games Committee shall decide the matter within one week after the date of the games. If it affects the contestant's amateur status, however, the case must be referred to the Secretary of the Public Schools Athletic League for action.

When a contestant is allowed to compete under protest, the prizes that he may win shall be withheld until the case is settled.

RULE XIX.

THE TRACK.

The distance to be run shall be measured on a line eighteen inches outward from the inner edge of the track. This edge shall be a solid curb raised three inches above the level of the track.

In straightaway races, distance shall be measured in a direct

line from the starting mark to the finishing line.

In indoor races on board floors courses may be marked plainly (with whitewash) on the track.

RULE XX.

THE COURSE.

In straightaway races the competitor must keep his own course from start to finish. In these races separate courses, called lanes, shall be laid out for each competitor by means of stakes driven into the ground, to which cord or wire is attached and which are placed about fifteen yards apart.

In all races the competitors must not cross to the pole, or inner edge of the track until he is at least two strides in advance of

his nearest competitor.

In all championship races positions shall be drawn for, numbering one, two, three, and so on, from border out, and the drawing shall be in the names of the schools. The Clerk of the Course shall then allot positions. The school having the first choice shall have the position next the pole, or inner edge of the track, the school having second choice, second position and so on, the schools alternating, so that, if possible, there will not be two contestants from the one school in the same heat.

In championship events on straightaway tracks, the drawing shall be by schools, and the Referee shall see that no two contestants from the same school shall start in one heat. There shall be a drawing for the choice of lanes, the school winning first choice selecting whatever lane the first runner for that school desires, the school having second choice the next best lane

and so on.

. In handicap events the contestants, when called, must take any lane assigned them by the Clerk of the Course.

RULE XXI.

THE FINISH.

The finish of a course shall be represented by a line between two finishing posts drawn across and at right angles to the sides of the track and four feet above which shall be placed a tape attached to both finishing posts.

The finish of any race shall be counted when any part of competitor's body except his hands and arms shall reach the finish

line.

No competitor shall be considered to have finished unless his entire body shall have crossed the finish line.

RULE XXII.

RELAY RACING.

A line shall be drawn twenty feet in front of each starting line. Between these two lines each runner must touch the succeeding runner. Failure to do this shall disqualify the team in that event. There shall be Judges of Relay Racing whose duties it shall be to see that all touches are properly made.

The same rules with reference to fouling, coaching or impeding a runner in any manner, apply to relay racing as to other

running events.

In the case of a handicap relay race, the boy on the first relay

is granted the total handicap allowed each team.

Only those boys are allowed to run in the final heat of a relay race who have competed in the trial heats.

RULE XXIII.

HANDICAP RULES.

The handicap allowed in the different races shall not exceed one-tenth of the distance to be run; for instance, the limit in the 50 yards dash shall be 5 yards, in the 100 yards dash, 10 yards.

The limit in the pole vault shall be 18 inches; in the running high jump 9 inches; in the running broad jump, 30 inches; in the 8-lb, shot put, 48 inches; in the 12-lb, shot put, 60 inches;

in the standing broad jump, 12 inches.

The penalty for winning shall be as follows: For races of 50 yards and under, 3 feet, 2 feet and 1 foot shall be taken off for winning first, second and third places respectively; in races over 50 yards and including 100 yards, 2 yards, 1 yard and 2 feet; over 100 yards and including 220 yards, 5, 3 and 2 yards; over 220 and including 440 yards, 10, 6 and 3 yards; over 440 yards and including 880 yards, 20, 12 and 6 yards; in races over 880 and including one mile, 40 yards, 24 yards and 12 yards; in the pole vault, 9, 7 and 4 inches; in the running high jump, 5, 4 and 2 inches; in the running broad jump, 14, 10 and 7 inches; in the 8-lb, shot put, 20, 15 and 11 inches; in the 12-lb, shot put, 24, 18 and 13 inches; in the standing broad jump, 7, 5 and 3 inches.

RULE XXIV.

POTATO RACING.

The potato race shall be one in which three or more potatoes are placed two yards apart on a direct line. The first potato shall be two yards from the receptacle, which shall be either a pail, basket, box, or can, not over 36 inches in circumference at the opening.

The finish shall be a line five yards back of the receptacle, which must be crossed after the last potato has been placed in

the receptacle.

If the competitor should drop a potato, he must replace it in the receptacle before he touches another potato; otherwise, he shall be disqualified.

In handicap events the mark is taken off back of the receptacle.

RULE XXV.

THE SHOT.

The Shot shall be a metal sphere of any weight decided upon by the Games Committee. For indoor games for record purposes a filled shot covered with any material and being a perfect and solid sphere may be used.

The shot shall be "put" with one hand, and in making the

attempt, it shall be above and not behind the shoulder.

All puts shall be made from a circle seven feet in diameter. The circle shall be a metal or wooden ring, painted or whitewashed, and sunk almost flush with the ground, and it shall be divided into two halves by a line drawn through the center. In the middle of the circumference of the front half shall be placed a stop-board four feet long and four inches high, and firmly fastened to the ground. In making his puts, a competitor may rest his foot against, but not on top of, the stop-board.

That put shall be considered a fair put when no part of the body of the competitor touches the top of the stop-board, the circle, or the ground outside of the circle, provided the competitor shall leave the circle by its rear half, which shall be the half directly opposite the stop-board. A put shall be considered foul if any part of the body of the competitor shall touch the ground outside the front half of the circle before the put is measured.

The Field Judges shall measure each put from the nearest mark made by the fall of the shot to the circumference of the circle on a line from the mark made by the shot to the center

of the circle.

Foul puts and letting go the shot in making an attempt shall

be counted as trials without result.

Each competitor shall have three trial puts, and the first, second, third and fourth in the trials shall have three more trials each in the final.

The best put made by a competitor, whether made in the trials or finals shall count as his best put and the result will be decided accordingly.

RULE XXVI.

RUNNING HIGH JUMP.

A fair jump shall be one that is made without the assistance of weights, diving, somersaults or handsprings of any kind.

The bar shall be a thin stick two inches in width and shall rest on pins which shall project not more than three inches from the uprights. When this bar is removed, it shall constitute a trial jump without result.

The height at which the jump shall commence and the height to which it shall be raised at each succeeding jump shall be

decided by the Field Judges.

The height shall be measured from the middle of the bar to

the ground on a direct line.

Each competitor shall be allowed three trial jumps at each height, and if on the third trial he shall fail, he shall be declared

out of the competition.

At each successive height each competitor shall take one trial in his proper turn; then those failing, if any, shall have their second trial in a like order, after which those who have failed at the second trial may take their third and final trial at that height.

A competitor may decline to jump at any height in his turn, and by so doing, forfeits his right to again jump at the height

declined.

If, however, a competitor takes a trial at any height and fails

in the first trial, he shall not pass the other two trials.

Running under the bar in making an attempt to jump shall be counted as a balk, and three successive balks shall constitute a trial jump.

There shall be no limit to the run a competitor may take before

attempting a jump.

RULE XXVII.

RUNNING BROAD JUMP.

A joist five inches shall be sunk flush with the ground. The outer edge of the joist shall be called the scratch line and the measurement of all jumps shall be made from it at right angles to the nearest break in the soft ground, or in the turf or earth outside the soft ground by any part of the body of a competitor.

In front of the scratch line the ground shall be removed to the depth of three and the width of twelve inches outward.

A foul jump shall be one where the competitor in jumping off the scratch line makes a mark on the ground immediately in front of it, or runs over the line without jumping, and shall count as a trial jump without result.

Each competitor shall have three trial jumps, and the competitors finishing one, two, three and four in the trial jumps, shall

each have three more trial jumps.

The competition shall be decided by the best of all the trial

jumps of the competitors.

A fair jump shall be one that is made without the assistance of weights, diving, somersaults or handsprings of any kind.

RULE XXVIII.

STANDING BROAD JUMP.

The feet of the competitor may be placed in any position, but shall leave the ground once only in making an attempt to jump. When the feet are lifted from the ground twice, or two springs are made in making the attempt, it shall count as a trial jump without result. A competitor may rock back and forward, lifting heels and toes alternately from the ground, but may not lift either foot clear of the ground, nor slide either foot along the ground in any direction.

In all other respects the rules governing the running broad

jump govern the standing broad jump as well.

RULE XXIX.

THE POLE VAULT.

The height at which the vaulting shall commence and the height to which the bar shall be raised at each succeeding vault shall be determined by the Field Judges.

The height of the bar shall be measured on a direct line from

the ground to the middle of the bar.

Each competitor shall have three trials at each height, and, if he fails at the third trial he shall be declared out of the com-

petition.

Each competitor shall make an attempt at each successive height in the order in which he is called; then those who have failed shall have a second trial in like order. Those failing on the second trial shall then take their third and final trial.

Displacing the bar counts as a try.

Leaving the ground in an attempt shall constitute a try.

A line shall be drawn fifteen feet in front of the bar and parallel with it; crossing this line in an attempt shall be a balk. Two balks shall constitute a try.

A competitor may decline to vault at any height, but, if he fails at the next height, he shall not be allowed to go back and try the height he omitted.

If, however, contestant takes one trial at any height, he shall

not pass the other two trials.

Any competitor shall be allowed to dig a hole not more than one foot in diameter at the take-off in which to plant his pole. The poles shall have no assisting devices, except that they may be wound or wrapped with any substance for the purpose of affording a firmer grasp, and may have one spike at the lower end. The poles shall be unlimited as to size and weight.

No competitor shall, during his vault, raise the hand which was uppermost when he left the ground to a higher point on the pole, nor shall he raise the hand which was undermost when he left the ground to any point on the pole above the other hand.

RULE XXX.

THE DISCUS (GREEK STYLE).

To execute the throw, the competitor places himself in the pedestal with the feet apart, the right foot forward, provided he is right-handed, and vice versa if he is left-handed, and holding the discus in either hand. He then grasps it with both hands and raises it straight above his head. As the discus is held aloft the body should lean forward slightly, and as the thrower starts to make his effort the trunk should be turned slightly to the right and the body bent sharply so that the left hand, when free, swings outside and below the right knee, and the right, holding the discus, is stretched as far back as the extension of the shoulder will allow. At this moment the right knee should be bent, with the foot resting full on the sole, the left leg almost straight, and the foot resting on the toes. Then, by a sharp and simultaneous exertion of the whole body, the thrower scales the discus away in front of him. The critical part of the throw is the action of the arm at the moment of delivery. The final sweep of the arm must be distinctly by the side and be clearly in an underhand direction. Round arm, like a cricket bowler, horizontal, arch, or overarm swings to be foul. Neither must there be the least tendency of the arm to swing around the body.

The measurement of the throw to be from the center of the

pedestal to where the discus first strikes the ground.

The thrower may leave the pedestal at the moment of throwing.

Trials and other conditions of competition to be the same as

the hammer or shot.

RULE XXXI.

THE HURDLES.

In the 120 yards hurdle race, ten hurdles shall be used; height of hurdles to be decided upon by the Games Committee. They shall be placed ten yards apart, with the first hurdle fifteen

vards distant from the starting point, and the last hurdle fifteen

yards before the finishing line.

In the 220 yards hurdle race ten hurdles shall be used; height of hurdle to be decided upon by the Games Committee. They shall be placed twenty yards apart, with the first hurdle twenty yards distant from the starting mark, and the last hurdle twenty vards from the finishing line.

In hurdle races of other distances, and with different numbers of hurdles, the hurdles shall be placed at equal distances, with the same space between the first hurdle and the starting point and the last hurdle and the finishing line as between each of the

hurdles.

In making a record it shall be necessary for the competitor to jump over every hurdle in its proper position, nor shall the performance be considered a record unless every hurdle is left standing.

RULE XXXII.

TIES.

In all contests whose results are determined by measurement of height or distance, ties shall be decided as follows:

In handicap contests the award shall be given to the competitor who received the least allowance. In case of a tie between two or more competitors who received the same allowance, the

decision shall be made as in scratch contests.

In case of a tie in a scratch contest at high jumping, the tieing competitors shall have three trials at the height last tried, and if still undecided the bar shall be lowered to the height next below, and three trials taken at that height. If no one clears it, the bar shall be lowered again and again until one of the competitors clears it. In case of a second tie, the award shall be given to the competitor who cleared the bar with the least number of trials.

In case of a tie in a scratch contest in any event decided by distance, each of the tieing competitors shall have three additional trials, and the award shall be made in accordance with the distance clear in these additional trials. In case of a second tie three more trials shall be allowed, and so on, until a decision is reached. In case of a dead heat in track events, the competitors shall not be allowed to divide the prize or points, or to toss for them, but must compete again at a time and place appointed by the Referee.

In case of a tie in the pole vault the officials shall raise or lower the bar at their discretion, and those competitors who have

tied shall be allowed one trial at each height.

RULE XXXIII.

ORDER OF COMPETITION IN FIELD EVENTS.

In all scratch events the competitors shall take their trials in the order of their names as printed on the programme.

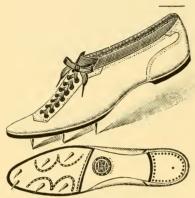

In all handicap events the competitor having the greatest allowance shall make the first trial, and so on, in regular order, up to the competitor at scratch or with the least allowance, who shall have the last trial.

RULE XXXIV.

COSTUME.

Only boys with pants reaching approximately to the knees and shirts that adequately cover the body shall be allowed to compete.

What an Athlete Needs

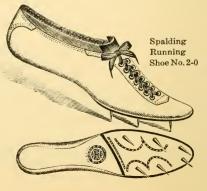

Spalding Cross Country Shoe No. 14C.

It is very important that the beginner in should know athletics what to wear for the different sports. The cross country runner requires a shoe with a low, broad heel, and spikes in sole of shoe; he can have spikes in the heel or not, just as it suits him. A pair of Spalding's No. 14-C shoes, which are made of the finest Kangaroo leather, and used by all

the prominent cross country runners, cost \$6.00 per pair. A sprinter will require a pair of sprinting shoes, No. 2-0, that cost \$6.00. The sweater, No. A, of finest Australian lamb's wool, was made originally by special order for the Yale foot ball team and now used by all college athletes, is one of the best in the market, sells for \$6.00; athletic shirt, No. 600, at \$1.50; athletic

pants, No. 3, at 75 cents; a supporter is very essential for an athlete and nearly all the champions use them; No. 5 is the most suitable one and retails at 75 cents; a pair of corks will cost the athlete 15 cents; pushers for the running shoes, 25 cents; the bath robe is now an essential part of an athlete's outfit—these cost from \$2.50 up.

SPALDING'S ATHLETIC LIBRARY.

The second quality of the same line of goods can be bought as follows: Sprinting shoes, No. 10, \$5.00; sweater, No. B, \$5.00; shirt, No. 6E, 50 cents; pants, No. 4, 50 cents; supporter, No. 72, 50 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents; bath robe, from \$2.50 up.

The pole-vaulter will want the san e outfit, with the exception of a pair of jumping shoes, No. 14-H, which sell for \$6.00, and a pair of wrist supporters, No. 200, which can be bought for 80 cents. There is one article that a pole vaulter must have, and that is his own pole. There is everything in getting used to a pole and having confidence in the one that is yours, because

no other contestant is allowed to use it, according to the rules, which is quite right, for it has often occurred where a pole-vaulter made the mistake of allowing much heavier men to use his pole and break it. Any one can naturally understand that a man who weighs 160 pounds cannot use a pole designed for a man weighing 115 pounds. The pole now most com-

Spalding Jumping and Hurdling Shoe No. 14H

monly used is the Spalding Bamboo Pole. The 10 and 12-foot lengths cost \$4.00, and the 14 and 16-foot lengths, \$5.00. Usually the vaulter will wrap the pole to suit his own tastes.

The high jumper and the broad jumper will want an outfit as follows: Jumping shoes, No. 14-H, \$6.00; sweater, No. A, \$6.00; shirt, No. 600, \$1.50; pants, No. 3, 75 cents; supporter, No. 5, 75 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents; bath robe, from \$2.50 up.

An outfit with several of the articles of a cheaper grade than the above, costs: Jumping shoes, No. 14-H, \$6.00; sweater, No. B, \$5.00; shirt, No. 6-E, 50 cents; pants, No. 4, 50 cents; supporter,

No. 2, 50 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents; bath robe, from \$2.50 up.

The man who throws the weights will require the same wearing apparel as the pole-vaulter or the runner. John Flanagan and James Mitchel, two of the greatest weight throwers in the world, and Martin Sheridan, the all-around champion of America, wear what is known as the No. 14-H shoe, with a short spike, which retails for \$6.00. It is very essential that the weight thrower and the discus thrower should have his own implements; in fact nearly all the champion weight throwers carry their own weights with them and guard them jealously.

Without doubt the best hammer in the market to-day is the ball-bearing championship hammer as designed and used by John Flanagan, the record holder and champion thrower of the world. This sells for \$5.50. An extra leather case for carrying these hammers will cost the athlete \$2.00. The regulation hammer, lead, you can get for \$5.00 and the iron at \$3.75. The 56-lb. weight, lead, will cost \$12.00. A weight thrower who wants to become expert should carry his own weights and particularly his own hammer. He can then arrange to have the grip made to suit himself, and when necessary to cover it with leather, and he will not be called upon when he goes to a competition to take the ordinary hammer with a handle with which he is not familiar. The 16-lb. shot, lead, will cost \$3.50, and the iron, \$1.75.

As these weights, however, are too heavy for the youthful athlete, the Spalding 5-lb. shot for schoolboy use has been devised, and has met with the instant approval of leading athletic authorities and been endorsed by the Public Schools Athletic League. It is made in the most thorough manner and will stand any amount of use. Two styles are made, one for indoor the other for outdoor use. For use in schoolyard playgrounds, or where it is desirable to have the shot roll only a short distance, the No. 5 lead shot, covered with special reinforced and cushioned leather, is recommended; price \$3.00. This shot will not lose weight, even after considerable use, and its construction renders it specially adapted to board floors, as the latter will not sustain any injury from the shot striking it, as would be the case if the unprotected

solid style were used. However, for those who prefer the solid iron shot, that style is also made in the 5-lb. weight, and costs \$1.00.

Owing to the interest in the Olympic Games since their revival at Athens in 1896, and the capture of the classical Greek event by Americans, first by Robert Garrett in 1896 and subsequently by Martin Sheridan, an athletic meeting is not considered complete now without that event on the programme. The Spalding Official Discus costs \$5.00. For schoolboy events the proper discus, as officially adopted by the Public Schools Athletic League, is known as the "Youths' Discus," and costs \$4.00.

Two events that always attract interest at an athletic meet, usually when held indoors, are the three-legged race and the sack race. In the former the two contestants have their adjoining legs fastened together by means of straps at the thigh and ankle, leaving the other leg of each free. These straps are made especially for this event and preclude the possibility of falling or coming undone in the contest. Ankle straps and thigh straps, complete, cost \$2.50.

For sack racing, a light but strong bag, but not too large, is necessary. Spalding makes a bag of burlap, with draw strings and reinforced at the bottom, where the wear comes, with a strong piece of canvas. These cost \$1.00 for boys' size and \$1.50 for men's size and will last indefinitely. A boy who goes in for this event, should by all means have his own bag, to accustom himself to its use.

Clubs or schools outfitting their athletes would do well to secure Spalding's combination prices on athletic apparel, which are quoted on lots of five or more suits. They represent a material reduction from the cost when individual articles are purchased separately. A letter to any Spalding store (see inside of front cover for one nearest to you) will bring a catalogue and full information by return mail.

For the long distance runner Spalding makes a line of shoes known as the "Marathon," finished inside so as not to hurt the feet in a long race. They are hand sewed and cost \$5.00 per pair, in either high cut or low cut.

SPALDING'S ATHLETIC LIBRARY.

Athletes should make it a point to have two suits of athletic apparel, one for competition and one for practice purposes. The clothing that some of our crack athletes wear in competition is a disgrace to athletics, and it adds a great deal to an athlete's appearance to appear neat and clean when taking part in athletic competition. In practice within one's club or grounds almost any

kind of clothing can be used. A sprinter should have two pairs of running shoes, one a very heavy pair for practicing in (the cross-country shoe, No. 14-C, makes a very good shoe for this purpose, and can be had with or without spikes on heels), and a light pair for racing. One of the best professional sprinters that ever wore a shoe made it a point to train for all his races in very heavy sprinting shoes. Aside from the benefit that is claimed

Intercollegiate Sweater

for practicing in heavy shoes, you always feel as though you have a pair of shoes that will be ready for any race that is scheduled, and bear in mind it does not pay to buy athletic implements or clothing that are cheap. They don't wear and cannot give you the service that you will get from articles that are official and made by a reputable house.

Athletes and athletic club officials would do well to procure a copy of the Athletic Primer (No. 87 of Spalding's Athletic Library). This book fully covers the construction of athletic grounds and tracks, the management of games, formation of new clubs, etc. It also contains illustrations and diagrams of what might be considered a perfect athletic track.

The formation of Public Schools Athletic Leagues and the

SPALDING'S ATHLETIC LIBRARY.

great interest now taken in athletics in the schools has led to the compilation, by Mr. J. E. Sullivan, president of the Amateur Athletic Union and member of the Board of Education of Greater New York, of a book entitled "Schoolyard Athletics," which is published in Spalding's Athletic Library, price 10 cents. It is designed for the use of both teacher and pupil and is written in a clear and concise style that will make it invaluable to all who are interested in that branch of physical training now distinctively classified as "athletics,"

The foregoing descriptions and prices form but a small portion of the complete list of goods in the Spalding catalogue, which contains pictures and prices of everything that an athlete wears or uses. This catalogue will be sent free to any address on request to a Spalding store, a list of which can be found on inside front cover of this book.

SPALDING'S ATHLETIC LIBRARY GROUP XII. No. 331.

Schoolyard Athletics

By J. E. SULLIVAN

President Amateur Athletic Union; Member Board of Education Greater New York.

THE great interest in athletics that has developed in the public schools within recent years has led to the compilation of this book with a view to the systemiza-

tion of the various events that form the distinctively athletic feature of school recreation. With its aid any teacher should be able to conduct a successful meet, while the directions given for becoming expert in the various lines will appeal to the pupil. Some of the leading athletes have contributed chapters on their specialties: Ray Ewry, holder of the world's high jump record, tells how to practice for that event; Harry Hillman, holder of the hurdle and three-legged records, gives hints on hurdle racing and three-legged racing: Martin Sheridan, allaround champion of America, gives directions for putting the shot: Harry F. Porter, high jump expert, describes how to become proficient in that event. The book is illustrated with photos taken especially for it in public school yards. PRICE 10 CENTS

Spalding LONG-DISTANCE

CORRECTION RUNNING SHOES

SPALDING RUNNING SHOES were worn by many of the American Team at the Olympic Games, London, and the news of the unparalleled success of the men from these shores came to us with the added knowledge that we had contributed in at least some small degree to make their victory so conclusive. We had been building for just this result for over twenty vears, or since our shoes have been made in the Spalding Factory, sparing no pains or expense in our endeavor to turn out absolutely perfect athletic shoes, and when the importance of having a shoe expert on the ground with the American athletes at the Olympic Games, London, was borne to us, our expert went to give whatever aid, counsel and encouragement he could to the sterling athletes who competed for the glory of America and the Stars and Stripes.

BUILT TO WIN.

The same models as used by many of the competitors in the famous race at the 1908 Olympic Games, London.

No. MB. High cut. Made with special pure gum "diamond point" rubber soles and special quality black leather uppers. Full finished inside so as not to hurt the feet in a long race. Hand sewed. This is a special shoe, not carried in stock, and made to order only. We cannot guarantee the soles on these shoes as they are pure gum, which, while the best and most costly material for the purpose, is not, unfortunately, the most durable. Pair, \$8.00

No. MO. Low cut. Made with corrugated tap rubber sole and cushioned leather heel; special quality black leather uppers. Full finished inside so as not to hurt the feet in a long race. Hand sewed. Per pair, \$5.00

palding "Highest Quality" Sweaters

Colors: White, Navy Blue, Black, Gray, Maroon and Cardinal, Other colors to order. Prices on application. All made with 9-inch collars, sizes 28 to 44 inches.

We allow four inches for stretch in all our sweaters, and sizes are marked accordingly. It is suggested, however, that for very heavy men a size about two inches larger than coat measurement be ordered to insure a comfortable fit.

ORSTED SWEATERS. Made of special quality wool, and exceedingly soft and pleasant to ar. They are full fashioned to body and arms and put together by hand, not simply stitched up on a machine as are the majority of garments sold as regular made goods. The various grades in our "Highest Quality" Sweaters are identical in quality and finish, the difference in price being due entirely to variations in weight. Our No. AA Sweaters are considerably heavier than the heaviest sweaters ever knitted and cannot be furnished by any other maker, as we have exclusive control of this special weight.

No. AA. The proper style for use after heavy exercise, inducing copious perspiration for reducing weight or getting into condition for athletic contests. Particularly suitable for Foot Ball and Skating. Heaviest sweater made. Each, \$8.00 \ \$84.00 Doz.

No. A. "Intercollegiate," special weight.

No. B. Heavy weight.

Each, \$5.00 * \$54.00 Doz.

6.00 * 60.00 Doz.

Spalding Shaker Sweater

We introduced this wool sweater to fill a demand for as heavy a weight as our "Highest Quality" grade, but at a lower price, and after much experimenting, we are in a position to offer it in the following colors only. Black, Navy Blue, Maroon, Gray or White. Sizes 30 to 44 inches.

No. 3. Standard weight, slightly lighter than No. B. Each, \$3.50

No. M. Made of special weight. highest quality worsted in solid colors. Gray, Black, Navy and Cardinal, to match our sweaters.

Each. \$1.00

Spalding "Playground" Balls

The National Playground Ball Association of America has adopted the Spalding Balls No 12PB and No. 14PB as official. These are made with horse hide cover and are specially wound, so that, while soft to the feel, they will continue to hold their shape after considerable use.

12-inch "Official" Playground Ball

The 12-inch ball is used where there is a large playing space, and makes an ideal ball for general recreation purposes and for games at picnics, outings, etc., where the players on account of lack of experience or practice, might not wish to use a hard ball. Guaranteed to last a game.

No. 12PB. Each, \$1.00

14-inch "Official" Playground Ball

The 14-inch ball is used where the playing space is limited in size. As the ball cannot be batted very far, it is possible, by using the large size, to improvise ball grounds in a space that would be simply out of the question for the ordinary game. Guaranteed to last a game.

No. 14PB. Each. \$1.00

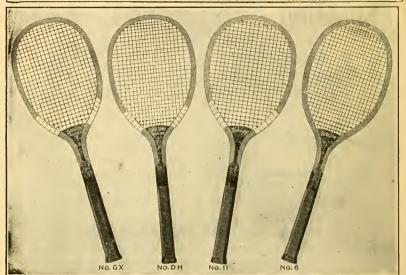

9-inch Playground Ball

This ball is used on many of the municipal playgrounds, where on account of the youth of the players, the larger sizes would not be suitable.

No. 9PB. Each. \$1.00

THE SPALDING RADE-MARK

Durand-Steel Lockers

Wooden lockers are objectionable. because they attract vermin, absorb odors, can be easily broken into, and are dangerous on account of fire.

Lockers made from wire mesh or expanded metal afford little security. as they can be easily entered with wire cutters. Clothes placed in them become covered with dust, and the lockers themselves present a poor appearance, resembling animal cages

Durand-Steel Lockers are made of finest. grade furniture steel and are finished with gloss black, furnace-baked japan (400°), comparable

to that used on hospital ware, which will never flake off nor require refinishing, as do paints and enamels.

Some of the 6,000 Durand-Steel Lockers Installed in the Public Cymnasiums of Chicago. 12'x 15'x 42'. Double Tier.

> Durand-Steel Lockers are usually built with doors perforated full length in panel design with sides and backs solid. This prevents clothes in one locker

> > from coming in contact with wet garments in adjoining lockers, while plenty of ventilation is secured by having the door perforated its entire length, but, if the purchaser prefers, we perforate the backs also. .

> > The cost of Durand-Steel Lockers is no more than that of first-class wooden lockers, and they last as long as the building, are sanitary, secure, and, in addition, are fire-proof.

THE FOLLOWING STANDARD SIZES ARE THOSE MOST COMMONLY USED:

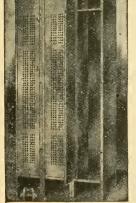

DOUBLE TIER 12 x 12 x 36 Inch 15 x 15 x 36 Inch 12 x 12 x 42 Inch 15 x 15 x 42 Inch

SPALDING Gymnasium Apparatus

MANY years' experience is behind Spalding Gymnasium Apparatus. The most thoroughly equipped and largest plant of its kind in the world makes possible the highest grade of apparatus

at the lowest cost of manufacture.

Apparatus of the highest grade—Spalding—insures safety to the users, saves the necessity of constant supervision of parts, gives freedom from worry and adds valuable time to the day's programme, does not "eat its head off" in repairs, gives by its durability many years of added service, and proves itself a valuable investment.

Every piece of Spalding apparatus is manufactured and sold under the Spalding Guarantee, and the Spalding Guarantee for 30 years has meant something.

To those contemplating the purchase of Gymnasium Apparatus we solicit a careful comparison of quality. The quality of apparatus selected is a potential factor

in the success of the gymnasium.

We will be glad to prepare plans and submit suggestions for college, playground or private equipments. Our experience, knowledge and facilities are freely offered to anyone interested.

Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy.

Without a definite and Standard Mercantile Policy, it is impossible for a manufacturer to long maintain a Standard Quality.

To market his goods through the jobber, a manufacturer must provide a profit for the jobber as well as the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts," which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer in his turn, meets this demand for the lowering of prices by the only way open to him, viz.; the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that, ten years ago, in 1899, A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding Policy."

The "Spalding Policy" eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures his supply of Spalding Athletic Goods direct from the manufacture under a restricted retail price arrangement by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The "Spalding Policy" is decidedly for the interest and protection of the users of Athletic Goods,

and acts in two ways:

FIRST-The user is assured of genuine Official Standard Athletic Goods, and

the same fixed prices to everybody.

SECOND-As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are required to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated exactly alike, and no special rebates or discriminations are allowed to anyone.

Positively, nobody; not even officers, managers, salesmen or other employes of A. G. Spalding & Bros., or any of their relatives or personal friends, can buy Spalding Athletic Goods at a discount from the regular catalogue prices.

This, briefly, is the "Spalding Policy," which has already been in successful operation for the past ten years, and will be indefinitely continued.

In other words, "The Spalding Policy" is a "square deal" for everybody.

THE SPALDING TRADE-MARK IS THE FOUNDATION OF THE SPALDING BUSINESS

Spalding's Athletic Library

A. G. SPALDING

Anticipating the present ten-dency of the American people toward a healthful method of living and enjoyment, Spalding's Athletic Library was established in 1892 for the purpose of encouraging athletics in every form, not only by publishing the official rules and records pertaining to the various pastimes, but also by instructing, until to-day Spalding's Athletic Library is unique in its own particular field and has been conceded the greatest educational series on athletic and physical training subjects that has ever been compiled.

The publication of a distinct series of books devoted to athletic sports and pastimes and designed to occupy the premier place in America in its class was an early idea of Mr. A. G. Spalding, who was one of the first in America to publish a handbook devoted to athletic sports, Spalding's Official Base Ball Guide being the initial

number, which was followed at intervals with other handbooks on the sports prominent in the '70s.

Spalding's Athletic Library has had the advice and counsel of Mr. A. G. Spalding in all of its undertakings, and particularly in all books devoted to the national game. This applies especially to Spalding's Official Base Ball Guide and Spalding's Official Base Ball Record, both of which receive the personal attention of Mr. A. G. Spalding, owing to his early connection with the game as the leading pitcher of the champion Boston and Chicago teams of 1872-76. His interest does not stop, however, with matters pertaining to base ball; there is not a sport that Mr. Spalding does not make it his business to become familiar with and that the Library will always maintain its premier place, with Mr. Spalding's able

counsel at hand, goes without saying.

The entire series since the issue of the first number has been under the direct personal supervision of Mr. James E. Sullivan, President of the American Sports Publishing Company, and the total series of consecutive numbers reach an aggregate of considerably over three hundred, included in which are many "annuals," that really constitute the history of their particular sport in America year by year, back copies of which are even now eagerly sought for, constituting as they do the really first authentic records of events and official rules that have ever been consecutively compiled.

When Spalding's Athletic Library was founded, seventeen years ago, track and field athletics were practically unknown outside the larger colleges and a few athletic clubs in the leading cities, which gave occasional meets, when an entry list of 250 competitors was a subject of comment; golf was known only by a comparatively few persons; lawn tennis had some vogue and base ball was practically the only established field

sport, and that in a professional way; basket ball had just been invented; athletics for the schoolboy—and schoolgirl—were almost unknown, and an advocate of class contests in athletics in the schools could not get a hearing. To-day we find the greatest body of athletes in the world is the Public Schools Athletic League of Greater New York, which has had an entry list at its annual games of over two thousand, and in whose "elementary series" in base ball last year 106 schools competed for the trophy emblematic of the championship.

While Spalding's Athletic Library cannot claim that the rapid growth of athletics in this country is due to it solely, the fact cannot be denied that the books have had a great deal to do with its encouragement, by printing the official rules and instructions for playing the various games at a nominal price, within the reach of everyone, with the sole object that its series might be complete and the one place where a person could look with absolute certainty for the particular book in which he might be interested.

In selecting the editors and writers for the various books, the leading authority in his particular line has been obtained, with the result that no collection of books on athletic subjects can compare with Spalding's Athletic Library for the prominence of the various authors and their ability to present their subjects in a thorough and practical manner.

A short sketch of a few of those who have edited some of the leading numbers of Spalding's Athletic Library is given herewith:

JAMES E. SULLIVAN

President American Sports Publishing Company; entered the publishing house of Frank Leslie in 1878, and has been connected continuously with the publishing business since then and also as athletic editor of various New York papers; was a competing athlete; one of the organizers of the Amateur Athletic Union of the Unitd States; has been actively on its board of governors since its organization until the present time, and President for two successive terms: has attended every champion-

ship meeting in America since 1879 and has officiated in some capacity in connection with American amateur championships track and field games for nearly twenty-five years: assistant American director Olympic Games. Paris, 1900; director Pan-American Exposition athletic department, 1901; chief department physical culture Louisiana Purchase Exposition, St. Louis, 1904: secretary American Committee Olympic Games, at Athens, 1906: honorary director of Athletics at Jamestown Exposition, 1907; secretary American Committee Olympic Games, at London, 1908; member of the Pastime A. C., New York; honorary member Missouri A. C., St. Louis; honorary member Olympic A. C., San Francisco; ex-president Pastime A. C., New Jersey A. C., Knickerbocker A. C.; president Metropolitan Association of the A. A. U. for fifteen years; president Outdoor Recreation League; with Dr. Luther H. Gulick organized the Public Schools Athletic League of New York, and is now chairman of its games committee and member executive committee; was a pioneer in playground work and one of the organizers of the Outdoor Recreation League of New York; appointed by President Roosevelt as special commissioner to the Olympic Games at Athens, 1906, and decorated by King George I. of the Hellenes (Greece) for his services in connection with the Olympic Games; appointed special commissioner by President Roosevelt to the Olympic Games at London, 1908; appointed by Mayor McClellan, 1908, as member of the Board of Education of Greater New York.

WALTER CAMP

For quarter of a century Mr. Walter Camp of Yale has occupied a leading position in college athletics. It is immaterial what organization is suggested for college athletics, or for the betterment of conditions, insofar as college athletics is concerned, Mr. Camp has always played an important part in its conferences, and the great interest in and high plane of college sport to-day, are undoubtedly due more to Mr. Camp has probably written more on college

Camp has probably written more on college athletics than any other writer and the leading papers and magazines of America are always anxious to secure his expert opinion on foot ball, track and field athletics, base ball and rowing. Mr. Camp has grown up with Yale athletics and is a part of Yale's remarkable athletic system, While he has been designated as the "Father of Foot Ball," it is a well known fact that during his college career Mr. Camp was regarded as one of the best players that ever represented Yale on the base ball field, so when we hear of Walter Camp as a foot ball expert we must also remember his remarkable knowledge of the game of base ball, of which he is a great admirer. Mr. Camp has edited Spalding's Official Foot Ball Guide since it was first published, and also the Spalding Athletic Library book on How to Play Foot Ball. There is certainly no man in American college life better qualified to write for Spalding's Athletic Library than Mr. Camp.

DR. LUTHER HALSEY GULICK

The leading exponent of physical training in America; one who has worked hard to impress the value of physical training in the schools; when physical training was combined with education at the St. Louis Exposition in 1904 Dr. Gulick played an important part in that congress; he received several awards for his good work and had many honors conferred upon him; he is the author of a great many books on the subject; it was Dr. Gulick, who, acting on the suggestion of James E. Sullivan,

organized the Public Schools Athletic League of Greater New York, and was its first Secretary; Dr. Gulick was also for several years Director of Physical Training in the public schools of Greater New York, resigning the position to assume the Presidency of the Playground Association of America. Dr. Gulick is an authority on all subjects pertaining to physical training and the study of the child.

JOHN B. FOSTER

Successor to the late Henry Chadwick ("Father of Base Ball") as editor of Spalding's Official Base Ball Guide; sporting editor of the New York Evening Telegram; has been in the newspaper business for many years and is recognized throughout America as a leading writer on the national game; a staunch supporter of organized base ball, his pen has always been used for the betterment of the game.

EDITORS OF SPALDING'S ATHLETIC LIBRARY

TIM MURNANE

Base Ball editor of the Boston Globe and President of the New England League of Base Ball Clubs; one of the best known base ball men of the country; known from coast to coast; is a keen follower of the game and prominent in all its councils; nearly half a century ago was one of America's foremost players; knows the game thoroughly and writes from the point of view both of player and an official.

HARRY PHILIP BURCHELL

Sporting editor of the New York Times; graduate of the University of Pennsylvania; editor of Spalding's Official Lawn Tennis Annual; is an authority on the game; follows the movements of the players minutely and understands not only tennis but all other subjects that can be classed as athletics; no one is better qualified to edit this book than Mr. Burchell,

GEORGE T. HEPBRON

Former Young Men's Christian Association director; for many years an official of the Athletic League of Young Men's Christian Associations of North America; was connected with Dr. Luther H. Gulick in Young Men's Christian Association work for over twelve years; became identified with basket ball when it was in its infancy and has followed it since, being recognized as the leading exponent of the official rules; succeeded Dr. Gulick as editor of the Official Basket Ball

Guide and also editor of the Spalding Athletic Library book on How to Play Basket Ball.

JAMES S. MITCHEL

Former champion weight thrower; holder of numerous records, and is the winner of more championships than any other individual in the history of sport; Mr. Mitchel is a close student of athletics and well qualified to write upon any topic connected with athletic sport; has been for years on the staff of the New York Sun.

EDITORS OF SPALDING'S ATHLETIC LIBRARY

MICHAEL C. MURPHY

The world's most famous athletic trainer; the champion athletes that he has developed for track and field sports, foot ball and base ball fields, would run into thousands; he became famous when at Yale University and has been particularly successful in developing what might be termed championship teams; his rare good judgment has placed him in an enviable position in the athletic world; now with the University of Pennsylvania; during his career has trained only at two colleges and one athletic always the

leges and one athletic club, Yale and the University of Pennsylvania and Detroit Athletic Club; his most recent triumph was that of training the famous American team of athletes that swept the field at the Olympic Games of 1908 at London.

DR. C. WARD CRAMPTON

Succeeded Dr. Gulick as director of physical training in the schools of Greater New York: as secretary of the Public Schools Athletic League is at the head of the most remarkable organization of its kind in the world; is a practical athlete and gymnast himself, and has been for years connected with the physical training system in the schools of Greater New York, having had charge of the High School of Commerce.

DR. GEORGE J. FISHER

Has been connected with Y. M. C. A. work for many years as physical director at Cincinnati and Brooklyn, where he made such a high reputation as organizer that he was chosen to succeed Dr. Luther H. Gulick as Secretary of the Athletic League of Y. M. C. A.'s of North America, when the latter resigned to take charge of the physical training in the Public Schools of Greater New York,

DR. GEORGE ORTON

On athletics, college athletics, particularly track and field, foot ball, soccer foot ball, and training of the youth, it would be hard to find one better qualified than Dr. Orton; has had the necessary athletic experience and the ability to impart that experience intelligently to the youth of the land; for years was the American, British and Canadian champion runner.

EDITORS OF SPALDING'S ATHLETIC LIBRARY

FREDERICK R. TOOMBS

A well known authority on skating, rowing, boxing, racquets, and other athletic sports; was sporting editor of American Press Association, New York; dramatic editor; is a lawyer and has served several terms as a member of Assembly of the Legislature of the State of New York; has written several novels and historical works.

R. L. WELCH

A resident of Chicago; the popularity of indoor base ball is chiefly due to his efforts; a player himself of no mean ability; a first-class organizer; he has followed the game of indoor base ball from its inception.

DR, HENRY S. ANDERSON

Has been connected with Yale University for years and is a recognized authority on gymnastics; is admitted to be one of the leading authorities in America on gymnastic subjects; is the author of many books on physical training.

CHARLES M. DANIELS

Just the man to write an authoritative book on swimming; the fastest swimmer the world has ever known; member New York Athletic Club swimming team and an Olympic champion at Athens in 1906 and London, 1908. In his book on Swimming, Champion Daniels describes just the methods one must use to become an expert swimmer.

GUSTAVE BOJUS

Mr. Bojus is most thoroughly qualified to write intelligently on all subjects pertaining to gymnastics and athletics; in his day one of America's most famous amateur athletes; has competed successfully in gymnastics and many other sports for the New York Turn Verein; for twenty years he has been prominent in teaching gymnastics and athletics; was responsible for the famous gymnastic championship teams of Columbia University; now with the Jersey City high schools.

CHARLES JACOBUS

Annual Meeting

Minutes of the Sixth Annual Meeting of the Public Schools Athletic League, held at the office of General George W. Wingate, 20 Nassau Street, December 7, 1909, at 4 P. M. President General George W. Wingate in the chair, and one

President General George W. Wingate in the chair, and one hundred and twenty-six members of the league present in person

or by proxy.

The president addressed the meeting as follows:

PRESIDENT'S ADDRESS

"GENTLEMEN:

"The sixth anniversary of the formation of the Public Schools Athletic League finds no check in the steady progress it has maintained since its organization. The interest taken in its work, both in and out of the schools, the improvement of the school children in physique, character and discipline, and the enlargement and efficiency of its activities, still continues, so that it is not an exaggeration to claim it to be the largest

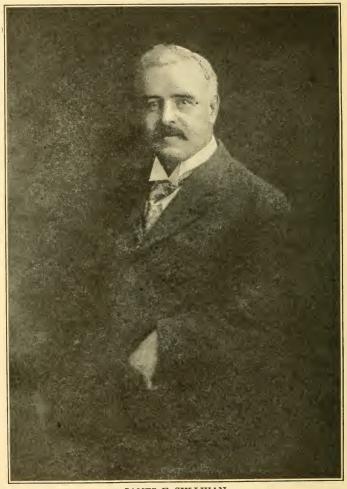

athletic organization in the world.

"All new movements, especially of a public and philanthropic character, usually meet with considerable criticism and many disheartening drawbacks when first started. But our league has experienced few—almost none—of these. It has necessarily required a great deal of work on the part of its officers and friends to achieve the success that has been obtained, how much none can appreciate but the few that participated. This, of course, was inevitable and was cheerfully rendered. But from its inception to the present time the league has always received a kindly word and a helping hand from the school authorities, the children, the press and the public. Its day of experiment has long since passed. It has now become a fixed institution in our school system, too firmly rooted in scholastic and popular estimation ever to be disturbed.

"The best test of our work is the imitation of it that is going on all over the country. Already eleven cities—New Orleans, Baltimore, Seattle, New York, Newark, Troy, Buffalo, Cleveland, Birmingham, Ala., Tacoma, San Francisco, Kansas City, possibly Oakland and Helena have organized public school leagues on the model of our own which are repeating in the schools of those municipalities the success that this league has

achieved in the city of New York.

"When we look back to the doubts and fears with which in December, 1903, immediately after our organization had been

JAMES E. SULLIVAN,
Chairman Games Committee Public Schools Athletic League; Member of the
Board of Education of Greater New York.
Secretary-Treasurer Amateur Athletic Union of the United States.

perfected, we undertook to hold a 'public competition of school boys' in Madison Square Garden, and the difficulties Dr. Gulick and the rest of us experienced in carrying it out, the present

condition of the league seems incredible.

"Not only then but for months after there was nobody in the schools who knew anything about athletics, the boys were in physique from twenty to fifty per cent below the standard of an average country lad, their ideas of honor and square dealing were perhaps even more than this below what was proper, and school pride hardly existed.

"Now there is scarcely a school in the city in which the interest in athletics is not widespread and intelligent; where the children, both boys and girls, are not much stronger, more active and more healthy than in 1904; where ideas of honor and fair play have not been created, which never before were known, and where a spirit of school pride has not been developed, which constitutes a most important educational factor.

"The reports of our valued treasurer, Mr. S. R. Guggenheim, of our secretary, Dr. C. Ward Crampton, of Mr. James E. Sullivan, chairman of the Games Committee, and of Miss Catherine Leverich, former president of the Girls' Branch, and others which will be presented to you, give the details of the work during the past year. It is not, therefore, necessary that

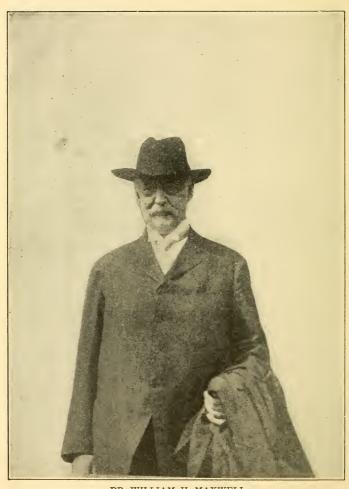

I should repeat them.

"It is proper, however, to state that we have besides the Girls' Branch, which takes special cognizance of the exercises of the girls, twenty-five district associations covering the 306 square miles constituting Greater New York, and which assume the direct management of the athletics of the 515 schools (excluding the 10 high schools) which are contained within that great area. That there are in the elementary schools one hundred and twenty-five associations having a membership of 110,000. These held games during the year, in which there were 80,000 competitors. In the high schools there are seventeen similar associations.

"In the series of games organized by the Sunday World one hundred and forty-seven schools held games, which were participated in by 33,460 boys; Public School 83, Manhattan, had 1,252 competitors on its field day; Public School 62, Manhattan, had 1,1083. Three thousand two hundred and forty boys were awarded medals and one hundred and forty-seven class banners were won. At the final meet fifteen hundred boys, representing

about one hundred schools, participated.

"Taking the whole series of athletic events, the aggregate of the boys and girls taking part during the year is estimated to be 150,000.

DR. WILLIAM H. MAXWELL, City Superintendent of Schools, New York City.

"In addition, there were the games of the district leagues and the championship games of the league itself, making in all a tremendous aggregate.

"These figures seem enormous. But notwithstanding this, there are fully 200,000 more of our school population of 650,000

that are yet to be reached.

"These games are held both in and out of doors and cover nearly every field of athletic activity. Running in all its forms (except for long distance), base ball, basket ball, lawn tennis, jumping, putting the shot, pole vaulting, swimming and soccer (but not Rugby) foot ball for boys, folk dancing and appropriate athletic games and various other exercises for girls, are carried on under the auspices of the league. In doing this it seeks to encourage those exercises which will reach the mass of the school children rather than those which will be practised by a few experts. In particular, it approves and is developing with success a system of competition between classes where eighty per cent of each class must participate, and the average of all constitute the record. This is proving to be effective in inducing exercises by many who would not otherwise compete and who are the very ones who are most in need of it. Although new, the system is becoming popular. Its greatest advantage perhaps is that as the work of every boy counts, class pride exerts a pressure which compels many laggards to fit themselves for the competitions.

"The following shows the results for the past year. It is not, however, a fair criterion, as far as the running is concerned, as bad weather prevented many schools from holding their trials

and also made their reports too late to be received.

	Number of	Number of	Number of
		Classes	
		Competing	Competing
Standing broad jump	81	736	18,910
Chinning	57	539	14,488
Class running	36	273	7,967

"It is with this idea of interesting the individual that the contests for the 'Button' or athletic badge of the league have been established. Thus button is analogous to the soldier's marksman's badge and is annually awarded to each boy who attains a certain standard in running a short distance, jumping and 'chinning' on a bar. It has proved as beneficial in its effects in athletics in the schools as the marksman's badges were in rifle shooting in the National Guard. When it was first established the number of badges that were won were few. The boys would run fairly well. But they could not jump and

C. WARD CRAMPTON, M.D.,
President Public Schools Athletic League and Director Physical Education
Public Schools of Greater New York.

they had so little strength in their arms and chests that frequently in a good-sized school only six boys would be able to 'chin' themselves four times. In order to win this badge the boys have practised steadily with extraordinary results. This year the method was simplified by abolishing all age, weight and height qualifications and the standards were set as follows:

CLASS A.

60 yards dash—8 3-5s. Chinning on bar—4 times. Standing broad jump—5ft. 9in.

CLASS B.

60 yards dash, indoors—8s. Chinning—6 times. Standing broad jump—6ft. 6in.

FOR HIGH SCHOOL BOYS.

200 yards run—28s. Chinning—9 times. Running high jump—4ft. 4in.

"In 1904-5, when this competition was established, but 1,162 buttons were won. It almost doubled each year, so that in 1908-9 the number was 7,049. This fall the Jamaica High School (which only won 6 buttons last year) won 24.

"The league itself held seven championship events. It sanc-

tioned twenty-three others.

"The evening schools were permitted this year for the first time to participate in the league events and many entries from

them were received.

"One of the interesting features of a number of the games was the music which was furnished by the two bands—that of Public School 2t, Manhattan, and Public School 2o, Richmond. These we were able to organize through the generosity of one of our directors, Mr. John S. Huyler, who paid the entire expense, about \$4,000, of providing the instruments for two full bands and also paid for the services of an instructor. As in addition to the pleasure of being a member, the boys learn a profitable occupation, there is a long waiting list for each of these bands.

"In the elementary indoor championship games, 878 boys, representing 73 schools, entered, there being 94 relay teams.

"In the elementary schools basket ball tournament one hundred and five teams entered, representing sixty-five schools. Eighty-

two teams are now competing.

"In the elementary schools swimming contests, three hundred and thirty-six boys, representing thirty-six schools, entered, fourteen having relay teams.

C. L. MYERS, Assistant Treasurer Public Schools Athletic League.

"In the elementary schools outdoor novice games, nearly 1,000 boys participated, there being one hundred and eleven teams in

the relay races.

"In the elementary schools outdoor championship games, 750 boys, representing fifty-seven schools, participated, and there were eighty-nine relay teams. In soccer foot ball six high school teams and seven from elementary schools competed.

"In base ball there were one hundred and six teams, representing three hundred and forty-six schools, and the final games were witnessed by 20,000 spectators. Few professional teams played better than Public School 28, Bronx, which won four

and lost no games.

"In none of the activities of the League has there been a greater improvement in the past year than that which has taken place in rifle shooting. Through the generosity of its friends it has been enabled to place a sub-target gun machine in each of the eleven largest high schools. It has also, through our director, Mr. Frank L. Polk, received a gift of twenty-two Krag-Jorgensen rifles to be used in these schools in gallery and out-of-door practice. These sub-target gun machines are so constructed that a boy practicing receives the same benefits as if he were actually firing a ball cartridge with an army rifle, while there is neither noise, danger nor expense. During the year over a thousand boys were regularly practicing, and on May 24 there were reported as qualifying as marksmen, by making a score of 45 points out of 50, 434, as compared with 273 last year. The badges for these qualifications were donated by the Brooklyn Eagle. Such boys as have won their marksmanship badge are permitted to practice with cartridges in the rifle galleries of the different regiments, and with the experience which they have had with the machine, soon develop into remarkable shots.

"In the tournament which took place under the auspices of the National Rifle Association at the Sportsmen's Show in February and March, 1909, at which a number of prizes were offered by different arms companies and others interested in the subject, over 1,000 boys participated—more, in fact, than the eight target ranges and the sub-target gun machines that were provided would permit. The shooting was done at 60 feet, bull's eye, one inch counting five; center 3½ inches, counting four; inner, 5¾ inches, counting three. The shooting was fully equal to anything which has ever been in any of the National Guard competitions. In fact, the scores made by many of the competitors have never before been equalled. Thus, J. Ehrlich, of the Morris High School, firing 120 shots with a possible score of 600 points, half shot standing and half prone,

WM. DEAN PULVERMACHER,
Assistant Secretary Public Schools Athletic League.
Inspector of Athletics Public Schools of Greater New York.

made 598, only missing the bull's eye twice; and the team of the Morris High School, firing 10 shots each standing and prone.

made 557 out of a possible 600.

"While some objections have been made to introducing military instruction in the schools, there certainly can be none to teaching the boys the use of the rifle. If this practice can be made general in the high schools, so that our youth may become sharpshooters, a force will be provided at a nominal expense which will render the nation able to defend its shores against any invader without the necessity of a large regular army.

The four athletic fields belonging to the city have been completed, with the exception that the want of funds prevented the construction of the grand stand which contains the dressing facilities at the Brooklyn Field, a fact which has been a great drawback to the use of this fine field. These fields have been used by a large number and have made possible the holding of many competitions which could not have otherwise taken place. In the spring of 1909 the system was adopted of allowing the different schools to have a field day, on which the whole school, with the exception of the smaller children, went in a body to one of the fields and held their class exercises and school games. This was taken advantage of by one hundred and twelve schools. It was considered by the principals and teachers to be a valuable innovation, greatly helping the athletics of the school and enhancing school pride.

"In view of the fact that these fields were closed on Sunday because the Board of Education had no funds with which to provide the necessary attendance, the League offered, in the latter part of April, to operate them on Sunday afternoons from one to six o'clock at its own expense, provided it was permitted to do so. This offer was accepted and the League has kept the fields open until December. During this period they all have been used on Sunday afternoons by many hundreds of boys, whose conduct has been unobjectionable and who have been thereby kept away from the saloons and the streets. In doing this the League has spent in paying the wages of the caretakers \$523.50. While this sum is considerable, yet it is felt that the benefits which have been derived from it are much more than the amount expended. The work hereafter should, however, be

carried on by the Board.

"It is hoped that the course which has been adopted by the Board of Education in keeping open the playgrounds and school facilities for exercises after school hours will be continued. Nothing is more needed in the city than places where the children can practice their exercises and have an opportunity to play, which is now denied them by the congested streets. The

Presented by Mr. Rodman Wanamaker to the Public Schools Athletic League of Greater New York, 1909, in bonor of Gen. George W. Wingate, President of the Public Schools Athletic League of Greater New York, as a recognition of his work in furthering the cause of schoolboy athletics.

expense is trifling and it should not be regarded for an instant when compared with the benefits which will result. If these playgrounds are kept open it will afford a chance for many to become proficient in athletic games which they do not now possess, besides keeping them away from bad influences. That many additional playgrounds are needed for the children of the city is a matter which is too clear for argument.

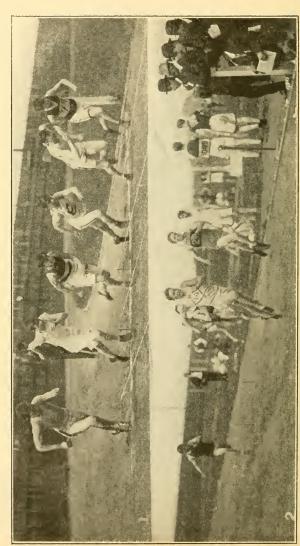

"Few appreciate the unselfish work which is done by many of the male teachers in the schools who have steadily given their afternoons, day after day, to promote the athletic training of the boys. This has been not only given by them to the boys of their own schools, but was extended to those belonging to other schools which, in consequence of having few or no male teachers, were deprived of the necessary instruction. The teachers who did this not only lost their own time, but were prevented from attending many lectures and other methods of additional study which would have counted upon their promotion record and which they could ill afford to lose. It is therefore gratifying to know that the Board of Examiners decided to give the teachers who have done this a credit for their work. This is certainly but just. In fact, it cannot well be denied that a teacher who spends his afternoons in coaching boys in athletic games, gets a practical experience of boy nature and an executive ability which makes him more fit to teach a class than he would be if he had spent the same time in hearing lectures or studying and pedagogical subject that could be imagined.

"The League is also under the greatest obligation to the various commanding officers of the National Guard of New York and Brooklyn, who have cheerfully granted the use of their respective armories for its many games and for those of the different schools, without the use of which it would have

been impossible to hold them.

"I also desire to express its thanks for the many heautiful trophies and other prizes which have been given to it, a list of which will appear in the secretary's report, also to the Sunday World, the Herald and the Brooklyn Eagle, for the great help they have rendered.

"The League now has one hundred and thirty-six trophies, most of them expensive and handsome. Seven were permanently won during the year and twelve new ones have been presented.

2-FINISH OF THE 100 YARDS RUN. 1-START OF 100 YARDS RUN.

"The work of the Girls' Branch is necessarily managed upon largely different lines from what is required for boys. It is, however, even more needed and is doing ever greater good. By training the teachers, who in turn instruct the classes, over 19,000 girls have been provided with healthful and joyous recreation. There are, however, 285,000 more girls who require it. These thousands have not been reached through the inability of the ladies of the league to procure the necessary funds. They also have had great difficulty in securing prizes for competition, although there has been little trouble in obtaining gifts of such prizes for the boys. This year there are 1,149 teachers taking these classes, insuring after-school training for 50,000 girls, a

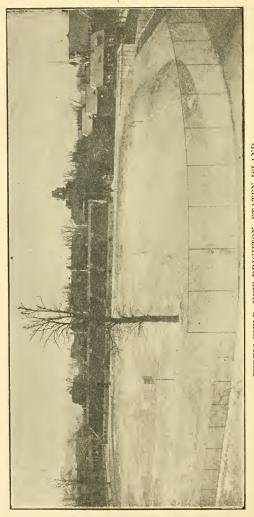

tremendous advance for one year.

"With every year the standard of athletic ability in the schools becomes higher, and records which were considered wonderful when made, are surpassed. Accompanying this is a marked improvement in carriage of the person, alertness of mind and body, and the general air of strength and health resulting from the athletic exercises which the children have pursued. Gratifying as is this from the physical side, the improvement on the side of ethics, school discipline and esprit du corps is even greater, a fact which has constituted the supervising and teaching force of the schools firm supporters of our work. Under no circumstances is any pupil allowed to compete in any of the League games unless he is certified by his principal to have 'B' in effort, proficiency and deportment during the month previous, nor unless he shall have attended his school for twenty weeks (except when regularly transferred). No school is permitted to offer any inducement to cause the pupil of any other school to sever his connection with such school for athletic purposes.

"Every effort which can be exerted by those interested in the League is made to impress upon the schools that to be a good athlete means to be honorable and truthful, to despise anything that is mean or underhand, not to boast as winners, and to

'own up' when defeated.

"When it is recalled that during the past year two different schools—Public School 6, Manhattan, and Public School 26, Manhattan, which had been declared winners in important competitions, of their own volition and without protest being made, declined to accept the award made them because they had discovered that there was an irregularity in respect to one of their representatives, it will, I think, be agreed that these lessons have been taken to heart. Of course there are occasional instances where attempts to evade the rules take place. But I have no hesitancy in saying that on the whole the standard of

CURTIS FIELD, NEW BRIGHTON, STATEN ISLAND.

honor and fair dealing in athletics among the New York schools need fear no comparison with that of any of our best colleges.

"It is difficult for one not familiar with life in the congested districts of our great city to appreciate what the League has already accomplished, not only to give the boys a chance to have some healthful amusement, but to keep them out of vice and crime. It wages a persistent and highly successful war on cigarette smoking (that bane of our youth) and other bad habits. It keeps the boys out of gangs and similar temptations. This it does not by preaching, but because in becoming interested in athletics they are taught that they cannot excel unless they take care of themselves, and that to do this means the keeping away from these things.

"The contributing members of the League are:

leaving a balance remaining of \$1,348.34 out of the balance of

\$2,288.35 existing January 1, 1909.

"This number of contributors is but a handful compared with those of our citizens and particularly of those who received their education in the public schools, who would be supposed to be interested in our work. Yet in spite of the letters of Mayor McClellan and others appealing to our business men to join, our efforts to increase this membership have not been successful. If it were not for the generous contributions of Mr. S. R. Guggenheim, Mr. Harry Payne Whitney, Mr. John D. Rockefeller and others, whose names appear in the treasurer's report, our work would have been impossible.

"In conclusion, I congratulate you all upon the good work that we have accomplished in the brief period of six years. I think that you will agree with me that in looking upon it on the ethical side alone and ignoring the vast improvement that it has effected in the strength, health and happiness of our school children, we have just cause for pride in having achieved something which will result in a lasting good to the community."

Report of the President of the Girls' Branch of the P. S. A. L.

April 1, 1910.

The Girls' Branch of the Public Schools Athletic League, started in the season of 1905-6, has undergone a steady increase in the extent of its influence. During the present season the number of schools conducting after-school clubs for girls' athletics, has incretsed to 178 from 166 during the previous year. Over 13,000 girls have been enrolled in these clubs. Folk dancing has continued to be the main activity, the enthusiasm for it surmounting even such discouraging conditions as dark basement playgrounds, or small kindergarten rooms and even the absence of music, where pianos have been lacking. The relay games adapted to these limited circumstances have also been continued.

The most remarkable gain of the year in point of numbers has been in the teachers who have volunteered their services for conducting these after-school clubs. There have been eleven (II) classes for the instruction of these teachers, four in the Borough of Manhattan, one in the Bronx, three in Brooklyn and two each in Queens and Richmond. This is five more instruction classes than were held during the previous year, and the enrollment has almost trebled, having risen from 305 to 1,100. A considerable percentage of this gain may be attributed to an announcement that the Board of Examiners would allow credit for an entire season of such after-school work; but the devotion and enthusiasm of the teachers cannot be too highly commended. The pleasure of the children has been so evident, and also the value of keeping them from the street and giving them wholesome exercise, that both teachers and principals have borne enthusiastic testimony to the value of the work.

In May and June, 1909, as in previous seasons, the athletic clubs in almost every school closed the season with a meet, at which there were a large number of spectators, the school trophy being awarded to the club which was adjudged to do the best work in dancing and which won in the games. Official judges for these contests were supplied by the Girls' Branch and additional trophies furnished to the number of 36 so that the elementary schools now possess 75 trophies furnished through the

League. These are the permanent possessions of the schools, the contests being entirely between clubs in a given school and never between schools.

Each pupil in a winning class is awarded a pin. These pins have been furnished during the present season by Mrs. Henry Siegel, as for several years past. For the spring meets of 1909,—2,365 of these pins were awarded.

Very notable features of the season's work were the fetes in Van Cortlandt and Prospect parks in May and June. At the fete in Van Cortlandt Park on May 29, 1909, forty-seven (47) schools were represented, there being 4,000 children present; in Prospect Park 14 schools took part and 1,500 children were present. Transportation for these children was paid by the Girls' Branch. Music for the folk dancing, which was the main activity, was furnished by the Catholic Protectory.

In the high schools the activities carried on under the auspices of the Girls' Branch have included mainly basket ball, in which only the line game is sanctioned. No inter-school competition

is allowed.

Six (6) league trophies are now in the high schools.

The League has furnished judges for 57 high school basket

ball games during the season.

The annual meeting of the Girls' Branch of the Public Schools Athletic League occurred at the Colony Club on February 25, 1910, by invitation of Mrs. Egerton L. Winthrop, Jr. A large audience listened to addresses by Miss Catherine S. Leverich, the retiring president, and by Dr. Luther Halsey Gulick and General George W. Wingate. The audience then repaired to the gymnasium where folk dancing and games were shown by clubs of girls from some of the schools.

The administrative side of the work of the Girls' Branch has been advanced during the present season by the appointment of an Inspector of Athletics for Girls by the Board of Education. Miss Elizabeth Burchenal was appointed to this position after competitive examination, and the organization has therefore been fortunate in continuing her services. Miss Burchenal has taken immediate charge of the instruction classes for teachers and the League has paid six (6) additional teachers to assist her in

this work.

At the annual meeting on February 25, 1910, the following were elected:

HIGH SCHOOLS ALL AROUND OUTDOOR CHAMPIONSHIP TROPHY

-"THE ATHLETE."

Donated by H. A. Metz. Modeled by Dr. R. Tait McKenzie.

A Games Committee has been appointed which is planning to enlarge the scope of the activities taken up by the girls' clubs. This committee is making a special effort to encourage out-of-door exercise and it is hoped that more opportunity may be found for this, including provision for some athletic fields distinctively for girls.

The League has hertofore raised all the funds needed for supporting its work, including office expenses and the salaries of instructors. As these funds are urgently needed for extending the scope of the work in various ways it is to be hoped that the city may take over more of the administrative expenses,

including salaries of assistant inspectors.

Report of Secretary of the Public Schools Athletic League

December 7, 1909.

To President and Board of Directors, Public Schools Athletic League.

GENTLEMEN:

It gives me great pleasure to present herewith my first annual report as Secretary of the Public Schools Athletic League.

At the time of taking office in December, 1908, your secretary found the League in the main progressing favorably and fulfilling a large duty in the public schools of the city. Before undertaking any rapid extension of the work it was deemed advisable to bend the energies of the administration upon the correction of several of the serious defects that had become apparent. Nevertheless a resume of the progress of the league during the last year will, I believe, show a substantial increase in all of the activities, while some have developed beyond all expectations. The league has become more firmly founder, has extended its work and made rapid progress. The address of the President presents an all embracing view of the year's work and that of the Assistant Secretary, its mechanism and results in detail,—there remain but few matters of importance to be stated.

THE ELEMENTARY SCHOOL.

The great city championship athletic competitions inaugurated by the League have discharged their full duty. Insignificant in themselves as regards the number of boys competing when compared with the total school population, they have made athletics a part of the boy life of the city. They have made athletics vitally interesting to all boys. From the nature of the case few boys can enter a city championship with hopes of success. More can enter district meets, twenty-five times as many, for there are twenty-five district meets, but more still can and will enter the meets of the home school.

To realize its ideal of athletics for all the school and district competitions have been fostered—with the magnificent result that 157 individual schools held and managed their own meets. The athletic meet has become a school institution. The League has accomplished its work of propaganda and may well be proud

of its work.

To those who have not personally managed an athletic meet the difficulties of the task are unknown. It means weeks of

ELEMENTARY SCHOOLS BASKET BALL CHAMPIONSHIP TROPHY-"THE WRESTLERS." Donated by the Sons of Charles Pratt.

hard work and careful thought and planning. Grounds and armories are to be obtained, boys stimulated to train and their training managed with great care, programmes issued, para-phernalia obtained, officials appointed, and finally the meet itself must be managed with skill and certainty, the whole of which predicates interest, enthusiasm, devotion and experience, and calls for the expenditure of much time and effort. The young men of the schools who have done this work have sacrificed much opportunity for personal advancement by the taking of college courses and coaching for higher positions and their devotion should be rewarded. This is particularly demanded for their work demonstrates a high order of ability for organization and control; a social instinct and enthusiasm which is of greater value to the city when possessed by the responsible head of the school organization, the school principal. These facts were laid before the Board of Examiners and an instant response was made, with the result that these men are now credited with their work which is given a specific value in all ratings for the licensing of principal and assistant to principal. This has caused a general feeling of satisfaction that good work is appreciated and has stimulated renewed endeavor.

The women in charge of the Girls' Branch classes have been tendered a similar credit and the result has been that the registration for the instruction classes has risen from 358 to 1,149 in

one year.

THE ATHLETIC FIELDS.

At the sugestion of General Wingate, president of the League, the Board of Education passed a resolution, authorizing the opening of the athletic fields on Sunday under the administration of the Public Schools Athletic League. After the most careful canvassing of the Board of Education,—and the success of the resolution was assured before its presentation,—this was accomplished. It has resulted in the free opening of all four athletic fields for the purpose of play since the resolution was adopted April 28, 1909.

Also at the instance of the president the public schools were authorized to spend one day each year as "Athletic Field Day"

upon the fields of the Board of Education.

"ATHLETIC FIELDS-SCHOOL FIELD DAYS."

"Section 57-a. The city superintendent of schools may, upon the application of a principal of any high school or elementary school, permit such school to have a School Field Day once in each year (on a school day or on a Saturday or other holiday),

upon which to hold its athletic games and to demonstrate its efficiency in athletics, on one of the athletic fields assigned for such purpose by the director of physical training, under the direction of the Committee on Athletic Fields. Pupils taking part in or attending the exercises on such field day shall be those in grade 4A or higher grades. Teachers of classes participating in field day exercises shall attend the same as a part of their regular school duty; but this provision shall not apply to teachers of mixed classes unless such classes are excused in their entirety from regular school work in order to take part in or attend such exercises."

The use to which fields have been placed has far exceeded our expectations. In the two months of May and June, fifty-seven (57) schools applied for this privilege and held their "Field Days." On several occasions over 1,500 student athletes took part. The adoption of this By-Law and the granting of this privilege have placed athletic activities in a position in authorized educational procedure which was wholly unprecedented. Even in the schools of Germany where play has become a prominent feature of school work no such radical recognition

of play activities has been advanced.

CONDITION OF ATHLETIC FIELDS.

The athletic fields are now in splendid condition, but this has not been accomplished without considerable effort. Hon. James E. Sullivan has given the fields his personal attention and the results of his large practical experience have become evident.

The fields are now used more than ever before, but they are still idle in the evenings, when thousands of working boys and men are also idle. We should, I feel, make every effort to turn this double idleness into a constructive programme of use and

henefit.

MEDICAL EXAMINATION OF ATHLETE.

The great increase in athletics caused by the Public Schools Athletic League has by come been viewed as a menace to the health of the growing boy. While no bad results have been apparent from our work in the schools, yet other school boy meets have done damage to boys who have entered without sufficient training or care. To prevent all harm a general order was issued that every boy entering any athletic event should be examined by a physician. Through the co-operation of the Board of Health this has been done and a medical certificate is demanded and received with each entry blank.

TROPHY.

A NEW SPORT.

During the year a series of careful experiments were made with indoor base ball in elementary schools which demonstrated that the sport was both feasible and interesting. As a result a championship series was arranged and the "season" was carried through to a successful completion and a new sport was added to the Public Schools Athletic League's endeavor.

The Public Schools Athletic League has in a large measure completed the first part of its work—propaganda. It must now insure the proper maintenance of athletics as a school procedure. To this end it will receive the loyal support of every member, teacher or boy of the school body, and the strong co-operation of the officers and members of the Board of Education.

Report of James E. Sullivan, Chairman of Games Committee

During the year 1909 the Public Schools Athletic League of Greater New York again demonstrated the fact that it is the greatest athletic organization of its kind in the world. It controls all school athletic activities of the children of the Department of Education of Greater New York, and after having observed the organization of other groups it must be admitted that this form of organization is ideal because it is not officially connected with the Board of Education, although it is approved of by that body. This puts it in a position to do things after school for the children that officials and others connected with the City Department could not accomplish. There is probably not in the world another organization that carries on the great activities that the Public Schools Athletic League of New York has conducted during the past year, as can readily be seen by glancing over the report embodied in this book from the Games Committee.

The Games Committee of the Public Schools Athletic League is the operating committee appointed by the P. S. A. L. to conduct officially all of its activities, and it confers certain powers on the committees that really are responsible for the great showing made during the year. Its athletic activities have been very great indeed, but there is another side to the athletic work of the schools of Greater New York that is certainly worthy of commendation, and that is the co-operation that the officials of the P. S. A. L. received from the principals, teachers and others connected with the department and the remarkable work of the leagues that have been stablished throughout the city. It is the untiring efforts of the ones that are in direct control of the children that must receive the greaest credit for the wonderful organization that has been built up.

The benefits that come to the boys who compete in athletics are so many and have been reported so often that it can well be passed over with a few words. Honest competition in athletics for the boy makes him eventually a better man. The boy at school must compete under regulations; law and order prevails, and he is brought up to understand just what it means to

play the game according to rules.

To show the vast magnitude and extent of the Public Schools Athletic League it is only necessary to look at the records of games held during the past year, including base ball, basket ball, swimming, track and field athletics, soccer foot ball, shooting and class athletics.

"SLIDING TO SECOND"—THE A. G. SPALDING HIGH SCHOOLS BASE BALL TROPHY.

Annual Report of Assistant Secretary William Dean Pulvermacher

January 1, 1910.

Dr. C. Ward Crampton, Secretary Public Schools Athletic League, New York City.

Sir: I take pleasure in submitting to you the following report on the work of the Public Schools Athletic League for the year

ending January 1, 1910:

The mass of detail work and organization necessarily attended to by those who, without compensation, have helped to conduct the League's activities during the past year, is well-nigh beyond the comprehension of the ordinary reader. Class athletics, in which hundreds of thousands of boys actually take part, competitive athletic games in which hundreds are entered for each meet, basket ball and base ball tournaments made up of nearly a hundred teams—all these activities do not run along smoothly nor will they be successful unless there be the highest order of definite, systematized, organized effort on the part of those who are interested in the League's welfare.

The High School and Elementary School Games Committees

and Board of Rifle Coaches.

None have worked with more enthusiasm than have the members of the High School and Elementary School Games Committees and the Board of Rifle Coaches. Every athletic activity that the high schools foster is handled primarily by the High Schools Committee. It is made up of a representative from each high school in Greater New York. Once a month these delegates meet and arrange for whatever athletic tournament may be going on or is about to be started.

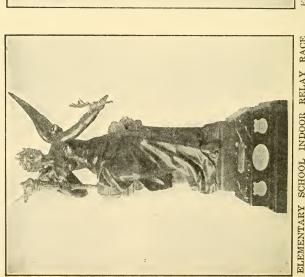

The elementary schools number over 500, so that a delegate from each school would form an unwieldy committee. In view of this fact the city has been divided into twenty-five districts. Each district has its own organization that directs the athletics

of the schools in its jurisdiction.

Each district league elects a delegate to the Elementary Schools Games Committee. This committee arranges for all city tournaments. The respective leagues determine which team in this or that tournament is its champion, and the delegates then arrange for inter-district and finally interborough games to determine the city title holder.

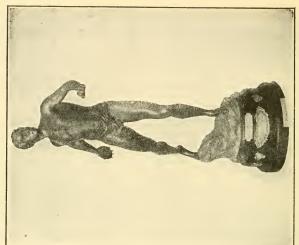

The Board of Rifle Coaches is made up of a representative from each high school. This board controls and manages all

shooting competitions.

Public Schools Athletic League Takes Up Indoor Base Ball.

An innovation during the year was the adoption of indoor

base ball by the League.

Teams were entered in the tournament from every borough and the crowds of spectators present bespoke unbounded enthusiasm. This activity gave opportunity for the indulgence in competitive games until late in the winter, a time of the year which would otherwise have been comparatively dull for the athletically inclined.

The teachers who coached the respective teams found that the result of the indoor practice was to put the boy in better condi-

tion for the outdoor season.

The one objection, namely, that a boy becomes accustomed to throwing the larger ball and therefore when he takes hold of the regulation outdoor ball is liable to throw wildly, only holds

good during the first week of outdoor practice.

On the other hand, the boy learns the finer points of the game; for example, the boy throwing to a team mate on a base learns to think quickly enough to throw the ball to the side from which the runner is coming. The outfielders learn to play in conjunction with those in the infield.

If an outdoor ball were substituted and the boys practiced in a cage every injury to a boy's finger would necessitate months of careful treatment, inasmuch as an injury such as that is not so quickly "sweated" out in cold weather as in the warmer.

The game itself calls forth unbounded enthusiasm. Five boys will come out for indoor base ball to every one that comes out for track. The development is not so much that of the individual in this newly adopted game as it is that of team play.

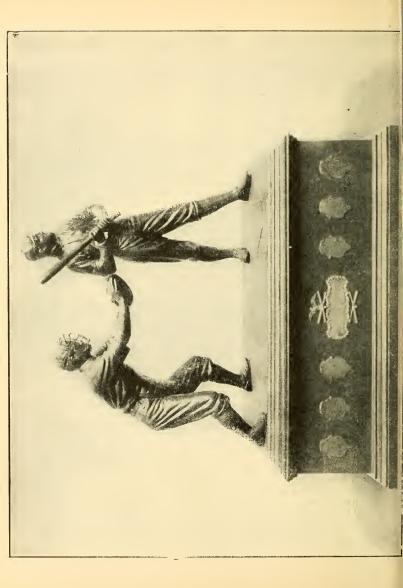

Athletic Fields Scene of Many Meets.

The stranger in this city, who is athletically inclined, always marvels and then grows enthusiastic over the Board of Education Athletic Fields, upon which the schoolboys of New York

train and hold their sets of games.

In the Borough of the Bronx there is Crotona Field, with its brick grandstand, in the heart of the forest-clad Crotona Park. On the outskirts of Brooklyn, along the Brighton Beach line, accessible to the greater number of Brooklyn schools, is Brooklyn Field, with its four-lap track, its tennis courts and base ball diamonds. Here thousands of boys in 1909 added years to their future lives.

On Staten Island is the terraced Curtis Field, whose windswept track, experts maintain, is one of the fastest in the world. A few minutes' walk from the Astoria end of the Ninety-first Street ferry, is the Astoria Field, Queens Borough's training

center. The waters of the East River lap its western boundary and naught but sturdy wall is there to prevent the angry waters of Hell Gate from sending track and field well on the way to the Atlantic.

On these health-giving fields hundreds of thousands of public school boys yearly train in the effort to attain "health and good estate of body." No detail of equipment is omitted, so that the schoolboy now is on an equal footing with his older brother in

the matter of facilities for training purposes.

The Board of Education makes provision to the effect that any school that applies may have one day set apart upon which to hold its field day; so that as a result the school that to-day foes not foster athletics is the exception instead of the rule. Time was when the suggestion that this day or that be set apart for a field day would have been answered by school men to the effect that the days given to study were "too few as it is"; consequently it would be absurd to take away still another. To-day the most serious-minded schoolman admits that athletics is a power for good and that the field day is almost a necessity.

When the greater city has grown until the fields that are now on the outskirts will be well-nigh in the center of the city—and that time is not far distant—the hearts of hundreds of thousands of parents will be full of thanks to those who, by exceptional

foresight, provided for the well-being of future offspring.

Thousands Strive for More than Six Score Trophies.

Hundreds of thousands of boys are now interested in the winning and award of the one hundred and fifty-two trophies that the league now has. Seven of these have been presented during the year, namely:

Trophies of the Public Schools Athletic League, Presented in 1909-1910.

the Indoor Base Ball Championship.

The League has ruled that all trophies hereafter presented to

it shall be perpetual trophies.

The Year Book of the Public Schools Athletic League was published in May, 1909. Two thousand copies were sent to subscribers and friends of the League.

It contained the annual reports of the officers, a record of all athletic activities conducted by and sanctioned by the League.

and photographs of trophies and trophy winners.

Over ten thousand hand-books were furnished the League by the American Sports Publishing Company. Copies were sent to all the schools of this city, to the members of the League, to libraries, and to those interested in all parts of the United States.

Requests come in daily for both Year Book and hand-book from those who would follow, in their respective cities, in the footsteps of the New York Public Schools Athletic League.

The League owes much to the kindness and courtesy of the colonels of the regiments whose armories are within the limits of the greater city, and to General George W. Wingate, President of the League. It was through their kind offices that those who wished to hold the many indoor athletic meets were enabled to secure the use of an armory.

It might truly be added that not once during the past indoor season, to the knowledge of the officers of the League, did the hundreds of thousands of boys who witnessed the games do that which caused the commanding officers of the regiment to

regret having given permission.

Therein individual schools, district leagues, evening high schools and the League itself held their meets. All have learned how to conduct a meet in an orderly way, so that from gallery to the center of the floor all gives the effect of being the result

of pre-arrangement.

Hon. James E. Sullivan, one of the League's directors and secretary-treasurer of the American Athletic Union, officiated at the most important of the P. S. A. L. meets, and in conjunction with the men most prominent in the metropolitan district helped to make them the highest expression of athletic management.

DISTRICT ATHLETIC LEAGUES.

The officers of the before-mentioned District Athletic Leagues have assisted the League in each and all of its activities with the result that more schools have entered into actual participation of athletics than ever before. Both the Elementary and High Schools Games Committees have become more united bodies and transact the business of their schools in good shape. The meetings are well attended and the discussions are keen and the result is always satisfactory to all concerned. It would be a profitable thing to the League if the District Athletic Leagues could manage to elect regularly the same delegate, providing th delegate attended to his duties. The High Schools Games Committee is to be congratulated on the manner in which it has transacted the business the past year.

Last fall both the Elementary and High Schools Games Com-

mittee elected a permanent chairman. The result was:

High Schools-William H. Andrews, Boys' High School. Elementary Schools-Leo I. Kearney, Public School 25, Manhattan.

SUNDAY "WORLD" FIELD DAYS.

The Sunday World Public Schools Athletic League Field Days were continued during the spring of 1909. This was the fourth year of these field days, which began in March, 1906, with an offer from the Sunday World to the Public Schools Athletic League to provide medals for separate school athletic meets for 100 elementary schools in the City of New York. In 1906, 98 schools held these meets for the Sunday World prizes; in 1907, 100 schools participated in the series. In 1908 the number of schools had increased to 114, and in 1909 to 147 schools—46 in Manhattan, 17 in the Bronx, 53 in Brooklyn, 24 in Queens and 7 in Staen Island.

The year 1909 was by far the most successful of this series of games. More schools participated, more competitors entered the games from most of the individual schools than in previous years, more teachers assisted in the management of the meets, better scores were made on track and field, and the boys showed more expert training and interest in the orderly conduct of the events. The rule that in order to enter the games each competitor must have received a mark of at least B in effort and deportment for the month preceding the meet, was closely

applied.

In the 1909 games 33,460 boys actually competed for the Sunday World prizes. Of this number, 3,240 boys won medals. Nearly 1,200 teachers acted as officials at the meets, or aided

in the training of the boys for the athletic contests.

In many cases almost the entire school witnessed the games, and class rivalry in the contest for the banner trophy excited lively enthusiasm at each meet. Most of the events were out of doors, though 15 schools used National Guard armories for their games, 8 schools their gymnasiums, and one (147, Manhattan), the roof of the school building. All the city park playgrounds having running tracks were extensively used in the series of games.

SUNDAY WORLD FIELD TROPHY FOR HIGHEST PERCENTAGE OF ENTRIES IN THE SUNDAY WORLD GAMES.

Public School 83, Manhattan, entered 1,488 boys for its games; the number that actually took part in the events was 1,252.

Public School 62, Manhattan, 1,083; Public School 109, Manhattan, 721; Public School 43, Brooklyn, 642; Public School 145, Brooklyn, 565; Public School 75, Manhattan, 532; Public School 2, Manhattan, 476; Public School 64, Manhattan, 491; Public School 22, Manhattan, 440; Public School 40, Manhattan, 441; Public School 160, Manhattan, 431; Public School 34, Manhattan, 420; Public School 5, Manhattan, 398; Public School 147, Manhattan, 378; Public School 65, Manhattan, 320; Public School 18, Manhattan, 351; Public School 149, Brooklyn, 338; Public School 122, Brooklyn, 330; Public School 82, Mnahattan, 364; Public School 184, Manhattan, 292; Public School 40, Bronx, 255; Public School 36, Brooklyn, 260; Public School 40, Bronx, 255; Public School 10, Manhattan, 270; Public School 23, Bronx, 312; Public School 19, Manhattan, 370; Public School 188, Manhattan, 369; Public School 43, Manhattan, 372; Public School 17, Manhattan, 369; Public School 67, Manhattan, 101; Public School 17, Brooklyn, 258; Public School 51, Manhattan, 294; Public School 14, Manhattan, 270; Public School 16, Queens, 207; Public School 16, Queens, 211; Public School 14, Manhattan, 270; Public School 84, Brooklyn, 280; Public School 31, Brooklyn, 255.

The standard programme of events at each school meet was

as follows:

For boys of 80-lb. class—50 yards dash, running broad jump. For boys of 95-lb. class—60 yards dash, running high jump. For boys of 115-lb. class—70 yards dash, putting 8-lb. shot. For heavyweight class—100 yards dash.

Relay race (any weight class).

To each school holding one of these athletic meets was awarded for competition at its Field Day games 22 medals (11 silver and 11 bronze), and one Banner Trophy. This banner to be awarded as a prize to the school class scoring the largest number of points at the Field Day games. The trophy is a permanent prize for the class winning it, and is especially lettered with the name of the school and the class to which it is awarded.

In addition to the prizes for separate school meets, the Sunday World supplied an All-City Trophy for which schools holding the Sunday World Field Days were entitled to compete. This trophy (a handsome plaque of wood with metal embellishments and lettering) is awarded to the school that makes the largest number of points at its Sunday World Field Day,

the points to be reckoned as follows:

ATHLETIC BADGE CHAMPIONSHIP TROPHY.
Presented by Egerton L. Winthrop, Jr.

I. Largest Percentage of Contestants.—This is a competition, in each borough, if the schools holding Sunday World Field Days. The one school in each borough having the largest percentage of actual contestants in its Field Day shall be awarded 60 points; the school having the second largest number, 40 points; third largest, 20 points.

2. Scores made by Silver and Bronze medal winners in

each event at Field Day, counted as follows:

For each medal winner equals or exceeds the P. S. A. L. record, 10 points.

In all track events one point deducted from 10 for each 1-5

second below P. S. A. L. record.

For high jump, one point deducted from 10 for each 1-4 inch below P. S. A. L. record.

For broad jump, one point deducted from 10 for each 1-5

second below P. S. A. L. record.

For shot-put, same as I oad jump.

Public School 43, Bro klyn, won this plaque in 1909, having made the best record or the year.

Other schools that were close competitors for this prize were:

P. S. 62, Manhattan, and P. S. 32, Bronx.

In the fall of each year a final meet, open to all schools that have had field days for the Sunday World prizes during the year, is held under the management of the P. S. A. L. This grand meet on October 9, 1909, was held at the American League Base Ball Park, at Broadway and One Hundred and Sixty-sixth Street. More than 100 schools sent representatives to compete in the games. There were 1,500 contestants entered in the various events. The "bleachers" were crowded with school children. The grand stand, reserved for the school principals and teachers, was well filled, and in the boxes werre many distinguished guests. In all 20,000 persons witnessed the stirring athletic contests, on an afternoon of perfect weather for outdoor sports. Music was furnished by the uniformed Huyler band of boys from P. S. 21, Manhattan, under the leadership of the Principal, John Doty.

Following is a summary of the results of the meet:

ELEMENTARY SCHOOLS SOCCER FOOT BALL.

Note.—For rules on "Soccer Foot Ball" see Rules II, III and IX, "Athletic Rules."

Public School 62, Manhattan, won the third annual soccer tournament for elementary schools and the Clarence H. Mackay Trophy for the city title.

Every game proved that the teams entered in this tourney were carefully coached, and the playing of the leading teams compared favorably with that of more mature and more experi-

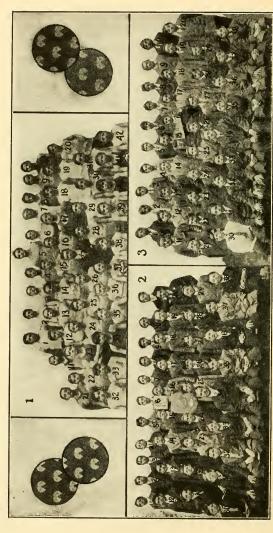

enced players.

At the close of the scheduled season, during the fall of 1909, it was found that Public Schools 62 and 24, both of Manhattan, were tied for first place with eleven points, both having five games and one tie to their credit. Public School 24 had won the city title during the previous season.

The representative of both teams agreed to play off the tie at Crotona Field on the afternoon of December 18. The day was ideal. The bright sky and bracing air put the players in a mood to put forth their best efforts. Three thousand spectators covered every inch of the standing room on and about the grand stand. Incessant cheering marked the course of the game. Public School 62 won by the score of I goal to o.

ELEMENTARY SCHOOLS INDOOR CHAMPIONSHIPS ATHLETIC MEET.

Note.-For rules see Rules II, III and VII, "Athletic Rules."

The seventh annual elementary schools indoor championship was held in the Forty-seventh Regiment Armory on the afternoon of December 11, 1909. From every point of view this was one of the most successful indoor meets ever held. One thousand and sixteen boys competed in this championship.

Eighty-two relay teams were pitted against each other, repre-

senting four weight classes as follows:

85-lb. class	35	teams
100-lb. class	24	teams
115-lb class	14	teams
Unlimited class	9	teams

Every seat was taken and every inch of standing room in this largest of large armories was covered by thousands of boys; yet not one unruly act marred the afternoon's happenings.

The John Huyler Band of Public School 21, Manhattan, filled the armory with concords at such time as vent was not being

given to the enthusiasm of the onlookers.

The records made in the events were remarkable. Seasoned athletes, who officiated, were filled with astonishmnt. The results bespoke persistent, patient, effective training.

Not a hitch was there from the time of the first pistol crack until the footfall of the last person in the armory reverberated

from wall to wall.

Public School 6, Manhattan, scored 13 points and won the city

championship trophy, "The Sprinter."

In previous years the four weight divisions were 80-lb., 95-lb., 115-lb. and unlimited class. Before the time of this meet, however, these were changed to 85-lb., 100-lb., 115-lb. and unlimited weight classes. All marks in the 85-lb. and 100-lb. classes constituted new records.

The relay team representing P. S. 96, Manhattan, ran the 880-yard for the unlimited weight class in 1m. 47 3-5s.,—4-5 seconds below the former record. L. Lavine of P. S. 131, Brooklyn, in the 115-lb. weight division put the 8-lb. shot 36 ft. 7 1-2 in.—former record was 34ft. 61-4in. H. Springain of P. S. 10, Manhattan, in the standing broad jump for the 115-lb. class added a half inch 10 the former record of 8ft. 91-2in. H. Baker of P. S. 9, Brooklyn, added 11-2in. to the former record of 5ft. 11-4in, in the running high jump for the unlimited weight class.

1—W. Strachan, 1.S. 10, Bronx, winner of 100 yards dash, unlimited weight class, indoor championships. 2—A. Gini, P.S. 3, Manhattan, winner of running high jump, 85-lb. class, novice games, June 20, 1910. 3—F. ELEMENTARY SCHOOLS BASKET BALL TOURNAMENT.

Note.—For rules on "Basket Ball" see Rules II, III and VIII, "Athletic Rules."

The junior and senior basket ball teams of Public School 62, Manhattan, lost not a single game in the tournament for the city championship. Their senior team won both the Patrick Jones Trophy for the heavyweight championship of the Borough of Manhattan, and the Pratt Trophy for the city title. The lightweight team was awarded the Vanderbilt Trophy for the city title.

Seventy-seven teams, representing forty-nine schools, took part in the tournament. A series of games were arranged by the Basket Ball Committee in each borough. After the borough champions had been determined, a series of eliminating interborough matches determined the city champions. These interborough games were played in armories, and at no game were there less than two thousand hopeful, wildly excited, cheering partisans.

P.S. 62 WINS INDOOR BASE BALL TROPHY.

The indoor baseball team of P.S. 62, Manhattan, won the city championship in the final game played in the Twenty-second Regiment Armory on the afternoon of April 16, 1910, against the nine representing P.S. 83, Manhattan. Otto T. Bannard donated a trophy, "The Battery," for the winners of the city title.

More than three thousand "rooted" for their respective partisans at this final game. The cheering from the North Gallery, the P.S. 83 side of the armory,—showed the effect of much drilling and practice and would have done credit to a college aggregation; but it was all in vain. The nine from 62 was the steadier at critical times.

This game was the final contest of a tourney in which twenty-one teams represented Upper Manhattan, Lower Manhattan, Brooklyn and the Bronx. The winners in each section were first determined by a round robin series. Public School 83 won the Upper Manhattan, P.S. 62 the Lower Manhattan, P.S. 152 the Brooklyn and P.S. I The Bronx Championship. These four-teams competed in the semi-finals in which all except the nines from Public Schools 83 and 62 were eliminated.

This indoor tournament was inaugurated this year and its success even at the time of beginning augurs well for the coming seasons, as the playing of indoor base ball serves to prepare the contestants for the outdoor season and is very

popular.

RECORDS BROKEN AT THE ELEMENTARY SCHOOLS' SWIMMING CHAMPIONSHIP.

Note.—For rules on swimming see Rules II and III, "Athletic Rules."

P.S. 128, Brooklyn, won the fourth annual elementary schools swimming meet held at the Sixtieth Street Baths, Manhattan,

Saturday, April 23, 1910.

Two records were broken: J Nerich, a little 80-pounder, swam 20 yards in 11 3-5 seconds—1-5 of a second faster than the former record made by J. Fulton of P.S. 67, Manhattan. Daniel McMahon covered the 40-yard swim for youngsters under 95 pounds in 28 1-5 seconds—1 3-5 seconds faster than the record established last year by S. Lothian of P.S. 58, Manhattan. The officials present marveled at the ability of these mere youngsters to effectively use both trudgeon and crawl strokes. Their efforts bespoke months of training during the summer and many an hour spent in swimming tanks.

1—F. Goodwin, P.S. 5, Manhattan, winner of 100 yards dash, unlimited weight class, outdoor championships, 1910, 2—H. Meserole, winner of running broad jump, 100 lb. class, elementary outdor novice meet. 3—J. Levine, P.S. 131, Brooklyn, winner of 8-lb. shot-put, indoor championships, Dec. 11, 1909. 4—H. Klauber, P.S. 23, Bronx, winner of 60 yards dash, 100-lb. class, novice, June 20, 1910. P.S. 14, Manhattan relay team—5, Sheers; 6. Shea; 7, Becker; 8, Weiner; 9, Crone; winners 880 yards relay novice, June 20, 1910.

PUBLIC SCHOOL 83, MANHATTAN, WINS ELEMEN-TARY SCHOOL NOVICE MEET.

Note.—For rules see Rules II, III and VIII, "Athletic Rules."

Public Schools 83, 10 and 62 all of Manhattan fought hard for the trophy emblematic of the Novice Championship at the time of the Track and Field Meet held at Crotona Athletic Park on Monday, June 20, 1910. After the final event was decided Public School 83 had scored 16 points, whereas Public School 10 of Manhattan, their nearest competitor, had made 13 and Public School 62 secured third place with 10 points.

Despite the fact that these were only novice events, in the 60 and 100-yard sprints the winners equalled the best time ever

made in Elementary School Championship meets.

In the 60-yard dash H. Klauber, the 100-lb. sprinter, of Public School 23 of The Bronx, won in 7 seconds, equalling the best previous outdoor mark. J. Orlando, a heavyweight runner from P.S. 83, Manhattan, covered the 100 yards in 11 seconds.

PUBLIC SCHOOL 27, MANHATTAN, WINS ALL RELAY RACES.

For rules see Rules II, III and VIII, "Athletic Rules."

By winning every relay race on the programme the athletes wearing the colors of Public School 27, Manhattan, captured the city championship in the Elementary School Track and Field Meet held at Crotona Athletic Park on the afternoon of June 25, 1910.

1—M. Frank, winner of high jump, 85-lb, class, outdoor championships, 2—A. Schlossberg, winner of 60 yards dash, 100-lb, class, indoor championships, 3—L. Salis, winner of 50 yards dash, 85-lb, class, outdoor championships, 4—M. Rosenberg, winner of running broad jump, 115-lb, class, outdoor championships.

PUBLIC SCHOOL 62, MANHATTAN.

The boys from the East Side scored 29 points, their nearest rivals, boys of Public School 62, finishing second with 23. No new records were made. Five new marks were established owing to the new weight classification in several of the events.

F. Goodwin, Public School 5, Manhattan, in the 100-yard final, finished in II seconds, equalling the record for that distance. B. Levinson of Public School 148, Brooklyn, in his heat, also covered the same distance in the same time. In the final

Levinson was beaten by a few inches.

The thousands of children present cheered every effort whether it was by representatives of their respective school or that of another school and the games themselves were run off in record time, with not a single hitch, despite the large number of entries.

world's greatest competitions. In the class jumping alone, sixty thousand boys took active part, and thirty thousand sent the results of their jumps to the office of the Public Schools Athletic

League.

There are three separate contests. The broad jumping contest is held in the fall, the chinning during the winter, and the running in the spring. Those are competitions in which the average of the class is the deciding mark or time. In the test held in the fall each boy in the class takes three jumps. The highest jumps of each boy in the class are added and averaged. The highest results obtained by classes of the fifth, sixth, seventh and eighth years are then forwarded to the Secretary of the League. Eighty per cent of the register of each class must have competed, otherwise the results forwarded will not be considered.

Officials of the League then test the highest classes in each borough to determine the borough winners. A record will not stand unless it is higher than that of any other reported result.

In the chinning test the same procedure is gone through. In the class running, the manner of testing is different. The boys line up back of the starter; when the judge at the finish drops his handkerchief as the signal to the effect that the first runner has crossed the finish line, the second runner starts, and so on until the last boy has covered the distance. Then the time that it has taken the entire class to cover the distance is divided by the number of boys in the class.

As the performance of each boy has its definite bearing on the record of the class, pressure is brought to bear on the less active boys by the other members of the class in order to compel

laggards to practice faithfully so that the class may win.

Public School 32, Bronx, achieved wonderful results in the broad jumping. They not only annexed the broad jumping title for their own borough, but also that of Greater New York. They also broke the former record of the seventh year, raising the old mark of 7ft. 1.6562in. to 7ft. 2.3281in.

RECREATION PIERS FOR CLASS ATHLETICS.

At the request of Gen. George W. Wingate, President of the Public Schools Athletic League, Commissioner Tompkins of the Department of Docks, granted to the League during the month of May the use of the Market Street, Barrow Street, East Third Street and East 24th Street piers. Teachers were placed in charge of these piers each afternoon and the athletes

1, Schmidt; 2, Dickesheid; 3, Malone; 4, Smallen, Coach; 5, Henry; 8, Kavanagh, Mgr.; 7, Petty; 8, Donahue; 9, Shannon; 10, McCarthy; 11, Slater; 12, Gilmartin; 13, Keane; 14, Shaw.

from the schools nearby practiced class athletics there, in place of upon the adjacent streets in the neighborhood of the schools. This experiment was an unqualified success inasmuch as at very little cost to the city thousands of boys were given an opportunity to train under proper conditions.

During the month 2,265 boys trained upon the pier at the foot of Market Street; 1,792 boys upon the pier at the foot of Barrow Street; 2,725 boys upon the pier at the foot of East Third Street and 2,730 boys on the pier at the foot of East 24th Street.

Upon these piers the teachers in charge marked the distances to be covered by those competing in class athletic contests, and instructors from the schools came to these piers with their entire classes in order to know what average time the class could make.

ELEMENTARY SCHOOL BASE BALL TOURNAMENT.

During the spring of 1910, eighty-four base ball teams entered and competed for the city title during the latter half of April and the first half of May. In each district the teams therein competed under the direction of the Chairman of the Games Committee of that District Athletic League for the district title. After the winners in each district had thus been determined, at a meeting of the teachers in charge of the teams that had won the district titles, a borough schedule was made up and in this way before the end of May, borough champions had defeated contenders for that title.

During the last month of school a round robin series was played between the teams that held the borough championships. Public School 28, The Bronx, won the city title. Public School 46, Manhattan, won the Huyler Trophy, emblematic of the Borough Championship. Public School 28, The Bronx, won the Spalding Trophy; Public School 9, Brooklyn, the McCarren Trophy; Public School 6 of Queens, the Brooklyn Eagle Trophy and Public School 12, of Richmond, the Spalding Trophy.

For the second time Public School 28, The Bronx, thus was awarded the Spalding Trophy "Play Ball," for one year—emblematic of the City Championship. That school also won the Herald Plaque for scoring the highest number of runs against its opponents and the Herald Trophy for having the least number of runs scored against it.

S. Shannon of Public School 28, The Bronx, headed the list of batters with an average of .437, winning the *Herald* prize therefor. Eleven elementary schoolboys had a batting average of .300 or better.

THE ELEMENTARY SCHOOLS' OUARTER-MILE SKATING RACE.

In order to ascertain whether or not there was sufficient interest in ice skating to warrant its adoption as a sport by the League, a quarter-mile race was held in the St. Nicholas Rink

on the morning of February 5, 1910.

This event was closed to elementary school boys. Fifty-three boys started in the four heats. F. N. Fanning, of Public School 166, had little difficulty in winning both his heat and the final with C. Williams, of Public School 179, as the only boy who was able to stay at his heels for any length of time.

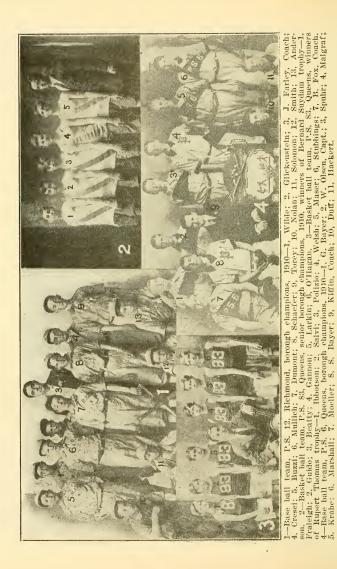

Neither the high school nor elementary school boys showed

sufficient interest to warrant the adoption of the sport.

Cornelius N. Fellows, Jr., presented the medals for the event. He also offered sets of medals for high school events, but the High School Games Committee ruled that as only two schools had sent in entries, no high school events would be held.

CROSS-COUNTRY CHAMPIONSHIP.

Note.—For rules on "cross-country running," see Rules II, III and XI, "Athletic Rules."

Celtic Park Course, December 4, 1909.

The cross-country team of the Manual Training High School of Brooklyn won the cross-country championship of the League and the William L. Jones Trophy therefor. The course covered was 3½ miles—three laps, over the hills and dales near Celtic Park, Long Island. Ten teams, with a total of 71 runners, took their places at the start.

Prior to the time that the competitors were lined up in preparation for the crack of the starter's gun, every one had been given a thorough medical examination, and as a result of this innovation, every boy who ran was known to be physically fit.

It so happened that every runner finished the race.

Only two members of the victorious team were among the first twenty-one to finish, yet when the scores were computed after the struggle it was found that Manual lead with a total of 89; DeWitt Clinton second, with only one point more, and the representatives of Commerce, last year's champions, in third place, with a score of 119.

After the first three minutes of the race, F. Ruggiero of Mor-

ris lead the pack and was never passed thereafter.

HIGH SCHOOL INDOOR CHAMPIONSHIP GAMES.

Note.—For rules, see Rules II, III and VII, "Athletic Rules." For the fourth consecutive time the Manual Training High School won the point trophy at the High School Indoor Championship, held at the Twenty-third Regiment Armory, on January 29, 1910.

As the three previous victories entitled the Manual Training High School to the permanent possession of the all-around championship trophy, "The Sprinter," Edward M. Grout presented a handsome new trophy, "The Roaring Lion." This was

won by Manual.

An innovation was the addition of events, closed to evening high schools. A large entry list and close finishes made these

events a decided success. The Harlem Evening High School

scored 16 points.

Several new records were made. In a semi-final heat of the 100 yards dash, J. Ravenell, of the High School of Commerce. covered the distance in 102-5 seconds, 2-5 of a second better than the previous record of L. Perkins, of the High School of Commerce, that had stood since 1906. Ravenell was not hard pushed in the final, so that the latter heat was covered in slower

Last year P. J. Coffey, of the Bryant High School, set the mark for the 12-lb. shot at 44 feet 8½ inches. At this year's games, this sturdy high school student set the record at 48 feet 3 inches.

The 100-lb, relay team of the Manual Training High School ran and won their race in 52 2-5 seconds, 3-5 of a second better

than the former record.

The High School of Commerce Freshman relay team lowered the former record of 1 minute 44 1-5 seconds for the 880 yards relay to 1 minute 43 2-5 seconds.

In the 220 yards senior dash, A. Van Winkle, of Boys' High,

equaled the record of 25 3-5 seconds.

Manual Training scored 34 points; Commercial, 21; Boys', 14, and DeWitt Clinton, 12.

Note.—For rules on "Basket Ball," see Rules II, III and VIII, "Athletic Rules."

For the second time in as many years, the basket ball team of the Stuyvesant High School won the city high school championship and the Dodge Trophy emblematic of that title.

The Stuyvesant School "five" won every game that it played

in the series. At many stages in the tournament both Newtown and Commerce High pushed the winners for first place; but the brace of the last two named did not succeed in wresting

first place from the rangy Stuyvesant lads:

Newtown High made a strong finish, winning their last five games, and they have a clear title to second place; Commerce, the third team, after having scored six straight triumphs. lost the last three games. Unlike Commerce, DeWitt Clinton did not begin the season so well, but finished strong.

The standing of the teams at the end of the tournament

were as follows:

HIGH SCHOOLS OUTDOOR NOVICE AND CHAMPION-SHIP GAMES.

Note.—For rules see Rules II, III and VII, "Athletic Rules" As at the time of the Championship Track and Field meet last year, the fellows representing the Manual Training High School again carried off the laurels in the Annual Outdoor Meet held at Crotona Athletic Park on the afternoon of May 28, 1910. The team of Commercial High School came second Only two points separated the two Brooklyn institutions, Manual winning by a point score of 25.

Four records were broken and one was equalled.
P. Coffey of the Bryant High School put the 12-lb. shot 49ft. 43-4in. The record which he established last year was 47ft. 3-4in.

THE GEN. GEORGE W. WINGATE MARKSMANSHIP TROPHY.

Frank Finnegan made a new schoolboy record for the discus, Greek style, by hurling the weight 130ft. 3in., which is almost

18 feet further than the former mark.

E. Stevens, of Manual Training High, broke the record in the running high jump by clearing the board at 5ft. 10in., as did both B. Googins of Boys' High and A. Belcher of Jamaica High in the pole vault. Both vaulted 10ft. oin., the old record being oft, 10in.

The Morris High School won the Novice Meet with 28 points,

Manual Training finishing second with 20.

HIGH SCHOOL CHAMPIONSHIP RELAY RACES.

The Novice and Championship Relay Races were run as a separate meet at the Brooklyn Athletic Field on the afternoon of Friday, June 3, 1910. Twenty-two teams were entered in

the four relay races.

The running of a quarter-mile in 51 4-5 seconds by Frank Finnegan, a member of the Manual Training High School "four," coupled with a performance of 524-5 seconds by Wheeler, a team mate, helped their team to establish a new record for the one-mile unlimited weight relay race.

The Townsend-Harris Hall 120-lb. team also broke a record when it lowered the time for the half-mile relay to I minute 38 3-5 seconds, clipping 12-5 seconds from the former record.

SUMMARIES.

440 yds. relay (100-lb. class)—52 3-5s.; Townsend Harris Hall (E. Hauser, S. Bayer, G. Kallmann, S. Hoffman), won; Manual Training H.S. (A. Reed, P. Harper, A. Dede, J. Cain), second; DeWitt Clinton H.S. (Horowitz, Baden, Quinlan, Saunders), third; Newtown H.S. (E. Groh, F. Hophe, C. Pross, H. Wetzen), fourth.

880 yds. relay (120-lb. class)—1m. 38 3-5s.; Townsend Harris Hall (C. Weg, L. Levine, A. Von Bonin, O. Tabor), won; DeWitt Clinton H.S. (Slattery, Schlessinger, Gittleman, Trenholm), second; Manual Training Il.S. (P. Luce, E. Orvis, H. Sulzbach, A. Lance), third; Eastern District H.S. (Nathans, Shimkin, Tirsch, Sherman), fourth.

1 mile (unlimited weight class)—3m. 33 3-5s.; Manual Training II.S. (E. Stevens, F. Wheeler, F. Finegan, C. Drew), won; DeWitt Clinton II.S. (Gilbert, Brady, Foerster, McDonald), second; Erasmus Hall H.S. (Balcom, Renfrew, Stahman, Lewis), third; Newtown H.S. (G. Card, L. Levy, J. Karle, H. Spancard), fourth.

HIGH SCHOOL BASE BALL TOURNAMENT.

Ten High Schools competed during the spring of 1910 for the High Schools' Base Ball title. These were divided into two divisions, the Manhattan-Bronx-Richmond division included the High School of Commerce, DeWitt Clinton, Curtis, Morris, Townsend-Harris Hall and Stuyvesant High Schools. The High School of Commerce and the DeWitt Clinton nines at the conclusion of their series were tied for first place in this division. When the tie-off was played, the former was the victor. Commercial High School, Erasmus Hall Manual Training

and Boys' High School made up the Brooklyn Division. The

first named won the series which this "four" played.

RELAY CHAMPIONSHIP TROPHY FOR BOROUGH OF BROOKLYN-"AMERICA."

Donated by Neils Poulson.

Before the time of playing of the final game for the City Championship at Washington Park, Brooklyn, on June 29, 1910, the battery of Commercial High School was protested. The High School Games Committee ruled at their last meeting for the year that this battery was ineligible, but inasmuch as the protest was carried to the higher Games Committee of the League by Commercial, and as it was too late to hold a trial before the final game was ordered to be played, the Chairman of the Games Committee, James E. Sullivan, ordered that if Commercial High used this battery, it took the chance of forfeiting the title as the charge made against the battery would be tried before the Public Schools Athletic League Games Committee in the fall. Commercial won this final game by a score of 8 to 2 with the protested pitcher and catcher in their respective positions.

Eighteen high school players had a batting average of .300 or better. Z. Erhard of the High School of Commerce stood at

the head of the list with .588.

SCHOOLBOY RIFLE AND SUB-TARGET RIFLE SHOOT-ING TOURNAMENT.

The Second Annual Tournament, under the auspices of the League, was held at Madison Square Garden in connection with the Sportsman's Show.

Although the facilities were greatly improved over last year it was hardly possible to accommodate all the boys at the ranges. The eleven ranges were in constant use, and at the end of the tournament it was found that over 24,000 rounds of ammunition had been used during the week.

The results this year were far beyond those of last year. This may not seem so if the scores are compared, but be it understood that the target used this year was of an entirely different counting system than that used the previous years.

The team matches as a whole were close. These schools divided the five-team trophies, namely, Morris winning three, Manual Training one, and DeWitt Clinton one. The individual

matches were also fairly well distributed.

The Union Metallic Cartridge Championship Cup went to Curtis High School for the second time in three years. Wiechers of Curtis proved himself the champion schoolboy shot by scoring 1,506 points out of a possible 1,580. Ehrlich of Morris was second, with 1,497, and Krefeld of Clinton third, with 1,494. Two hundred and sixty junior marksmen medals were awarded this year, as compared to 154 last year.

Although the League has endeavored to interest private schools and military academies in this shooting tournament, it is a matter of regret that only one school took advantage of the invitation. We would like to see all schools having rifle teams join us at these annual tournaments. True sportsmanship is here plainly demonstrated. There is no jollying, no joshing, and no unnecessary noise while the various teams are competing. All conversations are carried on in a low tone so that the competition be not disturbed; and at the conclusion of the match, instead of hearing the school-yell followed by a snake dance, there is the quiet "Good luck, boys," and general hand shaking all around.

The success of the tournament was due to the management of Mr. Emanuel Haug, Chairman of the Board of Rifle Coaches, Captain George W. Corwin, Ordnance Officer of the Seventy-first Regiment, N. G. N. Y., and to the Board of

Coaches.

The League takes this opportunity of publicly expressing its appreciation to all the honorary officials who have by their words of endorsement assisted us, and also to those who have, by their actual atendance as range officers, etc., so ably helped to make this tournament a great success.

To the Board of Coaches the League conveys its appreciation for the services rendered during the year in giving their

valuable time to promoting this branch of activities.

The result of this tournament is as follows:

National Rifle Association Medal for affiliated organizations awarded to M. M. Wiechers, of Curtis High School, for the

best record.

National Rifle Association Medals for affiliated school clubs awarded as follows: Morris High School, H Lincius; Boldt, awarded as follows: Morris High School, H. Linicus; Boldt, DeWitt Clinton High School; Voorhees, Manual Training High School; Von Buskirk, Erasmus Hall High School.

MORRIS HIGH SCHOOL GUNNERS WIN SUB-TARGET CHAMPIONSHIP.

At the conclusion of the annual round-robin series of shooting matches between the teams representing the high schools of New York City, Morris High School, DeWitt Clinton and Bryant High were tied for first place. This tournament was held in the fall of 1909. The Board of Rifle Coaches decided that the tie be shot off on April 23, 1910, on the ranges of the Seventy-first Regiment Armory. The Morris High School team won this sub-target championship, defeating the DeWitt Clinton High School representatives. The respective totals were 267 and 254. The Bryant High School team did not compete.

As a result of the round-robin series before the time of the final shoot off to decide the tie, Bryant High School, DeWitt Clinton and Morris teams had each won six and lost one dual shoot. Both Erasmus and Boys' High had won three and lost three; Stuyvesant had won two and lost five; Manual won one

and lost six: Commerce won none and lost seven.

DEWITT CLINTON SHOOTING TEAM WINS WHITNEY TROPHY. WITH MARKSMEN SCORE OF 246 POINTS, IN SUB-

TARGET COMPETITION.

Sharpshooters representing the DeWitt Clinton High School won the Harry Payne Whitney Trophy for sub-target shooting in the annual competition held on the afternoon of April 29th and the morning of April 30th, on the ranges of the Seventyfirst Regiment Armory. The marksmen from DeWitt Clinton scored a total of 246 points, winning from the Morris boys by a margin of two points. The latter team won the trophy last year with 241 points. The sub-target gun was sighted at a distance of 200 yards.

An unusual number of perfect scores was recorded; Hubbard, Krefeld and Brown of DeWitt Clinton, Phelps and Linicun of Morris High, and Reeve of Erasmus Hall were the

honor men.

ASTOR CUP IS WON BY DEWITT CLINTON. CAPTURES RIFLE SHOOTING TEAM CHAMPIONSHIE FOR SCHOOL BOYS MORRIS HIGH SECOND.

The efficiency shown by the rifle shooting teams of the Public Schools Athletic League is proved by the fact that the DeWitt Clinton High School team of the League won the second annual competition among the preparatory, public and private schools of the United States for the Astor Cup and the rifle shooting team championship for the year of 1910. The match is held under the jurisdiction of the National Rifle Shooters of America and is shot by school teams on home ranges under the supervision of judges appointed by the National Association. The match was open to teams of ten pupils from any public or private school not conferring a degree. Not only did one of the League teams win the trophy, but the Morris High School team, also of this League, was second. This is the second time that the trophy has been won by a public school of the City of New York. The scores of the winning team compared favorably with college or civilian club teams which shoot under similar conditions. The winning team scored 1,821 points, an average of 1821 out of a possible 200 per boy. A member of the DeWitt Clinton team also carried off honors for the best individual scores; William Krefeld made a score of 93 standing and 97 prone, or a total of 190

SHOOTING TROPHY WON BY MORRIS HIGH SCHOOL.

The Morris High School shooting team won the Wingate Trophy for the school, making the highest total as the result of the number of boys who qualified as marksmen and sharp-shooters therein. In this competition the total number of marksmen who qualified in the test is multiplied by two and the total number of sharpshooters is multiplied by three. The school which then has the highest total is awarded the prize. Upon this basis the crack shots of Morris High received the highest tally, the total being 179. The second honors were awarded to Curtis with a total of 141 points; DeWitt Clinton High was third with 98 points The score is as follows:

MANUAL TRAINING HIGH SCHOOL TENNIS PLAYERS WIN CITY CHAMPIONSHIP.

Ten high schools were represented. Clinton finished second. The Manual Training High School tennis team won the championship of Greater New York when, on June 3, 1910, on the

courts of the Knickerbocker Field Club of Brooklyn, it deleated the representatives of DeWitt Clinton by a score of 3—0.

DeWitt Clinton had succeeded in winning first place in the Manhattan-Bronx-Richmond Division of the tournament and met the Manual Training players, holders of the Brooklyn-Queens Division title.

Ten high schools took part in the tournament.

PUBLIC SCHOOLS ATHLETIC LEAGUE FOSTERS LACROSSE.

The High Schools Games Committee voted that it would be well for the Public Schools Athletic League to foster lacrosse and two of the representatives coached teams that have had a

successful season.

On Friday, June 3, the team representing the Boys' High School played against that of Manual Training High School at the Crescent Athletic Club field in Bay Ridge, and the former was victorious by a score of 3—2, thus winning the scholastic Lacrosse Championship of Greater New York. This victory brought with it a handsome trophy, emblematic of the title. The trophy was presented by Colonel R. M. Thompson, an ardent lacrosse enthusiast.

Hints on Training

I. Always warm up slowly and cool off gradually when finished.

2. Stop practice before you are exhausted.

3. Dress lightly for practice or competition, but put on warm clothing at once when you have finished.

4. Practice regularly; a little each day, if possible. Have regular hours for eating and sleeping.
 Don't Smoke.

TRAINING SCHEDULE.

FOR RUNNERS.

(a) Warm up; never fail to do this.

(b) Practice five or six starts. Before taking the line trot a dozen steps up the track and back. On the start run at full speed about twenty yards; slow up gradually and walk back to the line.

(c) Wait a minute; take a few deep breaths; trot a few steps and repeat the start, running a few yards further than before. After two or three trials put as much speed as possible into the start, run moderately for a few yards and finish at top speed.

(d) Once a week run your full distance at top speed. This

may be done oftener for distances under 100 yards.

(e) Always end practice by walking about until breathing becomes nearly normal; then take a rub down and dress.

FOR JUMPERS.

(a) Warm up.

(b) Devote a large part of the practice to getting the "take

off" properly.

(c) Decide which foot you will jump from, then starting on this foot from the "take off" run back six, eight or some even number of strides and mark off the spot where you strike on your last stride. Let your jumping foot strike this mark in the run to the "take off." Run with the natural stride until the last two paces, which may be lengthened a few inches. If you do not hit the "take off" right, move your starting mark backward or forward by just the distance that you go over or fall short. Some jumpers have two marks. This is often helpful; the first mark serving as a guide to bring the jumper to the second mark on the proper stride.

(d) At first try easy jumps, raising the knees quickly and as high as possible when the jump is being made. Practice this until you learn how to land and to control your body while in the air.

(e) Do not try for height or distance in the high and broad jump more than once or twice a week, and take a good rub down

and dress quickly when you have finished practicing.

FOR SHOT PUTTERS.

(a) Warm up by swinging the arms, bending the body and springing forward, at the same time giving the body a sharp turn forward and to the right.

(b) Practice should be done from a stand so as to get the spring with the legs, the turn and lunge of the body and the

heave with the shoulders.

(c) Before making a put always limber the muscles of the arm and shoulder by stretching the arm up to its full length.

(d) Use a light shot until the fundamental motions are mastered.

FOR HURDLERS.

(a) Warm up and practice starts the same as for running. (b) Practice with one hurdle at first to get the stride and to

overcome any hesitancy in taking the hurdle.

(c) Go no higher than is necessary in clearing the hurdle. Both time and strength may be saved in this way.

(d) Later practice with two or three hurdles, aiming to get a uniform stride between the hurdles and to maintain a good balance. A good preliminary exercise is to raise the legs alternately, bringing the knees to the level of the armpit.

(e) Once or twice a week take the full number of hurdles

for time.

WARMING UP PROGRAM.

(a) Take a dozen steps, rising slightly on the toes at each step. (b) Trot a dozen steps. Repeat, swinging the arms at the sides.

(c) Trot thirty steps, lifting the knees well at each step. Repeat, lifting the heels high.

(d) Take several deep breaths. Now trot fifty steps at a good swinging pace, then walk fifty.

(e) Breathe deeply.

Always do this, no matter what your event may be

Athletic Courtesy

The League endeavors to foster clean sport between gentlemen. The following statements express the spirit to be sought and maintained in such sport. It is the privilege and duty of every committee and person connected with the League to embody these principles in his own actions and to earnestly advocate them before others:

(1) The rules of games are to be regarded as mutual agreements, the spirit or letter of which one should no sooner try to evade or break than one would any other agreement between gentlemen. The stealing of advantage in sport is to be regarded in the same way as stealing of any other bind.

in the same way as stealing of any other kind.

(2) Visiting teams are to be honored guests of the home team, and all their mutual relationships are to be governed by the spirit which is understood to guide in such relationships.

(3) No action is to be taken nor course of conduct pursued which would seem ungentlemanly or dishonorable if known to one's opponent or the public.

(4) No advantages are to be sought over others except those

in which the game is understood to show superiority.

(5) Officers and opponents are to be regarded and treated as honest in intention. When opponents are evidently not gentlemen, and officers manifestly dishonest or incompetent, future relationships with them may be avoided.

(6) Decisions of officials are to be abided by, even when they

seem unfair.

(7) Ungentlemanly or unfair means are not to be used even

when they are used by opponents.

(8) Good points in others should be appreciated and suitable recognition given.

Athletic Rules

RULE I.

ATHLETIC MEMBERSHIP.

The Public Schools Athletic League recognizes as athletic members all Public School boys, members of Elementary and High Schools and College of the City of New York, who take part in athletic competitions that are given under the direction of the League.

RULE II.

(a) General.

ELIGIBILITY.

Attendance of at least thirty school days shall be required of all pupils before they shall be entitled to represent the school in athletics.

Boys taking part in unsanctioned events render themselves

liable to suspension.

Only those pupils who maintain a grade of scholarship which will entitle them to promotion (if continued without improvement) shall be entitled to represent the school in athletics.

No pupil, under penalty of discipline in his school, shall be eligible to represent such school, the Principal of the school to be the sole judge concerning this.

Only those pupils who are in good standing as amateurs shall be eligible to represent their school.

Boys who maintain their amateur standing may participate in

athletics during the summer vacation.

All boys are considered eligible for class athletics, and also for competition limited to the members of the school to which they belong, subject to the approval of their principal.

(b) Elementary Schools.

Elementary school boys are allowed to represent both their

church and their school in athletics.

No boy who has represented any outside organization shall be eligible to compete for any school organization of this League until twenty school weeks have elapsed from the time of such competition, except that summer schools and vacation playgrounds under the jurisdiction of the Board of Education and public playgrounds under the Park Department are not considered outside organizations. Outside organizations which school boys may not represent and still be eligible to represent their schools are such as athletic clubs with a formal constitution and by-laws, Y. M. C. A.'s Settlements, Evening Recreation Centers, etc. This rule is also intended to apply to the various clubs formed within these organizations; that is, a boy may not represent in athletics a club of one organization against a club of another organization and still be eligible to represent his school, because such clubs are really departments of these organizations. This does not in any way debar boys from taking part in athletic competitions that are closed to their own organization, even though it may be between different clubs within that organization.

No elementary school pupil coming from another school shall represent the school unless he has attended the school for

twenty school weeks, except

(a) He has been promoted from one school to another;

 (b) He has been transferred from one school to another by order of the District Superintendent or the Board of Superintendents;

(c) He has been transferred on account of a change in

residence:

(d) He has been admitted from a school outside the public

school system of Greater New York.

In order to be eligible for athletics, elementary boys must have received for the month previous a mark of at least "B" in effort, proficiency, and deportment.

Elementary school boys are allowed to enter one event only

at any set of games.

Spiked shoes not allowed in any athletic competition.

No entry shall be accepted unless countersigned by the Principal of the school.

(c) High Schools.

No high school pupil shall represent his school unless he has attended a school for twenty school weeks, except

(a) He has been promoted from an elementary school where-

upon he shall be eligible immediately;

(b) He has been admitted from a school outside the New York Public Schools, whereupon he shall be eligible after an attendance of twenty school days.

No boy shall represent any high school in any branch of athletics who has represented any outside organization, or has played on any other team, organized or unorganized, until twenty school weeks have elapsed from the time of such competition.

No high school pupil who has reached the age of twenty-one shall be eligible to represent his school in any branch of athletics.

A boy shall be eligible to represent his school in athletics during any "marking" interval who has placed 14 hours (13 hours) of prepared work to his credit at the last rating in the office records.

Note.—In those high schools where physical training is not conducted according to the syllabus 13 hours, instead of 14, shall be considered as constituting eligibility.

N. B.—Drawing and shop work in manual training schools

shall count one hour for two.

Any extraordinary case shall be submitted to the High Schools

Games Committee.

A graduate of a three-years' course in the high schools who returns to take up post-graduate work is permitted to take part in athletics, providing he is eligible according to all the rules of the Public Schools Athletic League.

No pupil who is a graduate of a four-year secondary school

course shall be eligible to represent any school.

Only those pupils who are taking full work in a regular course

shall be eligible to represent the school.

No pupil shall be allowed to compete in the mile run unless he has reached the age of sixteen years and six months. No pupil shall be allowed to compete in the junior events if he is sixteen years old or older. A birth certificate shall be accepted as proof of a high school junior's age. If such certificate cannot be secured other evidence may be submitted to the High Schools Games Committee.

Any boy who has matriculated in any college or who has played on a college team shall not be eligible to represent a high school.

No entry shall be accepted unless countersigned by the Principal or the school's representative on the High Schools Games Committee.

Any high school pupil known to have bet or acted as agent for others in betting on athletic contests, shall be debarred from competition for one year.

Specials.

In all games under the jurisdiction of the Public Schools Athletic League net receipts and net losses shall be equally divided between the competing schools, except that in case of the visiting team objecting to assuming expense of fields selected by the home team. Visiting teams shall not share any profit and loss, but shall receive one-half of their traveling expenses.

For all games in the Public Schools Athletic League tournaments officials shall be furnished by the office unless both contesting teams agree upon other officials and give notice thereof

beforehand (at least one week).

RULE III.

CLASSIFICATION OF COMPETING ATHLETES.

Elementary Schools.

An elementary school boy shall be considered a novice until

he has won a medal in Public Schools Athletic League games open to all elementary schools, or, in an event sanctioned by the Public Schools Athletic League and open to all elementary schools of the city.

In track and field events, swimming, skating, etc., the following classifications are made: Midget, 80 pounds; light weight, 95 pounds; middle weight, 115 pounds; unlimited weight, boys

of any weight.

The Games Committee may arrange special classes of events to meet special needs. For example: events may be given for boys who have never even competed in a set of athletic games; or, weight classes may be arranged other than those regularly prescribed.

High Schools.

A novice in high school is an athlete who has never won a prize in competition that is open to two or more secondary schools or organizations, except that there shall be two classes of novices in high schools, namely, track and field, and the loss of noviceship in one class shall not debar a boy from competing as a novice in the other class. Boys entering high schools from elementary schools shall be considered novices in athletics.

In the High School Novice Championships, a boy who competes in the novice meet retains his noviceship throughout that

meet, this to include novice relay.

Members of a track team in the high schools that win a trophy shall not lose their noviceship unless they receive personal

prizes.

Where junior and senior events are given in high school games, boys under 16 years of age shall be considered juniors, and all other boys under 21 years of age shall be considered seniors. The boy's age on the date of competition shall determine the class in which he shall compete.

In events where weight classes are used the following classifications shall be recognized: Midget, 100 pounds; middle

weight, 120 pounds; unlimited weight, boys of any age.

General.

Boys will be weighed in athletic costume, minus shoes. A boy shall not be allowed to weigh in a second time in any set of games in case he is found to be over weight at the first weighing. The scales will be set at the weight specified for each class, and any competitor raising the beam so that it touches above shall be ineligible to compete. The average weight of teams will not be taken for relay teams. Boys found to be too heavy for the class in which they enter will not be allowed to compete in any other class.

RULE IV.

ATHLETIC BADGE COMPETITION.

The standards have been set as follows:

The Athletic Badge Test may be held at any time during the

year

The names of successful boys should be sent to the office of the Public Schools Athletic League not later than May I. During the month of May the official test will be held.

STANDARDS.

Class A .- Bronze Badge.

60-yard dash, 8 3-5 seconds. Pull up (chinning on bar), 4 times. Standing broad jump, 5 feet 9 inches.

Class B .- Bronze Silver Badge.

60-yard dash, indoors, 8 seconds.

(or) 100-yard dash, outdoors, 14 seconds. Pull up (chinning on bar), 6 times. Standing broad jump, 6 feet 6 inches.

NOTE.—All age, weight or height classifications are abolished in the Athletic Badge Test, and boys are given a Class A or Class B badge according to their qualifications.

CONDITIONS.

Only those boys shall be admitted to the Athletic Badge Test who received a mark of at least "B" for the month previous in effort, proficiency and deportment, and who are making satisfactory effort to secure good posture.

In order to win a badge a boy must qualify in all three events

in his class.

Winners of last year's badges are not debarred from competition.

RULES.

The following general rules shall govern the *final competition*. There shall be but one trial chinning, one in the dashes and three in the jumps.

60 Yards Dash and 100 Yards Dash.—The general rules of competition, as set forth in the P. S. A. L. Handbook, shall

govern this test, except there shall be no finals.

Chinning.—The boy shall extend himself to his full length before and after each pull-up, and shall be obliged to raise his body without a kick, snap, jerk or swing to such a height as to bring his chin higher than the bar.

Jumping.—The rules of the P. S. A. L., as set forth in the Handbook, Rules XXV. and XXVII., shall govern this test, except that, as there is no real contest, i. e., there is no striving for first, second or third places, the finals shall be dispensed with. With reference to false starts, a competitor shall be penalized in accordance with Rule X.

The following order of events is suggested:

Chinning, Jumping, Running.—As the first two events can in most cases be tried out at the schools, thus leaving the smallest possible number of boys to take the third test of running, which must of necessity be held at some armory or athletic field.

No boy shall be admitted into any contest who has not received a mark of at least "B" for the month previous in effort, proficiency and deportment, the Principal of the school to be

sole judge in this matter.

Duplicate lists of the successful competitors, classified as seniors and juniors, should be made out on blanks furnished by the Public Schools Athletic League. One copy should be forwarded to the Secretary of the League, and the other placed on file in the school.

The Public Schools Athletic League will furnish to each school an engraved certificate on which the names of the successful

candidates may be inscribed.

The Athletic Badge Competition shall take place once a year,

and the reports must be sent in before May 1.

The Juniors of the elementary schools shall receive a Bronze Athletic Badge; the Seniors in elementary schools shall receive

a Bronze and Silver Athletic Badge.

The Winthrop Trophy will be awarded for one year to the school that qualifies for the Athletic Badge and highest percentage of its enrolled grammar boys (fifth, sixth, seventh and eighth year pupils). Boys below the fifth year may compete for the Athletic Badge but are not to be counted in determining the school's percentage. The school reporting the highest percentage in the Athletic Badge competition will be officially tested, and if the percentage attained at the official test is still higher than any other reported percentage, the school will be awarded the trophy. If, however, in the official test the school falls below other reported percentages these other schools will be tested in the order of their standing until a school is found whose official percentage is higher than any other reported percentage.

Each school is expected to conduct its own tests. If assistance is required, application should be made to the Secretary of the

P. S. A. L.

Badges can be secured only through the Supply Department of the Board of Education. Requisition for the same is to be made in the usual manner.

High Schools—

220-yard run, 28 seconds.

Pull up (chinning on bar), 9 times. Running high jump, 4 feet 4 inches.

In order to be eligible for the Athletic Badge competition, a high school boy must maintain the same scholastic standing that

is required in other branches of athletics.

The competition for Athletic Badges in each high school shall be in charge of the school's representative on the High Schools Games Committee. He shall forward the names of the successful candidates to the Secretary of the League on blanks furnished by the League for this purpose.

The high school boys shall receive a Silver Athletic Badge. These tests may be held twice each year in high schools, but no boy shall receive more than one badge during any school year.

Reports must be sent in before June 1.

RULE V.

CLASS ATHLETICS, 1908-1909.

Athletics for All the Boys-

In this form of athletics a record is made by the whole class instead of by an individual.

At least 80 per cent. of the boys enrolled in the class must

take part in order to have the record stand.

The number taking part must not be less than eight.

Trophies to be held one year will be awarded in each Borough by the Public Schools Athletic League to the 5th, 6th, 7th and 8th year classes for the best Class Records made in each of the following events:

Standing broad jump, tested in the fall. Pull up, or "chinning," tested in the winter.

Running, tested in the spring.

(Distances for running: 5th year, 40 yards; 6th year, 50 yards; 7th year, 60 yards; 8th year, 80 yards.)

Classes may be tested as follows:

STANDING BROAD JUMP.

The best record made in three trial jumps is taken for each boy. The class record is determined by adding the individual records and dividing the total by the number of boys competing. Jumping must be done from a line. Many schools cannot have a "take off" without considerable inconvenience.

PULL UP (CHINNING).

The boy shall extend himself to his full length before and after each pull-up, and shall be obliged to raise his body without a kick, snap, jerk or swing to such a height as to bring his chin higher than the bar.

RUNNING.

In order to lessen the possibility of error in timing the competitors, the following method has been adopted: The boys are lined up behind the starting mark in the order in which they are to run; the timer, who also acts as starter, stands at the finish line and gives the signal for each boy to start. As the first runner crosses the finish line the second runner is given the signal to start. As the last boy crosses the finish line the watch is stopped. The record is found by dividing the time elapsed by the number of boys competing. If an ordinary watch is used the first boy should be started when the second hand is over the "60" mark.

Blanks will be furnished for reporting the tests, which are to

be sent in as follows:

Standing broad jump, on or before December 1. Pull up, on or before April 1. Running, on or before June 1.

Each school is expected to conduct its own tests.

All boys are considered eligible for Class Athletics, subject to

the approval of the Principal.

When the records are all in, the three classes in each Borough having the best records for their grade will be tested officially. If a record is then made better than any other record sent in, the trophy will be awarded to the class making it. If, however, the records made at the official test are lower than other reported records, the classes will be tested in order until a record is made at an official test that is higher than any other reported or official record.

The trophies are perpetual. They are in the form of a shield, with bronze plates for engraving the names of schools that win them from time to time. These trophies are offered for competition once each year. Each school winning a trophy will re-

ceive an engraved certificate as its permanent property.

This form of athletics is especially desirable, as it gives every boy an opportunity to take part, and the size of the school does not in any way affect the chances of winning a trophy.

The boys should practice by themselves in the yard, on the

street, at home, or elsewhere, prior to the tests. Frequent preliminary tests are recommended.

RULE VI.

CHAMPIONSHIP MEETS.

Indoor and outdoor track and field, base ball and basket ball championship meetings shall be held annually at such times and places and with such schedules of events as may be decided upon by the Games Committee.

Indoor and outdoor track and field Novice meetings shall be held at such times and places and with such schedules of

events as may be decided upon by the Games Committee.

All entries shall be sent to the Games Committee, which Com-

mittee may reject any entries it may deem objectionable.

The Games Committee shall choose all the officials for the Championship Meetings, and shall decide all questions concerning the competitions. RULE VII.

LIST OF CHAMPIONSHIP EVENTS.

There shall be special lists of championship events for the Elementary Schools, High Schools, and College of the City of New York.

ELEMENTARY SCHOOLS INDOOR CHAMPIONSHIP EVENTS

Unlimited Weight Class.

100-Yard Dash. 12-pound Shot Put. Running High Jump. 880 Yards Relay Race.

The number of entries allowed from each school shall be determined upon by the Elementary Schools Games Committee.

The distance for any midget race shall not exceed 440 yards for the team and, wherever possible, it is recommended to have

the race limited to 360 yards for the team.

Two substitute entries shall be allowed on each relay team; such entries to be made in regular form on entry blanks and to be printed on the programme. The entrance fee will be 10 cents per boy, including substitutes on relays. Two substitute entries shall be allowed on each relay team. Boys entered as substitutes shall not be entered in regular events.

No substitute entries shall be allowed in individual events.

There will be a trophy for the all-around championship at each meet, the school scoring the greatest number of points in

each meet to win the trophy for that meet.

The points are scored—for individual and relay events alike on a basis of 5 points for firsts, 3 for seconds, 2 for thirds, and I for fourths. All the events on the programme count toward the all-around championship trophy.

Gold, silver, and bronze medals will be given to those finishing

first, second, and third, respectively, in each event.

The signature of the Principal must appear on all entry blanks.

RULE VIII.

RULES GOVERNING BASKET BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

Regular basket ball rules, as they appear in Spalding's Official Basket Ball Guide, shall be used, but time shall be fifteen (15) minutes halves with ten (10) minutes intermission.

As far as possible all games shall be played on neutral courts. There shall be two classes in elementary schools basket ball, namely: Boys weighing not to exceed 95 pounds, and boys weighing not to exceed 125 pounds.

The weighing-in for basket ball shall be done at the beginning cf the basket ball season by the Chairman of the Games Committee in each District Athletic League, assisted by at least two other members of the Committee. Boys weighing within the prescribed limits at that time shall be eligible, as far as

weight is concerned, throughout the tournament.

Members of teams must have received for the month previous to any games in which they play a mark of at least "B" in effort, proficiency and deportment. Public Schools Athletic League Rules of eligibility shall apply in basket ball, the same as in other branches of athletics.

All boys who play at any time during the tournament must be weighed in on the date set by the District Committee. In order that teams may not be handicapped by disqualifications of players on account of scholarship, deportment, etc., fifteen boys may be weighed in, if desired. The players must be selected from these boys. If, for any cause, a player becomes ineligible, he cannot be reinstated during the tournament.

In each District Athletic League, if not otherwise determined by said League, the Chairman of the Games Committee thereof

shall have full power to arrange and conduct its games.

When winners of District Athletic League games play for section championships within any borough, the Games Committee Chairman of the leagues within the borough shall form the Committee on Management.

Representatives of the District Athletic Leagues shall send to the Chairman of the Basket Ball Committee the names of the

winning teams in their districts.

Each borough representative on the City Committee must send to the Chairman of the Basket Ball Committee the name of the team winning the championship of his borough.

No boy is allowed to play on more than one basket ball team. Any neglect in forwarding the names of the teams to the Chairman of the Basket Ball Committee will forfeit the right of teams to compete.

The ball to be used in all match games shall be the Spalding

Official Basket Ball No. M.

The League will furnish paid officials for the interborough

games.

The school winning the City Championship in the 120 lbs. class will hold the Pratt Trophy until the next annual tournament.

The school winning the City Championship in the 95 lbs. class will hold the Vanderbilt Trophy until the next annual tournament.

Gold medals (five regular and one substitute) will be given to

the teams winning the City Championships.

Silver medals (five regular and one substitute) will be given

to the other teams winning the championships of their respective boroughs.

Placques or certificates will be given to the teams winning

Borough Championships in the different classes.

HIGH SCHOOLS.

The High Schools Basket Ball Championship shall be decided not by a tournament, but by a series of games whereby each school will play every other school entered in the championship. Spalding's Official Basket Ball Rules shall govern the contests, except "when an official calls a foul, the opposing team shall receive one point without a try for goal."

The halves shall be fifteen minutes each.

Each school shall present to the official at every game a team certificate naming the boys eligible to play. The 'team certificates' are to be signed by the official and forwarded with score and remarks to the Secretary of the League.

Rules as to eligibility apply to these championships as to other

contests.

The ball to be used in all match games by the high schools shall be Spalding's Official Basket Ball No. M.

The League will furnish paid officials for the Basket Ball

Championships.

After the selection of neutral courts for the Basket Ball Championships, no games shall be played nor practice allowed on said courts.

The school winning the City Championship will hold for one

year the Dodge Trophy.

Gold medals (five regular and one substitute) will be given to the team winning the City Championship.

RULE IX.

RULES GOVERNING SOCCER FOOT BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

Regular P.S.A.L. rules of eligibility shall apply.

The tournament shall be held during the Fall, and must be

completed by January 1.

The rules as printed in Spalding's Association Foot Ball Guide shall be official, except that the game shall consist of two halves of twenty (20) minutes each, with ten (10) minutes intermission, and that any number of substitutes shall be allowed at any time during the game.

time during the game.

The Mackay Trophy shall be awarded for one year to the winning school. Placques shall be awarded to borough winners.

Eleven regular and two substitute medals shall be given: Silver medals to borough winners, and gold medals to city champions.

A game won shall count one point. A tie game shall count one-half point to each school.

HIGH SCHOOLS.

The schedule for this tournament shall be arranged by the High Schools Games Committee. It shall take place in the Fall.

P.S.A.L. rules of eligibility shall govern.

The rules in Spalding's Association Foot Ball Guide shall be official, except that the game shall consist of two halves of thirty (30) minutes each, with an intermission of ten (10) minutes, and that any number of substitutes shall be allowed at any time during the game.

The home team shall furnish the ball, which shall be Spalding's

Official.

A game won shall count one point. A tie game shall count

one-half point to teach team.

The Maxwell Trophy will be awarded for one year to the win-

ning school.

Gold medals will be given to the winning teams (eleven regular and two substitute medals).

RULE X.

RULES GOVERNING BASE BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

A schedule will be arranged in the different District Athletic Leagues for the District League championship. A committee consisting of the Chairmen of Games Committees in the District Leagues of each borough will then arrange a schedule for the winners of these District League championships to play for borough championships. The City Committee will have general charge of the competitions, and arrange a schedule for the winners of the borough championships.

The League will furnish paid officials for the interborough

games.

The general rules of athletics, as they appear in this book, shall govern these contests in all questions that may arise as to eligibility.

The ball to be used in all match games for the elementary

schools shall be Spalding's Official Boys' League Ball.

The rules, as published in Spalding's Official Base Ball Guide for each year, shall govern all competitions in the elementary schools, except that a full game may consist of seven innings. This to be decided by the Elementary Schools Games Committee.

The school winning the City Championship will hold for one

year the Spalding Trophy.

Borough trophies will be awarded for one year as follows:

ManhattanHuyler Trophy.BronxSpalding Trophy.BrooklynMcCarren Trophy.QueensEagle Trophy.RichmondSpalding Trophy.

Gold medals will be given to city champions, and silver medals to borough champions. There shall be nine regular and two substitute medals.

HIGH SCHOOLS.

A schedule for the high school tournament shall be arranged by the High Schools Games Committee at its first meeting after the opening of school in the fall.

The general rules of eligibility shall govern base ball the same

as other branches of athletics.

Spalding's Official Base Ball Rules shall apply in the high schools tournament.

Officials shall be appointed by the League.

A City Championship Trophy shall be awarded for one year to the winning school.

Gold medals (nine regular and two substitute) will be given to the winning team.

RULE XI.

RULES GOVERNING CROSS COUNTRY RUNNING.

Regular P.S.A.L. rules of eligibility shall apply.

In championship competitions there shall be five members per team and three substitutes.

The course shall be three miles in length, and must be so marked that runners may be able to follow it without difficulty.

Only those boys shall be allowed to take part in competitions who have prepared themselves by participation in preliminary runs.

Points shall be awarded in the order in which runners finish?

One for first, two for second, three for third, etc.

The Jones Trophy shall be awarded for one year to the team scoring the smallest number of points.

Silver medals shall be given to the first five boys to finish.

RULE XII.

RULES GOVERNING THE MARKSMANSHIP COMPETITION.

This competition shall be open to the high school boys and shall take place at least once a year.

I. The competitions will be held simultaneously at the different schools, or they may be held at an armory.

2. There will be an officer in charge at each school chosen by the Committee of Coaches of the P.S.A.L. This committee will

consist of a special delegate from each of the competing schools. Such delegates will be chosen by the Principal of each school.

3. The team will consist of five regular men and two alter-

nates.

4. Each man will fire ten shots; five shots at each of the two targets that will be provided. Each target must be completed within one minute of the time that the gun is unlocked.

5. The 200 yards target will be used and the shots taken standing. The officer in charge or the boy chosen from each team will verify the regulations and adjust the machine. He shall be in sole charge of the competition, shall call the men to the gun, shall appoint a timer, and decide all points not embodied in these rules. His decision shall be presented to the Committee of Coaches.

6. There will be no sighting shots and each contestant is to have a reasonable time for sighting and adjusting and immediately thereafter allowed one minute to make his string of five

shots.

7. There will be no coaching allowed, except by boy member of team delegated, though each shot will be called by the officer

in charge.

8. Each target will be marked with the name of the school, the name of the man shooting and his record as computed by the officer in charge. The total record per man and the total record of the team will be computed by the officer in charge and sent with the targets to the Chairmen of the Committee of Coaches.

9. The Committee of Coaches will render its decision within

one week of the date of the competition.

The teams consist of five men, there being also a separate

contest for second teams.

The Chas. J. Dieges' Trophy is given to the school whose first

and second teams together make the highest score.

In the individual shooting, there are three classes—A, for first team men; B, for second team men, and C, for all others whose scholarship makes them eligible under the P.S.A.L. rules.

THE WINGATE TROPHY.

As a basis for competition for the Wingate Trophy the actual number of qualifications are considered. The credit report is sharpshooters three to marksmen two.

RULE XIII.

RULES GOVERNING THE TENNIS TOURNAMENT.

Each school shall be represented by three players for singles and one team for doubles.

The boys who play in the singles shall not compete in the

doubles in the same match.

A schedule shall be arranged between the schools during the tournament.

Each team shall play each other team.

Each match shall consist of three single matches (best two

sets out of three) and one match of doubles.

Each match of singles shall count one point and the match of doubles, two points. The school scoring the greatest number of points wins the match.

The school winning the greatest number of school matches

shall be awarded the championship.

Each school shall pay an entry fee of \$2.50.

The home team shall provide balls for the match.

The school winning the championship shall receive \$10.00 for a permanent trophy.

RULE XIV.

INDUCEMENTS.

No school, under penalty of expulsion from the League, shall through any of its officers, or by any other means, directly or indirectly, offer any inducement to a pupil of any other school to sever his connection with such school for athletic purposes.

RULE XV.

PROTESTS.

All protests referring to the eligibility of the contestant must be submitted in writing to the Games Committee.

All other protests must be submitted to the Referee of the games, who has it in his power to allow the protested individ-

uals or teams to run under protest.

No protests with reference to scholarship, amount of work, time in school or age of boys shall be considered when the same have been certified to by the Principal by his signature on the entry blank. Evidence as to any of these points may be presented to the Principal who shall have full power to pass upon it.

In case of a boy who is large and mature for his age, the Principal shall be requested to look up the record of his birth with all possible care, as a precaution in case he is protested, and

have him secure a birth certificate if possible.

In case of impossibility to produce birth certificates, all evidence in regard to age of pupil shall be submitted to the Games Committee and the Committee shall have full power to pass upon such evidence.

The League holds it within its jurisdiction to decide all protests made in events sanctioned by it. These protests are settled by the Games Committee and their decision is final.

All protests must have been mailed to the office of the secretary of the League within 24 hours after the time of event or game protested.

In case a boy's amateur status is questioned, the matter shall

be referred to the Secretary of the League for action.

RULE XVI.

ENTRIES.

All entries for competitions held under the Public Schools Athletic League must be made on the entry forms adopted by the League.

These entry forms must be carefully filled out and must be signed by the Principal of the school; otherwise, they shall be rejected. No post entries shall be received.

If any competitor enters an event and then fails to compete he must send a valid excuse to the Secretary of the Public Schools Athletic League. Failing in this, he may be suspended.

RULE XVII.

SANCTIONS.

All events or games, whether given by public schools or other organizations, that are open to public school boys, must be sanctioned by the Public Schools Athletic League.

Any championship emblem accepted by any school of the League should state specifically the nature of the championship

and of what organization the recipient is champion.

Any boy who competes in games or events that are not sanctioned by the Public Schools Athletic League renders himself liable to suspension, and, if he persists in this participation in unsanctioned events, he may be cut off entirely from competition in all events or games given under the sanction of the Public Schools Athletic League.

By a recent ruling of the Amateur Athletic Union, school boys competing in events given by organizations outside the League are obliged to register with that body.

The following conditions must be complied with before sanction can be given by the League:

CONDITIONS.

A club or organization giving a public school event must secure the sanction before announcing same.

The conditions under which the race will be held must be

printed plainly on the entry blank,

At least five days before the event takes place the names of the contestants must be submitted to the Secretary of the Public Schools Athletic League for approval or disapproval.

In accepting this sanction, the club or organization agrees to abide by the decision of the Games Committee of the Public Schools Athletic League in so far as the eligibility of the different contestants or schools is concerned.

Promoters of athletic meets must distinctly state whether the scholastic event is open to the public schools of Greater

New York or the Public Schools of the United States.

The Secretary will notify all schools of the class invited of every event for which sanction has been issued.

All protests as to eligibility, etc., will be settled by the Games

Committee of the Public Schools Athletic League.

When an event is sanctioned and prizes duly announced, the event must be run and prizes awarded according to announcement.

RULE XVIII.

RECORDS.

No record shall be allowed unless the performance has been timed by at least three timekeepers or measured by at least three

field judges.

The Games Committee shall investigate every performance to which their attention is called, and shall reject any record which shall not be supported by the affidavits of at least six witnesses, including the officials, certifying as to the place, time of day, state of weather, condition of path or field, force and direction of wind, level or grade of grounds, weight, measure-ment and material of implement, and correctness of announced time or distance.

In hurdling events the competitor must clear every hurdle and all the hurdles must remain standing; otherwise no record

shall be allowed.

No record shall be allowed unless made in open competition. A record made at any championship meet of the Public Schools Athletic League shall be known as a Public Schools Athletic League record. A record made at a meet sanctioned by the Public Schools Athletic League, but not open to all schools, shall be known as an interscholastic record.

SEC. 3. The Directors shall have power to fill vacancies which may occur in their body from time to time until the next annual election.

SEC. 4. At each annual meeting the offices of the Directors whose terms then expire, and also all vacancies, shall be filled by election by the members.

Sec 5. The High Schools Games Committee and the Elementary Schools Games Committee shall each be entitled to name annually a representative for election as Director of the League.

SEC. 6. Ten members shall constitute a quorum of this body.

ARTICLE IV.

MEETINGS.

Section 1. The annual meeting of the League, for the elec-

tion of Directors, and for such other matters as may properly come before it, shall be held on the first Tuesday in December in each year, due notice of which meeting shall be sent by the Secretary to each member. Election shall be by ballot.

SEC. 2. At any meeting of the League ten members shall constitute a quorum.

ARTICLE V.

OFFICERS.

Section I. The officers of the League shall consist of a President, First, Second and Third Vice-Presidents, Treasurer and Secretary. The office of Secretary and Treasurer may be held by one person. All officers, except the Secretary, must be Directors.

SEC. 2. The officers of the League shall be annually elected at the first meeting of the Board of Directors to be held after the annual meeting of the League. They shall hold office at the pleasure of the Directors and until others are elected in their places.

SEC. 3. The President shall perform the usual duties of the office, and shall preside at all meetings of the Directors and of the League.

Sec. 4. In the absence of the President, or in case of his inability to act, the First Vice-President, and in his absence the Second Vice-President, and in case of his absence the Third Vice-President shall discharge his duties. Should all three be absent from any meeting, the Directors or members present shall choose one of their number to act as Chairman, who shall perform all the duties of the President for the time being.

SEC. 5. The Secretary shall attend the meetings of the League, of the Directors and of the Executive Committee, and keep the minutes of the proceedings, recording ayes and nays upon all questions where such a vote shall be demanded by any Director. He shall conduct and preserve all correspondence, serve all notices, and perform the usual duties of the Secretary. He shall have the custody of all the papers relating to the affairs of the League.

Sec. 6. The Treasurer shall be the custodian of all the moneys and securities of the League. He shall collect and disburse all its moneys, keep accounts of his transactions, and make a written report of the financial condition of the League at its annual meeting, and to the Board of Directors at any such time as it may require. Except salaries and other sums specially authorized by the Directors or the Executive Committee, he shall pay no claim against the League exceeding \$25.00, unless the same are first approved by the Finance Committee. He shall deposit all moneys belonging to the League to its credit in an account to be opened in its name and keep in a bank to be designated by the Directors.

SEC. 7. The Directors may at any time require the Treasurer to give security in such amount as they shall deem proper.

ARTICLE VI.

COMMITTEES.

SEC. I. There shall be an Executive Committee, composed of the President, Treasurer, Secretary, and two Directors appointed annually by the President, which shall have all powers of the Board of Directors when not in session. This Committee may meet and transact business at the time specified for any meeting of the Board without further or other notice, and shall also meet at the call of the President. Three of this Committee shall constitute a quorum.

SEC. 2. The President shall appoint a Finance Committee consisting of three Directors, which shall devise and report ways and means for the support of the League, subject to the approval of the Board. It shall examine, audit and certify the accounts of the Treasurer and all bills and claims against the League, except for salaries and sums specially authorized by the Board or Executive Committee.

SEC. 3. No claim against the League exceeding \$25.00, save those above excepted, shall be paid by the Treasurer until the same shall have been first approved by the Finance Committee.

- Sec. 4. The President shall appoint a Games Committee to consist of three Directors, which shall have charge of all games authorized by the League. Such Committee may associate with it persons who are not Directors.
- Sec. 5. There shall be such other committees as may be authorized by the Directors. The members thereof shall be appointed by the President unless otherwise prescribed by the Directors.

ARTICLE VII.

NOTICES.

SECTION I. All notices to members and also all notices to all officers and directors shall be sufficiently served, if mailed to them at the address given by them to the Secretary and Treasurer, respectively.

ARTICLE VIII.

Section 1. Woman's and other auxiliary and associate leagues may be established under regulations to be made by the Executive Committee.

ARTICLE IX.

AMENDMENTS.

Section I. These by-laws may be changed or amended by the unanimous vote or written consent of all the Directors without previous notice at any meeting of the Board. Also by a vote of two-thirds of all the Directors at any meeting, provided notice specifying the intended change shall have been given at a previous stated meeting, or such notice shall have been served on each Director at least five days before the meeting.

No person who is a member of this club and is under eighteen years of age shall smoke. Violation of this rule should involve

suspension.

Laws of Athletics

RULE I.

OFFICIALS.

Every meeting of the Public Schools Athletic League shall be under the control of the following officials:

A Games Committee.

One Director.

One Assistant Director.

One Referee.

Three or more Judges at Finish,

One Chief Field Judge.

Four or more Field Judges.

One Recorder of Times.

Three or more Inspectors.

Three Timekeepers.

One Starter.

One Clerk of the Course with assistants.

One Announcer.

One Chief Scorer with assistants.

One Marshal with assistants.

One Official Reporter.

RIH.E. II

GAMES COMMITTEE.

The Games Committee shall have general supervision over the games, but it shall not interfere with officials in the performance

of duties assigned to them by these rules.

If possible, it shall decide all protests except (a) those that must be settled immediately by the Referee, (b) those concerning a boy's amateur standing, which matter must be referred to the Secretary of the Public Schools Athletic League.

RULE III.

THE REFEREE.

It shall be the duty of the Referee to decide all questions relating to the actual conduct of the meeting, whose final settlement is not otherwise covered by these rules.

The Referee may change the order of events and add to, or change, the arrangements of heats. After heats have been drawn, however, he shall not be allowed to transfer a contestant from one heat to another.

If a foul is made in a heat other than the final, and the foul, in the opinion of the Referee, is intentional, or due to culpable negligence, he may disqualify the contestant guilty of fouling, and may allow the hindered contestant, or contestants, to compete in another trial heat.

In a final heat, however, he may disqualify the competitor who is at fault and shall use his own discretion as to ordering another race between the competitors hindered by the foul.

In the case of a dead heat in track events where the competitors cannot agree on method of settling, the Referee may decide.

Any competitor acting in an ungentlemanly manner, whether toward competitors, spectators or officials, may be disqualified by the Referee from that and all other events at the meeting. If the Referee thinks the offence worthy of further punishment, he shall make a full report on the case to the Secretary of the Public Schools Athletic League for further action.

If for any reason the Referee as selected cannot attend, the Senior Judge shall act as Referee and have all his powers. In

this event the second Judge becomes Senior Judge.

The Referee, and he only, shall signal the Starter that every thing is in readiness for the heat, or race, and the race shall not be started until the Starter has received such signal.

The Referee may delegate to the Senior Judge this duty of

signaling to the Starter.

RULE IV.

INSPECTORS.

The Inspectors shall be assigned their positions by the Referee. They shall watch closely the conduct of the competitors during the course of the race, and in case of a foul, whether a claim is made or not, they shall make a report at once, before the next heat, or race, is called, of what they have seen to the Referee. They have no power to make decisions.

RULE V.

JUDGES AT FINISH.

There shall be three or more Judges at finish, namely, a Senior Judge. Second Judge, Third Judge, Fourth Judge and so on. The Judge whose name appears at the head of the list shall be Senior Judge, second on the list Second Judge and so on.

The Judges shall stand at the finish line and pick the contestants in the order in which they cross the finish line, the Senior Judge picking first boy; Second Judge, second boy; Third Judge, third boy; Fourth Judge, fourth boy, and so on. Their

decision is final and without appeal. In case of disagreement a

majority shall govern.

Any competitor crossing the finish line without a number shall not be selected by the Judges unless with the consent of the Referee.

In absence of the Referee, the Senior Judge shall act as

Referee.

RULE VI.

THE CHIEF FIELD JUDGE.

There shall be appointed a Chief Field Judge, who will represent the Referee. It will be his duty to see that the field events are started promptly, and that there will be no unnecessary delay in the competition. He shall receive from the Field Judges and report to the Chief Scorer the results of the competition in the field events.

RULE VII.

FIELD JUDGES.

They shall measure and judge each trial of each competitor in all events where the performance is measured. Their decision is final and without appeal. In case of disagreement the majority

shall govern.

In case a boy is competing in a track event as well as a field event, they shall excuse him from his part in the field event for as long a period as is necessary to take part in the track event, and shall then allow him to take his missed turns within a reasonable time after the track event. If the boy is competing in two field events that are taking place at the one time the same rule shall apply.

RULE VIII.

RECORDER OF TIMES.

The Recorder of Times shall read the watch of each of the Timers after each heat and shall make known the official time to the Referee of the meeting and the Official Announcer. In the case of a new record he shall be careful to receive the signatures of the Timers vouching for the performance.

RULE IX.

THE TIMEKEEPERS.

There shall be three Timekeepers. They shall time all events which are recorded by time and shall report individually to the Recorder of Times their record of the time of each heat and race.

Should two of the three watches mark the same time and the third disagree, the time marked by the two watches shall be accepted. Should all three disagree, the time marked by the intermediate watch shall be accepted.

If two watches only are started on a heat, or race, and they

fail to agree, the longest time shall be accepted.

To have a record allowed three watches must be started on a heat or race.

The flash of the pistol shall denote the actual start of the

race or heat.

In time handicap events the Timekeeper shall receive the time allowance of each competitor from the Clerk of the Course and shall start them with the word "GO."

RULE X.

THE STARTER.

The Starter shall be in charge of the competitors after they have been assigned to their marks by the Clerk of the Course.

He shall start the heat, or race, by the report of the pistol, except in the case of time handicap events, when the competitors shall be started by the Timekeepers with the word "GO." The following formula shall be used by the Starter: I. Take your mark; 2. Get set; 3. The report of the pistol.

Until the pistol has been purposely discharged it shall not be

Until the pistol has been purposely discharged it shall not be considered an actual start. In case the pistol goes off accidentally, the Starter shall recall the competitors by discharging his

pistol twice.

The Starter shall not start the heat, or race, until he receives the signal from the Referee that everything is in readiness. The Referee may delegate to the Senior Judge this duty of signalling to the Starter.

A false start is one where any part of the person of a competitor touches the ground in front of his mark before the Starter purposely discharges his pistol. The competitor shall keep his

hands behind the mark assigned to him.

The following penalties are imposed by the Starter for false starts: In all races up to and including 125 yards the competitor shall be put back one yard for the first and one more for the second attempt; in races over 125 yards and including 300 yards, two yards for the first and two more for the second attempt; in races over 300 yards and including 600 yards, three yards for the first and three more for the second attempt; in races over 600 yards and including 1,000 yards, four yards for the first and four more for the second attempt; in races over 1,000 yards and including one mile, five yards for the first and five more for the

second attempt; in all races over one mile, ten yards for the first and ten more for the second attempt. In all races the third false start shall disqualify the offender from that event.

Should any boy attempt to advance from his mark after the Starter has given word to get ready, the Starter shall disqualify

him from that event.

RULE XI.

THE CLERK OF THE COURSE.

The names and numbers of all the competitors in each event shall be given to the Clerk of the Course, who shall call them by name and check them off on the programme immediately before the event.

After the competitors' names have been called, the Clerk of the Course shall, in handicap events, assign them to their respec-

tive marks.

The Clerk of the Course shall not allow any competitor to start without his number, except with the consent of the Referee.

The Assistant Clerks of the Course shall perform whatever duties are assigned them by the Clerk of the Course.

RULE XII.

CHIEF SCORER.

The Chief Scorer shall keep track of the order in which each competitor finishes and also the time for the event. He shall also keep a tally of the laps made by each competitor in all races round a turn and shall announce by means of a bell or pistol shot when the leading man is entering on the last lap.

The Assistant Scorers are subject to the Chief Scorer and shall

perform whatever duties are assigned them by him.

RULE XIII.

THE MARSHAL.

The Marshal shall prevent any but officials and actual competitors from entering into the inner circle or remaining therein.

Any competitor entering into the inner circle before or after competition, and not there for the purpose of competition, must leave the inner circle when requested by the Marshal. If, after the second request, the competitor still refuses to leave, the Marshal, or his assistants, must report the matter to the Referee who may disqualify the offender.

The Assistant Marshal shall be under the control of the Marshal and shall assist him in keeping the inner circle as clear as

is possible.

RULE XIV.

OFFICIAL ANNOUNCER.

The scorers shall make known to the Official Announcer the results of each event and he shall announce them to the spectators.

RULE XV.

OFFICIAL REPORTER.

The Official Reporter shall receive from the Scorers the order of finishing and the time made by the competitors in the running events and the height or distance covered by the competitors in the field events. This information he shall immediately make known to the representatives of the press.

RULE XVI.

THE INNER CIRCLE.

With the exception of officials and actual competitors, no one shall be allowed within the inner circle. Competitors must leave the inner circle immediately after the finish of their event, or when requested to do so by the Marshal.

No attendant, friend or trainer shall be allowed to accompany

the competitors on the track or infield.

RULE XVII.

THE COMPETITORS.

The competitors shall report to the Clerk of the Course at the starting point of each competition, after they have been called to the inner circle.

Each contestant must provide himself with a number corresponding to the number opposite his name on the programme. This number he must wear conspicuously while he is competing, and without it he shall not be allowed to start except with the consent of the Referee.

In handicap events, competitors, whether they be scratch or limit mark men, must start from positions in which they are

placed by the Clerk of the Course.

If in straightaway races the competitor does not confine himself to his own lane, but instead crosses into the lane of his

opponent, the Referee shall disqualify him.

In races around a turn, the competitor shall, after turning the last corner, continue in a straight line to the finish and not cross either to the outside or the inside in front of any of the other competitors.

Any competitor who wilfully jostles, crosses in front of, or otherwise impedes an opponent, shall be disqualified by the

Referee from that event.

The Referee shall further disqualify from the meeting any competitor who, in his opinion, is trying to lose, to coach, or to impede in any way the chances of another competitor. He shall further notify the Games Committee, who will take further action.

Any competitor acting in an ungentlemanly manner, whether toward competitors, spectators or officials, may be disqualified by the Referee from that and all other events at that meeting, and if the Referee thinks the offence worthy of further punishment, he shall make a full report on the case to the Secretary of the Public Schools Athletic League for further action.

RULE XVIII.

PROTESTS.

Protests against any competitor entered in any games may be made verbally or in writing, to the Games Committee before the meet, or to the Referee during the meet.

If the protest is a claim of foul committed during the meet, the Referee shall decide the matter at once as laid down in the

duties of Referee (Rule III.).

If possible, the Games Committee shall decide all protests before the events are run off. If it is a case requiring the taking of evidence, the Games Committee shall decide the matter within one week after the date of the games. If it affects the contestant's amateur status, however, the case must be referred to the Secretary of the Public Schools Athletic League for action.

When a contestant is allowed to compete under protest, the prizes that he may win shall be withheld until the case is settled.

RULE XIX.

THE TRACK.

The distance to be run shall be measured on a line eighteen inches outward from the inner edge of the track. This edge shall be a solid curb raised three inches above the level of the track.

In straightaway races, distance shall be measured in a direct

line from the starting mark to the finishing line.

In indoor races on board floors courses may be marked plainly (with whitewash) on the track.

RULE XX.

THE COURSE.

In straightaway races the competitor must keep his own course from start to finish. In these races separate courses, called lanes, shall be laid out for each competitor by means of stakes driven into the ground, to which cord or wire is attached and which are placed about fifteen yards apart.

In all races the competitors must not cross to the pole, or inner edge of the track until he is at least two strides in advance of

his nearest competitor.

In all championship races positions shall be drawn for, numbering one, two, three, and so on, from border out, and the drawing shall be in the names of the schools. The Clerk of the Course shall then allot positions. The school having the first choice shall have the position next the pole, or inner edge of the track, the school having second choice, second position and so on, the schools alternating, so that, if possible, there will not be two contestants from the one school in the same heat.

In championship events on straightaway tracks, the drawing shall be by schools, and the Referee shall see that no two contestants from the same school shall start in one heat. There shall be a drawing for the choice of lanes, the school winning first choice selecting whatever lane the first runner for that school desires, the school having second choice the next best lane

and so on.

In handicap events the contestants, when called, must take any lane assigned them by the Clerk of the Course.

RULE XXI.

THE FINISH.

The finish of a course shall be represented by a line between two finishing posts drawn across and at right angles to the sides of the track and four feet above which shall be placed a tape attached to both finishing posts.

The finish of any race shall be counted when any part of competitor's body except his hands and arms shall reach the finish

line.

No competitor shall be considered to have finished unless his entire body shall have crossed the finish line.

RULE XXII.

RELAY RACING.

A line shall be drawn twenty feet in front of each starting line. Between these two lines each runner must touch the suc-

ceeding runner. Failure to do this shall disqualify the team in that event. There shall be Judges of Relay Racing whose duties it shall be to see that all touches are properly made.

The same rules with reference to fouling, coaching or impeding a runner in any manner, apply to relay racing as to other running events.

In the case of a handicap relay race, the boy on the first relay

is granted the total handicap allowed each team.

Only those boys are allowed to run in the final heat of a relay race who have competed in the trial heats.

RULE XXIII. HANDICAP RULES.

The handicap allowed in the different races shall not exceed one-tenth of the distance to be run; for instance, the limit in the 50 yards dash shall be 5 yards, in the 100 yards dash, 10 vards.

The limit in the pole vault shall be 18 inches; in the running high jump 9 inches; in the running broad jump, 30 inches; in the 8-lb. shot put, 48 inches; in the 12-lb. shot put, 60 inches;

in the standing broad jump, 12 inches.

The penalty for winning shall be as follows: For races of 50 yards and under, 3 feet, 2 feet and I foot shall be taken off for winning first, second and third places respectively; in races over 50 yards and including 100 yards, 2 yards, 1 yard and 2 feet; over 100 yards and including 220 yards, 5, 3 and 2 yards; over 220 and including 440 yards, 10, 6 and 3 yards; over 440 vards and including 880 vards, 20, 12 and 6 yards; in races over 880 and including one mile, 40 yards, 24 yards and 12 yards; in the pole vault, 9, 7 and 4 inches; in the running high jump, 5, 4 and 2 inches; in the running broad jump, 14, 10 and 7 inches; in the 8-lb. shot put, 20, 15 and 11 inches; in the 12-lb. shot put, 24. 18 and 13 inches; in the standing broad jump, 7, 5 and 3 inches.

RULE XXIV. POTATO RACING.

The potato race shall be one in which three or more potatoes are placed two yards apart on a direct line. The first potato shall be two yards from the receptacle, which shall be either a pail, basket, box, or can, not over 36 inches in circumference at the opening.

The finish shall be a line five yards back of the receptacle, which must be crossed after the last potato has been placed in

the receptacle.

If the competitor should drop a potato, he must replace it in the receptacle before he touches another potato; otherwise, he shall be disqualified.

In handicap events the mark is taken off back of the receptacle.

RULE XXV.

THE SHOT.

The Shot shall be a metal sphere of any weight decided upon by the Games Committee. For indoor games for record purposes a filled shot covered with any material and being a perfect and solid sphere may be used.

The shot shall be "put" with one hand, and in making the

attempt, it shall be above and not behind the shoulder.

All puts shall be made from a circle seven feet in diameter. The circle shall be a metal or wooden ring, painted or white-washed, and sunk almost flush with the ground, and it shall be divided into two halves by a line drawn through the center. In the middle of the circumference of the front half shall be placed a stop-board four feet long and four inches high, and firmly fastened to the ground. In making his puts, a competitor may rest his foot against, but not on top of, the stop-board.

That put shall be considered a fair put when no part of the body of the competitor touches the top of the stop-board, the circle, or the ground outside of the circle, provided the competitor shall leave the circle by its rear half, which shall be the half directly opposite the stop-board. A put shall be considered foul if any part of the body of the competitor shall touch the ground outside the front half of the circle before the put is measured.

The Field Judges shall measure each put from the nearest mark made by the fall of the shot to the circumference of the circle on a line from the mark made by the shot to the center

of the circle.

Foul puts and letting go the shot in making an attempt shall

be counted as trials without result.

Each competitor shall have three trial puts, and the first, second, third and fourth in the trials shall have three more trials each in the final.

The best put made by a competitor, whether made in the trials or finals shall count as his best put and the result will be

decided accordingly.

RULE XXVI.

RUNNING HIGH JUMP.

A fair jump shall be one that is made without the assistance of weights, diving, somersaults or handsprings of any kind.

The bar shall be a thin stick two inches in width and shall rest on pins which shall project not more than three inches from the uprights. When this bar is removed, it shall constitute a trial jump without result.

The height at which the jump shall commence and the height to which it shall be raised at each succeeding jump shall be

decided by the Field Judges.

The height shall be measured from the middle of the bar to

the ground on a direct line.

Each competitor shall be allowed three trial jumps at each height, and if on the third trial he shall fail, he shall be declared

out of the competition.

At each successive height each competitor shall take one trial in his proper turn; then those failing, if any, shall have their second trial in a like order, after which those who have failed at the second trial may take their third and final trial at that height.

A competitor may decline to jump at any height in his turn and by so doing, forfeits his right to again jump at the height

declined.

If, however, a competitor takes a trial at any height and fails

in the first trial, he shall not pass the other two trials.

Running under the bar in making an attempt to jump shall be counted as a balk, and three successive balks shall constitute a trial jump.

There shall be no limit to the run a competitor may take before

attempting a jump.

RULE XXVII.

RUNNING BROAD JUMP.

*A joist eight inches shall be sunk flush with the ground. The outer edge of the joist shall be called the scratch line and the measurement of all jumps shall be made from it at right angles to the nearest break in the soft ground, or in the turf or earth outside the soft ground by any part of the body of a competitor.

*In front of the scratch line the ground shall be flush.

A foul jump shall be one where the competitor in jumping off the scratch line makes a mark on the ground immediately in front of it, or runs over the line without jumping, and shall count as a trial jump without result.

Each competitor shall have three trial jumps, and the competitors finishing one, two, three and four in the trial jumps, shall

each have three more trial jumps.

^{*} Rule changed.

The competition shall be decided by the best of all the trial

umps of the competitors.

A fair jump shall be one that is made without the assistance of weights, diving, somersaults or handsprings of any kind.

RULE XXVIII.

STANDING BROAD TUMP.

The feet of the competitor may be placed in any position, but shall leave the ground once only in making an attempt to jump. When the feet are lifted from the ground twice, or two springs are made in making the attempt, it shall count as a trial jump without result. A competitor may rock back and forward, lifting heels and toes alternately from the ground, but may not lift either foot clear of the ground, nor slide either foot along the ground in any direction.

In all other respects the rules governing the running broad

jump govern the standing broad jump as well.

RULE XXIX.

THE POLE VAULT.

The height at which the vaulting shall commence and the height to which the bar shall be raised at each succeeding vault shall be determined by the Field Judges.

The height of the bar shall be measured on a direct line from

the ground to the middle of the bar.

Each competitor shall have three trials at each height, and, if he fails at the third trial he shall be declared out of the com-

petition.

Each competitor shall make an attempt at each successive height in the order in which he is called; then those who have failed shall have a second trial in like order. Those failing on the second trial shall then take their third and final trial.

Displacing the bar counts as a try.

Leaving the ground in an attempt shall constitute a try.

A line shall be drawn fifteen feet in front of the bar and parallel with it; crossing this line in an attempt shall be a balk. Two balks shall constitute a try.

A competitor may decline to vault at any height, but, if he fails at the next height, he shall not be allowed to go back and try the height he omitted.

If, however, contestant takes one trial at any height, he shall

not pass the other two trials.

Any competitor shall be allowed to dig a hole not more than one foot in diameter at the take-off in which to plant his pole.

The poles shall have no assisting devices, except that they may be wound or wrapped with any substance for the purpose of affording a firmer grasp, and may have one spike at the lower end. The poles shall be unlimited as to size and weight.

No competitor shall, during his vault, raise the hand which was uppermost when he left the ground to a higher point on the pole, nor shall he raise the hand which was undermost when he left the ground to any point on the pole above the other hand.

RULE XXX.

THE DISCUS (GREEK STYLE).

To execute the throw, the competitor places himself in the pedestal with the feet apart, the right foot forward, provided he is right-handed, and vice versa, if he is left-handed, and holding the discus in either hand. He then grasps it with both hands and raises it straight above his head. As the discus is held aloft the body should lean forward slightly, and as the thrower starts to make his effort the trunk should be turned slightly to the right and the body bent sharply so that the left hand, when free, swings outside and below the right knee, and the right, holding the discus, is stretched as far back as the extension of the shoulder will allow. At this moment the right knee should be bent, with the foot resting full on the sole, the left leg almost straight, and the foot resting on the toes. Then, by a sharp and simultaneous exertion of the whole body, the thrower scales the discus away in front of him. The critical part of the throw is the action of the arm at the moment of delivery. The final sweep of the arm must be distinctly by the side and be clearly in an underhand direction. Round arm, like a cricket bowler, horizontal, arch, or overarm swings to be foul. Neither must there be the least tendency of the arm to swing around

The measurement of the throw to be from the center of the

pedestal to where the discus first strikes the ground.

The thrower may leave the pedestal at the moment of throwing.

Trials and other conditions of competition to be the same as

the hammer or shot.

RULE XXXI.

THE HURDLES.

In the 120 yards hurdle race, ten hurdles shall be used; height of hurdles to be decided upon by the Games Committee. They shall be placed ten yards apart, with the first hurdle fifteen

yards distant from the starting point, and the last hurdle fifteen

yards before the finishing line.

In the 220 yards hurdle race ten hurdles shall be used; height of hurdle to be decided upon by the Games Committee. They shall be placed twenty yards apart, with the first hurdle twenty yards distant from the starting mark, and the last hurdle twenty yards from the finishing line.

In hurdle races of other distances, and with different numbers of hurdles, the hurdles shall be placed at equal distances, with the same space between the first hurdle and the starting point and the last hurdle and the finishing line as between each of the

hurdles.

In making a record it shall be necessary for the competitor to jump over every hurdle in its proper position, nor shall the performance be considered a record unless all the hurdles remain standing, after the competitor clears them.

A competitor knocking down three or more hurdles, or any

portion of hurdles in a race shall be disqualified.

RULF XXXII.

TIES.

In all contests whose results are determined by measurement

of height or distance, ties shall be decided as follows:

In handicap contests the award shall be given to the competitor who received the least allowance. In case of a tie between two or more competitors who received the same allowance, the

decision shall be made as in scratch contests.

In case of a tie in a scratch contest at high jumping, the tieing competitors shall have three trials at the height last tried, and if still undecided the bar shall be lowered to the height next below, and three trials taken at that height. If no one clears it, the bar shall be lowered again and again until one of the competitors clears it. In case of a second tie, the award shall be given to the competitor who cleared the bar with the least number of trials.

In case of a tie in a scratch contest in any event decided by distance, each of the tieing competitors shall have three additional trials, and the award shall be made in accordance with the distance clear in these additional trials. In case of a second tie three more trials shall be allowed, and so on, until a decision is reached. In case of a dead heat in track events, the competitors shall not be allowed to divide the prize or points, or to toss for them, but must compete again at a time and place appointed by the Referee.

In case of a tie in the pole vault the officials shall raise or lower the bar at their discretion, and those competitors who have tied shall be allowed one trial at each height.

RULE XXXIII.

ORDER OF COMPETITION IN FIELD EVENTS.

In all scratch events the competitors shall take their trials in the order of their names as printed on the programme.

In all handicap events the competitor having the greatest allowance shall make the first trial, and so on, in regular order, up to the competitor at scratch or with the least allowance, who shall have the last trial.

RULE XXXIV.

COSTUME.

Only boys with pants reaching approximately to the knees and shirts that adequately cover the body shall be allowed to compete.

What an Athlete Needs

Spalding Cross Country Shoe No. 14C.

It is very important that the beginner in athletics should know what to wear for the different sports. The cross country runner requires a shoe with a low, broad heel, and spikes in sole of shoe; he can have spikes in the heel or not, just as it suits him. A pair of Spalding's No. 14-C shoes, which are made of the finest kangaroo leather, and used by all the prominent crosscountry runners, cost \$6.00 per pair. A

sprinter will require a pair of sprinting shoes, No. 2-0, that cost \$6.00. The sweater, No. A, of finest Australian lamb's wool, was made originally by special order for the Yale foot ball team and now used by all college athletes, is one of the best in the market, sells for \$6.00; athletic shirt, No. 600, at \$1.25; athletic

pants, No. 3, at 75 cents; a supporter is very essential for an athlete and nearly all the champions use them; No. 5 is the most suitable one and retails at 75 cents; a pair of corks will cost the athlete 15 cents; pushers for the running shoes, 25 cents; the bath robe is now an essential part of an athlete's outfit—these cost from \$2.50 up.

The second quality of the same line of goods can be bought as fol-

lows: Sprinting shoes, No. 10, \$5.00; sweater, No. B, \$5.00; shirt, No. 6E, 50 cents; pants, No. 4, 50 cents; supporter, No. 72, 50 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents: bath robe, from \$2.50 up.

The pole-vaulter will want the same outfit, with the exception of a pair of jumping shoes, No. 14-H, which sell for \$6.00, and a pair of wrist supporters, No. 200, which can be bought for 40 cents. There is one article that a pole vaulter must have, and that is his own pole. There is everything in getting used to a pole and having confidence in the one that is yours, because

no other contestant is allowed to use it, according to the rules, which is quite right, for it has often occurred where a pole-vaulter made the mistake of allowing much heavier men to use his pole and break it. Any one can naturally understand that a man who weighs 160 pounds cannot use a pole designed for a man weighing 115 pounds. The pole now most commonly used is the Spalding Bamboo Pole. The 10-foot lengths cost \$4.00, 12-foot \$4.50, and

Spalding Jumping and Hurdling Shoe No. 14H

the 14 and 16-foot lengths, \$5.00. Usually the vaulter will wrap the pole to suit his own tastes. For those who prefer the spruce poles, they come in 14-foot lengths at \$6.00 each and 16-foot lengths at \$7.00. The greatest care is exercised in making these poles and only the most perfect and thoroughly seasoned pieces of spruce are used. All of this goes to make them what we claim to be—the only poles really fit and safe for an athlete to use.

The high jumper and the broad jumper will want an outfit as follows: Jumping shoes, No. 14-H, \$6.00; sweater, No. A, \$6.00; shirt, No. 600, \$1.25; pants, No. 3, 75 cents; supporter, No. 5, 75 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents; bath robe, from \$2.50 up.

An outfit with several of the articles of a cheaper grade than the above, costs: Jumping shoes, No. 14-J, \$4.50; sweater, No. B, \$5.00; shirt, No. 6-E, 50 cents; pants, No. 4, 50 cents; supporter, No. 2, 50 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents; bath robe, from \$2.50 up.

For the runner who wishes to pay less than the previous prices quoted (Nos. 2-0 and 10 are hand made), Spalding's make two styles of machine-made shoes which will give good service. They

are catalogued as No. 11T, at \$4.00, and No. 11 at \$3.00 per pair. For the schoolboy they make up especially No. 12, complete with

spikes, in sizes 12 to 5 only, for \$2.50 per pair.

Indoor shoes require a little different construction from outdoor. Spalding's No. 111, made of fine leather, rubber tipped sole, with spikes, cost \$4.00 per pair. No. 112, without spikes, but with special corrugated rubber tap sole, costs \$3.00, while there is still another quality, No. 114, at \$2.50 per pair. The boys' special shoe, in sizes 12 to 5 only, without spikes, cost \$2.00 per pair, Indoor jumping shoes, No. 210, cost \$5.00 per pair.

For the long distance runner Spalding makes a line of shoes known as the "Marathon," finished inside so as not to hurt the feet in a long race. They are hand sewed and cost \$5.00 per

pair, in either high cut or low cut.

The walking event in an athletic competition requires a low cut shoe of light but strong leather, and should not have spikes, as the latter have a tendency to bring the walker on his toes, thereby causing him to walk unfairly and subject himself to disqualification. Spalding's Olympic walking shoe, No. 14W, is

made of finest kangaroo leather and costs \$6.00 per pair.

The man who throws the weights will require the same wearing apparel as the pole-vaulter or the runner. John Flanagan and James Mitchel, two of the greatest weight throwers in the world, and Martin Sheridan, the all-around champion of America, wear what is known as the No. 14-H shoe, with a short spike, which retails for \$6.00. It is very essential that the weight thrower and the discus thrower should have his own implements; in fact nearly all the champion weight throwers carry their own weights

with them and guard them jealously.

Without doubt the best hammer in the market to-day is the ball-bearing championship hammer as designed and used by John Flanagan, the record holder and champion thrower of the world. This sells for \$5.50. An extra leather case for carrying these hammers will cost the athlete \$2 00. The regulation hammer, lead. you can get for \$5.00 and the iron at \$3.75. The 56-lb. weight, lead, will cost \$12.00. A weight thrower who wants to become expert should carry his own weights and particularly his own hammer. He can then arrange to have the grip made to suit himself, and when necessary to cover it with leather, and he will not be called upon when he goes to a competition to take the ordinary hammer with a handle with which he is not familiar. The 16-lb. shot, lead, will cost \$3.50, and the iron, \$1.75.

As these weights, however, are too heavy for the youthful athlete, the Spalding 5-lb. shot for schoolboy use has been devised, and has met with the instant approval of leading athletic authorities and been endorsed by the Public Schools Athletic League. It is made in the most thorough manner and will stand any amount of use. Two styles are made, one for indoor the other for outdoor use. For use in schoolyard playgrounds, or where it is desirable to have the shot roll only a short distance, the No. 5 lead shot, covered with special reinforced and cushioned leather, is recommended; price \$5.00. This shot will not lose weight, even after considerable use, and its construction renders it specially adapted to board floors, as the latter will not sustain any injury from the shot striking it, as would be the case if the unprotected solid style were used. However, for those who prefer the uncovered solid iron shot, that style is also made in the 5-lb. weight, and costs \$1.00. An 8-lb. shot is also made for juvenile use; in lead, leather covered, it costs \$5.00, and in solid iron, not covered, \$1.25.

Owing to the interest in the Olympic Games since their revival at Athens in 1896, and the capture of the classical Greek event by Americans, first by Robert Garrett in 1896 and subsequently by Martin Sheridan, an athletic meeting is not considered complete now without that event on the programme. The Spalding Official Discus costs \$5.00. For schoolboy events the proper discus, as officially adopted by the Public Schools Athletic League, is the "Youths' Discus," and costs \$4.00.

An event that has come into prominence is throwing the javelin, which was a feature at the Olympic Games and is very popular in Sweden, and is also now included in the A. A. U. programme. It necessarily requires plenty of space. The winner at the Olympic Games in London in 1908 was Lemming of Sweden, who also carried off the prize at Athens in 1906. His distance at London was 179 feet 10½ inches. The Spalding javelin, made in correct length, weight and balance, steel shod, costs \$5.00 each.

Two events that always attract interest at an athletic meet, usually when held indoors, are the three-legged race and the sack race. In the former the two contestants have their adjoining legs fastened together by means of straps at the thigh and ankle, leaving the other leg of each free. These straps preclude the possibility of falling or coming undone in the contest. Ankle

straps and thigh straps, complete, cost \$2.50.

For sack racing, a light but strong bag, but not too large, is necessary. Spalding makes a bag of burlap, with draw strings and reinforced at the bottom, where the wear comes, with a strong piece of canvas. These cost \$1.00 for boys' size and \$1.50 for men's size and will last indefinitely. A boy who goes in for this event, should by all means have his own bag, to accustom himself to its use.

Every athlete has heard of Mike Murphy, the famous trainer of the University of Pennsylvania, formerly of Yale, and the wonderful qualities he can develop in an athlete. He is famous for the perfect condition in which he brings his charges into a contest and the ingredients and method of preparation of his "Rub In" liniment have been a closely guarded secret. He has now turned the formula over to A. G. Spalding & Bros., knowing that it will be prepared in the same careful manner as if he compounded it himself. Small bottles cost 25 cents and large ones 50 cents. Every athlete should keep a bottle always at hand.

Clubs or schools outfitting their athletes would do well to secure Spalding's combination prices on athletic apparel, which are quoted on lots of six or more suits. They represent a material reduction from the cost when individual articles are purchased separately. A letter to any Spalding store (see inside of front cover for one nearest to you) will bring a catalogue and

full information by return mail.

Athletes should make it a point to have two suits of athletic apparel, one for competition and one for practice purposes. The clothing that some of our crack athletes wear in competition is a disgrace to athletics, and it adds a great deal to an athlete's appearance to appear neat and clean when taking part in athletic competition. In practice within one's club or grounds almost any kind of clothing can be used. A sprinter should have two pairs of running shoes, one a very heavy pair for practicing in (the cross-country shoe, No. 14-C, makes a very good shoe for this purpose, and can be had with or without spikes on heels), and a light pair for racing. One of the best professional sprinters that ever wore a shoe made it a point to train for all his races in very heavy sprinting shoes. Aside from the benefit that is claimed for practicing in heavy shoes, you always feel as though you have a pair of shoes that will be ready for any race that s scheduled, and bear in mind it does not pay to buy athletic implements or clothing that are cheap. They don't wear and cannot give you the service that you will get from articles that are official and made by a reputable house.

No athletic contest can be successfully held unless the competitors have numbers that can be easily distinguished, not only by the officials, but by the spectators. The price of Spalding numbers, on strong manila paper, is so cheap that the management of any set of games can afford to get them. They cost 25 cents for a set of numbers from 1 to 50, and at the same rate in

sets of 75, 100, 150, 200, 300, etc., up to 2,000.

Athletes and athletic club officials would do well to procure a copy of the Athletic Primer (No. 87 of Spalding's Athletic Library). This book fully covers the construction of athletic grounds and tracks, the management of games, formation of new clubs, etc. It also contains illustrations and diagrams of what might be considered a perfect athletic track.

SPALDING'S ATHLETIC LIBRARY.

The formation of Public Schools Athletic Leagues and the great interest now taken in athletics in the schools has led to the compilation, by Mr. J. E. Sullivan, secretary-treasurer of the Amateur Athletic Union and member of the Board of Education of Greater New York, of a book entitled "Schoolyard Athletics," which is published in Spalding's Athletic Library, price 10 cents. It is designed for the use of both teacher and pupil and is written in a clear and concise style that will make it invaluable to all who are interested in that branch of physical training now distinctively classified as "athletics."

An athlete, or follower of athletics, cannot afford to be without a copy of Spalding's Athletic Almanac, which is published in January of each year. It contains all the authentic records of track and field events and swimming that are the best on record, collegiate events, foreign records and pictures of leading athletes and prominent athletic teams. It is No. 12 of Spalding's Athletic

Library and costs 10 cents, postpaid.

The foregoing descriptions and prices form but a small portion of the complete list of goods in the Spalding catalogue, which contains pictures and prices of everything that an athlete wears or uses. This catalogue will be sent free to any address on request to a Spalding store, a list of which can be found on inside

front cover of this book.

Spalding Rubber Covered Indoor Shot Patented December 19, 1905)

This shot is made according to scientific principles, with a rubber cover that is perfectly round; gives a fine grip, and has the proper resiliency when it comes in contact with the floor: will wear longer than the ordi-

nary leather covered, and in addition there is no possibility that the lead dust will sift out, therefore it is always full weight.

SPALDING & BROS. ALL LARGE CITIES

The Spalding "OFFICIAL National League" Ball

Is in a class by itself. It has no rival, even in approximate excellence. It has attained a degree of perfection in manufacture where the genius of man seems unable to conceive of any design for its improvement. The Spalding Ball has reached this high stage of development from very modest beginnings. Time was when American boys had to be satisfied with a base ball composed of a slice from a rubber shoe, some yarn from their dad's woolen sock and a cover made of leather bought from the village cobbler and deftly wrapped and sewed on by their patient mother, after her day's work was done. But that time is no more; for, whatever may be true of the doughnuts and pies that "mother used to make,"—and we all remember how good they were—the home-made creations of our maternal ancestry in the base ball line had to give way when the house of A. G. Spalding & Bros. entered that field, and long ago the **Spalding "Official National League" Ball** distanced all competition in the race for popular supremacy.

The game of base ball has become our National Game because its integrity has been preserved through many years. For identically the same reason, the **Spalding "Official National League" Ball** has won its place in the high esteem of all devotees of the sport. Like the game in which it is used, its integrity is above suspicion.

It is well for the youth of America to learn the lesson that while the cheapest things are very seldom the best things, the best are always the cheapest in the end. The price of the genuine **Spalding "Official National League" Ball** is **\$1.25** each—no more and no less. The market abounds with so-called "League Balls," all listed at \$1.25 each, for the sole purpose of deceiving the purchaser and enabling the "just as good" dealer to work the discount scheme on the boy who is not posted.

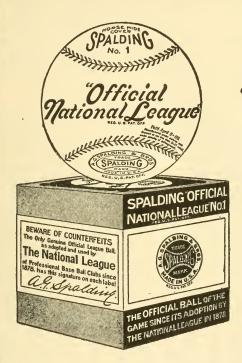

This is the reason why bright boys always insist upon the Spalding Ball and decline to accept any substitute. To many parents, a ball is a ball; but to the American lad who knows, only a Spalding Ball is the genuine and Official Ball of the game, and substitution of "something equally as good" does not go with him, for he has learned that to become a good ball player and get the greatest pleasure out of the game, he must use the same ball that all the leading professional players

use-and this is the Spalding "Official

National League" Ball.

old Medal Autogra

OR THE PAST THIRTY YEARS, or since our Base Ball Bat Factory was established, we have turned out special model bats to suit the leading players of the prominent professional leagues, and our records will show hundreds of different bats made in accordance with the ideas of the individual player, many of whom have been league record-makers. The models that have been adopted have been duplicated by us from time to time as they have required additional bats, and in hundreds of cases we have been requested to furnish to other players duplicate bats that have been made for and used by well-known players. In order to satisfy the ever-increasing demand from our customers for bats of the same models as used by the leading players, we have obtained permission from many of the leading batters of the country to include in our line of high grade bats these Gold Medal "Aulograph" Bats, bearing their signature. Space will not permit a description of all the various models, but the following models have been selected as examples of what we are producing in this special "Players' Aulograph" Bat Department.

It is in the Spalding Basemen's Mitts that the full advantages of the special "molded face" feature can be seen and appreciated. These mitts, which from the very moment they are put into play should adapt themselves to the conformation of the hand, cannot be simply slapped together without regard to shape. The leather in the face must first of all be most carefully selected, and only the very best portions picked out for the peculiar stretching and molding process which goes so far towards making Spalding Basemen's Mitts the perfect articles they are. Then the padding must be shaped properly by hand to form the necessary "pocket" and after that the other special features, only found in our goods, must be added. in order to make them worthy to bear the Spalding Trade-Mark.

SPALDING Gymnasium Apparatus

MANY years' experience is behind Spalding Gymnasium Apparatus. The most thoroughly equipped and largest plant of its kind in the world makes possible the highest grade of apparatus

at the lowest cost of manufacture.

Apparatus of the highest grade—Spalding—insures safety to the users, saves the necessity of constant supervision of parts, gives freedom from worry and adds valuable time to the day's programme, does not "eat its head off" in repairs, gives by its durability many years of added service, and proves itself a valuable investment.

Every piece of Spalding apparatus is manufactured and sold under the Spalding Guarantee, and the Spalding Guarantee for 30 years has meant something.

To those contemplating the purchase of Gymnasium Apparatus we solicit a careful comparison of quality. The quality of apparatus selected is a potential factor in the success of the gymnasium.

We will be glad to prepare plans and submit suggestions for college, playground or private equipments. Our experience, knowledge and facilities are freely offered to anyone interested.

Spalding-Exercising Equipment for Home Use

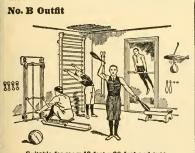

The apparatus listed in this catalogue is designed particularly for private use; i. e., in homes and private gymnasiums. It retains the same superior marks of quality which distinguish the regular line of gymnasium apparatus manufactured by A. G. Spalding & Bros., and which we supply on contract equipment from our Gymnasium Contract Department at Chicopee, Mass.; but its distinctive design permits it to be sold at a price more in keeping with its use than heretofore obtainable, without any sacrifice of practical value or durability. We give below suggestions for moderate priced outfits made up of various apparatus and exercising implements listed in this catalogue. We issue special catalogues showing apparatus which we supply on contract equipment, and copies will be sent to interested parties on application to A. G. Spalding Exercising Equipment for Recreation Rooms

Exercising apparatus, suitable for home use, and not altogether by the boys and girls of the nousehold, but also by the grown-ups; as a matter of fact, the ones who usually require exercise of a rational kind much more than the younger generation, who have the time and inclination for outdoor exercise not possessed by many of their elders—that is what we will attempt to show in this section of our catalogue.

Using Spalding Home Exercising Apparatus, Chest Weights, etc., properly, and in connection with the instructions given in our various Athletic Libraries there is no reason why any man cannot practically renew

his youthful vigor by regular exercise.

Many banking, mercantile and manufacturing establishments maintain athletic clubs of their employees and have installed Spalding Outfits of Gymnasium Apparatus in their club and recreation rooms for their use. The suggested combinations shown on these pages, illustrate only a few of the sets of exercising apparatus which may be made up from the goods listed in this catalogue.

Spalding Exercising Equipment for Small Athletic Clubs

What are to-day the largest, most prominent and most influential athletic clubs and associations in this country started from small groups of young men banded together originally as base ball, rowing or swimming clubs, and who, with the idea of retaining their organization during the entire year, commenced in a small way and in modest quarters to build up a regular athletic organization covering a number of athletic sports. With the idea of interesting small athletic clubs, we show on this page two medium-priced outfits of gymnasium apparatus suitable for small club rooms. We do not recommend these outfits to clubs with a large membership, or to those who are in shape to have a regular gymnasium in a complete club house. For such organizations, also for schools, colleges and other institutions, we maintain a special contract department, with staff of experts who will gladly give full information regarding the complete club house showing apparatus that we supply on contract equipment, and copies will be sent to interested parties on application to A. G. Spalding & Bros., Inc., Chicopee, Mass., Gymnasium Contract Department.

Schoolyard Athletics

By J. E. SULLIVAN

President Amateur Athletic Union; Member Board of Education Greater New York.

THE great interest in athletics that has developed in the public schools within recent years has led to the compilation of this book with a view to the systemiza-

tion of the various events that form the distinctively athletic feature of school recreation. With its aid any teacher should be able to conduct a successful meet, while the directions given for becoming expert in the various lines will appeal to the pupil. Some of the leading athletes have contributed chapters on their specialties: Ray Ewry, holder of the world's high jump record, tells how to practice for that event; Harry Hillman, holder of the hurdle and three-legged records, gives hints on hurdle racing and three-legged racing; Martin Sheridan, allaround champion of America, gives directions for putting the shot; Harry F. Porter, high jump expert, describes how to become proficient in that event. The book is illustrated with photos taken especially for it in public school yards. PRICE 10 CENTS

Durand-Steel Lockers

Wooden lockers are objectionable. because they attract vermin, absorb odors. can be easily broken into, and are dangerous on account of fire.

Lockers made from wire mesh of expanded metal afford little security. as they can be easily entered with wire cutters. Clothes placed in them become covered with dust, and the lockers themselves present a poor appearance, resembling animal cages

Durand-Steel Lockers are made of finest grade furniture steel and are finished with

gloss black, furnace-baked japan (400°), comparable that used on hospital ware, which will never flake off nor require refinishing, as do paints and enamels.

Some of the 6,000 Durand-Steel Lockers Installed in the Public Cymnasiums of Chicago. 12'x 15'x 42', Double Tier.

Durand - Steel Lockers are usually built with doors perforated full length in panel design with sides and backs solid. This prevents clothes in one locker

from coming in contact with wet garments in adjoining lockers, while plenty of ventilation is secured by having the door perforated its entire length, but, if the purchaser prefers, we perforate the backs also. ,

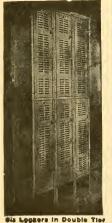

The cost of Durand-Steel Lockers is no more than that of first-class wooden lockers, and they last as long as the building, are sanitary, secure, and in addition, are fire-proof.

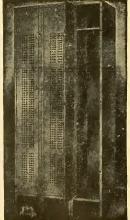

THE FOLLOWING STANDARD SIZES ARE THOSE MOST COMMONLY USED .

DOUBLE TIER SINCLE TIER 12 x 12 x 36 Inch 12 x 12 x 60 Inch 15 x 15 x 36 Inch 15 x 15 x 60 Inch 12 x 12 x 42 Inch 12 x 12 x 72 Inch 15 x 15 x 42 Inch

SPECIAL SIZES MADE TO ORDER.

We are handling lockers as a special contract business, and shipment will in every case be made direct from the factory in Chicago. If you will let us know the number of lockers, size and arrangement, we shall be glad to take up, through correspondence, the matter of prices.

Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy.

Without a definite and Standard Mercantile Policy, it is impossible for a manufacturer to long maintain a Standard Quality.

To market his goods through the jobber, a manufacturer must provide a profit for the jobber as well as the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts," which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that, ten years ago, in 1899, A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding Policy."

The "Spalding Policy" eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures his supply of Spalding Athletic Goods direct from the manufacturer under a restricted retail price arrangement by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The "Spalding Policy" is decidedly for the interest and protection of the users of Athletic Goods, and acts in two ways:

FIRST—The user is assured of genuine Official Standard Athletic Goods, and the same fixed prices to everybody.

SECOND—As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are required to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated exactly alike, and no special rebates or discriminations are allowed to anyone.

Positively, nobody; not even officers, managers, salesmen or other employes of A. G. Spalding & Bros., or any of their relatives or personal friends, can buy Spalding Athletic Goods at a discount from the regular catalogue prices.

This, briefly, is the "Spalding Policy," which has already been in successful operation for the past ten years, and will be indefinitely continued.

In other words, "The Spalding Policy" is a "square deal" for everybody.

A. G. SPALDING & BROS.

Standard Quality

An article that is universally given the appellation "Standard" is thereby conceded to be the Criterion, to which are compared all other things of a similar nature. I or instance, the Gold Dollar of the United States is the Standard unit of currency, because it must legally contain a specific proportion of pure gold, and the fact of its being Genuine is guaranteed by the Government Stamp thereon. As a protection to the users of this currency against counterfeiting and other tricks, considerable money is expended in maintaining a Secret Service Bureau of Experts. Under the law, citizen manufacturers must depend to a great extent upon Trade-Marks and similar devices to protect themselves against counterfeit products—without the aid of "Government Detectives" or "Public Opinion" to assist them.

Consequently the "Consumer's Protection" against misrepresentation and "inferior quality" rests entirely upon the integrity and responsibility of the "Manufacturer."

A. G. Spalding & Bros. have, by their rigorous attention to "Quality," for thirtythree years, caused their Trade-Mark to become known throughout the world as a Guarantee of Quality as dependable in their field as the U. S. Currency is in its field.

The necessity of upholding the guarantee of the Spalding Trade-Mark and maintaining the Standard Quality of their Athletic Goods, is, therefore, as obvious as is the necessity of the Government in maintaining a Standard Currency.

Thus each consumer is not only insuring himself but also protecting other consumers when he assists a Reliable Manufacturer in upholding his Trade-Mark and all that it stands for. Therefore, we urge all users of our Athletic Goods to assist us in maintaining the Spalding Standard of Excellence, by insisting that our Trade-Mark be plainly stamped on all athletic goods which they buy, because without this precaution our best efforts towards maintaining Standard Quality and preventing fraudulent substitution will be ineffectual.

Manufacturers of Standard Articles invariably suffer the reputation of being high-priced, and this sentiment is fostered and emphasized by makers of "inferior goods," with whom low prices are the main consideration.

A manufacturer of recognized Standard Goods, with a reputation to uphold and a untee to protect, must necessarily have higher prices than a manufacturer of cheaps, whose idea of and basis for a claim for Standard Quality depends principally the eloquence of the salesman.

We know from experience that there is no quicksand more unstable than poverty ality—and we avoid this quicksand by Standard Quality.

Al shalding Ales.

America's National Game By A. G. SPALDING

PRICE, \$2.00 NET

A book of 600 pages, profusely illustrated with over 100 full page engravings, and having sixteen forceful cartoons by Homer C. Davenport, the famous American artist.

No man in America is better equipped to write on all the varied phases of the National Game than is A. G. Spalding. His observation and experience began when the game was young. He gained fame as a pitcher forty years ago, winning a record as player that has never vet been equalled. He was associated with the management of the pastime through trying years of struggle against prevailing evils. He opposed the gamblers; he fought to eradicate drunkenness; he urged and introduced new and higher ideals for the sport; he was quick to see that ball playing and the business management of clubs, at the same time and by the same men, were impracticable; he knew that ball players

might be quite competent as magnates, but not while playing the game; he was in the forefront of the fight against syndicating Base Ball and making of a Nation's pastime a sordid Trust; he was the pioneer to lead competing American Base Ball teams to a foreign land; he took two champion teams to Great Britain in 1874, and two others on a tour of the world in 1888-9; he was present at the birth of the National League, and has done as much as any living American to uphold and prolong the life of this great pioneer Base Ball organization.

When A. G. Spalding talks about America's National Game he speaks by authority of that he does know, because he has been in the councils of the management whenever there have been times of strenuous endeavor to purge it from abuses and keep it clean for the people of America

-young and old

In this work Mr. Spalding, after explaining the causes that led him into the undertaking, begins with the inception of the sport; shows how it developed, by natural stages from a boy with a ball to eighteen men, ball, bats and bases: gives credit for the first scientific application of system to the playing of the game to Abner Doubleday, of Cooperstown, N. Y.: treats of the first Base Ball club; shows how rowdyism terrorized the sport in its early days; how gambling and drunkenness brought the pastime into disfavor with the masses, and how early organizations were unable to control the evils that insidiously crept in. He then draws a series of very forceful pictures of the struggle to eradicate gambling, drunkenness and kindred evils, and shows how the efforts of strong men accomplished the salvation of the great American game and placed it in the position it occupies to-day—the most popular outdoor pastime in the world.

Interspersed throughout this interesting book are reminiscences of Mr. Spalding's own personal observations and experiences in the game as player, manager and magnate, covering a period of many years. Some of these stories deal with events of great import to Base Ball, and others have to do with personal acts and characteristics of players prominent in the game in earlier days—old time favorites like Harry and George Wright, A. C. Anson, Mike Kelly.

Billy Sunday and others.

This book should be in the library of every father in the land, for it shows how his boy may be built up physically and morally through a high-class pastime. It should be in the hands of every lad in America, for it demonstrates the possibilities to American youth of rising to heights of eminent material success through a determined adherence to things that make for the upbuilding of character in organizations as well as of men.

The following address of General Wingate, President of the League, was read by Mr. Kirby:

GENTLEMEN:

It is gratifying to know that this, the eighth annual meeting of the Public Schools Athletic League, finds no check in the steady progress which has been maintained since its organization. The interest taken in its work, both in and out of the schools, the improvement of the school children in physique, character and discipline, and the enlargement and efficiency of its activities among both boys and girls, still continue.

Although these eight years have involved hard and steady

work, among those who are charged with the direction of its activities, such labor has been a pleasure rather than a task to those engaged, as they have been eight years of continued success. To this success all of them have con-

tributed unselfishly and diligently, so that all are entitled to the credit which has resulted. All new movements, especially of a public and philanthropic character, meet with considerable criticism and many disheartening drawbacks when first started. Our League, however, has experienced but few, almost none of these. On the contrary, from its inception to the present time, it has always received a kindly word and helping hand from the school authorities, the children, the press and the public. Largely in consequence of this it has now become a fixed institution in our school system, too firmly rooted in scholastic and popular estimation ever to be disturbed.

We are therefore assured that although the work is not completed and will continue long after your present officers have surrendered its management to others, its future is secure.

As you all know, when our League was formed in 1903, and for months thereafter there was no one in the schools outside of the physical instructors who knew anything about athletics; that the boys were in physique far below the standard of an average country lad, their ideas of honor and fair dealing were perhaps even more below what was proper, and school pride hardly existed. Now there is scarcely a school in the city in which the interest in athletics is not widespread and intelligent among both boys and girls; where the children are not much stronger, more active and healthy than they were in 1903; where ideas of honor and fair play have not been created, which never before were known and where a spirit of school pride has not been developed which constitutes a most important educational factor. Today it is universally conceded that the League has become the largest athletic organization in the world. The best test of its work is the imitation which is going on all over the country. Already nineteen cities, Baltimore, Birmingham, Ala., Buffalo, Cincinnati, Cleveland, Fitchburg, Mass., Kansas City, Mo., Newark, N. J., New Orleans, Pittsburgh, Pa., Poughkeepsie, Racine, Wis., San Francisco, Schenectady, Seattle, Springfield, Mass., Tacoma, Trov and Winnipeg, Canada, have organized public school leagues on the model of our own, which are repeating in the schools of those municipalities the success which this League has achieved in the City of New York. Its regulations are the standard which are followed by the thousands of schools throughout the country, which through its influence have introduced athletics as a part of their regular school work.

This is far more than the most enthusiastic of those who participated in the formation of our organization ever hoped to live to witness and I am sure is felt by you all as being

a full reward for your labors.

DR. WILLIAM H. MAXWELL,
City Superintendent of Schools, New York City.

As we have learned by experience what is best to do and what not to do, the work of the past year has been largely that of extension and progress. While the numbers which we are required to handle are constantly increasing not only in the aggregate but in the different branches of athletics, the work is really easier because it is understood by the teachers school children and the public. The reports of our valued Treasurer, Mr. S. R. Guggenheim, of our Secretary, Dr. C. Ward Crampton, of Mr. James E. Sullivan, Chairman of the Games Committee, of Mrs. Alfred Seton Post, President of the Girls' Branch, which will be presented to you today, state the details of the work during the past year. It is not, therefore, necessary that I should repeat them.

Perhaps the most important factor connected with our work during the past year has been the development of athletic games, which reach the mass of the school children, rather than those which tend to the creation of a small body of "star athletes" who will make high records in the competitions. While the development of such athletes is naturally the result of all competitive exercises and the desire to be selected as a member of the school team is a great factor in creating a general interest in athletics in the schools they represent, yet the real work which we desire to accomplish is to make the average boy—and in fact those who are below the average in physical training—encouraged and stimulated to practice so as

to make him healthy and strong.

It is for this purpose of interesting the individual that the contests for the "League Badge" or "Button" have been established among the boys and a badge presented by the Girls' Branch to be won in a somewhat similar manner by the girls. The "Button" is analogous to the soldier's "Marksman's Badge," and is annually awarded to each boy who attains a certain standard in running a short distance, jumping and "chinning" on a bar. It has proved as beneficial in its effect upon athletics in the schools as the markman's badges have been in promoting rifle shooting in the National Guard and in the Army. When this button was first established the number that were won was small. The boys could run fairly well but they could not jump and they had so little strength in their arms and chest that frequently in a good sized school the inspector would be unable to find more than six boys who could chin themselves four times.

As the number of buttons which have been won has increased, the number of those who desire to wear one has increased more proportionately, so that very satisfactory results have been obtained during the past year. Since 1909 the age, weight

Public Schools of Greater New York.

and height qualifications which formerly existed have been abolished, so that the following are the standards:

CLASS A. BRONZE BADGE.

60 yards dash—8 3-5 seconds, Pull up (chinning on bar)—4 times, Standing broad jump—5 feet 9 inches.

CLASS B. SILVER BADGE.

60 yards dash, indoors—8 seconds, Or 100 yards dash, outdoors—14 seconds, Pull up (chinning)—6 times, Standing broad jump—6 feet 6 inches.

FOR HIGH SCHOOL BOYS. SILVER BADGE.

220 yards run—28 seconds, Pull up (chinning)—9 times, Running high jump—4 feet 4 inches.

In 1904, when the competitions for this button were begun, but 1,162 buttons were won. This has steadily increased, so that the number who qualified during 1911 is 8,299. In P. S. 62, Manhattan, 1,141 boys competed, 500 of whom won badges.

The Girls' Branch has also adopted a plan for "all around athletics," and awards a pin to each girl who completes the

required record during the school year.

The system of competition between classes, in which eighty per cent. of each class must participate, and the average of all constitutes the record which has been organized by the League has become very successful and the interest which is taken in these contests has brought into them such a large number of boys that it can now be justly considered one of the boys' "world's greatest competitions."

In the "class jumping" alone 31,866 boys belonging to 1,138 classes and 115 schools took an active part. There were 27,781 boys who competed in "chinning" and about 12,734 in "class

running."

On account of the great magnitude of these contests they are divided into three separate series. The broad jumping contest is held in the fall, the chinning during March and

the running during May.

In the jumping contest each boy is allowed three jumps; the highest jump made by each are aggregated and averaged. The highest aggregate results obtained by the classes in the Fifth, Sixth, Seventh and Eighth years in each school are then forwarded to the Secretary of the League. Unless eighty per

C. L. MYERS,
Assistant Treasurer Public Schools Athletic League.

cent. of the register of each class has competed its scores are not considered. After the scores are received the highest classes in each Borough are selected and then tested by the officials of the League. Unless on this test they obtain an equal or higher record than that which constituted the record forwarded, such record is not allowed and another class is substituted.

In the "chinning" contest the same procedure is gone through

with.

In "class running" the boys are lined up back of the starter. As the first runner crosses the finish line the judge standing there signals with his handkerchief, the second then starts and the others successively until the others have completed the distance. The time taken by the entire class is divided by the number of boys running and the result constitutes the class record.

As these contests cover parts of different years it is impossible at this time to exactly tabulate the results for the year 1911. The "class jumping" is now going on and is practically completed, although the championships have not yet been awarded, while the class "chinning" and "running" have been finished. The records received, particularly in jumping, show a great improvement over anything that has been the case during previous years. This not only means that the winners have made better scores than heretofore, but that the boys in the thousands of classes that have competed have displayed a marked physical improvement.

A new system known as "Combined Athletics" has been devised by Mr. Frederick J. Reilly, Principal of P. S. 2 B, Manhattan. It has been developed and adopted by the schools in Districts Two and Three, Manhattan, with very favorable results. It is largely along the lines of "Class Athletics," but goes further by making the records that have been attained by the entire

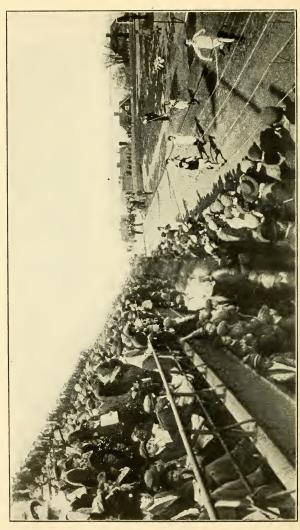

school, the standard upon which such school is ranked.

As the performance of each boy has a definite bearing on the record of his class, pressure is brought on the less active boys by the others, with the result of compelling laggards to practice faithfully, thus greatly improving the physique of those who are most in need of the exercise.

It also covers a number of different forms of exercise so as to prevent the selection and training of a single class in

a single branch of athletics.

The system consists of three separate competitions, each consisting of two events. The competitions are held at three different periods, namely, one in the fall—the Standing Broad Jump and Combination Dip; second, in the winter—Chinning the Bar and Hop, Step and Leap; and third, in the spring—Running and Trunk Lifting.

A "FINAL" AT SUNDAY WORLD FIELD DAY, CURTIS FIELD, OCTOBER 14, 1911.

All the boys in the school compete, excepting those who are physically unfit. Certain minimum standards are set in each exercise which a boy must reach in order to qualify. In the "Chinning and Combination Dip" a maximum is set beyond

which he is not allowed to go.

In the "Standing Broad Jump" the boys stand flat on the floor and jump off of a line. In the "Combination Dip" the boy, standing erect, bends, places hands on the ground, extends his legs and then lowers his body until it touches the ground and lifts it. "Chinning" and "Hop, Step and Leap," need no explanation. In "Trunk Lifting" every boy lies on his back with his hands placed on his hips, and lifts himself to a sitting position without using the legs or allowing the heels to leave the floor.

In the "Jumping" five points are counted for a boy who reaches the minimum distance prescribed, which is 4 ft. 3 ins. for the 5A grade; 4 ft. 6 ins. for the 5B grade; 4 ft. 9 ins. for the 6A grade; 5 ft. for the 6B grade; 5 ft. 3 ins. for the 7A grade; 5 ft. 6 ins. for the 7B grade; 5 ft. 9 ins. for the 8A grade, and 6 ft. for the 8B grade. One point more is given

for every six inches jumped beyond the minimum.

In the "Combination Dip" the minimum for a 5A grade is twice, and the maximum five times, which is increased by one in each of the other grades. The score is five points for each

minimum and eight points for each maximum.

In "Chinning" the minimum for a 5A grade is four times, maximum ten; for 5B minimum, five times, maximum eleven; for 6A and 6B the minimum is six times, maximum twelve; for 7A and 7B the minimum is seven times, maximum thirteen; and for 8A and 8B the minimum is eight times, maximum fourteen. These count five, six, seven and eight points respectively.

In the "Hop, Step and Leap," each class is divided into three groups; boys under four feet six inches must cover 20 feet, boys under five feet must cover 22 feet, and boys over five feet

must cover 24 feet.

The running is conducted as above stated for Class Athletics. The aggregate time of the class is subtracted from 15, the remainder being the number of points averaged by the

class.

In December, April and June each principal sends a report to the Secretary of the District Committee. The Committee then visits the schools claiming the best record for each grade and tests one class in that grade. The class to be tested is chosen by lot just before the test. If that class equals or excels its record as reported, it is assumed that the others

ROOTERS AT SEWARD PARK, HESTER AND ESSEX STREETS, MANHATTAN, Courtesy N. Y. Sunday World.

will do likewise, and the school is declared winner of the trophy for that grade. The Committee may, however, also test any other class on the same grade that claims a record very much above the average. If either of the classes tested fails to equal the record sent in the Committee tests a class in the school claiming the second best record. If its record on the official test surpasses that of the first school the second school is declared winner for that grade. By this means the work of testing is reduced to a comparatively small amount.

The Athletic Committee of the Board of Education has considered this system so beneficial that it is printing a circular describing it and calling the attention of the principals and

teachers to it.

The improvement in the work which is being done by the Girls' Branch is fully equal if not greater than that which is being effected among the boys. The folk dancing and other methods of physical exercises which have been introduced by the officers of the Girls' Branch are not only beneficial, but are extremely popular among the girls. The work briefly consists of encouraging after-school athletics, by offering pins and trophies, conducting free instruction classes for grade teachers who in turn volunteer their services for these athletics, assisting to organize athletic clubs, supplying coaches, instructors and assistants where the Board of Education is unable to do so, and endeavoring to secure enlarged facilities for out-of-door exercise.

The Girls' Branch seeks to secure to the girls, atheltic exercises distinctively suited to their sex. Vigor, and the possibility of engaging a large number of pupils at one time, as well as of eliminating individual prominence, are sought to be developed. Folk dancing, certain games and walking are fostered, and in the High Schools there are added certain track and field events. The competition is entirely between clubs and never between individuals, and no contests are allowed between clubs unless they belong to the same school, no interschool competition being permitted. The main idea of these athletics is to encourage a love for recreative exercise for its own sake and to cultivate a variety of accomplishments. Each girl devoting a certain time to the exercises is given a pin, irrespective of any competition.

The Girls' Branch has been greatly strengthened by the action of the Committee on Athletics of the Board of Education in referring to it for recommendation all matters relating to girls' athletics, and as well as by the appointment by the Board of its Executive Secretary as Inspector of Girls' Athletics, thus establishing that department as a part of the Department

of Physical Training of the schools.

1, F. Martin; 2, J. S. Fitzpatrick; 3, B. Colten; 4, G. A. Stumpf; 5, M. Gilbert; 6, M. Gottlieb; 7, A. Greenberg; 8, J. J. McHugh, Sec.; 9, L. I. Kearney, Chairman; 10, E. Kirschner; 11, M. Markett. ELEMENTARY SCHOOLS' GAMES COMMITTEE, 1912-13.

The field which the Girls' Branch has covered is indeed a vast one. Not only are there more girls than boys attending our public schools, but they are in far greater need of exercise than is the case with the boys. While this is the case, their dree, traditions and surroundings unite to debar them from almost all opportunities to enjoy it. While the boys can have an opportunity to secure some little exercise in the congested streets of our crowded tenement house districts, their sisters are practically debarred from doing so.

The classes it has established for the instruction of teachers have increased from one to twelve, three of these being senior classes for teachers who have attended this instruction at least two years. The increase in its work is shown by the fact that while in 1905-06 there were 328 girls under 38 teachers in 9 schools taking this instruction, in 1910-11 there were 20,626 girls

under 941 teachers in 269 schools.

Through the method of instructing teachers gratuitously thousands of girls have been provided with healthful and joyous recreation.

At a cost of \$5,000 the Girls' Branch has during the past year secured from teachers in its free instruction classes gratuitous service which if paid for at the customary rate would have cost \$48,000, and the actual cost per capita for instructing 25,000 children has been but twenty cents a year. To reach the remaining 250,000 in the schools would cost but \$15,000; in other words, ten times as many girls for three times as much money.

It is unfortunate that in spite of this it seems to be more difficult to interest people generally in the work of the Girls' Branch than that of the boys. Men of all classes give freely for athletics for boys, whereas it has been with the greatest difficulty that the ladies have been able to raise a much smaller sum with which to carry on their work among the girls.

After a careful study of the matter and consultation with teachers of athletics and many other experts, the Girls' Branch has selected certain games as being suited to the physique of the girls, and prohibited certain others which have been found to be detrimental. Among the latter were broad jumping, high jump in competition and pole vaulting.

Three great Park fetes were held by the Girls' Branch in May, 1911, two being held in Central and Prospect Parks, and the third was held on the lawns at "Farview," the residence of Hon. George Cromwell, President of the Borough of Richmond.

To many of the children these park fetes are a great pleasure, being for many of them their first visit to the Park for

years and for hundreds the year's only experience of green

grass and leaves.

The melancholy situation arising from our congested tenement districts is shown by the fact that the walks taken by one of the girls' schools on the lower East Side of New York disclosed that many girls in the intermediate and upper grades had never seen an elevated railway, and hundreds more in those grades had never seen the green trees or grass of a park, although the school was only seven blocks from an elevated rail way and even nearer to a small park, and that in all sections of the City the upper grade girls who have ever taken a three-mile walk form a pitifully small minority.

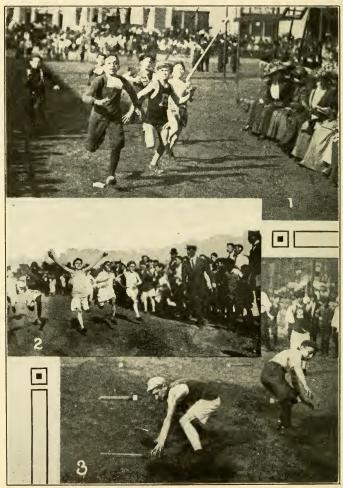

In addition to the system of walking clubs which was introduced in 1909 and has been carried on by the Girls' Branch, proving a great success, the Sunday World has been carrying out a definite plan for walks by both boys and girls with great success. This provides for the organization of squads of eight pupils including a captain, the members of which are certified to by the principal of the school. The walks of not less than two miles each, must be in squad, with a majority of the members present, and accompanied by a teacher or other adult person approved by the principal or supervisor. A "Tours Bulletin" has been compiled describing many interesting walks to different parts of the city as well as into the suburbs.

A bronze medal is awarded to boys walking 50 miles and to girls walking 35 miles during each quarter and a silver medal for boys walking 100 miles and girls walking 75 miles in each quarter. Over 2,500 of these medals have been awarded during the past year. From January to July 1, 1911, the number of those walking as members of the walking squads that had been organized in the schools of the city was 8,600 in 930 squads in 67 elementary schools. Of these 930 squads, 175 were composed of girls, the number of girls walking being 2,280. The squads were accompanied by 130 teachers as supervisors.

In the four periods into which the year was divided more than 2.500 boys and girls were awarded prizes, the actual number of medals and medal-pendants dispensed approximating 4,000.

In the first quarter of the second year—from September 20th to November 10th, 1911, 430 squads of the walking club were organized, in thirty-two schools, and many of the squads previously organized continued their work, filling vacancies by electing new members.

These walking trips have not only removed the children from the congested streets, giving them the best kind of exercise and fresh air, but taught them that they can walk without inconvenience distances that at first seemed impracticable, thus open-

ing to them indefinite fields for future enjoyment. This is particularly the case with many in the congested districts, to whom ten eents carfare is beyond their means, whose lives are spent in the little squalid circle of crowded streets and tenements, and to whom a few trees and a little grass are a mysterious wonder and delight.

In view of the wonderful facilities existing in this city for transportation, walking has become almost a lost art, and the value of the work accomplished by this system is incalculable.

The field days which the Sunday World inaugurated in 1906 have been continued with increasing success. In 1911 153 schools held their meets, in which 47,000 boys competed, an increase of 11,000 last year as against 16,000 entered in 1906. 1,200 teachers acted as officials in these games in 1911, which in most cases were directly supervised by the schools.

3420 boys won Sunday World medals in the year's separate school games, and 157 banners were awarded to the school classes that won the greatest number of points in the games.

The percentage of entries in the year's games (as compared with the total enrollment of the school's grammar grades) was in many cases very high. At School 43, Brooklyn (which was awarded the all-city plaque for high percentage of entries and high scores in the games), 943 boys were entered and competed in the school's field day games out of a total of 1070 boys in the grammar grades of the school.

Following are some of the schools that had the largest number of boys in their games, the figures given being the actual

The final meet was held at the Curtis Athletic Field, with

750 contestants and about 5,000 spectators.

Under the rules of the Board of Education permitting each school to devote one school day each year to field day sports, 100 of the schools held all day outings in which fully 75,000 children enjoyed the holiday and the athletic events. In all over 200,000 children have participated in our athletics during 1911. A larger army than was ever assembled in any battle of our Civil War.

The various athletic meets and field days held by the schools were made interesting by the music which was furnished by the school boy bands, namely that of P. S. 21, Manhattan, and P. S. 20, Richmond. These the League was enabled to organize through the generosity of our late Director, Mr. John S. Huyler, who paid the entire expense, about \$4,000, of providing the instruments for two full bands and also paid for the services of an instructor. As in addition to the pleasure of belonging to these bands the boys acquire a profitable occupation in doing so, there is always a long waiting list for each of them. The lamented death of Mr. Huyler deprived the League of the money required to pay for the services of the leaders of these bands. The necessary amount, however, has been raised by private contributions so that they are still continued.

In the elementary indoor championship games, 624 boys rep-

resenting 65 schools, entered.

In the elementary schools basket ball tournament, 107 teams entered.

In the elementary schools Indoor and Outdoor swimming

contests, 800 boys representing 50 schools, entered.

In the elementary schools outdoor novice and championship games, 759 boys representing 60 schools, participated. In soccer foot ball 8 high school teams and 8 from elementary schools competed.

In base ball there were 70 teams, and the final games were witnessed by 28,000 spectators. Every High School in the city

has entered a team for the 1912 base ball tournament.

The League itself has held 16 Championship events and sanc-

tioned 5 others.

The "City Championship" in the Elementary Schools was

won in 1911 for the third time by P. S. 62, John S. Roberts, principal. This school made 80 points in the different games, as against 70 points made by P. S. 1, Richmond, and 40 points by P. S. 14, Richmond.

While the interest in rifle shooting during 1910 was great it has been greater during 1911. Through the generosity of its friends the League has been able to place a subtarget gun machine in fourteen of the largest high schools and has also been furnished with many valuable prizes. These subtarget gun machines are so constructed that a boy practicing receives the same benefits as if he were actually firing a ball cartridge with an army rifle, while there is neither noise, danger nor expense. During the year 1911 over 3,000 boys have been regularly practicing. On May 1, 1911, there were reported 389 as qualifying as marksmen, by making a score of 45 points out of a possible 50 (a very severe test) as compared with 351 last year and 142 sharpshooters (those making a perfect score of 50) as compared with 97 last year. The badges for these qualifications which were won in Manhattan, Bronx and Richmond were presented by the Union Metallic Cartridge Company, while those for the boys in Kings and Queens were donated by the Brooklyn Eagle, to both of whom the League is under great obligations.

Those boys who have won their markmanship and sharpshooters badges are permitted to practice with cartridges in the rifle galleries of the different armories, and it is found that with the experience they have had with the gun machines they soon develop into remarkable shots. At present there is a tournament being conducted among the high schools on their subtarget gun machines. This consists of a series of dual matches.

In the tournament which took place under the auspices of the League at the Motor Boat Show in 1911, at which a number of prizes were offered by different Arms Companies and others interested in the subject, over one thousand boys participated more in fact than the subtarget gun machine and the target ranges that were provided would accommodate. The shooting was done at 50 feet, the target was the National Rifle Association Junior Marksman, Standard American Style; three counts in the black—ten, nine and eight. The ten ring ½ inch, the nine ring 1 inch and the 8 ring 1½ inches. The Morris High School won the Winchester match, the New York State Rifle Association match, and the Peters' match; DeWitt Clinton High School won the DuPont match. The contests were close between the high schools which competed, and the shooting was fully equal to anything which has ever been seen in any of the National Guard competitions. In fact, the scores made by

several of the competitors have never before been equalled. J. S. Hubbard of the DeWitt Clinton High School scored 1555 out of a possible 1580; Harry Linicus of Morris High School was second with 1536. In the Winchester Match the Morris High School, firing 10 shots standing and ten shots prone, made 1096 out of a possible 1200, and DeWitt Clinton made 1068.

Our high schools also competed for the Astor Cup presented by Colonel John Jacob Astor, which was shot for by 45 preparatory schools on their home indoor ranges all over the United States. It was, however, won by the Iowa City School, the

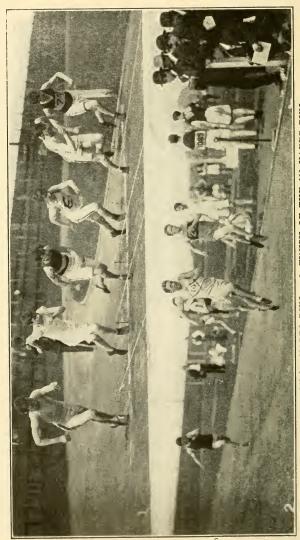

Morris High School being second.

While there is a certain number of peace advocates who have objected to introducing military instruction in the schools, certainly none can object to teaching our youth the use of the rifle. This country must depend for its defense in time of war upon the hasty levees of volunteers. If these know how to shoot but a little practice will be required to make them efficient if called into service to defend their country and their flag. Without it they are worthless as soldiers. If the practice which is now being carried on in our high schools could be made general in those throughout the country so that a large proportion of our youths could become sharpshooters, a force would be provided at a nominal expense which would render the nation able to defend its shores against any invader without the necessity of maintaining a large regular army.

It is gratifying to know that in a recent article in *Collier's*, General Leonard Wood of the Army praised the work which the League was doing in this respect and pointed out that it was of vital necessity to the country that it should be made universal.

The four athletic fields belonging to the Board of Education have been kept in good order and have been greatly used. It has been unfortunate that the financial condition of the City prevented until a few months ago the appropriation of sufficient funds to allow the contracts to be made for a building on the Brooklyn Field to contain the necessary bathing and dressing facilities, a fact which has been a great drawback to its use. A contract has now been made for its construction, so it is hoped that it will be completed in 1912.

These fields have made possible the holding of many competitions which could not otherwise have taken place and have also afforded an opportunity for practice and recreation for thousands of school boys. The fact that they have been kept open on Sunday afternoons has been of great value. Many hundreds of boys have found recreation and pleasure there and have thus been kept away from the saloons and the streets.

2-FINISH OF THE 100 YARDS RUN. 1-START OF 100 YARDS RUN.

The League has also arranged to keep some of them open during the week in summer from six to eight o'clock in the

evening for the accommodation of working boys.

The system adopted in the spring of 1909 of allowing the different schools to have a field day on which the whole school, with the exception of the small children, go in a body to one of the fields and hold their class exercises and school games has steadily grown in efficiency and popularity. In 1911 this was taken advantage of by 100 schools. It is considered by the principals and teachers to be a valuable innovation, greatly helping the athletics of the school and enhancing school pride.

There is nothing more needed in the city than places where the children attending our schools can have an opportunity to practice athletic exercises and to play. It is therefore hoped that the course which has been adopted by the Board of Education in keeping open the play grounds and school facilities for exercises after school hours will be continued. The expense is trifling and should not be regarded for an instant when compared with the benefits which will result. As a mere business proposition a plant of anys such value as that of the schools would, if belonging to a private individual, be used as much as possible. Why should not this be done by the city? If these playgrounds are kept open it will afford a chance for many to become proficient in athletic games which they do not now possess, besides keeping them away from bad influences. That many additional playgrounds are needed for the children is too clear for argument, and it is earnestly hoped that the new Recreation Commission will succeed in effecting a substantial increase in their number.

The unselfish work which has been done by many of the men teachers in the schools in giving their afternoons, day after day, to promote the athletic training of the boys, is appreciated by but few. This has been not only given by them to the boys of their own schools, but was extended to those belonging to other schools which in consequence of having few or no male teachers were deprived of the necessary instruction. The teachers who do this have not only lost their own time but have been prevented from attending many lectures and other methods of additional study which would have counted upon their promotion records and which they could ill afford to lose. It is therefore but just that the Board of Examiners have decided to give these teachers a credit for their work. In fact, it must be recognized that a teacher who spends his afternoons in coaching boys in athletic games attains a practical experience of boy nature and an executive ability which makes him more fit to teach a class than would be the case if he had spent the same

time in listening to lectures or studying any pedagogical sub-

ject that could be imagined.

The League is also under the greatest obligations to the various commanding officers of the National Guard of New York and Brooklyn, who have cheerfully granted the use of their respective armories for its many games and for those of the different schools, without the use of which it would have been impossible to hold them. To obtain this the League has given bonds to indemnify the military authorities against my injuries to the armories or to their contents. The Board of Aldermen has given valuable aid to our work by giving school children free transportation to the games at the Curtis Field over the Staten Island ferry.

The League is also under great obligations to Dock Commissioner Calvin Tompkins, who granted the use of the Recreation Piers for athletic practice by the school children during the spring and until the warm weather in May required that they should be appropriated for the use of the mothers and children

who have the primary claim upon them.

They were used extensively, particularly by the children of the tenement districts who live near them, and to whom the athletic fields of the Board of Education are so distant as to be

inaccessible.

The League is also indebted to The American Sports Publishing Company for the donation of 10,000 copies of the "Official Handbook." This enabled two copies to be placed in each of the class libraries of the different schools, others to be sent to the members of the league and others to the many inquirers for information in regard to its work.

I also desire to express its thanks for the many beautiful trophies and other prizes which have been given to it, a list of which will appear in the Secretary's report, also to the Sunday World, the Herald and the Brooklyn Eagle, for the great

help they have rendered.

The League has now 168 trophies, many of them expensive and handsome. While a number were permanently won during the year others have been presented in their places as well as for new events. Among those presenting these prizes were the following:

Elementary Schools—100-lb. Indoor Relay. First prize, bronze figure. Donated by Senator Timothy D. Sullivan.

High Schools—120-lb. Relay, Indoor. First prize, bronze figure.

Donated by Frank DeKlyn Huyler.

High Schools Senior Relay—Indoor. First prize, bronze figure.

Donated by Judge Victor J. Dowling.

High School All-Around Outdoor Championship. Bronze figure. Donated by Hon. Herman A. Metz.

For the High School having the highest annual per cent. of Athletic Badge Winners. Silk banner. Donated by Simeon I. Drake.

To the Class in the Elementary Schools having the greatest percentage of boys winning the athletic badges, a silk banner.

Donated by Walter and Frederick Lewisohn.

For the Elementary Schools in each of the five boroughs making the best record in the athletic badge test in each year, five silk banners. Donated by Walter and Frederick Lewisohn.

For the Elementary School making the best annual record in combined athletics, a silk banner. Presented by Jacob G.

Dettmer.

It is difficult for one not familiar with life in the great congested districts of our city to appreciate what the League has accomplished, not only in giving the boys an opportunity to get some healthful amusement, but to keep them out of vice and crime. It wages a persistent and highly successful war on cigarette smoking (that bane of our youth) and other bad habits, and also keeps the boys out of gangs and similar temptations. This it does not by preaching, but because in becoming interested in athletics they are taught that they cannot excel unless they take care of their bodies, and to do this means the

keeping away from these things.

With every year the standard of athletic ability in the schools becomes higher. Accompanying this is a marked improvement in carriage of the person, alertness of mind and body, and the general air of strength and health resulting from the athletic exercises which the children have pursued. Gratifying as is this from the physical side, the improvement on the side of ethics, school discipline and esprit de corps is even greater, a fact which has constituted the supervising and teaching force of the schools firm supporters of our work. Under no circumstances is any pupil permitted to compete in any of the league games unless he is certified by his principal to have "B" in effort, proficiency and deportment during the month previous, nor unless he shall have attended his school for twenty weeks (except when regularly transferred). No school is permitted to offer any inducement to cause a pupil of any other school to sever his connection with such school for athletic purposes.

The question as to whether or not the standard of B B B above stated should be lowered has been proposed at different times, and has been thoroughly discussed, with the result that

the Elementary Schools Games Committee has decided to make no alteration. The feeling of the Executive Committee of the League is that unless a decided majority of the principals favor a change in the rule it should not be altered.

Every effort which can be made by those interested in the League is systematically made to impress upon the children of the schools that to be a good athlete means to be honorable and truthful, to despise anything that is mean or underhanded, not to boast as winners, and to "own up" when defeated.

There is no way in which the robust, manly qualities of courage, nerve and hardihood are developed as much as in competitive athletics, and our games are having this result particularly upon the school boys of foreign birth whose ancestors for hundreds of years before them have been so oppressed as to have been almost slaves in the countries from which they came. The records of the schools show that the manly qualities which these boys are acquiring through our athletic contests are changing their natures, or rather the mental habits forced upon them by their oppression. This cannot but be fully equal in value to the intellectual information they attain in school and cannot fail to be of equal or greater value to them when they

patrons in 1910.

From this and a few other sources the League received during the year 1911, \$14,470.02 as against \$11,692.14 in 1910. It spent \$12,815.96 as against \$10,889.20, leaving a balance remaining of \$2,457.10 as against the balance of \$802.94 which ex-

isted on December 1st, 1910.

This number of contributors is small compared with that of our citizens and particularly those who received their education in the public schools, and should be interested in our work. In fact, if it were not for the generous contributions of Mr. S. R. Guggenheim, Mr. Payne Whitney, Mr. John D. Rockefeller and Andrew Carnegie (each of whom contributed \$500. or more) and the others whose names appear in the Treasurer's report, it would have been without the requisite means to properly carry on the work of the League.

In conclusion, I congratulate you all upon the good work that we have accomplished in the brief period of our organization. I think that you will agree with me that in looking upon it on the ethical side alone and ignoring the vast improvement that it has effected in the strength, health and happiness of our

school children, all those who have contributed to the creation of the League, whether as subscribers or officers have just cause for pride in having achieved something which will result in a lasting good to the community and help to keep our memory green in the future.

Dr. Gulick addressed the meeting, stating that it seemed to him that the League had this year done its greatest work and made the greatest advancement. Chairman Kirby responded, stating that the Public Schools Athletic League has reason for congratulation upon its efficient officers; that the League is to-day accomplishing what its officers had in mind—not competition among individuals but the improvement in physical condition generally of the boys and girls of the schools; that they are gradually getting away from the idea of rewarding championship but striving to make the boys work for the schools themselves, thereby bringing out the weaker boys who through competition grow stronger and the standard improves.

Dr. Gulick expressed the congratulations of the League upon the selection of Mr. Kirby as the head of the athletics of the country as President of the Amateur Athletic Union, and moved that they be formally, through its Board of Directors, extended to Mr. Kirby. Mr. Kirby expressed embarrassment at the situation and Dr. Gulick put the motion, which was unanimously carried. Mr. Kirby, in a few well-chosen words, expressed his thanks, and his intention to be of such assistance to the League as he could.

Upon motion, adjourned.

Report of Secretary of the Public Schools Athletic League

GENTLEMEN:

During the past year the development of the League has progressed steadily upon the principles which were wisely formulated by its founders. These should never be departed from and are based upon the following:

Athletics are of great biological advantage: Physical activity in the child is necessary for present health and future development, and the one impulse which urges children to muscular work is the play instinct. If this is weakened by innate physical depravity, or stifled by the conditions of civilized life, the individual suffers and the race declines.

Athletics are educational: Learning nature's course of study in play cannot be replaced by books. Modern organized athletics are the highest development of play and the practice which they afford prepares directly for the proper discharge of civic, social,

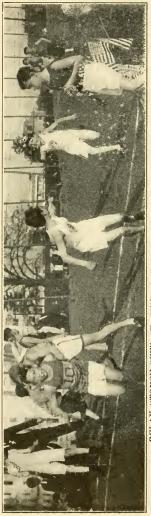

and business duties.

Athletics are of school concern: They are often the only bonds that hold the children of a section or a commmunity together. Play will organize itself on the block or street-gang basis and

become distorted when it is undirected.

There are two forms of athletics which are encouraged by the Public Schools Athletic League—the intensive and extensive. The first, is the popular kind, is where a high school of a thousand boys will select a dozen or so to compete as its representatives. It is the natural form of athletics, selecting (in medieval fashion) the "champion" of the group to defend its honor. Measured by rigid hygienic standards it is of little use for it merely results in the training of the one who is already most physically able, and neglects the ninety and nine who need it most. That the intensive plan with all of its limitations is the soul of athletics was early realized. The first meet held in Madison Square Garden by the League aroused the enthusiasm in the schools it was planned for, and paved the way for the organization of a series of annual indoor and outdoor athletic meets, to which over one hundred schools now regularly send their representatives.

The district leagues, now twenty-three in number, now hold their athletic meets with the result that athletics became focused

in many widely separated neighborhoods and 150 schools now regularly manage their own series of contests. Thus about 25 per cent. of the grammar school boys are competing in and for their schools in base ball (indoor and out), soccer foot ball, basket ball and track and field athletics, and about 75 per cent. competing once or twice a year in the district and school games. One cannot attend a school meet with its twenty or more events, its thousand competitors and five to ten thousand shouting partisans in the balconies of an armory or on an athletic field without being profoundly impressed. It is an exhibition of one of the most fundamental of racial human interests, inseparable from life, yet otherwise unfostered and hidden by modern conditions.

Of course, no one believes that the running of a single 50-yards dash does the boy much good or (since he has been examined by a physician) much harm. The good lies in the course of training which he has undergone, not the competition. Yet he would not train if it were not for the competition. Cigarettes, easy and semi-vicious habits, careless eating, and general unhygienic laxity are not to be eliminated from boy life by anything less than a compelling interest. This interest competition

supplies.

The boy strives to be the chosen representative of the school, and when chosen exerts his whole energy and enthusiasm to succeed. This also trains for patriotism in the boy world in a tangible and intimate way, and its lessons do more to promote character than those learned from the books.

One of the best results of athletics is the effect upon the parents. These are pleased to see their children become well and strong. They are proud to have them bring back their medals to the family. They therefore feel a greater interest in the school.

Intensive athletics alone do not satisfy the physical educator whose duty lies with the weak rather than the strong. To meet this latter requirement, "extensive" forms of athletics have been devised. During the fall of each year, most of the schoolboys of New York City "stay in after school" and in the openair playground practice the standing broad jump, for before December 1st their records will be taken and the average of each class will be sent to the Secretary of the Public Schools Athletic League.

As soon as this is settled, "chinning" is started, and later in the spring, "running" is the competition. By this means, each boy in the class, regardless of his inexperience or his ability, is stimulated to train, not only once a year but three times, in not only one event but in three. This reaches all boys, provides continuous training, avoids specialism, and insures all-around

development.

employer of 250 young men:

"I have come to recognize the badge given by the Board of Education for athletic work and particularly good posture to be of real significance. When boys apply to me for employment I immediately seek out those who are wearing the athletic badge and consider them separately and first, and it is rare indeed that I do not find every one of them superior to those who have not won the badge. I wish every boy would go through your course of 'sprouts' and come to us alert and strong and standing up straight—the way these fellows do."

Another form of extensive athletics is the "Athletic Badge Test." This requires the boy to make standard performances in three events, running, jumping and chinning. To compete for this badge the boy must also qualify in scholarship and have a good erect posture. Yet 8,299 of these were won last year.

Principals now realize that athletics not only return large benefits to the pupil but the school organization as a whole. Schools therefore have organized inter-school athletics, each class having its one or two teams in basket ball, base ball, and what not. The school thus becomes a league in itself of a thousand or more members, with more boys practising and more teams in the field than there were in the whole of the city of New York ten years ago.

In these schools, which are many, athletics have come to their own and have begun to discharge their full and great duty. May

their numbers increase!

The Public Schools Athletic League was formed to bring back into the lives of our children their birthright of competitive play, and to weld it into the educational procedure of a great city. Its great success has constituted a new and most important departure in our school education for which the people of New York owe to it and to its organizers an unpayable debt.

Report of Hon. James E. Sullivan, Chairman Games Committee

It is with great pleasure that I take this opportunity of expressing my admiration of the great work done for the schoolboys of Greater New York by the Public Schools Athletic League. In the nine years of its existence the work has been ever on the increase and improvement-every year shows something new, not only in theory but in the practical working out of games and tournaments. Too great credit cannot be given to the men who are at the head of this wonderful organization, for the unselfish interests they have shown in trying to give to the growing boy clean athletics in all branches of sport. To the school men who have given their valuable time in conducting after-school athletics much credit and praise shall be given for the coaching of the boys who compete not only in inter-class games but in all the City Championship Tournaments. This is a remarkable work when one takes into consideration that the work done by these men is done voluntarily, and in many cases it compares favorably with work done by professional coaches engaged by the large colleges.

During the past year the League was assisted to a large extent by the New York Sunday World, which financed one hundred and fifty-four individual school meets throughout Greater New York. Forty-seven thousand boys actually competed in these games and fully a quarter of a million children were interested or attended these meets. It would have been impossible for many of the schools who held these meets to finance meets of their own owing to lack of funds. I take this occasion to publicly thank Mr. Ralph Pulitzer, owner and manager, and Mr. James E. Norton, Field Day Editor, of the New York Sunday World, for the great aid they are rendering the Public Schools Athletic League in trying to give to this country better men, mentally and physically, the ultimate result of the early outdoor training in athletic sports and pastimes which these boys derive

from the Sunday World Field Day games.

With the approach of this year's outdoor season the League will be better able to handle the vast array of embryo athletes than ever before. It now has under its supervision five of the best athletic fields in America—each of the five boroughs has an athletic field fitted with running track, jumping pits, base ball

diamond and basket ball courts, fully equipped with all kinds of

athletic paraphernalia.

In conclusion, I beg to state that I have advocated the installing of a swimming pool in all of the new school buildings now being constructed by the Board of Education—a certain period of time to be allowed for teaching the children the art of swimming and holding inter-class swimming tournaments. In this way it would be possible for every boy and girl in the city to become proficient in swimming. During the vacation period (July and August) the pools could be thrown open to those of the neighborhood during the day and evening to enjoy a refreshing plunge without the loss of time or the expense of traveling to private pools or seaside resorts.

The following is a report of the athletic events of the year

which were participated in by our schoolboys.

Respectfully submitted,

JAMES E. SULLIVAN.

SEVENTH WARD ATHLETIC FIELD, MANHATTAN.

The Seventh Ward Athletic Field, situated at Clinton, Cherry and Water Streets, Manhattan, was opened to the public on Arbor Day, Friday, May 4, 1912, with elaborate ceremonies. There were speeches by General George W. Wingate, Dr. C. Ward Crampton, Miss Julia Richman, representing the Board of Education, and several addresses were delivered by clergymen and city officials of that district. Public School 21, Manhattan, band furnished the music during the afternoon. Several athletic events were contested by the boys of Public School 62, Manhattan, in the form of fifty-boy relays. As an additional attraction several of America's champion athletes gave exhibitions, prominent among whom were James J. Archer, champion sprinter; Melvin W. Sheppard, world's champion middle-distance runner, and Abel Kiviat, world's record holder for 1,500 meters run. With the exception of Sheppard, who is a Philadelphia boy, they were boys who have graduated from the ranks of the Public Schools Athletic League.

There is a very fine twelve-lap to the mile cinder track and a large infield which can be used for many kinds of athletic activities. The field is equipped with the most approved athletic material. A small, two-story house, situated in one corner, is used for dressing quarters and the storing of materials.

The field is located in one of the most crowded sections of the lower East Side. It is expected that thousands of children will make use of this park during the summer months,

BASKET BALL TEAM, PUBLIC SCHOOL 17. QUEENS.

Winners 125-lb. Class, Borough Championship, 1912.

PLAYGROUND, PUBLIC SCHOOL 21, MANHATTAN.

As an experiment the Public Schools Athletic League opened an athletic field and playground in the court yard of Public School 21, Manhattan. A Supervisor was appointed to take charge and since its opening it has proven to be one of the greatest successes that the League has yet attained. Fully 700 boys make use of this place daily with games of basket ball, indoor base ball and flag relays. This school is situated in the very heart of the crowded tenement district of Manhattan and one can but realize what good results will be derived by the boys of this section from organized athletic activities out of doors under the control of the Board of Education. The playground is open three days a week, from 3 to 6 P. M.

CROTONA FIELD.

The Crotona Field is located at Prospect Avenue and Crotona Park, North, Bronx Borough. The field is equipped with a five-lap running track, jumping pits, basket ball court, base ball, foot ball and soccer foot ball field. A grand stand has been built on the north side of the field. Its seating capacity is about 1,500. There are a number of shower baths and lockers installed and two large dressing rooms take up most of the room underneath the stand.

An average of 700 boys per day have attended the field during April, May and June of this year. The schools of upper Manhattan and Bronx have held their Field Days on the field and have found it an excellent place for conducting games in an organized manner.

BROOKLYN ATHLETIC FIELD.

Situated at Avenue K and East 17th Street, Brooklyn, the most popular of any of the Public Schools Athletic League Fields is the Brooklyn Athletic Field, being on a direct car line from the most thickly populated sections of Brooklyn. On this field will be found a one-quarter mile cinder track, with a 220-yards straightaway course, a base ball diamond, soccer and Rugby foot ball field and four tennis courts, in the finest condition possible. It has been estimated that 600 children during the past four years have daily made use of this field with their school games and tournaments. The Board of Education is now erecting a grand stand capable of seating 2,500 people. Inside of the grand stand will be dressing quarters, shower baths and

lavatories. When these improvements are completed, this athletic field will be the best equipped place of its kind for the handling of schoolboy athletic games and tournaments.

NORTH PORTLAND ATHLETIC FIELD, BROOKLYN.

The policy of the Public Schools Athletic League has been, since its inception nine years ago, to establish athletic fields for schoolboys where they would do the greatest amount of good. For this reason it was deemed advisable to establish this field at North Portland Avenue and Auburn Place, Brooklyn. It is estimated that during the summer months four hundred children will be accommodated daily. During the spring months two hundred boys were actively engaged in some form of athletics daily. The Board of Education appointed a Supervisor to take charge, every school day, from 3 to 6 P. M., and on Saturdays the field was opened from 9 A. M. to 6 P. M. It was the duty of the Supervisor to maintain order and organize teams for the day in base ball, basket ball and indoor base ball and coach the boys in all forms of general athletics.

The field will be equipped with a quarter-mile cinder track and the infield will be sodded with grass, and at various points

pits for high and broad jumps will be placed.

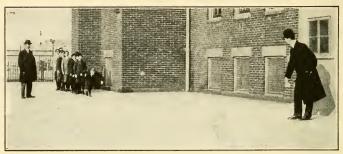

NOSTRAND AVENUE ATHLETIC FIELD, BROOKLYN.

The Public Schools Athletic League has opened a new athletic field at Nostrand Avenue and Hart Street, Brooklyn. It is situated at a point where many schools can send their boys after school session and on Saturday afternoon. A first-class 440-yards cinder track will be installed shortly, while the infield is in fine condition for the playing of base ball, basket ball and all kinds of athletic field events, such as running broad jump, high jump, shot putting and discus throwing.

It has been estimated that during the months of April, May

and June two hundred boys daily made use of this field.

The Board of Education has equipped the field with the latest type of athletic implements for the use of the boys. All that is necessary for the boy to do is to visit the field and if he wants to play base ball, basket ball or take part in general athletic events, the Supervisor in charge will arrange a place for him on a team that will suit his fancy.

ASTORIA ATHLETIC FIELD.

One of the most beautifully located of the nine athletic fields controlled by the Board of Education is Astoria Athletic Field. at Astoria, Long Island City. It is situated on the banks of the East River overlooking the rushing waters of Hell Gate, There is a six-lap cinder track and an exceptionally fine infield, used for base ball (playground and the regular game), foot ball, soccer and basket ball. The grand stand is situated on the southern end of the grounds, giving an unobstructed view of the entire track and field. The grand stand will easily accommodate two thousand spectators. Inside of the grand stand are the dressing rooms, lockers—with a checking system—lavatories for boys and girls, shower baths, hot and cold water. Everything that is necessary for a first-class, up-to-date athletic field has been installed. It is estimated that about six hundred children make use of the field each day. Many of the schools of the upper East Side of Manhattan and all of Queensboro hold their field day games at this field,

CURTIS ATHLETIC FIELD.

The Curtis Athletic Field, under the supervision of the Board of Education, is situated at New Brighton, Staten Island, adjacent to the Curtis High School, overlooking New York Bay. It is an ideal spot for an athletic field and is fully equipped with all the necessary accessories required for an institution of this kind. It has a five-lap cinder track in the best condition that human labor can produce, a grand stand capable of seating comfortably twenty-five hundred people, dressing quarters, lockers, shower baths, lavatories for both boys and girls, three tennis courts on the north side of the grounds, kept in good condition and always available. There are also the regulation base ball diamond, foot ball and soccer fields. It is estimated that eight hundred boys make use of the track and field daily from April 1st to October 15th. During the spring of 1912 there have been at least two sets of school games held daily on this field, and in addition to these games many base ball games have been contested for, both the high schools and elementary school championships, while on the tennis courts all the Public Schools Athletic League tennis championship games have been played.

Through the courtesy of Dock Commissioner Calvin S. Tompkins, many schools in the Boroughs of Manhattan and Brooklyn have been granted free transportation on the Municipal Ferry plying between Manhattan and Staten Island. This has

been a great help to many of the schools on the lower East Side

of Manhattan.

Many of the schools have taken advantage of the rule allowing one day a year to hold a field day. It was not an uncommon sight to see a principal take his entire school, including boys and girls, to the Curtis Athletic Field for a day's outing. The result of these outings to such a beautiful and healthful place as the Curtis Athletic Field, has worked wonders with the children, and if it were not for the kindness of the Dock Commissioner, it would have been almost impossible for the children to avail themselves of a school holiday under the supervision of the principals and teachers of the school.

SUNDAY WORLD WALKING CLUBS.

The Public Schools Athletic League is under great obligations to the Sunday World for now undertaking the organization of walking clubs among the children, and is confident that the result will be most beneficial upon those who will participate, and will reflect great credit upon all who may be connected in any way with the movement.

Thousands of children in the city have seldom, if ever, seen the larger parks, and few know anything of our beautiful suburbs.

The walking contests which you propose will accustom them to depend on their own legs as a means of transportation and make them able to enjoy these places. It will also take them on their holidays away from the dangers and temptations of street

Any elementary public school in the city of New York may organize branches of the Sunday *World* Walking Club. These branch organizations—the units that make up the complete citywide organization—are designated as Squads of the Sunday

World Walking Club.

Orgganization of Souads.

Eight members, including the captain, constitute a squad. Squads may be organized at any time in the Walking Club year. There is no limit placed on the number of squads that may be organized in a school.

A squad organizes by electing one of its members captain and filing its entry list with the Sunday World and the P. S. A. L.

on blanks furnished by the Sunday World.

Care should be taken in organizing each squad to have its members congenial companions who can enjoy each other's society and work in entire harmony.

If a vacancy occurs in a squad it can be filled by the squad electing a new member, but this new member does not qualify until his name is sent to and approved by the Sunday World.

Members acting improperly will be disqualified from further membership in the Walking Club, either for a stated period or permanently, by the Supervisor who has knowledge of their conduct.

Entry blanks will be furnished at any time by the Sunday World to all principals and teachers who apply for them to organize squads of the Walking Club.

Ribbon badges of a special color for each squad are furnished by the Sunday World to each member of the squad as soon as it qualifies, to be worn on the walking tours. Tour report blanks are sent to the captain.

No walk will be recorded except in squad and certified by the captain of the squad on the tour report blanks as to distance and time consumed, and this must be countersigned by the teacher or other adult person accompanying the squad. A majority of the squad must be present on every walk.

No walk will be recorded for a distance less than two miles.

The average speed in all walking contests must be not less than two miles an hour.

It is left with the squad to choose its own tours, with the assistance and approval of the teacher or squad supervisor.

The Sunday World will publish in its columns from time to time itineraries of pleasant and educational tours for the Walking Club in and about the city, and will furnish to captains of the squads bulletins suggesting good walks.

The reports from each squad as to its tours will also prove of interest to all squads in the Walking Club, and will assist them

in choosing the best tours for themselves.

The Walking Club year for 1911-12 will begin July 1st.

Bronze and silver medals will be the prizes awarded for each

quarter of the Walking Club year.

The bronze and silver medals will be of the pendant chain variety, constructed so as to be linked together, the four medals (making the complete chain) going to the winner of a medal in each of the quarter periods, or a medal and one bar to the winner in any two quarter periods: a single medal without pendant for one period.

Captains of squads will be notified in advance of each quarter period as to the number of miles to be walked in that period

to win a prize.

Members who walk more than half of the distance required to win a prize in any one quarter shall have 20 per cent. of the distance thus walked counted on their next quarter's score.

When prizes additional to the above are offered announcement

will be made in bulletins and in the Sunday World.

SUPERVISION OF SQUADS.

The success of the Walking Club movement depends largely on the interest the teacher takes in it. He can use it as a very effective means of increasing interest in the school and class, as well as in affording the pupils under his charge an opportunity

for physical improvement and an extended knowledge of the

vastly interesting city and its beautiful surroundings.

Whenever it is possible for a teacher to accompany a squad from his own class on its tours he has an opportunity to increase the friendly relationship between himself and his pupils.

A teacher or other adult person approved by the school principal must accompany the squad on each walking tour as

supervisor.

Two or more squads, however, may agree to go on the same tour at the same time. In this case it is only required that one supervisor shall accompany the entire party. In these joint excursions the squads must remain together during the entire tour.

The supervisor is required to sign the captain's tour report before it becomes effective. No tour will be recorded except those correctly reported and countersigned by a supervisor.

THE GIRLS' SQUADS.

The rules and information contained in this circular refer particularly to the boys' squads of the Sunday World Walking Club. The same rules apply to the girls' squads, though a separate bulletin of information as to prizes and requirements of distances to be walked by girl members is issued and will be furnished on application to the Manager of Walking Clubs, Sunday World, Pulitzer Building, New York City.

THE SQUAD CAPTAIN.

He shall be elected by a majority vote of the squad.

His election is subject to the approval of the principal of his school.

His election takes effect on notice from the Sunday World that the squad has qualified for membership in the Walking Club.

His term of office shall expire on July 1, previous to which his successor shall be elected for a one-year term.

successor shall be elected for a one-year term.

Each squad captain is responsible for the proper behavior of

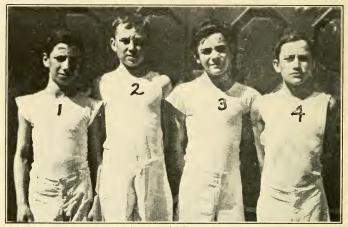

his squad.

The squad captain can be removed from office by the principal on complaint of a Supervisor for misconduct or incompetence. In this case the principal may appoint his successor to serve till the following July 1.

The example set by the captain as to conduct and interest in the work of his squad is an important factor in the success of the Walking Club and the benefits to be derived from it by all

its_members.

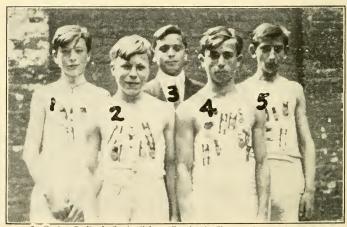

It must be his aim to promote good fellowship in the squad.

A captain who cannot preserve a friendly comradeship, and prevent bickering in his squad, is not fit for its leadership.

He must exercise his authority as a good friend and comrade

of all the members of his squad.

He must always be ready to consult with his teacher as to best means to perform his work.

He must promptly distribute to members of his squad printed

matter, badges, etc., sent to him for distribution.

It is his duty to call the squad together for tours and for elections to fill vacancies.

For every tour he shall serve a written notice on each member

of the squad in substance as follows:

The (name of squad) will walk to on (date), leaving (name of exact place where squad will assemble to begin its tour) at o'clock. You are directed to be present at the starting point not later than o'clock.

This notice must be in the hands of members of the squad not later than eighteen hours before the hour of starting on the tour.

In case a squad captain is unable to accompany his squad on a tour he may delegate his work to another member, with the

approval of his teacher or the supervisor.

With the close of the school year in the New York City schools ends the first year of the Sunday World Walking Club, organized under the auspices of the Public Schools Athletic League, to encourage pedestrianism among the New York City school children. During the first year 8,600 children in elementary schools enrolled in the club. Nine hundred and thirty squads of the club were organized in 67 schools, including schools in every borough of the city. Of these 930 squads, 175 were composed of girls, the total number of girls that walked during the year being 2,280.

Under the rules of the club it was required that when a squad or a company of several squads went on a walking tour it must be accompanied by at least one teacher as supervisor of the walk. One hundred and thirty teachers filled this position during

the year.

In the four periods into which the year was divided more than 2,500 boys and girls were awarded prizes, the actual number of medals and medal pendants dispensed approximating 4,000.

SUNDAY "WORLD" ATHLETIC MEETS.

Sixth Annual Field Days for elementary schoolboys, financed by the New York Sunday World, under the auspices of the

Public Schools Athletic League, was by all odds the most successful series of athletic meets that has ever been held. One hundred and fifty-three New York public schools held Sunday World Field Day meets—45 in Manhattan, 56 in Brooklyn, 16 in the Bronx, 27 in Queens, and 9 in Staten Island.

From these 153 schools, 47,000 boys were entered as qualified competitors in the games. This is nearly 11,000 more than competed in these field days in 1910, when all records as to number of contestants in any one series of athletic events in this city

or in any other city of the world were broken.

Three thousand four hundred and twenty boys won Sunday World medals in these 153 separate field days, and 157 banners were awarded to the school classes that won the greatest number

of points in the games.

Not less than a quarter of a million school children attended these meets, and their enthusiastic applause stimulated their classmates to their best work on the track or in the field events. Twelve hundred teachers acted as officials of the games or aided

in training the boys for the athletic contests.

How completely these field days have become an institution of the schools, enlisting general interest in every class room, is shown by the high percentage of the enrollment of boys in the games, as compared with a total membership of the school. In many cases it has, last year, exceeded 80 per cent. One instance is that of School No. 43, Brooklyn, in which 943 boys entered the field day games out of a total of 1,070 boys in the school. Many of the meets were huge affairs and required excellent organization to manage them successfully. This, however, was accomplished in every instance. A feature that made these great meets most interesting was the fact that the hosts of young competitors, as they were marshaled for each event, performed with the precision and earnestness of trained soldiers. Meets in which as many as 500 boys competed was no exception last year, and there were more than fifty meets in which the entry list numbered more than 300. Following are some of the schools that had the largest number of boys in their games, the figures given being the actual number of competitors:

The Grand Final Meet of the Sixth Season of Sunday World Field Days was held at Curtis Field, on October 14.

SUNDAY "WORLD" FINAL MEET.

On Saturday afternoon, October 14, 1911, the final track and field championships of the New York Sunday World were held at the Curtis Athletic Field, New Brighton, Staten Island, New York. Fifteen hundred entries were received from the 153 elementary schools that held field days during the spring of 1911 and financed by the Sunday World. Through the kindness of Commander Walter J. Sears, of the Dock Department of New York City, the school children (both competitors and spectators) were given free transportation on the municipal ferryboats from Manhattan Borough to Staten Island and return. Fully eight thousand children took advantage of this kind offer and availed themselves of the opportunity to have a delightful sail across the New York Bay and witnessing the most wonderful and successful schoolboy athletic meet ever held in this country.

General George W. Wingate, President, and Dr. C. Ward Crampton, Secretary, of the Public Schools Athletic League, were present and expressed their gratification upon the good sportsmanship of the competing athletes and the orderly manner in which the boys behaved, both in going to and returning from the grounds, and during the course of the games all afternoon.

The music during the games was furnished by the school band of P.S. 21, Manhattan, under the leadership of Principal John Doty, rendering patriotic and popular musical selections

that would do credit to a professional band.

When the total score was computed immediately after the games it showed that 25 schools had scored points in the final meet and the championship was won by P.S. 62, Manhattan, with a total of 20 points, hard pressed by P.S. 18 and 83, of Manhattan, with 17 points each, making a tie for second place.

ELEMENTARY SCHOOLS SOCCER FOOT BALL TOURNAMENT.

Throughout the Elementary School Soccer Foot Ball Tournament the boys showed remarkable improvement in play over former years. It is apparent that the boys and teachers have become better acquainted with the finer points of the game. The games were played with good sportsmanlike rivalry and the tournament terminated very successfully. Eight teams entered—a larger number of schools than in any of the four preceding tournaments. The final standing was as follows:

	Won.	Lost.	Tied.	Points.

P. S. 84, Brooklyn	6	I	0	12

ELEMENTARY SCHOOL BASKET BALL TOURNAMENT.

The Ninth Annual Basket Ball Tournament of the Public Schools Athletic League started in October with a total of 82

teams entered. These entries were distributed among the boroughs as follows:

The playing throughout the tournament was remarkably clean and sportsmanlike. It is safe to claim that the basket ball playing among the elementary schoolboys is freer from rough and unsportsmanlike tactics than among any other group of basket ball players. The elimination of this one objectionable feature of the basket ball game has been brought about by the careful supervision of the games, and the enforcement of the rules, particularly the one rule which is common only to the P. S. A. L. games, i. e., when a class "B" foul is committed, the ball shall be centered and the opposing team awarded one point without a try for a goal. The boys are coached to play so as to avoid committing fouls. The game is becoming more popular each year and players and teachers are becoming better acquainted with the fine points of the game. This is proven by the necessity of efficient referees and umpires. An official not familiar with every detail of the rules would be criticised before the end of five minutes of play. The final games of the City Championship were played in the new Public Gymnasium, at 54th Street, the Eighth Regiment Armory, Flushing Armory, and the Forty-seventh Regiment Armory. In all, 10,000 boys attended these different places and cheered their school teams.

The tournament resulted as follows:

ELEMENTARY SCHOOLS INDOOR BASE BALL.

The Third Annual Indoor Base Ball Tournament started with more entries than either of the two preceding tournaments. Fifteen schools entered teams and these were divided into a section for Lower Manhattan and Brooklyn, and a section for Upper Manhattan and the Bronx. Each section played a round-robin series of games, beginning February 27 and ending April 12.

The winning teams of the two sections—Public Schools 83 and 62, Manhattan—met at the Twenty-second Regiment Armory in a final championship game on Saturday afternoon, April 20. Public School 83, Manhattan, won the game, and was thereby awarded the Otto T. Bannard Trophy, emblematic of the City Championship.

The final standing of the teams was as follows:

ELEMENTARY SCHOOLS INDOOR CHAMPIONSHIPS.

The Ninth Annual Indoor Track and Field Championships were held at the Forty-seventh Regiment Armory on Saturday afternoon, December 16. From point of numbers in both entries and spectators it was the greatest athletic schoolboy carnival ever held under the auspices of the Public Schools Athletic League. The total entry for the four weight classes was over 1,200, and fully 8,000 people witnessed the games from the boxes on the main floor to the galleries. While the larger number of spectators were boys, still a greater number of grown people were in attendance than in previous years.

The caliber of the boys from an athletic standpoint surpassed the expectations of the League officials. Five new records were created and one equalled. Every event was hotly contested and many exciting and sterling finishes were seen in the sprints and

relays.

The field events provided many high-class performances and in several events it was necessary to continue after the winner was proclaimed in order to decide ties for second and third places.

Public School 62, Manhattan, again won the City Championship, but was hard pressed throughout the meet by Public School 9, Brooklyn. It was only after the games were over that it was possible to determine who captured the premier honors for the year.

Principal John Doty, of Public School 21, Manhattan, most generously gave the services of his schoolboy band of sixty pieces, who furnished the music throughout the entire pro-

gramme.

ELEMENTARY SCHOOLS INDOOR SWIMMING CHAMPIONSHIPS.

The Elementary Schools Indoor Swimming Championships of the Public Schools Athletic League were held at the Interior Baths, 232 West Sixtieth Street, Manhattan, on Saturday morning, April 20. Four individual and one relay event were contested. Four new records were created, showing a vast improvement in the physical and swimming standard of the boys. An entry of four hundred was received for the five events and fully one thousand boys filled the galleries to root and cheer for the boys from their school who were entered in the various events. Public School 10, Manhattan, won the City Championship, and

the silver loving cup was presented by Mr. McAleenan of the New York Athletic Club.

TRACK TEAM, STUYVESANT HIGH SCHOOL.

Winners of High Schools' Indoor Championships, January 27, 1912.

There are no age, weight or height classifications and boys were given a Class A (formerly Junior) or a Class B (formerly

Senior) badge, according to qualifications.

In 1904, when the competitions for this button were begun, but 1,162 buttons were won. This has steadily increased, so that the number who qualified during 1911 is 8,299. In Public School 62, Manhattan, 1,141 boys competed, 500 of whom won badges.

The Girls' Branch has also adopted a plan for "all round athletics," and awards a pin to each girl who completes the required

record during the school year.

The system of competition between classes, in which 80 per cent. of each class must participate, and the average of all constitutes the record which has been organized by the League, has become very successful, and the interest which is taken in these contests has brought into them such a large number of boys that it can now be justly considered one of the boys' "world's greatest competitions."

In the "class jumping" alone 31,866 boys belonging to 1,138 classes and 115 schools took an active part. There were 27,781 boys who competed in "chinning" and about 12,734 in "class

running."

On account of the great magnitude of these contests they are divided into three separate series. The broad jumping contest is held in the fall, the chinning during March and the running

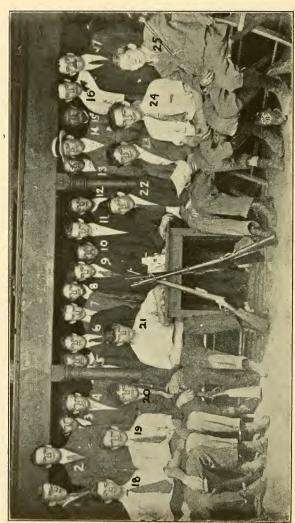

during May.

In the jumping contest each boy is allowed three jumps; the highest jump made by each are aggregated and averaged. The highest aggregate results obtained by the classes in the Fifth, Sixth, Seventh and Eighth years in each school are then forwarded to the Secretary of the League. Unless 80 per cent. of the register of each class has competed its scores are not considered. After the scores are received the highest classes in each borough are selected and then tested by the officials of the League. Unless on this test they obtain an equal or higher record than that which constituted the record forwarded, such record is not allowed and another class is substituted.

In the "chinning" contest the same procedure is gone through

with.

In "class running" the boys are lined up back of the starter. As the first runner crosses the finish line the judge standing there signals with his handkerchief, the second then starts and the others successively until the others have completed the distance. The time taken by the entire class is divided by the number of boys running and the result constitutes the class record.

MORRIS HIGH SCHOOL INVITATION SHOOT. Held May 27, 1911, at International Shooting Range.

Mann, Photo.

As these contests cover parts of different years it is impossible at this time to exactly tabulate the results for the year 1911. The "class jumping" is now going on and is practically completed, although the championships have not yet been awarded, while the class "chinning" and "running" have been finished. The records received, particularly in jumping, show a great improvement over anything that has been the case during previous years. This not only means that the winners have made better scores than heretofore, but that the boys in the thousands of classes that have competed have displayed a marked physical improvement.

The following is a summary of the schools that have held the Athletic Badge test during the year and the number of badges

won:

Combined Athletics

New York, November 29, 1911.

To the Principals and Teachers:

The success that has resulted from the system of general athletics which has been introduced by Mr. Frederick J. Reilly, in P. S. 2 B, Manhattan, 116 Henry Street, of which he is Principal, and which with the approval of Miss Julia Richman, District Superintendent, has been followed by the other boys' schools in the second and third districts of that Borough, has been so pronounced that it is desired to call it to the attention of the principals and teachers throughout our educational system.

The advocates of this system claim that it combines the keen, active interest of athletic competition with the all around benefits of physical training; that it avoids specialization; brings in all but the lame and the halt; avoids undue hero-worship and "commercialism;" makes training part of the day's work in school, and

injects a new vim into the work in physical training.

It originated through a challenge by the boys of P. S. 2, Manhattan, in March, 1910, to the boys of the other schools in the Second and Third Districts of that Borough to match their schools against one another, grade by grade, in a series of competitions running through the year, paralleling the Class Athletics contests.

A committee of men selected by the Principals took charge and formulated the rules and conditions of the contests. This committee was composed as follows: Richard A. Sullivan, Chairman; Maurice A. Garfinkle, Secretary; John Hewitt, George Levy, Sidney C. Lederer, Abraham Harwich, Robert J. Campbell, John Goldharm and Barnet Shapiro, the last being the special teacher of physical training.

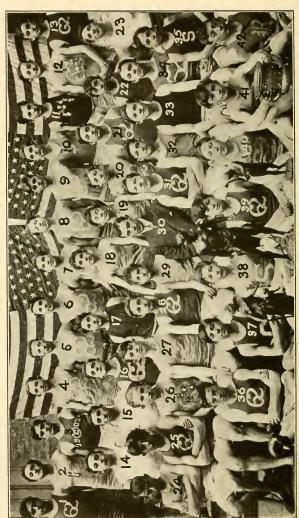

The competitions arranged by the Committee were as follows:

 For the Fall.—Standing Broad Jump and Combination Dip.

2. For the Winter.—Chinning the Bar and Hop, Step and

3. For the Spring.—Running and Trunk Lifting.

The two events constituting each of these competitions are treated as one. For purposes of comparison the points made are aggregated and divided by two.

As the competitions are an outgrowth of the "Class Athletics" System developed some years ago by Mr. Ballard, of Queens, a word explaining that system may be necessary.

In Class Athletics, 80 per cent. of a class must compete; the records of the distance each boy can jump, the number of times each one can chin the bar, the time it takes each one to run, 60, 80 or 100 yards, respectively, are added together and divided by the number competing, to find the average. The new system was so keenly enjoyed by the boys and produced such good results as to have become generally adopted by the schools of those Districts. It is owing to it that all four of the P. S. A. L. trophies for the standing broad jump were won by these schools. There can also be no question but that the system has done good to a vastly larger number of boys than has resulted from any other that has been used in the schools.

THE NEW POINTS IN THE SYSTEM.

The new system differs from the "Class Athletics" in three points.

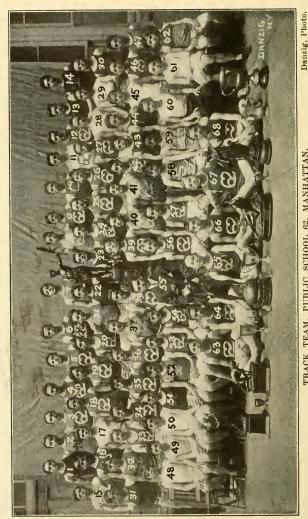

I. All boys in the school compete, excepting only those who have a doctor's certificate barring them from vigorous exercise. This avoids the tendency existing in class athletics to select one class of each year and train that class to win, neglecting the others, as in the new system the performance of every boy in the school must be reported to the Committee and the class to be tested is determined by lot a few minutes before the test is made, so that all must be trained to the minute.

2. Instead of one exercise alone being practiced for several months, the boys must compete in a variety of exercises designed

to bring into play different groups of muscles.

3. In all the exercises certain minimum standards are set, which the boy must reach in order to qualify; and in the severer exercises, as "Chinning" or the Combination Dip, certain maximum standards are set beyond which the boy is not allowed to go for fear of undue strain.

In other words, the interest of every boy is enlisted except cardiac cases, etc. He is made to take part in a variety of exercises tending to all-round muscular development. The weaker and lazier boys, who need this the most, are encouraged and driven to practice by their schoolmates until they can at least reach the standard set for their grade. If they do this they each score 5 points for their school; if they fail, they score nothing. This makes a big difference. Consequently school and class pride constitute an influence which works wonders.

TRACK TEAM, PUBLIC SCHOOL 62, MANHATTAN. Winners Outdoor Championship, June 1, 1912.

THE DETAILS OF THE COMPETITIONS.

"Chinning the Bar" needs but little explanation except that it must be a dead pull up, no swing, kick or snap being allowed.

The "Standing Broad Jump" is done without any "take off," i. e., boys must stand flat on the floor or ground and jump from a line.

In the "Running" the whole class is lined up behind the starting line. The Starter, contrary to the usual practice, stands at the finish line. When all are ready the Starter waves his bandkerchief as a signal for the first boy to start, and at the same instant starts his stop watch. As the first boy approaches the finish line the starter gradually raises his handkerchief, as the boy crosses it the Starter waves his handkerchief again and the second boy starts, and so on. As the last boy crosses the line the Starter stops his watch or takes the time if a stop watch is not used. The total time elapsed is divided by the number of boys in the class (minus those excused as stated above) to find the average time for the class.

The "Combination Dip" is performed as follows:

I. Place hands on floor.

- Stretch legs straight back, weight resting on hands and toes.
- 3. Bend arms until chest not (abdomen or knees) touches the floor.
- 4. Straighten arms. 5 and 6. Dip again.

7 and 8. Dip third time.

9. Bring up feet to crouching position.

10. Stand erect.
11 and 12. Rest.

I. Begin again as above and continue.

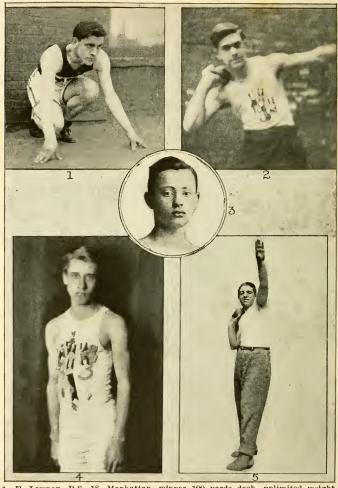

When the boys have mastered the details the leader should beat time at a uniform rate of about 40 to the minute.

In the "Hop, Step and Leap" each boy takes a running start, then springs from his right foot, landing on his right (hop),

then on his left (step), then on both (leap).

In the "Trunk Lifting" every boy lies on his back, hands placed on hips. He then lifts himself up to a sitting position, raising the head first, then the shoulders, and so on. There must be no "snap up." just a steady lift; the elbows must not be used to help in raising the body and the heels must not be allowed to leave the floor.

For the "Dip" and "Trunk Lifting," it is desirable to provide sheets of wrapping paper or oak tag for the boys to lie on. These

can be hung up in some handy place ready for use. In the tests for the "Dip" a bell is placed which each competitor must

ring by touching it with his chest.

After repeated experiments, certain minimum standards were adopted for each exercise. These standards vary for each grade and represent what any healthy boy ought to be able to do after a little practice. To encourage improvement and hold the interest of the stronger boys, a sliding scale of credits is arranged for those who could go beyond the minimum.

The standards and scale of credits are as follows:

STANDING BROAD JUMP.

5A	grade,	Min.	4	ft.	3	in.—S	core	5	points.
5B	66	66	4	66	6	"	66	5	66

One point more is given for every six inches jumped be-

yond the minimum for the grade.

The place where the boy lands at the conclusion of his jump is ruled off into divisions of three inches each. A movable bar is placed on one side of it opposite the minimum distance for the grade, so as to enable the teacher to see at a glance how many points each boy earns.

HOP, STEP AND LEAP.

Each class is divided into three groups:

A. Boys under 4 ft. 6 in. must cover 20 ft. B. " " 5 " 0 " " " 22 " C. " over 5 " 0 " " " 24 "

The standards are the same for all grades. Each boy has merely to qualify in this exercise. It was not deemed practicable to establish a sliding scale.

RUNNING.

The manner of conducting the races is mostly copied from Mr. Ballard's scheme of Class Athletics. No standards are set.

The lowest average time wins.

In order to convert the time into an equivalent of the points won in the other competitions, it is inverted by subtracting the time given from an arbitrary number, 15. As for instance, a 5A Class averages 7.1 seconds. Subtract 7.1 from 15, and you have 7.9, which is the number of points averaged by the class.

TRUNK LIFTING.

The standards and scale of credits are the same as for Chinning the Bar.

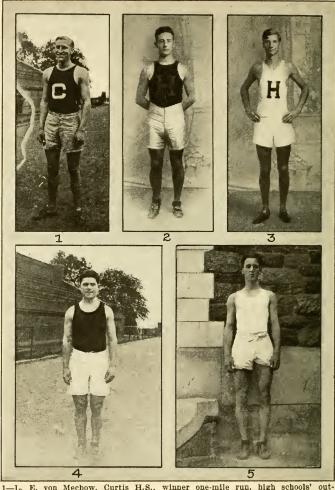

This closes the series of exercises running through the school

year.

THE OFFICIAL TESTS.

The method of testing is as follows: At stated times (in December, April and June), each teacher sends in a report to the Secretary of the Committee in the form of which a copy is annexed.

The Committee then visits the schools claiming the best record for each grade and tests one class in that grade. The class to be tested is chosen by lot just before the test. If that class equals or excels its own record as set down by the class teacher, it is assumed that the others will do likewise and the school is declared winner of the trophy for that grade. The committee may, however, also test any other class on the same grade that claims a record very much above the average. If either of the classes tested fails to equal the record sent in the Committee tests a class in the school claiming the second best record. If its record on the official test surpasses that of the first school the second school is declared winner for that grade. This method simplifies the testing. The Committee may have to examine only four classes,

hardly ever more than five or six, in order to award four trophies to 53 classes, aggregating 1,900 boys who have taken part in the competition

The Committee states that it has met with the encouragement of Miss Julia Richman, has been allowed a free hand by Dr. C. Ward Crampton and has received the active assistance of Dr. Albert K. Aldinger, who all commend the work. It is convinced that valuable results have been obtained and that, given proper facilities, this system can be applied to all forms of track and field sports. That if there were, as there ought to be, a competent teacher of physical training in each grammar school, every boy in them could be trained to put the shot, do broad and high jumps, in fact, go through all the exercises now necessary to win the "all around" championship. That given a suitable series of exercises, this system can and should be applied to girls also; in which event the Committee is confident it would do away with the lack of interest that most girls show in any form of physical training, except, perhaps, dancing. That the general use of this system will in a few years vastly improve the physical health and strength of our boys and girls, will arouse a wholesome interest in outdoor sports and will fix in all the habit of training, of being always "fit," that will make for clean living and the restraint of harmful self-indulgence more strongly than can ever be done by mere preaching.

The Committee on Athletics and the Public Schools Athletic League have always been anxious to aid in everything that will promote the physical development of the mass of the pupils in our schools rather than the development of a few star athletes, and welcome all suggestions in this direction. They are convinced that the system above outlined has now passed beyond the stage of experiment and unite in earnestly commending it to the attention of the principals and teachers of the schools.

Mr. Jacob G. Dettmer, of Brooklyn, has donated a beautiful silk banner as a trophy for these exercises to be annually competed for under such rules as may be prescribed.

It is expected that his example will be followed by others.

HIGH SCHOOLS CROSS-COUNTRY CHAMPIONSHIP.

The Fifth Annual Cross-Country Championship of the Public Schools Athletic League was held on Saturday afternoon, December 2, 1911, over the famous Celtic Park course at Laurel Hill, Long Island City, under the most perfect conditions for a race of this kind. The course was laid over a rough country of hills, fences, plowed fields and a small stretch of a country road. It was practically the same course as used by the Amateur Athletic Union for the Junior and Senior National Cross-Country Championships which were held several weeks prior to the High School Championship—the only difference was that the school-boys ran about 31-2 miles while the National Championship distance was about 63-4 miles.

Eleven high schools started teams, making a total of 78 boys to face the starter, and 77 boys finished in fine condition, showing that the many dual cross-country runs held by the schools for some time prior to the date of the championship had put the boys in the best physical condition possible for this annual classic event. The race was well contested from start to finish with the leadership of the race always in doubt. It was not until about one-half mile from the finish of the race that C. Ten Eyck of Jamaica High School, the ultimate winner, took command, and he was hard pressed to the tape by the first five men, as their times below will show.

The Public Schools Athletic League is greatly indebted to the Irish-American Athletic Club for the use of their club house

second Regiment Armory on Friday evening, January 26, 1912. The programme of events was divided into two sections—one for day high school boys and one for evening high school students. A new record was created in the short sprint. This was the first time that a 70 yards dash was used for an indoor championship. In the 880 yards run (day high school) a new record was placed on the record books by Arthur Lent of Stuyvesant High School, who traveled the distance in the remarkable time of 2m. 5s., which is considered wonderful for a schoolboy.

Five individual events and two relays were given to the boys of the evening high schools; in every event a new record was created. The performance of these boys, who are older than the boys who attend day school, was very creditable when taking into consideration the little time these boys have to prepare

themselves physically for contests of this kind.

Athletically, the games were a big success, and the class of boys who competed compared favorably with those of former

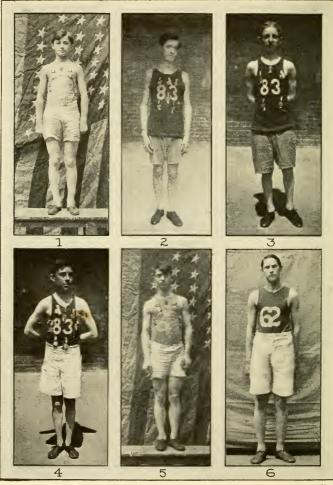

years.

There were about 1,500 in attendance, filling the galleries and boxes, and what the boys lacked in numbers they made up in cheering when a member of their team was winning or battling with the leaders for supremacy.

It was impossible to decide which school carried off the All-Around Championship for 1912 until the last event was finished, owing to the closeness of the score during the course of the games. When the score was finally computed the schools stood in the following order:

Stuyvesant High School 20 1-2
Townsend-Harris Hall High School 18
Erasmus Hall High School
High School of Commerce
DeWitt Clinton High School
Jamaica High School 8
Flushing High School 5
Commercial High School 5
Curtis High School4
Manual Training High School 3

The Evening High School Championship was won by the New York Evening High School, with a score of 30 points, followed by the Brooklyn Evening High School and Harlem Evening High School, who were struggling for second place honors, with a score of 21 points for Brooklyn Evening High School and 20 points for the Harlem Evening High School delegation.

HIGH SCHOOL BASKET BALL TOURNAMENT.

The Basket Ball Tournament for 1911-12 was opened by a conference with basket ball officials, coaches and team captains. Mr. George T. Hepbron "officiated" at this conference, and interpreted the rules as laid down in the Official Handbook.

The first series of games was played December 16, among the twelve schools entered, and play continued from then until March 2. Not a protested game occurred and the efficiency of the referees was noticeable throughout the tournament. The games were stubbornly contested and on the whole were played with a spirit of good sportsmanship which spoke well for the coaches and the players.

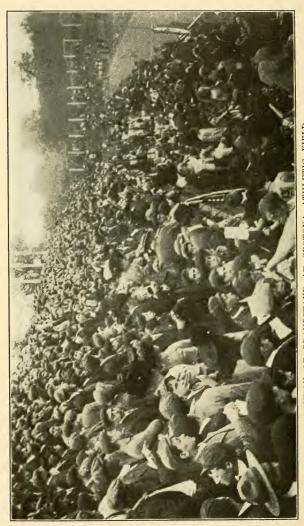

The schedule closed with a tie existing between DeWitt Clinton High School and Stuyvesant High School. The deciding game was played on the C. C. N. Y. court, March 29, and

resulted in a victory for Stuyvesant High School.

The final standing of the teams was as follows:

HIGH SCHOOLS INDOOR SWIMMING CHAM-PIONSHIPS.

The Annual Public Schools Athletic League High Schools Indoor Swimming Championships were held at the City College of New York on Friday evening, March 8, 1912. It was the most successful swimming tournament ever held in this country. Fully 1,100 spectators crowded the galleries and floor space around the pool. It was necessary at 8.30 P. M. to shut the doors and not allow any more people to witness the contests. The entry included boys from almost every public high school of Greater New York and totaled over 125 entries for the six events. The performances of the boys far surpassed anything of its kind in the history of schoolboy swimming. Four new records were established and one equalled during the evening's contests, showing a vast improvement in the ability of the high school boy at the swimming game this year over that of former years. The Public Schools Athletic League was fortunate in securing as officials all the leading swimming authorities in New York City. They were greatly impressed not only by the fine performances but by the form shown in all the events, especially so in the Fancy Diving Championship. They were unanimous in their opinion that the diving done by these boys was on a par with that done by the National Champions of the Amateur Athletic Union.

The "star" of the meet came as a surprise in F. J. Frerichs of Commercial High School, when he won the 100 and 200 yards championships, making two new records which will in all probability stand for a long time. In the 100-yards swim, three times during the evening the old record was lowered, and in the final record he clipped 51-5 seconds off the previous record. In the 220 yards, he swam the distance in the remarkable time of 2 minutes 543-5 seconds, which seems incredible for a boy of his years. The 50-yards record was equalled by Palmer of Manual Training High School, while the plunge for distance went to G. Van de Water of Stuyvesant High School, with a plunge of 62 feet 6 inches, breaking the old record by 7 feet 1 inch.

The competitions were so keen that the championship for the school scoring the greatest number of points was in doubt until the finish of the last event. DeWitt Clinton High School won with a score of 16 points, High School of Commerce was second with 15 points. Commercial High School and Stuyvesant High School tied for third place with a score of 10 points each. Erasmus Hall High School and Manual Training High School tied for fourth place, scoring 5 points apiece. Townsend-Harris Hall High School scored 4 points, and Boys' High School I point.

NAUTICAL SCHOOL CHAMPIONSHIPS.

The Public Schools Athletic League held the Third Annual Track and Field Championship Games of the Nautical School on Saturday afternoon, March 9, on the Recreation Pier, Twenty-fourth Street and East River. The pier was well crowded with spectators, many of whom were the parents and friends of the boys. Music was furnished during the afternoon by Principal John Doty and his schoolboy band of fifty pieces from Public School 21, Manhattan.

Several of the events were of a novel nature, consisting of French wrestling, cock fight and rope climbing. These events are very popular "aboard ship" and provided considerable amusement for the spectators.

- 70 yds. dash—8 3-5s.; B. Hope, won; H. McKay, second; H. Wagner, third. 220 yds. dash—28 4-5s.; H. Clarke, won; C. Flynn, second; A. Flugt, third.

SUB-TARGET RIFLE TOURNAMENT.

The Fourth Round-Robin Series of dual matches on the subtarget gun machine was the most successful ever held by the League. Every one of the fourteen high schools having subtarget machines participated, and the scores made by the teams and individuals average higher than any other year. The competition was very close and interesting, showing a good allaround development in most of the schools. The tournament was divided into two sections—one section for the ten schools that had guns in their possession for several years, and one section for the four schools that had guns for a year or less.

The Manual Training High School team succeeded in winning the Championship of the larger group and the Eastern District High School won the Championship of the Novice Tournament.

In a special series of matches to determine the Championship of the City, the Manual Training High School defeated Eastern District High School in the first two matches on schedule. They were thereby declared champions for 1911-12, and were awarded the silk banner donated by the Sub-Target Gun Company.

The medal for the highest aggregate individual score was won by David Shapiro of the High School of Commerce, with the remarkable score of 349 out of a possible 350.

The final standing of the teams was as follows:

INDOOR RIFLE SHOOTING TOURNAMENT.

The Fourth Annual Indoor Rifle Shooting Tournament of the Public Schools Athletic League was held from March 1 to March 9 in connection with the Sportsman's Show, at Madison Square Garden. During the eight days the ranges were open every afternoon and evening, and were kept in constant use. In spite of the fact that this year's shoot lasted three days less than in 1911, an equal number of boys participated and about the same amount of cartridges were used—40,000. Three hundred boys qualified as Junior Marksmen. Valuable assistance was rendered at the ranges by military experts, and the various rifle and cartridge companies donated prizes for team matches and individual matches. The contestants showed the most sportsmanlike spirit throughout the tournament and co-operated with those in charge in making the tournament a success.

The individual championship was won by Donato Romeo of the Morris High School, with a score of 1,785 out of a possible

1,880.

SUB-TARGET SHOOTING COMPETITION FOR THE WINGATE TROPHY.

During the year ending May 1, 1912, there were 348 marksmen qualifications and 139 sharpshooter qualifications. Several girls at the Curtis, Jamaica and Erasmus Hall High Schools succeeded in qualifying. The trophy for the school qualifying most boys was won by the Morris High School. This trophy, donated by General Wingate, is awarded as follows:

For each sharpshooter qualification, 3 points, and for each marksmanship qualification, 2 points. The marksman and sharpshooter badges were donated by the Brooklyn *Eagle* for the Boroughs of Brooklyn and Queens. The following is a summary

of the results in the various schools:

ELEMENTARY SCHOOL BASE BALL TOURNAMENT.

The Eighth Annual Base Ball Tournament was opened on April 13 when sixty-seven teams representing schools in the five boroughs began to play for their District Championships. District Athletic League No. 8 of Brooklyn had eleven teams entered, the largest entry of any district. The inclement weather interfered with some of the district schedules and it was necessary to grant an extension of time and thereby postpone the inter-district games. The five borough championships were also delayed on account of weather conditions and its was necessary to conduct the interborough series on an elimination basis in order to have the City Championship decided before the end of the school term. This final interborough series was conducted in a manner most satisfactory to all concerned. Enclosed fields were secured through the Secretary's office, thousands of tickets were distributed to the schools participating, and competent umpires were assigned.

The final game was held at Washington Base Ball Park, Brooklyn, through the courtesy of Mr. Charles Ebbets, the president of the base ball club. About ten thousand school children and interested parents witnessed the game. The spectators and players displayed a commendable spirit of good sportsmanship and the affair was a decided success. Public School 77, Brooklyn, defeated Public School 46. Manhattan, by a score of 6-3.

The High Schools Base Ball Championship for 1912 was won by Erasmus Hall High School; Curtis High School was second.

HIGH SCHOOLS NOVICE AND CHAMPIONSHIP GAMES.

Held at Curtis Athletic Field, New Brighton, Staten Island, Saturday, May 25, 1912.

The ninth annual High Schools' track and field novice and championship games of the Public Schools Athletic League were held at Curtis Athletic Field, New Brigton, Staten Island, on Saturday afternoon, May 25.

There were ten novice and fourteen championship events, every one of which was keenly contested. The performances of the boys in the various events showed that the athletic coaching

they received was the best.

The games were the most successful of any yet held by the League. An entry of over six hundred boys was received and

fully two thousand spectators witnessed the games.

The High School of Commerce won the novice games with a score of 25 points; Boys' High School second with 17 points, and the Morris High School third, totaling 11 points.

HIGH SCHOOLS BASKET BALL CHAMPIONSHIP TROPHY—"THE SPRINTERS."

Donated by Cleveland H. Dodge.

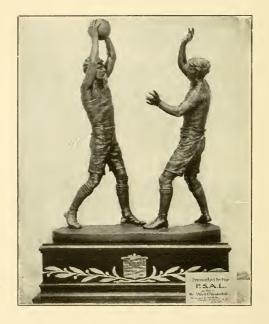

The championship games were won by the DeWitt Clinton High School with 36 points; Townsend-Harris Hall second, 25 points, and Stuyvesant a close third, with 24 points.

Held at Curtis Athletic Field, New Brighton, Staten Island, Saturday, May 25, 1912.

The Evening High School track and field championships were held under the auspices of the Public Schools Athletic League in conjunction with the Day High Schools' novice and championship games on Saturday, May 25. Five events were contested, including sprints and middle distance runs and a field event. In four of the five events new records were created. The events for the Evening High School boys started at 4 P. M., in order to give those boys whose positions who do not allow them the liberty of a half-holiday on Saturday a chance to compete.

The games were so evenly contested that they resulted in a tie for the school championship between the New York Evening

ELEMENTARY SCHOOLS NOVICE GAMES.

The Elementary Schools novice games of the Public Schools Athletic League were held at Curtis Athletic Field on Saturday morning, June 1. Ten events, divided into four weight classes, were decided. An entry of seven hundred boys was received from the schools of Greater New York, and fully fifteen hun-

dred spectators witnessed the games.

The games started at 10.30 A. M., and were completed at noon, in order to put the track and field in good condition for the Elementary Schools championships, which were to start at 2 o'clock. The performance of these boys, many of whom had never before been entered in a large athletic meet, was marvelous when one considers the times for the running events and the distances for the field events. These records were better this year than those of former meets, showing the wonderful improvement attained by the schools holding inter-class competitions during the spring in preparation for the annual Public Schools athletic meets.

When the score was tabulated it was found that Public School 16, Manhattan, won the Novice Championship, with a score of 16 points, while Public School 62, Manhattan, Public School 188, Manhattan, Public School 64, Manhattan, and Public School 83, Manhattan, were tied for second place, with a total of 8 points. Public School 42, Bronx, and Public School 43, Manhattan, were

tied for third place, with 7 points. The closeness of the scores show how evenly the schools were matched in athletic ability from the close distribution of points of the twenty-two schools that had scored points in this meet.

- 50 yds. dash (85-lb, class)—64-5s.; I. Harris, P.S. 147, Manhattan, won; A. Horowitz, P.S. 62, Manhattan, second: D. Cantor, P.S. 62, Manhattan, third; A. Merzon, P.S. 184, Manhattan, fourtatn,
- 60 yds. dash (100-lb, class)—7 1-5s.; W. Frees, P.S. 9, Bronx, won; D. Isreal, P.S. 62, Manhattan, second; Smith, P.S. 37, Bronx, third; L. Singer, P.S. 20, Manhattan, fourth.

The points were scored on a basis of 5 for firsts, 3 for seconds, 2 for thirds, 1 for fourths. The schools scored in the following order: P.S. 16, Manhattan, 10; P.S. 62, Manhattan, 8; P.S. 188, Manhattan, 8; P.S. 188, Manhattan, 8; P.S. 84, Manhattan, 8; P.S. 83, Manhattan, 8; P.S. 42, Bronx, 7; P.S. 43, Manhattan, 7; P.S. 20, Manhattan, 6; P.S. 147, Manhattan, 5; P.S. 9, Bronx, 5; P.S. 10, Manhattan, 5; P.S. 171, Manhattan, 5; P.S. 79, Manhattan, 3; P.S. 90, Queens, 3; P.S. 84, Queens, 3; P.S. 37, Bronx, 2; P.S. 74, Manhattan, 2; P.S. 98, Manhattan, 2; P.S. 12, Bronx, 2; P.S. 34, Manhattan, 2; P.S. 184, Manhattan, 1; P.S. 186, Manhattan, 1

ELEMENTARY SCHOOLS CHAMPIONSHIP GAMES.

Held at Curtis Athletic Field, New Brighton, Staten Island, Saturday, June 1, 1912.

The Elementary Schools Championship track and field games were held at Curtis Athletic Field on Saturday afternoon, June 1.

BROOKLYN SCHOOLS CHAMPIONSHIP TROPHY—"TRIUMPH."

Donated by Brooklyn Eagle.

Sixteen events, divided into four weight classes, were contested. These games were the most successful of any yet held by the Public Schools Athletic League. An entry of fully eight hundred boys was received from the schools of Greater New York. Three new records were created and the general athletic ability of the boys was superior to that of any yet shown since the formation of the Public Schools Athletic League. The games were witnessed by at least two thousand spectators. Principal John Doty and his schoolboy band of sixty pieces from Public School 21, Manhattan, furnished an enjoyable musical entertainment during the course of the games.

Public School 62, Manhattan, again won the City Championship, with a score of 25 points; Public School 83, Manhattan, was second, with 20 points, and Public School 27, Manhattan, was third, with a total of 16 points. Twenty-eight schools divided the points in the various events. Many of these schools were from outlying districts that never before took part in a City Championship, always contenting themselves with inter-class or individual school meets. It is very gratifying to the officials of the Public Schools Athletic League to have these schools enter the large meets and be contestants for premier honors. Now that they have once tried to compete with the large schools in the center of the city it would not be surprising to see them in the near future winning a City Championship at track and field sports.

- 50 yds, dash (85-lb, class)—6 4-5s.; J. Roth, P.S. 83, Manhattan, won; E. Callahan, P.S. 27, Manhattan, second; L. Steinberg, P.S. 62, Manhattan, third; W. Rose, P.S. 184, Manhattan, fourth.
- 60 yds. dash (100 lb. class)—7 4-5s.; B. Gorschen, P.S. 62, Manhattan, won; P. Rabinowitz, P.S. 164, Brooklyn, second; V. Olivieri, P.S. 19, Manhattan, third; K. Mayer, P.S. 12, Brooklyn, fourth.
- 70 yds, dash (115-lb, class)—8 3-5s.; J. Corrigan, P.S. 12, Brooklyn, won; S. Garcewich, P.S. 83, Manhattan, second; A. Couroy, P.S. 5, Manhattan, third; J. Grogan, P.S. 16, Queens, fourth.
- 100 yds. dash (unlimited weight)—11 1-5s.; H. F. Rood, P.S. 165. Manhattan won; F. B. Zittel, P.S. 23, Queens, second; W. Brown, P.S. 5, Manhattan, third; H. M. Flinn, P.S. 59, Queens, fourth.

were contested. In every one of the contests spirited and exciting finishes were the result. DeWitt Clinton High School annexed the 440 yards relay, 100-lb. class, and the one-mile relay. unlimited weight class, in remarkably fast time. Stuyvesant High School won the 880 yards relay, 120-lb. class, in one of the most spectacular finishes for a relay race seen in New York for many a day. Boys' High School annexed the one-mile relay. novice, unlimited weight class, in a masterly fashion.

The scoring for the relay races resulted in a very close score, with Stuyvesant, 11 points; DeWitt Clinton, 10; High School of Commerce, 8, and a tie for fourth place between Manual Training High School and Boys' High School, with 5 points each. Townsend-Harris Hall and Curtis High School scored 2 points

each for fifth place.

440 yds. relay championship (100-lb. class)—52 4-5s.; DeWitt Clinton H.S. (Ginsberg, Weintraub, Treiler, Margulias), won: Manual Training H.S. (Creditor, Roache, Slotsky, Nichols), second; H.S. of Commerce (White, J. Cohan, Kiernan, Rosenbaum), third; Stuyvesant H.S. (A. Werner, H. Cohen, J. Ledaldi, K. Butcher), fourth.

880 yds. relay championship (120-lb. class)—1m. 39 1-5s.; Stuyvesant H.S. (H. Tannenbaum, L. Heyman, W. Robinson, M. White), won; H.S. of Commerce (H. Schultz, Tow, Livingstone, Schulman), second; Manual Training H.S. (Luce, Hulsenbeck, Turek, Mount), third; Townsend-Harris Hall (Kallman, T. Greenbaum, Stemple, Zentner), fourth.

1-mile relay championship (unlimited weight class)—3m, 37s.; DeWitt Clinton H.S. (Trenholm, Halasz, Weg, Moore), won; Stuyvesant H.S. (A. Lent, E. Waugh, W. Willis, G. Schiffman), second; Curtis H.S. (E. Ballister, L. von Mechow, F. DeKone, M. Smith), third; Townsend-Harris Hall (Tuchin, Green, Cohen, Miller), fourth.

1-mile relay, novice championship (unlimited weight class)—3m. 46 3-5s.; Boys' H.S. (Marshall, Hull, Molter, McQueency), won; H.S. of Commerce (Basch, Guidiel, Schickadanz, Swerling), second; Stuyvesant H.S. (J. Schafer, D. Vollmer, J. Koch, J. Stroebel), third.

Points were scored on the following basis: 5 for firsts, 3 for seconds, 2 for thirds, 1 for fourths: Stuyvesant II.S., 11; DeWitt Clinton II.S., 10; H.S. of Commerce, 8; Manual Training II.S., 5; Boys' H.S., 5; Townsend-Harris Hall, 2; Curtis H.S., 2.

GREATEST YEAR OF SUNDAY WORLD SCHOOL GAMES.

The close of the school year of 1912 in the New York public schools ended the separate meets of the most successful season of Sunday World Field Days since these athletic games for New York grammar school boys were inaugurated seven years ago. Each year has seen an increase in the number of schools holding these meets and in the number of boys participating in them. This year has far surpassed all records in these respects, and also in the interest and enthusiasm the games have excited in the schools among the teachers, as well as the pupils and in the excellence of the games themselves.

H CH SCHOOLS ALL-AROUND INDOOR CHAMPIONSHIP TROPHY—
"THE ROARING LION."
Donated by the Hon. Edward M. Grout.

One hundred and fifty-seven schools have had field days to compete for the Sunday *World* medals and class banners since April 16, when Public School 188, Manhattan, led off the season's games with its meet at Seward Park, in which 870 boys competed.

The number of separate field day meets this year has been 163, several of the larger schools, in which the competitors in the games numbered far into the hundreds, holding two meets.

The number of boys entered and participating in the games of the Sunday *World* Field Days this year reached the enormous total of 55,000. Many schools entered more than 50 per cent. of their entire grammar grade enrollment for the athletic contest, and in not a few schools the percentage was as high as 00.

Three thousand five hundred and twenty Sunday World medals were awarded to the individual winners in these 163 meets. One hundred and sixty-eight banners were presented as

trophies to the winning classes in the field days.

The field day of each school was carefully organized and was preceded in most schools by weeks of training after school hours in the gymnasiums, school yards or parks.

More than fifteen hundred teachers assisted in the organiza-

tion of these field days and officiated at the games.

Two years ago, owing to the success of The Sunday World Field Days, the Public Schools Athletic League secured from the Board of Education a rule permitting each city school to give up one school day each year to athletic sports. This year more than sixty schools each closed its doors for one entire day and went to an athletic field for its contests for The Sunday World prizes.

Meets in which as many as 500 or more boys competed were no exception this year, and there were more than sixty meets in which the entry lists numbered more than 300. In these big meets, as in the smaller ones in which 100 or 200 boys competed, perfect order was maintained, and the young athletes acted with the precision of trained soldiers when marshalled for each event on track or field. Following are some of the schools that had the largest number of boys in their field day games, the figures given being the actual number of competitors:

The Sunday World plaque, presented each year to the school holding the 'best field day meet," will be awarded at the opening of the schools in the fall. Several schools are close competitors for the trophy, which is given to the school that not only has the largest percentage of entries from its classrooms,

but that makes the best scores at the games.

The grand final meet of the year's field days will be held on the second Saturday in October, on some big athletic field, the Public Schools Athletic League having charge of the event, every school that has had field days this year being entitled to representation in every event on the programme of this greatest day of New York inter-school athletic contests. Gold, silver and bronze medals will be the individual prizes and the splendid Sunday World's All-City Banner will go to the school scoring highest in the games.

HIGH SCHOOLS SHOOTING TROPHIES.

Athletic Courtesy

The League endeavors to foster clean sport between gentlemen. The following statements express the spirit to be sought and maintained in such sport. It is the privilege and duty of every committee and person connected with the League to embody these principles in his own actions and to earnestly advocate them before others:

(1) The rules of games are to be regarded as mutual agreements, the spirit or letter of which one should no sooner try to evade or break than one would any other agreement between gentlemen. The stealing of advantage in sport is to be regarded

in the same way as stealing of any other kind.

(2) Visiting teams are to be honored guests of the home team, and all their mutual relationships are to be governed by the spirit which is understood to guide in such relationships.

(3) No action is to be taken nor course of conduct pursued which would seem ungentlemanly or dishonorable if known to

one's opponent or the public.

(4) No advantages are to be sought over others except those

in which the game is understood to show superiority.

(5) Officers and opponents are to be regarded and treated as honest in intention. When opponents are evidently not gentlemen, and officers manifestly dishonest or incompetent, future relationships with them may be avoided.

(6) Decisions of officials are to be abided by, even when they

seem unfair.

(7) Ungentlemanly or unfair means are not to be used even

when they are used by opponents.

(8) Good points in others should be appreciated and suitable recognition given.

Athletic Rules

RULE I.

ATHLETIC MEMBERSHIP.

The Public Schools Athletic League recognizes as athletic members all Public School boys, members of Elementary and High Schools, Evening High Schools and College of the City of New York, who take part in athletic competitions that are given under the direction of the League.

RULE II.

(a) General.

ELIGIBILITY.

Boys taking part in unsanctioned events render themselves liable to suspension.

Only those pupils who maintain a grade of scholarship which will entitle them to promotion (if continued without improvement) shall be entitled to represent the school in athletics.

No pupil, under penalty of discipline in his school, shall be eligible to represent such school, the Principal of the school to be the sole judge concerning this.

Only those pupils who are in good standing as amateurs shall

be eligible to represent their school.

Boys who maintain their amateur standing may participate in

athletics during the summer vacation.

All boys are considered eligible for class athletics, and also for competition limited to the members of the school to which they belong, subject to the approval of their principal.

(b) Elementary Schools.

Elementary school boys are allowed to represent both their

church and their school in athletics.

No boy who has represented any outside organization shall be eligible to compete for any school organization of this League until twenty school weeks have elapsed from the time of such competition, except that summer schools and vacation playgrounds under the jurisdiction of the Board of Education and public playgrounds under the Park Department are not considered outside organizations. Outside organizations which school boys may not represent and still be eligible to represent their schools are such as athletic clubs with a formal constitution

and by-laws, Y. M. C. A.'s, Settlements, Evening Recreation Centers, etc. This rule is also intended to apply to the various clubs formed within these organizations; that is, a boy may not represent in athletics a club of one organization against a club of another organization and still be eligible to represent his school, because such clubs are really departments of these organizations. This does not in any way debar boys from taking part in athletic competitions that are closed to their own organization even though it may be between different clubs within that organization.

No elementary school pupil coming from another school shall represent the school unless he has attended the school for

twenty school weeks, except

(a) He has been promoted from one school to another;

- (b) He has been transferred from one school to another by order of the District Superintendent or the Board of Superintendents;
- (c) He has been transferred on account of a change in residence;
- (d) He has been admitted from a school outside the public school system of Greater New York.

In order to be eligible for athletics, elementary boys must have received for the month previous a mark of at least "B" in effort, proficiency, and deportment.

Elementary school boys are allowed to enter one event only

at any set of games.

Spiked shoes not allowed in any athletic competition.

No entry shall be accepted unless countersigned by the Principal of the school.

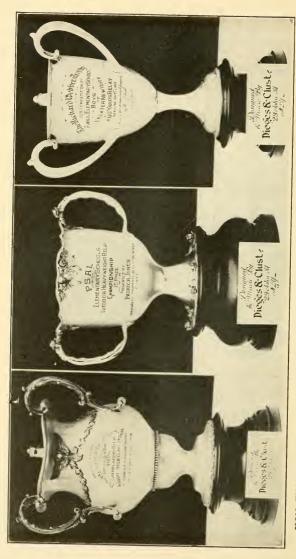

(c) High Schools.

No high school pupil shall represent his school unless he has attended a school for twenty school weeks, except

- (a) He has been promoted from an elementary school whereupon he shall be eligible immediately;
- (b) He has been admitted from a school outside the New York Public Schools, whereupon he shall be eligible after an attendance of twenty school days.

No high school pupil who has reached the age of twenty-one shall be eligible to represent his school in any branch of athletics.

A boy shall be eligible to represent his school in athletics during any "marking" interval who has placed fourteen hours of

RULE III.

CLASSIFICATION OF COMPETING ATHLETES.

Elementary Schools.

An elementary school boy shall be considered a novice until he has won a medal in Public Schools Athletic League games open to all elementary schools, or, in an event sanctioned by the Public Schools Athletic League and open to all elementary schools of the city.

In track and field events, swimming, skating, etc., the following classifications are made: 85 pounds, 100 pounds; 115 pounds;

unlimited weight.

The Games Committee may arrange special classes of events to meet special needs. For example: events may be given for boys who have never even competed in a set of athletic games; or, weight classes may be arranged other than those regularly prescribed.

A boy must be accompanied by a principal, teacher or an authorized representative from his school at time of weighing in.

High Schools.

A novice in high school is an athlete who has never won a prize in competition that is open to two or more secondary schools or organizations, except that there shall be two classes of novices in high schools, namely, track and field, and the loss of noviceship in one class shall not debar a boy from competing as a novice in the other class. Boys entering high schools from elementary schools shall be considered novices in athletics.

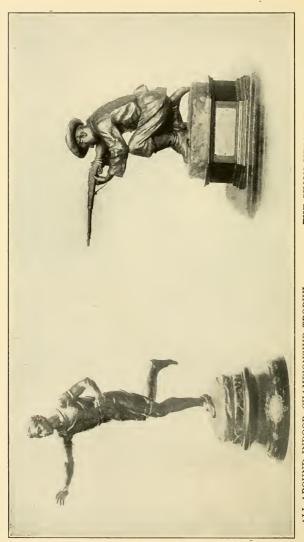

In the High School Novice Championships, a boy who competes in the novice meet retains his noviceship throughout that

meet, this to include novice relay.

Members of a track team in the high schools that win a trophy shall not lose their noviceship unless they receive personal

prizes.

Where junior and senior events are given in high school games, boys under 16 years of age shall be considered juniors, and all other boys under 21 years of age shall be considered seniors. The boy's age on the date of competition shall determine the class in which he shall compete and date of birth of the junior shall be entered on entry blank.

ALL-AROUND INDOOR CHAMPIONSHIP TROPHY FOR BOROUGH OF BRONX.

THE SIMON UHLMANN TROPHY.
Second Prize
Outdoor Interscholastic Rifle Match.

In events where weight classes are used the following classifications shall be recognized: 100 pounds: 120 pounds: unlimited weight, boys of any age.

General.

Boys will be weighed in athletic costume, minus shoes. A boy shall not be allowed to weigh in a second time in any set of games in case he is found to be over weight at the first weighing. The scales will be set at the weight specified for each class, and any competitor raising the beam so that it touches above shall be ineligible to compete. The average weight of teams will not be taken for relay teams. Boys found to be too heavy for the class in which they enter will not be allowed to compete in any other class.

Boys entered in games must be accompanied by a principal,

teacher or an authorized representative from his school at time

of weighing-in.

RULE IV.

ATHLETIC BADGE COMPETITION.

The standards have been set as follows:

The Athletic Badge Test may be held at any time during the

vear.

The names of successful boys should be sent to the office of the Public Schools Athletic League not later than May I. During the month of May the official test will be held.

STANDARDS.

Class A .- Bronze Badge.

60-yard dash, 83-5 seconds. Pull up (chinning on bar), 4 times. Standing broad jump, 5 feet 9 inches.

Class B.—Bronze Silver Badge.

60-yard dash, indoors, 8 seconds (or) 100-yard dash, outdoors, 14 seconds. Pull up (chinning on bar), 6 times. Standing broad jump, 6 feet 6 inches.

NOTE.—All age, weight or height classifications are abolished in the Athletic Badge Test, and boys are given a Class A or Class B badge according to their qualifications.

CONDITIONS.

Only those boys shall be admitted to the Athletic Badge Test who received a mark of at least "B" for the month previous in effort, proficiency and deportment, and who are making satisfactory effort to secure good posture.

In order to win a badge a boy must qualify in all three events

in his class.

*Winners of last year's badges are not debarred from competition. RULES.

The following general rules shall govern the final competition. There shall be but one trial chinning, one in the dashes and three in the jumps.

60 Yards Dash and 100 Yards Dash.—The general rules of competition, as set forth in the P. S. A. L. Handbook, shall

govern this test, except there shall be no finals.

Chinning.—The boy shall extend himself to his full length before and after each pull-up, and shall be obliged to raise his body without a kick, snap, jerk or swing to such a height as to

bring his chin higher than the bar.

Jumping.—The rules of the P. S. A. L., as set forth in the Handbook, Rules XXV. and XXVII., shall govern this test, except that, as there is no real contest, i. e., there is no striving for first, second or third places, the finals shall be dispensed with. With reference to false starts, a competitor shall be penalized in accordance with Rule X.

The following order of events is suggested:

Chinning, Jumping, Running.—As the first two events can in most cases be tried out at the schools, thus leaving the smallest possible number of boys to take the third test of running, which must of necessity be held at some armory or athletic field.

No boy shall be admitted into any contest who has not received a mark of at least "B" for the month previous in effort, proficiency and deportment, the Principal of the school to be

sole judge in this matter.

Duplicate lists of the successful competitors, classified as "A" and "B," should be made out on blanks furnished by the Public Schools Athletic League. One copy should be forwarded to the Secretary of the League, and the other placed on file in the school.

The Athletic Badge Competition shall take place once a year,

and the reports must be sent in before May I.

The Juniors of the elementary schools shall receive a Bronze Athletic Badge; the Seniors in elementary schools shall receive a Bronze and Silver Athletic Badge.

The Winthrop Trophy will be awarded for one year to the school that qualifies for the Athletic Badge and highest percentage of its enrolled grammar boys (fifth, sixth, seventh and eighth year pupils). Boys below the fifth year may compete for the Athletic Badge but are not to be counted in determining the school's percentage. The school reporting the highest percentage in the Athletic Badge competition will be officially tested, and if the percentage attained at the official test is still higher than any other reported percentage, the school will be awarded the trophy. If, however, in the official test the school falls below other reported percentages these other schools will be tested in the order of their standing until a school is found whose official percentage is higher than any other reported percentage.

Each school is expected to conduct its own tests. If assistance is required, application should be made to the Secretary of the

P. S. A. L.

Badges can be secured only through the Supply Department of the Board of Education. Requisition for the same is to be made in the usual manner.

High Schools-

220-yard run, 28 seconds. Pull up (chinning on bar), 9 times. Running high jump, 4 feet 4 inches.

In order to be eligible for the Athletic Badge competition, a high school boy must maintain the same scholastic standing that

is required in other branches of athletics.

The competition for Athletic Badges in each high school shall be in charge of the school's representative on the High Schools Games Committee. He shall forward the names of the successful candidates to the Secretary of the League on blanks furnished by the League for this purpose.

The high school boys shall receive a Silver Athletic Badge. These tests may be held twice each year in high schools, but no boy shall receive more than one badge during any school year.

Reports must be sent in before June 1.

RULE V.

CLASS ATHLETICS.

Athletics for All the Boys-

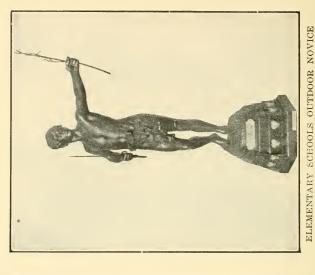

In this form of athletics a record is made by the whole class instead of by an individual.

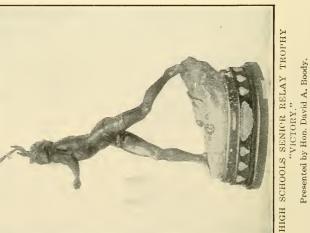

At least 80 per cent. of the boys enrolled in the class must

take part in order to have the record stand.

The number taking part must not be less than twelve.

Trophies to be held one year will be awarded in each Borough by the Public Schools Athletic League to the 5th, 6th, 7th and

Presented by Col. J. Howard Cowperthwait. CHAMPIONSHIP TROPHY.

8th year classes for the best Class Records made in each of the following events:

Standing broad jump, tested in the fall. Pull up, or "chimning," tested in the winter.

Running, tested in the spring.

(Distances for running: 5th year, 40 yards; 6th year, 50 yards; 7th year, 60 yards; 8th year, 80 yards.)
Classes may be tested as follows:

STANDING BROAD JUMP.

The best record made in three trial jumps is taken for each boy. The class record is determined by adding the individual records and dividing the total by the number of boys competing. Jumping must be done from a line. Many schools cannot have a "take off" without considerable inconvenience.

PULL UP (CHINNING).

after each pull up, and shall be obliged to raise his body without after each pull-up, and shall be obliged to raise his body without a kick, snap, jerk or swing to such a height as to bring his chin higher than the bar.

RUNNING.

In order to lessen the possibility of error in timing the competitors, the following method has been adopted: The boys are lined up behind the starting mark in the order in which they are to run; the timer, who also acts as starter, stands at the finish line and gives the signal for each boy to start. As the first runner crosses the finish line the second runner is given the signal to start. As the last boy crosses the finish line the watch is stopped. The record is found by dividing the time elapsed by the number of boys competing. If an ordinary watch is used the first boy should be started when the second hand is over the "60" mark.

Blanks will be furnished for reporting the tests, which are to be sent in as follows:

Standing broad jump, on or before December 1.

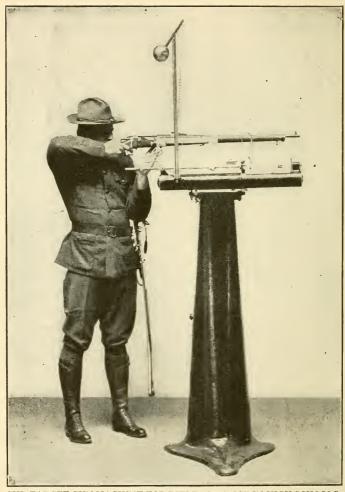

Pull up, on or before March 15. Running, on or before May 15.

Each school is expected to conduct its own tests.

All boys are considered eligible for Class Athletics, subject to

the approval of the Principal.

When the records are all in, the three classes in each Borough having the best records for their grade will be tested officially. If a record is then made better than any other record sent in, the trophy will be awarded to the class making it. If, however, the records made at the official test are lower than other re-

SUB-TARGET GUN MACHINE FOR RIFLE PRACTICE IN HIGH SCHOOLS. Eight of these machines donated by S. R. Guggenheim.

ported records, the classes will be tested in order until a record is made at an official test that is higher than any other reported

or official record.

The trophies are perpetual. They are in the form of a shield, with bronze plates for engraving the names of schools that win them from time to time. These trophies are offered for competition once each year. Each school winning a trophy will receive an engraved certificate as its permanent property.

This form of athletics is especially desirable, as it gives every boy an opportunity to take part, and the size of the school does

not in any way affect the chances of winning a trophy.

The boys should practice by themselves in the yard, on the street, at home, or elsewhere, prior to the tests.

Frequent preliminary tests are recommended.

RULE VI.

CHAMPIONSHIP MEETS.

Indoor and outdoor track and field, base ball, basket ball, soccer, cross-country, indoor base ball, lacrosse, tennis, marksmanship, hockey, and swimming championship meetings shall be held annually at such times and places and with such schedules of events as may be decided upon by the Games Committee.

Indoor and outdoor track and field Novice meetings shall be held at such times and places and with such schedules of

events as may be decided upon by the Games Committee.

All entries shall be sent to the Games Committee, which Com-

mittee may reject any entries it may deem objectionable.

The Games Committee shall choose all the officials for the Championship Meetings, and shall decide all questions concerning the competitions.

RULE VII.

RULE VIII.

RULES GOVERNING BASKET BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

Regular basket ball rules, as they appear in Spalding's Official Basket Ball Guide, shall be used, but time shall be fifteen (15) minutes halves with ten (10) minutes intermission, except:

Section I. Time shall be taken out whenever ordered by the Referee. He shall take time out at the request of each captain not more than four times during the game. (More than four times constitutes delaying the game and is penalized by a foul.)

SEC. 2. That Umpire be empowered to call "time out" in basket ball games in case of injury to players in all games.

As far as possible all games shall be played on neutral courts. There shall be two classes in elementary schools basket ball, namely: Boys weighing not to exceed 95 pounds, and boys weighing not to exceed 125 pounds.

The weighing-in for basket ball shall be done at the beginning of the basket ball season by the Borough Representative on the City Committee in each District Athletic League. Boys weighing within the prescribed limits at that time shall be eligible, as far as weight is concerned, throughout the tournament.

Members of teams must have received for the month previous to any games in which they play a mark of at least "B" in effort, proficiency and deportment, Public Schools Athletic League Rules of eligibility shall apply in basket ball, the same

as in other branches of athletics.

All boys who play at any time during the tournament must be weighed in on the date set by the Borough Representative. In order that teams may not be handicapped by disqualifications of players on account of scholarship, deportment, etc., fifteen boys may be weighed in, if desired, and the boys' signatures shall be recorded. The players must be selected from these boys. If, for any cause, a player becomes ineligible, he cannot be reinstated during the tournament.

In each District Athletic League, if not otherwise determined by said League, the Chairman of the Games Committee thereof

shall have full power to arrange and conduct its games.

The Borough Representative on the City Committee shall call a meeting of the teachers in charge of the teams that have won district championships in his borough and together they shall arrange the schedule of games to determine the borough cham-The borough representative shall be Chairman at this meeting.

Representatives of the District Athletic Leagues shall send to the Chairman of the Basket Ball Committee the names of the

winning teams in their districts.

Each borough representative on the City Committee must send to the Chairman of the Basket Ball Committee the name of the team winning the championship of his borough.

No boy is allowed to play on more than one basket ball team. Any neglect in forwarding the names of the teams to the Chairman of the Basket Ball Committee will forfeit the right

of teams to compete.

The ball to be used in all match games shall be the Spalding Official Basket Ball No. M.

The League will furnish paid officials for the interborough

Eight gold medals will be given to the team winning City Championship.

Eight silver medals will be given to each of the other teams winning the championships of their respective boroughs.

HIGH SCHOOLS.

The High Schools Basket Ball Championship shall be decided by a series of games whereby each school will play every other school entered. Spalding's Official Basket Ball Rules shall govern the contests except "when an official calls a Class B foul, the opposing team shall receive one point without a try for goal."

The halves shall be fifteen minutes each.

Each school shall present to the official at every game a team certificate naming the boys eligible to play. The "team certificates" are to be signed by the official and forwarded with score and remarks to the Secretary of the League.

Rules as to eligibility apply to these championships as to other

contests.

The ball to be used in all match games by the high schools shall be Spalding's Official Basket Ball No. M.

The League will furnish paid officials for the Championship

Games.

After the selection of neutral courts for the Basket Ball Championships, no games shall be played nor practice allowed on said courts.

The school winning the City Championship will hold for one

year the Dodge Trophy.

Gold medals (five regular and one substitute) will be given to the team winning the City Championship.

RULE IX.

RULES GOVERNING SOCCER FOOT BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

Regular P.S.A.L. rules of eligibility shall apply.

The tournament shall be held during the Fall, and must be

completed by January 1.

The rules as printed in Spalding's Association Foot Ball Guide shall be official, except that the game shall consist of two halves of twenty (20) minutes each, with ten (10) minutes intermission, and that any number of substitutes shall be allowed at any time during the game.

The Mackay Trophy shall be awarded for one year to the

winning school.

. Eleven regular and two substitute medals shall be given to the

city champions.

A game won shall count two points. A tie game shall count one point for each school.

HIGH SCHOOLS.

The schedule for this tournament shall be arranged by the High Schools Games Committee. It shall take place in the Fall.

P.S.A.L. rules of eligibility shall govern.

The rules in Spalding's Association Foot Ball Guide shall be official, except that the game shall consist of two halves of thirty (30) minutes each, with an intermission of ten (10) minutes.

and any number of substitutes shall be allowed during the game, except when a player is removed by order of the referee.

The visiting team may refuse to play if the goal lines are not

marked.

The home team shall furnish the ball, which shall be Spalding's Official.

A game won shall count two points. A tie game shall count one point for each team.

The Maxwell Trophy will be awarded for one year to the win-

ning school.

Gold medals will be given to the winning teams (eleven

regular and two substitute medals).

RULE X.

RULES GOVERNING BASE BALL TOURNAMENTS. ELEMENTARY SCHOOLS

A schedule will be arranged in the different District Athletic Leagues for the District League championship. A committee consisting of the Chairmen of Games Committees in the District Leagues of each borough will then arrange a schedule for the winners of these District League championships to play for borough championships. The City Committee will have general charge of the competitions, and arrange a schedule for the winners of the borough championships.

The League will furnish paid officials for the interborough

games.

The general rules of athletics, as they appear in this book, shall govern these contests in all questions that may arise as to eligibility.

The ball to be used in all match games for the elementary

schools shall be Spalding's Official Boys' League Ball.

Boys are permitted to wear cleats upon their base ball shoes

during tournament games.

The rules, as published in Spalding's Official Base Ball Guide for each year, shall govern all competitions in the elementary schools, except that District Athletic League tournament games may consist of seven inings, all Inter-borough or City Championship games shall be nine innings. This to be decided by the Elementary Schools Games Committee.

The school winning the City Championship will hold for one

year the Spalding Trophy.

Borough trophies will be awarded for one year as follows:

Manhattan Huyler Trophy.
Bronx Spalding Trophy.
Brooklyn McCarren Trophy.

Queens ... Eagle Trophy. Richmond ... Spalding Trophy.

Gold medals will be given to city champions, and silver medals to borough champions. There shall be nine regular and two substitute medals.

HIGH SCHOOLS.

A schedule for the high school tournament shall be arranged by the High Schools Games Committee at its first meeting after the opening of school in the fall.

The general rules of eligibility shall govern base ball the same

as other branches of athletics.

Spalding's Official Base Ball Rules shall apply in the high schools tournament.

Officials shall be appointed by the League.

A City Championship Trophy shall be awarded for one year to the winning school.

Gold medals (nine regular and two substitute) will be given

to the winning team.

RULE XI.

RULES GOVERNING CROSS-COUNTRY RUNNING.

Regular P.S.A.L. rules of eligibility shall apply.

In championship competitions there shall be eight members on a team. Points to be credited to the first five to finish.

The course shall be three miles in length, and must be so marked that runners may be able to follow it without difficulty.

Only those boys shall be allowed to take part in competitions who have prepared themselves by participation in preliminary runs.

Points shall be awarded in the order in which runners finish:

One for first, two for second, three for third, etc.

The W. L. Jones Trophy shall be awarded for one year to the team scoring the smallest number of points.

A gold medal shall be given to the first boy to finish, and silver medals to the next four.

RULE XII.

RULES GOVERNING SHOOTING COMPETITIONS.

WHITNEY MATCH.

1. Each team shall consist of eight boys, who shall shoot one string of seven each.

2. Each team must shoot as scheduled, or forfeit the match; except only if the gun be out of order, in which case the match may be held on gun of other school.

3. The coach of the school where the match is held shall be judge, or some other authorized person, satisfactory to both teams; and he shall transmit within three days to the Secretary of the Board a report of the scores made by each contestant on the backs of the team certificates.

4. Each school shall appoint an official time keeper who shall make announcement when there are but thirty seconds remaining for the boy to finish his string of seven shots, and also when

the allotted three minutes time has expired.

5. The Secretary shall send monthly to each school a report of scores of all shoots held and of the standing of all teams in the matches won and lost.

6. Two sighting shots may be taken by each boy, but only three minutes shall be allowed for the sighting shots and the

string.

7. The gun may be adjusted by a person selected by the contestant.

8. P. S. A. L. rules of eligibility shall apply, and a team certificate shall be given by the captain of each team to the judge of the match.

o. The visiting team shall have twenty minutes, if they so

desire, for trial shooting prior to the match.

10. The target on each sub-target range shall be sufficiently large and so lighted that all of the field of vision seen through

the peep sight in shooting shall be equally illuminated.

11. Each contestant shall take such a position that the gun carriage gear, sliding on the radial rod, shall be half way from each terminal boundary. No part of the gun carriage may have any artificial support.

12. The radial rod shall be oiled just previous to the match.

13. The compensating weight (ball) shall be so set that the net weight of the gun shall be $8\frac{1}{2}$ pounds.

14. There will be no coaching allowed, but each shot be called

by the officer in charge.

15. Harry Payne Whitney Trophy shall be awarded to the school winning the city Championship.

16. A medal shall be awarded the boy making the highest

aggregate score.

17. In case of the tournament resulting in a tie, the school having the highest aggregate score for the tournament shall be declared the winner.

18. The butt of the gun may be placed inside the coat.

19. The 3-minute time limit begins when the boy raises the gun for his regulation.

ANNUAL INVITATION SHOOT.

This contest, for which the main prize is the New York World Trophy, is arranged each year by the high school which wins the trophy the preceding year.

The teams consist of five boys, there being also a separate

contest for second teams.

The Capt. Charles J. Dieges Trophy is given to the school whose first and second teams together make the highest score.

In the individual shooting, there are three classes—A, for the first team boys; B, for second team boys, and C, for all others whose scholarship makes them eligible under the P. S. A. L. rules.

THE WINGATE TROPHY COMPETITION.

As a basis for competition for the Wingate Trophy the actual number of qualifications are considered. The credit is sharp-shooters three to marksmen two, and the school scoring the greatest number of points is awarded the trophy. The qualifying score for the sharpshooter class is 50 and for the marksman class 45.

THE SUB-TARGET SECOND TEAM MATCH.

RULE XIII.

RULES GOVERNING THE TENNIS TOURNAMENT.

Each school shall be represented by three players for singles and one team for doubles.

The boys who play in the singles shall not compete in the

doubles in the same match.

A schedule shall be arranged between the schools during the tournament.

Each team shall play each other team.

Each match shall consist of three single matches (best two sets out of three) and one match of doubles.

Each match of singles shall count one point and the match of doubles, two points. The school scoring the greatest number

of points wins the match.

The visiting team at each tennis match shall designate its plays in singles as one, two and three numbers, and its double team before the time set for beginning the match; the home team shall then designate its players.

The school winning the greatest number of school matches

shall be awarded the championship.

Each school shall pay an entry fee of \$2.50.

The home team shall provide balls for the match.

The school winning the championship shall receive \$10.00 for a permanent trophy.

RULE XIV. INDUCEMENTS.

No school, under penalty of expulsion from the League, shall through any of its officers, or by any other means, directly or indirectly, offer any inducement to a pupil of any other school to sever his connection with such school for athletic purposes.

RULE XV.

PROTESTS.

All protests referring to the eligibility of the contestant must be submitted in writing to the Games Committee.

All other protests must be submitted to the Referee of the games, who has it in his power to allow the protested individ-

uals or teams to run under protest.

No protests with reference to scholarship, amount of work, time in school or age of boys shall be considered when the same have been certified to by the Principal by his signature on the entry blank. Evidence as to any of these points may be presented to the Principal who shall have full power to pass upon it.

In case of a boy who is large and mature for his age, the Principal shall be requested to look up the record of his birth with all possible care, as a precaution in case he is protested, and

have him secure a birth certificate if possible.

In case of impossibility to produce birth certificates, all evidence in regard to age of pupil shall be submitted to the Games Committee and the Committee shall have full power to pass upon such evidence.

The League holds it within its jurisdiction to decide all protests made in events sanctioned by it. These protests are set-

tled by the Games Committee and their decision is final.

All protests must have been mailed to the office of the secretary of the League within 24 hours after the time of event or game protested.

In case a boy's amateur status is questioned, the matter shall

be referred to the Secretary of the League for action.

RULE XVI.

ENTRIES.

All entries for competitions held under the Public Schools Athletic League must be made on the entry forms adopted by the League.

These entry forms must be carefully filled out and must be signed by the Principal of the school; otherwise, they shall be rejected. No post entries shall be received.

If any competitor enters an event and then fails to compete he must send a valid excuse to the Secretary of the Public Schools Athletic League. Failing in this, he may be suspended.

RULE XVII.

SANCTIONS.

All events or games, whether given by public schools or other organizations, that are open to public school boys, must be sanctioned by the Public Schools Athletic League.

Any championship emblem accepted by any school of the League should state specifically the nature of the championship

and of what organization the recipient is champion.

Any boy who competes in games or events that are not sanctioned by the Public Schools Athletic League renders himself liable to suspension, and, if he persists in this participation in unsanctioned events, he may be cut off entirely from competition in all events or games given under the sanction of the Public Schools Athletic League.

By a recent ruling of the Amateur Athletic Union, school boys competing in events given by organizations outside the League are obliged to register with that body.

The following conditions must be complied with before sanc-

tion can be given by the League:
No sanctions shall be granted for Elementary Schools events to be conducted during evenings by non-educational institutions.

CONDITIONS.

A club or organization giving a public school event must secure the sanction before announcing same.

The conditions under which the race will be held must be

printed plainly on the entry blank.

At least five days before the event takes place the names of the contestants must be submitted to the Secretary of the Public

Schools Athletic League for approval or disapproval.

In accepting this sanction, the club or organization agrees to abide by the decision of the Games Committee of the Public Schools Athletic League in so far as the eligibility of the different contestants or schools is concerned.

Promoters of athletic meets must distinctly state whether the scholastic event is open to the public schools of Greater New York or the Public Schools of the United States.

The Secretary will notify all schools of the class invited of

every event for which sanction has been issued.

All protests as to eligibility, etc., will be settled by the Games

Committee of the Public Schools Athletic League.

When an event is sanctioned and prizes duly announced, the event must be run and prizes awarded according to announcement.

RULE XVIII.

RECORDS.

No record shall be allowed unless the performance has been timed by at least three timekeepers or measured by at least three

field judges.

The Games Committee shall investigate every performance to which their attention is called, and shall reject any record which shall not be supported by the affidavits of at least six witnesses, including the officials, certifying as to the place, time of day, state of weather, condition of path or field, force and direction of wind, level or grade of grounds, weight, measurement and material of implement, and correctness of announced time or distance.

In hurdling events the competitor must clear every hurdle and all the hurdles must remain standing; otherwise no record

shall be allowed.

No record shall be allowed unless made in open competition. A record made at any championship meet of the Public Schools Athletic League shall be known as a Public Schools Athletic League record. A record made at a meet sanctioned by the Public Schools Athletic League, but not open to all schools, shall be known as an interscholastic record.

By-Laws

ARTICLE I.

OBJECTS.

Section I. The particular object for which the corporation is formed is to promote useful athletics and gymnastics among the attendants in the elementary, high and collegiate departments of public educational institutions of the City of New York, and in connection therewith to co-operate with and support athletic associations, provide athletic grounds and teachers, organize games, offer prizes and conduct competitions.

ARTICLE II.

MEMBERSHIP.

Section 1. Membership shall consist of Annual, Life and

Honorary members, and of Patrons.

Sec. 2. Any person twenty-one years of age and upward may become an Annual member upon being elected, and upon payment of \$10.00 per year.

Sec. 3. Any member by paying \$250.00 at any one time may

become a Life member.

Sec. 4. Honorary officers and members may be elected.

Sec. 5. Any member paying \$100.00 in one sum, may become a Patron.

Sec. 6. Candidates will be elected by the Executive Com-

mittee.

SEC. 7. Membership confers upon a member no ownership in

any property of the League itself.

SEC. 8. Each member in good standing shall be entitled to receive a certifice of membership, bearing the corporate seal of

of the League, signed by the President and Secretary.

Sec. 9. The annual dues of each member shall be payable on the first day of January in each year in advance. In case of the failure of any member to pay such dues within ninety days after notice shall be sent to him by the Secretary, his membership shall cease.

Sec. 10. Any member guilty of ungentlemanly conduct, or of intentional violation or habitual neglect of any by-laws, rule or regulation of the League, or conduct prejudicial to the interest of the League, may be suspended or expelled by a two-thirds vote of the Executive Committee after an opportunity has been

given him to be heard before it. No such action shall be taken against him for any of these causes until the charges made against him shall have been reduced to writing, filed with the Secretary, and a copy thereof served upon him.

ARTICLE III.

DIRECTORS.

Section I. A Board of Directors, which may not exceed 40 members, shall have control and the management of the affairs and funds of the League, and except as hereinafter provided shall hold office for three years.

SEC. 2. The Directors named in the articles of the association shall be divided by lot into three classes; the first shall hold their offices for three years, the second for two, and the third

for one.

SEC. 3. The Directors shall have power to fill vacancies which may occur in their body from time to time until the next annual election.

SEC. 4. At each annual meeting the offices of the Directors whose terms then expire, and also all vacancies, shall be filled

by election by the members.

SEC. 5. The High Schools Games Committee and the Elementary Schools Games Committee shall each be entitled to name annually a representative as Director of the League, who shall hold office for one year.

SEC. 6. The President of the Girls' Branch of the League and of such other branches or auxiliary leagues as shall be authorized so to do by the Executive Committee shall be ex-officio directors of the League.

Sec. 7. Ten members shall constitute a quorum.

ARTICLE IV.

MEETINGS.

Section I. The annual meeting of the League, for the election of Directors, and for such other matters as may properly come before it, shall be held on the first Tuesday in December in each year, due notice of which meeting shall be sent by the Secretary to each member. Election shall be by ballot.

SEC. 2. At any meeting of the League ten members shall con-

stitute a quorum.

ARTICLE V.

OFFICERS.

Section I. The officers of the League shall consist of a President, First, Second and Third Vice-Presidents, Treasurer and

Secretary. The office of Secretary and Treasurer may be held by one person. All officers, except the Secretary, must be Directors.

SEC. 2. The officers of the League shall be annually elected at the first meeting of the Board of Directors to be held after the annual meeting of the League. They shall hold office at the pleasure of the Directors and until others are elected in their places.

SEC. 3. The President shall perform the usual duties of the office, and shall preside at all meetings of the Directors and of the League. The President shall be ex-officio a member of all

committees with a right to vote.

SEC. 4. In the absence of the President, or in case of his inability to act, the First Vice-President, and in his absence the Second Vice-President, and in case of his absence the Third Vice-President shall discharge his duties. Should all three be absent from any meeting, the Directors and members present shall choose one of their number to act as Chairman, who shall perform all the duties of the President for the time being.

SEC. 5. The Secretary shall attend the meetings of the League, of the Directors and of the Executive Committee, and keep the minutes of the proceedings, recording ayes and nays upon all questions where such a vote shall be demanded by any Director. He shall conduct and preserve all correspondence, serve all notices, and perform the usual duties of the Secretary. He shall have the custody of all the papers relating to the affairs of the

League.

SEC. 6. The Treasurer shall be the custodian of all the moneys and securities of the League. He shall collect and disburse all its moneys, keep accounts of his transactions, and make a written report of the financial condition of the League at its annual meeting and to the Board of Directors at any such time as it may require. Except salaries and other sums specially authorized by the Directors or the Executive Committee, he shall pay no claim against the League exceeding \$100.00, unless the same are first approved by the President. He shall deposit all moneys belonging to the League to its credit in an account to be opened in its name, and keep in a bank to be designated by the Directors.

SEC. 7. The Directors may at any time require the Treasurer

to give security in such amount as they shall deem proper.

ARTICLE VI.

COM MITTEES.

Section 1. There shall be an Executive Committee, composed of the President, Treasurer, Secretary, and two Directors

appointed annually by the President, which shall have all powers of the Board of Directors when not in session. This Committee may meet and transact business at the time specified for any meeting of the Board without further or other notice, and shall also meet at the call of the President. Three of this Committee

shall constitute a quorum.

SEC. 2. The President shall appoint a Finance Committee consisting of three Directors, which shall devise and report ways and means for the support of the League, subject to the approval of the Board. It shall examine, audit and certify the accounts of the Treasurer and all bills and claims against the League, except for salaries and sums specially authorized by the Board or Executive Committee.

Sec. 3. No claim against the League exceeding \$100.00, save those above excepted, shall be paid by the Treasurer until the

same shall have been first approved by the President.

SEC. 4. The President shall appoint a Games Committee to consist of three directors and of the other persons nominated by the High Schools Games Committee, the Elementary Schools Games Committee and the Girls' Branch of the League, which shall have general supervision over all games held under the auspices of the League, and shall, with the approval of the Executive Committee, have the power to veto any rules made by the Committees mentioned in Section 5 of this Article which, in its opinion, are in conflict with the proper standard of eligibility or approved rules of amateur athletics.

The Chairman of the High Schools Games Committee, and of the Elementary Schools Games Committee of the League, and also the President of the Girls' Branch thereof, or such other person as shall be annually nominated by said Committees and Branch in lieu of their Chairman or President, shall be members

of said Committee.

Said Committee may associate with it other persons who may or may not be directors.

SEC. 5. There shall be the following Committees:

(a) A High Schools Games Committee.

(b) A Board of Coaches.

(c) An Elementary Schools Games Committee.

I. The High Schools Games Committee and the Board of Coaches shall each consist of a representative from each of the High Schools in New York, to be appointed in writing to the Secretary of the League in January of each year, by the Principal of each high school.

2. The Elementary Schools Games Committee shall consist of one representative from each District League in New York to

be nominated by such League as above prescribed.

3. Each Principal, District League or other authority appointing a representative to any of these Committees may at any time during the service of such representative substitute another person in his place by written appointment to the Secretary of

the League.

4. The High Schools Games Committee shall have charge and jurisdiction over all athletics in the high schools in respect to competitions held under the auspices of the League, except shooting, which shall be in charge of the Board of Coaches. Sanction for high school contests and for contests between the high schools of New York City and other secondary schools shall lie with the High Schools Games Committee.

5. The Elementary Schools Games Committee shall have charge and jurisdiction over all athletics in the Elementary Schools in respect to competitions held under the auspices of

the League.

6. Each Committee shall organize itself by the election of such officers as it shall deem proper and establish regulations for its procedure. It may, except as provided in Section 4 of this Article, prescribe the rules under which the athletic contests

in its charge shall be conducted.

7. The decisions of each of such Committees shall be final, except that whenever a decision is made by any thereof upon a question which effects more than one school, the Principal of any school considering itself aggrieved thereby may appeal to said Games Committee. On such appeal the latter Committee may either act upon the record before the Committee whose decision is appealed from or take other evidence, or both, in its discretion. Its decision shall be final.

The Games Committee of the League is also empowered to investigate any matter in connection with any games or exercises held under the auspices of the League which in its opinion may be in violation of the Rules of the League or of the Laws of Athletics. In case anything objectionable shall be ascertained it shall refer it for action to the Principal of the school affected. If action satisfactory to the Games Committee shall not be promptly taken the Games Committee may act,

SEC. 6. The Girls' Branch shall have charge and jurisdiction over all athletics for girls held under the auspices of the League. It shall organize itself by the election of such officers as it shall deem proper and establish regulations for its procedure. It may,

except as provided in Section 4 of this Article, prescribe the rules under which the athleltic contests in its charge shall be

conducted.

ARTICLE VII.

NOTICES.

Section I. All notices to members, and also all notices to all officers and directors shall be sufficiently served, if mailed to them at the address given by them to the Secretary and Treasurer respectively.

ARTICLE VIII.

Section 1. Woman's and other auxiliary and associate leagues may be established under regulations to be made by the Executive Committee.

ARTICLE IX.

AMENDMENTS.

Section 1. These by-laws may be changed or amended by the unanimous vote or written consent of all the Directors without previous notice at any meeting of the Board. Also by a vote of two-thirds of all the Directors at any meeting, provided notice specifying the intended change shall have been given at a previous stated meeting, or such notice shall have been served on each Director at least five days before the meeting.

ARTICLE VII.

AMENDMENTS.

This Constitution may be amended by a two-thirds vote of members present at any regular meeting, provided such amendment shall have been approved by the Principal of the school.

Hints on Training

I. Always warm up slowly and cool off gradually when finished.

2. Stop practice before you are exhausted.

3. Dress lightly for practice or competition, but put on warm clothing at once when you have finished.

4. Practice regularly; a little each day, if possible.

5. Have regular hours for eating and sleeping.

6. Don't Smoke.

TRAINING SCHEDULE.

FOR RUNNERS.

(a) Warm up; never fail to do this.

(b) Practice five or six starts. Before taking the line trot a dozen steps up the track and back. On the start run at full speed about twenty yards; slow up gradually and walk back to the line.

(c) Wait a minute; take a few deep breaths; trot a few steps and repeat the start, running a few yards further than before. After two or three trials put as much speed as possible into the start, run moderately for a few yards and finish at top speed.

(d) Once a week run your full distance at top speed. This

may be done oftener for distances under 100 yards.

(e) Always end practice by walking about until breathing becomes nearly normal; then take a rub down and dress.

FOR JUMPERS.

(a) Warm up.

(b) Devote a large part of the practice to getting the "take

off" properly.

(c) Decide which foot you will jump from, then starting on this foot from the "take off" run back six, eight or some even number of strides and mark off the spot where you strike on your last stride. Let your jumping foot strike this mark in the run to the "take off." Run with the natural stride until the last two paces, which may be lengthened a few inches. If you do not hit the "take off" right, move your starting mark backward or forward by just the distance that you go over or fall short. Some jumpers have two marks. This is often helpful; the first mark serving as a guide to bring the jumper to the second mark on the proper stride.

(d) At first try easy jumps, raising the knees quickly and as high as possible when the jump is being made. Practice this until you learn how to land and to control your body while in the air.

(e) Do not try for height or distance in the high and broad jump more than once or twice a week, and take a good rub down and dress quickly when you have finished practicing.

FOR SHOT PUTTERS.

(a) Warm up by swinging the arms, bending the body and springing forward, at the same time giving the body a sharp turn forward and to the right.

(b) Practice should be done from a stand so as to get the spring with the legs, the turn and lunge of the body and the

heave with the shoulders.

(c) Before making a put always limber the muscles of the arm and shoulder by stretching the arm up to its full length.

(d) Use a light shot until the fundamental motions are mastered

FOR HURDLERS.

(a) Warm up and practice starts the same as for running.

(b) Practice with one hurdle at first to get the stride and to overcome any hesitancy in taking the hurdle.

(c) Go no higher than is necessary in clearing the hurdle.

Both time and strength may be saved in this way.

(d) Later practice with two or three hurdles, aiming to get a uniform stride between the hurdles and to maintain a good balance. A good preliminary exercise is to raise the legs alternately, bringing the knees to the level of the armpit.

(e) Once or twice a week take the full number of hurdles

for time.

WARMING UP PROGRAM.

(a) Take a dozen steps, rising slightly on the toes at each step.(b) Trot a dozen steps. Repeat, swinging the arms at the sides.

(c) Trot thirty steps, lifting the knees well at each step. Repeat, lifting the heels high.

(d) Take several deep breaths. Now trot fifty steps at a good swinging pace, then walk fifty.

(e) Breathe deeply.

Always do this, no matter what your event may be.

Laws of Athletics

RULE I.

OFFICIALS.

Every meeting of the Public Schools Athletic League shall be under the control of the following officials:

A Games Committee.
One Director.
One Assistant Director.
One Referee.
Three or more Judges at Finish,
One Chief Field Judge.
Four or more Field Judges.
One Recorder of Times.
Three or more Inspectors.
Three Timekeepers.
One Starter.
One Clerk of the Course with assistants.
One Announcer.
One Chief Scorer with assistants.
One Marshal with assistants.
One Official Reporter.

RULE II.

GAMES COMMITTEE.

The Games Committee shall have general supervision over the games, but it shall not interfere with officials in the performance

of duties assigned to them by these rules.

If possible, it shall decide all protests except (a) those that must be settled immediately by the Referee, (b) those concerning a boy's amateur standing, which matter must be referred to the Secretary of the Public Schools Athletic League.

RULE III.

THE REFEREE.

It shall be the duty of the Referee to decide all questions relating to the actual conduct of the meeting, whose final settle-

ment is not otherwise covered by these rules.

The Referee may change the order of events and add to, or change, the arrangements of heats. After heats have been drawn, however, he shall not be allowed to transfer a contestant from one heat to another.

If a foul is made in a heat other than the final, and the foul, in the opinion of the Referee, is intentional, or due to culpable negligence, he may disqualify the contestant guilty of fouling, and may allow the hindered contestant, or contestants, to compete in another trial heat.

In a final heat, however, he may disqualify the competitor who is at fault and shall use his own discretion as to ordering another race between the competitors hindered by the foul.

In the case of a dead heat in track events where the competitors cannot agree on method of settling, the Referee may decide.

Any competitor acting in an ungentlemanly manner, whether toward competitors, spectators or officials, may be disqualified by the Referee from that and all other events at the meeting. If the Referee thinks the offence worthy of further punishment, he shall make a full report on the case to the Secretary of the Public Schools Athletic League for further action.

If for any reason the Referee as selected cannot attend, the Senior Judge shall act as Referee and have all his powers. In this event the second Judge becomes Senior Judge.

The Referee, and he only, shall signal the Starter that every thing is in readiness for the heat, or race, and the race shall not be started until the Starter has received such signal.

The Referee may delegate to the Senior Judge this duty of

signaling to the Starter.

RULE IV.

INSPECTORS.

The Inspectors shall be assigned their positions by the Referee. They shall watch closely the conduct of the competitors during the course of the race, and in case of a foul, whether a claim is made or not, they shall make a report at once, before the next heat, or race, is called, of what they have seen to the Referee. They have no power to make decisions.

RULE V.

JUDGES AT FINISH.

There shall be three or more Judges at finish, namely, a Senior Judge, Second Judge, Third Judge, Fourth Judge and so on. The Judge whose name appears at the head of the list shall be Senior Judge, second on the list Second Judge and so on.

The Judges shall stand at the finish line and pick the contestants in the order in which they cross the finish line, the Senior Judge picking first boy; Second Judge, second boy; Third Judge, third boy; Fourth Judge, fourth boy, and so on. Their decision is final and without appeal. In case of disagreement a

majority shall govern.

Any competitor crossing the finish line without a number shall not be selected by the Judges unless with the consent of the Referee.

In absence of the Referee, the Senior Judge shall act as

Referee.

RULE VI.

THE CHIEF FIELD JUDGE.

There shall be appointed a Chief Field Judge, who will represent the Referee. It will be his duty to see that the field events are started promptly, and that there will be no unnecessary delay in the competition. He shall receive from the Field Judges and report to the Chief Scorer the results of the competition in the field events.

RULE VII.

FIELD JUDGES.

They shall measure and judge each trial of each competitor in all events where the performance is measured. Their decision is final and without appeal. In case of disagreement the majority

shall govern.

In case a boy is competing in a track event as well as a field event, they shall excuse him from his part in the field event for as long a period as is necessary to take part in the track event, and shall then allow him to take his missed turns within a reasonable time after the track event. If the boy is competing in two field events that are taking place at the one time the same rule shall apply.

RULE VIII.

RECORDER OF TIMES.

The Recorder of Times shall read the watch of each of the Timers after each heat and shall make known the official time to the Referee of the meeting and the Official Announcer. In the case of a new record he shall be careful to receive the signatures of the Timers vouching for the performance.

RULE IX.

THE TIMEKEEPERS.

There shall be three Timekeepers. They shall time all events which are recorded by time and shall report individually to the Recorder of Times their record of the time of each heat and race.

Should two of the three watches mark the same time and the third disagree, the time marked by the two watches shall be accepted. Should all three disagree, the time marked by the intermediate watch shall be accepted.

If two watches only are started on a heat, or race, and they

fail to agree, the longest time shall be accepted.

To have a record allowed three watches must be started on a heat or race.

The flash of the pistol shall denote the actual start of the

race or heat.

In time handicap events the Timekeeper shall receive the time allowance of each competitor from the Clerk of the Course and shall start them with the word "GO."

RULE X

THE STARTER.

The Starter shall be in charge of the competitors after they have been assigned to their marks by the Clerk of the Course.

He shall start the heat, or race, by the report of the pistol, except in the case of time handicap events, when the competitors shall be started by the Timekeepers with the word "GO." The following formula shall be used by the Starter: I. Take your mark; 2. Get set; 3. The report of the pistol.

Until the pistol has been purposely discharged it shall not be considered an actual start. In case the pistol goes off accidentally, the Starter shall recall the competitors by discharging his

pistol twice.

The Starter shall not start the heat, or race, until he receives the signal from the Referee that everything is in readiness. The Referee may delegate to the Senior Judge this duty of signalling to the Starter.

A false start is one where any part of the person of a competitor touches the ground in front of his mark before the Starter purposely discharges his pistol. The competitor shall keep his

hands behind the mark assigned to him.

The following penalties are imposed by the Starter for false starts: In all races up to and including 125 yards the competitor shall be put back one yard for the first and one more for the second attempt; in races over 125 yards and including 300 yards, two yards for the first and two more for the second attempt; in races over 300 yards and including 600 yards, three yards for the first and three more for the second attempt; in races over 600 yards and including 1,000 yards, four yards for the first and four more for the second attempt; in races over 1,000 yards and including one mile, five yards for the first and five more for the

second attempt; in all races over one mile, ten yards for the first and ten more for the second attempt. In all races the third false start shall disqualify the offender from that event.

Should any boy attempt to advance from his mark after the Starter has given word to get ready, the Starter shall disqualify

him from that event.

RULE XI.

THE CLERK OF THE COURSE.

The names and numbers of all the competitors in each event shall be given to the Clerk of the Course, who shall call them by name and check them off on the programme immediately before the event.

After the competitors' names have been called, the Clerk of the Course shall, in handicap events, assign them to their respec-

tive marks.

The Clerk of the Course shall not allow any competitor to start without his number, except with the consent of the Referee.

The Assistant Clerks of the Course shall perform whatever

duties are assigned them by the Clerk of the Course.

RULE XII.

CHIEF SCORER.

The Chief Scorer shall keep track of the order in which each competitor finishes and also the time for the event. He shall also keep a tally of the laps made by each competitor in all races round a turn and shall announce by means of a bell or pistol shot when the leading man is entering on the last lap.

The Assistant Scorers are subject to the Chief Scorer and shall

perform whatever duties are assigned them by him.

RULE XIII.

THE MARSHAL.

The Marshal shall prevent any but officials and actual competitors from entering into the inner circle or remaining therein.

Any competitor entering into the inner circle before or after competition, and not there for the purpose of competition, must leave the inner circle when requested by the Marshal. If, after the second request, the competitor still refuses to leave, the Marshal, or his assistants, must report the matter to the Referee who may disqualify the offender.

The Assistant Marshal shall be under the control of the Marshal and shall assist him in keeping the inner circle as clear as

is possible.

RULE XIV.

OFFICIAL ANNOUNCER.

The scorers shall make known to the Official Announcer the results of each event and he shall announce them to the spectators.

RULE XV.

OFFICIAL REPORTER.

The Official Reporter shall receive from the Scorers the order of finishing and the time made by the competitors in the running events and the height or distance covered by the competitors in the field events. This information he shall immediately make known to the representatives of the press.

RULE XVI.

THE INNER CIRCLE.

With the exception of officials and actual competitors, no one shall be allowed within the inner circle. Competitors must leave the inner circle immediately after the finish of their event, or when requested to do so by the Marshal.

No attendant, friend or trainer shall be allowed to accompany

the competitors on the track or infield.

RULE XVII.

THE COMPETITORS.

The competitors shall report to the Clerk of the Course at the starting point of each competition, after they have been called to the inner circle.

Each contestant must provide himself with a number corresponding to the number opposite his name on the programme. This number he must wear conspicuously while he is competing, and without it he shall not be allowed to start except with the consent of the Referee.

In handicap events, competitors, whether they be scratch or limit mark men, must start from positions in which they are placed by the Clerk of the Course.

If in straightaway races the competitor does not confine himself to his own lane, but instead crosses into the lane of his

opponent, the Referee shall disqualify him.

In races around a turn, the competitor shall, after turning the last corner, continue in a straight line to the finish and not cross either to the outside or the inside in front of any of the other competitors.

Any competitor who wilfully jostles, crosses in front of, or otherwise impedes an opponent, shall be disqualified by the

Referee from that event.

The Referee shall further disqualify from the meeting any competitor who, in his opinion, is trying to lose, to coach, or to impede in any way the chances of another competitor. He shall further notify the Games Committee, who will take further action.

Any competitor acting in an ungentlemanly manner, whether toward competitors, spectators or officials, may be disqualified by the Referee from that and all other events at that meeting, and if the Referee thinks the offence worthy of further punishment, he shall make a full report on the case to the Secretary of the Public Schools Athletic League for further action.

RULE XVIII.

PROTESTS.

Protests against any competitor entered in any games may be made verbally or in writing, to the Games Committee before the meet, or to the Referee during the meet.

If the protest is a claim of foul committed during the meet, the Referee shall decide the matter at once as laid down in the

duties of Referee (Rule III.).

If possible, the Games Committee shall decide all protests before the events are run off. If it is a case requiring the taking of evidence, the Games Committee shall decide the matter within one week after the date of the games. If it affects the contestant's amateur status, however, the case must be referred to the Secretary of the Public Schools Athletic League for action.

When a contestant is allowed to compete under protest, the prizes that he may win shall be withheld until the case is settled.

RULE XIX.

THE TRACK.

The distance to be run shall be measured on a line eighteen inches outward from the inner edge of the track. This edge shall be a solid curb raised three inches above the level of the track.

In straightaway races, distance shall be measured in a direct line from the starting mark to the finishing line.

In indoor races on board floors courses may be marked plainly (with whitewash) on the track.

RULE XX.

THE COURSE.

In straightaway races the competitor must keep his own course from start to finish. In these races separate courses, called lanes, shall be laid out for each competitor by means of stakes driven into the ground, to which cord or wire is attached and which are placed about fifteen yards apart.

In all races the competitors must not cross to the pole, or inner edge of the track until he is at least two strides in advance of

his nearest competitor.

In all championship races positions shall be drawn for, numbering one, two, three, and so on, from border out, and the drawing shall be in the names of the schools. The Clerk of the Course shall then allot positions. The school having the first choice shall have the position next the pole, or inner edge of the track, the school having second choice, second position and so on, the schools alternating, so that, if possible, there will not be two contestants from the one school in the same heat.

In championship events on straightaway tracks, the drawing shall be by schools, and the Referee shall see that no two contestants from the same school shall start in one heat. There shall be a drawing for the choice of lanes, the school winning first choice selecting whatever lane the first runner for that school desires, the school having second choice the next best lane

and so on.

In handicap events the contestants, when called, must take any lane assigned them by the Clerk of the Course.

RULE XXI.

THE FINISH.

The finish of a course shall be represented by a line between two finishing posts drawn across and at right angles to the sides of the track and four feet above which shall be placed a tape attached to both finishing posts.

The finish of any race shall be counted when any part of competitor's body except his hands and arms shall reach the finish

line.

No competitor shall be considered to have finished unless his entire body shall have crossed the finish line.

RULE XXII.

RELAY RACING.

A line shall be drawn twenty feet in front of each starting line. Between these two lines each runner must touch the suc-

ceeding runner. Failure to do this shall disqualify the team in that event. There shall be Judges of Relay Racing whose duties it shall be to see that all touches are properly made.

The same rules with reference to fouling, coaching or impeding a runner in any manner, apply to relay racing as to other

running events.

In the case of a handicap relay race, the boy on the first relay

is granted the total handicap allowed each team.

Only those boys are allowed to run in the final heat of a relay race who have competed in the trial heats.

RULE XXIII. HANDICAP RULES.

The handicap allowed in the different races shall not exceed one-tenth of the distance to be run; for instance, the limit in the 50 yards dash shall be 5 yards, in the 100 yards dash, 10 yards.

The limit in the pole vault shall be 18 inches; in the running high jump 9 inches; in the running broad jump, 30 inches; in the 8-lb. shot put, 48 inches; in the 12-lb. shot put, 60 inches;

in the standing broad jump, 12 inches.

The penalty for winning shall be as follows: For races of 50 yards and under, 3 feet, 2 feet and 1 foot shall be taken off for winning first, second and third places respectively; in races over 50 yards and including 100 yards, 2 yards, 1 yard and 2 feet; over 100 yards and including 220 yards, 5, 3 and 2 yards; over 220 and including 440 yards, 10, 6 and 3 yards; over 440 yards and including 880 yards, 20, 12 and 6 yards; in races over 880 and including one mile, 40 yards, 24 yards and 12 yards; in the pole vault, 9, 7 and 4 inches; in the running high jump, 5, 4 and 2 inches; in the running broad jump, 14, 10 and 7 inches; in the 8-lb. shot put, 20, 15 and 11 inches; in the 12-lb. shot put, 24, 18 and 13 inches; in the standing broad jump, 7, 5 and 3 inches.

RULE XXIV. POTATO RACING.

The potato race shall be one in which three or more potatoes are placed two yards apart on a direct line. The first potato shall be two yards from the receptacle, which shall be either a pail, basket, box, or can, not over 36 inches in circumference at the opening. The minimum number of potatoes in a race shall be five.

The finish shall be a line five yards back of the receptacle, which must be crossed after the last potato has been placed in the receptacle.

If the competitor should drop a potato, he must replace it in the receptacle before he touches another potato; otherwise, he shall be disqualified.

In handicap events the mark is taken off back of the receptacle.

RULE XXV.

THE SHOT.

The Shot shall be a metal sphere of any weight decided upon by the Games Committee. For indoor games for record purposes a filled shot covered with any material and being a perfect and solid sphere may be used.

The shot shall be "put" with one hand, and in making the

attempt, it shall be above and not behind the shoulder.

All puts shall be made from a circle seven feet in diameter. The circle shall be a metal or wooden ring, painted or whitewashed, and sunk almost flush with the ground, and it shall be divided into two halves by a line drawn through the center. In the middle of the circumference of the front half shall be placed a stop-board four feet long and four inches high, and firmly fastened to the ground. In making his puts, a competitor may rest his foot against, but not on top of, the stop-board.

That put shall be considered a fair put when no part of the body of the competitor touches the top of the stop-board, the circle, or the ground outside of the circle, provided the competitor shall leave the circle by its rear half, which shall be the half directly opposite the stop-board. A put shall be considered foul if any part of the body of the competitor shall touch the ground outside the front half of the circle before the put is measured.

The Field Judges shall measure each put from the nearest mark made by the fall of the shot to the circumference of the circle on a line from the mark made by the shot to the center of the circle.

Foul puts and letting go the shot in making an attempt shall

be counted as trials without result.

Each competitor shall have three trial puts, and the first, second, third and fourth in the trials shall have three more trials each in the final.

The best put made by a competitor, whether made in the trials or finals shall count as his best put and the result will be decided accordingly.

RULE XXVI.

RUNNING HIGH JUMP.

A fair jump shall be one that is made without the assistance of weights, diving, somersaults or handsprings of any kind.

The bar shall be a thin stick two inches in width and shall rest on pins which shall project not more than three inches from the uprights. When this bar is removed, it shall constitute a trial jump without result.

The height at which the jump shall commence and the height to which it shall be raised at each succeeding jump shall be

decided by the Field Judges.

The height shall be measured from the middle of the bar to

the ground on a direct line.

Each competitor shall be allowed three trial jumps at each height, and if on the third trial he shall fail, he shall be declared out of the competition.

At each successive height each competitor shall take one trial in his proper turn; then those failing, if any, shall have their second trial in a like order, after which those who have failed at the second trial may take their third and final trial at that height.

A competitor may decline to jump at any height in his turn, and by so doing, forfeits his right to again jump at the height

declined.

If, however, a competitor takes a trial at any height and fails

in the first trial, he shall not pass the other two trials.

Running under the bar in making an attempt to jump shall be counted as a balk, and three successive balks shall constitute a trial jump.

There shall be no limit to the run a competitor may take before

attempting a jump.

RULE XXVII.

RUNNING BROAD JUMP.

A joist eight inches wide shall be sunk flush with the ground. The outer edge of the joist shall be called the scratch line and the measurement of all jumps shall be made from it at right angles to the nearest break in the soft ground, or in the turf or earth outside the soft ground by any part of the body of a competitor.

In front of the scratch line the ground shall be flush.

A foul jump shall be one where the competitor in jumping off the scratch line makes a mark on the ground immediately in front of it, or runs over the line without jumping, and shall count as a trial jump without result.

Each competitor shall have three trial jumps, and the competitors finishing one, two, three and four in the trial jumps, shall

each have three more trial jumps.

The competition shall be decided by the best of all the trial

jumps of the competitors.

A fair jump shall be one that is made without the assistance of weights, diving, somersaults or handsprings of any kind.

RULE XXVIII.

STANDING BROAD JUMP.

The feet of the competitor may be placed in any position, but shall leave the ground once only in making an attempt to jump. When the feet are lifted from the ground twice, or two springs are made in making the attempt, it shall count as a trial jump without result. A competitor may rock back and forward, lifting heels and toes alternately from the ground, but may not lift either foot clear of the ground, nor slide either foot along the ground in any direction.

In all other respects the rules governing the running broad

jump govern the standing broad jump as well.

RULE XXIX.

THE POLE VAULT.

The height at which the vaulting shall commence and the height to which the bar shall be raised at each succeeding vault shall be determined by the Field Judges.

The height of the bar shall be measured on a direct line from

the ground to the middle of the bar.

Each competitor shall have three trials at each height, and, if he fails at the third trial he shall be declared out of the competition.

Each competitor shall make an attempt at each successive height in the order in which he is called; then those who have failed shall have a second trial in like order. Those failing on the second trial shall then take their third and final trial.

Displacing the bar counts as a try.

Leaving the ground in an attempt shall constitute a try.

A line shall be drawn fifteen feet in front of the bar and parallel with it; crossing this line in an attempt shall be a balk. Two balks shall constitute a try.

A competitor may decline to vault at any height, but, if he fails at the next height, he shall not be allowed to go back and try the height he omitted.

If, however, contestant takes one trial at any height, he shall

not pass the other two trials.

Any competitor shall be allowed to dig a hole not more than one foot in diameter at the take-off in which to plant his pole.

The poles shall have no assisting devices, except that they may be wound or wrapped with any substance for the purpose of affording a firmer grasp, and may have one spike at the lower end. The poles shall be unlimited as to size and weight.

No competitor shall, during his vault, raise the hand which was uppermost when he left the ground to a higher point on the pole, nor shall he raise the hand which was undermost when he left the ground to any point on the pole above the other hand.

RULE XXX.

THE DISCUS (GREEK STYLE).

To execute the throw, the competitor places himself in the pedestal with the feet apart, the right foot forward, provided he is right-handed, and vice versa, if he is left-handed, and holding the discus in either hand. He then grasps it with both hands and raises it straight above his head. As the discus is held aloft the body should lean forward slightly, and as the thrower starts to make his effort the trunk should be turned slightly to the right and the body bent sharply so that the left hand, when free, swings outside and below the right knee, and the right, holding the discus, is stretched as far back as the extension of the shoulder will allow. At this moment the right knee should be bent, with the foot resting full on the sole, the left leg almost straight, and the foot resting on the toes. Then, by a sharp and simultaneous exertion of the whole body, the thrower scales the discus away in front of him. The critical part of the throw is the action of the arm at the moment of delivery. The final sweep of the arm must be distinctly by the side and be clearly in an underhand direction. Round arm, like a cricket bowler, horizontal, arch, or overarm swings to be foul. Neither must there be the least tendency of the arm to swing around the body.

The measurement of the throw to be from the center of the pedestal to where the discus first strikes the ground.

The thrower may leave the pedestal at the moment of throw-

ing.

Trials and other conditions of competition to be the same as the hammer or shot.

RULE XXXI.

THE HURDLES.

In the 120 yards hurdle race, ten hurdles shall be used; height of hurdles to be decided upon by the Games Committee. They shall be placed ten yards apart, with the first hurdle fifteen

yards distant from the starting point, and the last hurdle fifteen

yards before the finishing line.

In the 220 yards hurdle race ten hurdles shall be used; height of hurdle to be decided upon by the Games Committee. They shall be placed twenty yards apart, with the first hurdle twenty yards distant from the starting mark, and the last hurdle twenty yards from the finishing line.

In hurdle races of other distances, and with different numbers of hurdles, the hurdles shall be placed at equal distances, with the same space between the first hurdle and the starting point and the last hurdle and the finishing line as between each of the

hurdles.

In making a record it shall be necessary for the competitor to jump over every hurdle in its proper position, nor shall the performance be considered a record unless all the hurdles remain standing, after the competitor clears them.

A competitor knocking down three or more hurdles, or any

portion of hurdles in a race shall be disqualified.

RULF XXXII.

TIES.

In all contests whose results are determined by measurement

of height or distance, ties shall be decided as follows:

In handicap contests the award shall be given to the competitor who received the least allowance. In case of a tie between two or more competitors who received the same allowance, the decision shall be made as in scratch contests.

In case of a tie in a scratch contest at high jumping, the tieing competitors shall have three trials at the height last tried, and if still undecided the bar shall be lowered to the height next below, and three trials taken at that height. If no one clears it, the bar shall be lowered again and again until one of the competitors clears it. In case of a second tie, the award shall be given to the competitor who cleared the bar with the least num-

ber of trials.

In case of a tie in a scratch contest in any event decided by distance, each of the tieing competitors shall have three additional trials, and the award shall be made in accordance with the distance clear in these additional trials. In case of a second tie three more trials shall be allowed, and so on, until a decision is reached. In case of a dead heat in track events, the competitors shall not be allowed to divide the prize or points, or to toss for them, but must compete again at a time and place appointed by the Referee.

In case of a tie in the pole vault the officials shall raise or lower the bar at their discretion, and those competitors who have tied shall be allowed one trial at each height.

RULE XXXIII.

ORDER OF COMPETITION IN FIELD EVENTS.

In all scratch events the competitors shall take their trials in

the order of their names as printed on the programme.

In all handicap events the competitor having the greatest allowance shall make the first trial, and so on, in regular order, up to the competitor at scratch or with the least allowance, who shall have the last trial.

RULE XXXIV.

COSTUME.

Only boys with pants reaching approximately to the knees and shirts that adequately cover the body shall be allowed to compete.

Spalding Bamboo Vaulting Poles

Owing to differences in climatic conditions it is impossible to keep Bamboo Vaulting Poles from cracking. These cracks or season checks do not appreciably detract from the merits of the poles, except where they are continuous. Much of the real strength of the pole is in the joints. All of our tests would seem to prove that poles with season checks may be accepted as safe and durable, except where the season check is wide open and extends through several sections on one side. Very frequently such splits or season checks can be entirely closed by placing the pole in a damp place for a day or so.

Spalding Official National League Ball

Patent Cork Center

No. 1 { Each, . \$1.25 Per Dozen, \$15.00

The Spalding "Official National League" Ball has been the Official Ball of the Game since 1878

Adopted by the National League in 1878, is the only ball used in Championship games since that time and has now been adopted for twenty years more, making a total adoption of fifty-four years.

adopting the Spalding "Official National League Ball for twenty years more the Secretary of the National League, Mr. John A. Heydler, gave the following as the reason for this action:

"The Spalding Ball was adopted by the National League for twenty years, because we recognized it as the best ball made. We have used it satisfactorily for thirty-four years. The new Cork Center Ball introduced for the first time last year and used in the World's Series, we believe to be the only ball for the future, and it is absolutely the best that has been used by the National League in its history."

This ball has the Spalding "Patent" Cork Center, the same as used since August 1, 1910, without change in size of cork or construction.

Each ball wrapped in tinfoil, packed in a separate box, and sealed in accordance with the latest League regulations. Warranted to last a full game when used under ordinary conditions.

Standard Policy

Standard Quality must be inseparably linked to a Standard Policy. Without a definite and Standard Mercantile Policy, it is impossible for a

Manufacturer to long maintain a Standard Quality.

To market his goods through a jobber, a manufacturer must provide a profit for the jobber as well as for the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not air to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts,"

which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are

practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer, in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that, 13 years ago, in 1899, A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding

Policy."
The "Spalding Policy" eliminates the jobber entirely, so far as Spalding
The "Spalding Policy" eliminates the jobber entirely, so far as Spalding Athletic Goods direct from the manufacturer by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The "Spalding Policy" is decidedly for the interest and protection of the

users of Athletic Goods, and acts in two ways:

First.—The user is assured of genuine Official Standard Athletic Goods and the same prices to everybody.

Second.-As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are requested to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated

exactly alike, and no special rebates or discriminations are allowed to anyone. This briefly, is the "Spalding Policy," which has already been in successful operation for the past 13 years, and will be indefinitely continued. In other words, "The Spalding Policy" is a "square deal" for everybody.

Standard Quality

An article that is universally given the appellation "Standard" is thereby conceded to be the criterion, to which are compared all other things of a similar nature. For instance, the Gold Dollar of the United States is the Standard unit of currency, because it must legally contain a specific proportion of pure gold, and the fact of its being Genuine is guaranteed by the Government Stamp thereon. As a protection to the users of this currency against counterfeiting and other tricks, considerable money is expended in maintaining a Secret Service Bureau of Experts. Under the law, citizen manufacturers must depend to a great extent upon Trade-Marks and similar devices to protect themselves against counterfeit products—without the aid of "Government Detectives" or "Public Opinion" to assist them.

Consequently the "Consumer's Protection" against misrepresentation and "inferior quality" rests entirely upon the integrity and responsibility of the "Manufacturer."

A. G. Spalding & Bros. have, by their rigorous attention to "Quality," for thirty-four years, caused their Trade-Mark to become known throughout the world as a Guarantee of Quality as dependable in their field as the U. S. Currency is in its field.

The necessity of upholding the Guarantee of the Spalding Trade-Mark and maintaining the Standard Quality of their Athletic Goods, is, therefore, as obvious as is the necessity of the Government in maintaining a Standard Currency.

Thus each consumer is not only insuring himself but also protecting other consumers when he assists a Reliable Manufacturer in upholding his Trade-Mark and all that it stands for. Therefore, we urge all users of our Athletic Goods to assist us in maintaining the Spalding Standard of Excellence, by insisting that our Trade-Mark be plainly stamped on all athletic goods which they buy, because without this precaution our best efforts towards maintaining Standard Quality and preventing fraudulent substitution will be ineffectual.

Manufacturers of Standard Articles invariably suffer the reputation of being high-priced, and this sentiment is fostered and emphasized by makers of "inferior goods," with whom low prices are the main consideration.

A manufacturer of recognized Standard Goods, with a reputation to uphold and a guarantee to protect, must necessarily have higher prices than a manufacturer of cheap goods, whose idea of and basis of a claim for Standard Quality depends principally upon the eloquence of the salesman.

We know from experience that there is no quicksand more unstable than poverty in quality—and we avoid this quicksand by Standard Quality.

CONSTITUTE THE SOLID FOUNDATION OF THE SPALDING BUSINES

AMERICA'S NATIONAL GAME By A. G. SPALDING

PRICE, \$2.00 NET

A book of 600 pages, profusely illustrated with over 100 full page engravings, and having sixteen forceful cartoons by Homer C. Davenport, the famous American artist

The above work should have a place in every public library in this country, as also in the libraries of public schools and private houses.

The author of "America's National Game" is conceded, always, everywhere, and by everybody, to have the best equipment of any living writer to treat the subject that forms the text of this remarkable volume, viz., the story of the origin, development and evolution of Base Ball, the National Game of our country.

Almost from the very inception of the game until the present time—as player, manager and magnate—Mr. Spalding has been closely identified with its interests. Not infrequently he has been called upon in times of emergency to prevent threatened disaster. But for him the National Game would have been syndicated and controlled by elements whose interests were purely selfish and personal.

The book is a veritable repository of information concerning players, clubs and personalities connected with the game in its early days, and is written in a most

interesting style, interspersed with enlivening anecdotes and accounts of events that have not heretofore been published.

The response on the part of the press and the public to Mr. Spalding's efforts to perpetuate the early history of the National Game has been very encouraging and he is in receipt of hundreds of letters and notices, a few of which are here given.

ROBERT ADAMSON, New York, writing from the office of Mayor Gaynor, says:—"Seeing the Giants play is my principal recreation and I am interested in reading everything I can find about the game. I especially enjoy what you [Mr. Spalding] have written, because you stand as the highest living authority on the game."

BARNEY DREYFUSS, owner of the Pittsburg National League club:—"It does honor to author as well as the game. I have enjoyed reading it very much."

WALTER CAMP, well known foot ball expert and athlete, says:—"It is indeed a remarkable work and one that I have read with a great deal of interest."

JOHN B. Day, formerly President of the New York Nationals:-

W. IRVING SNYDER, formerly of the house of Peck & Snyder:-"I have read the book from cover to cover with great interest."

Andrew Peck, formerly of the celebrated firm of Peck & Snyder:-"All base ball fans should read and see how the game was conducted in

early years."

MELVILLE E. STONE, New York, General Manager Associated Press:—"I find it full of valuable information and very interesting. I prize it very highly."

GEORGE BARNARD, Chicago:-"Words fail to express my appreciation of the book. It carries me back to the early days of base ball and

makes me feel like a young man again."

CHARLES W. MURPHY, President Chicago National League club:-"The book is a very valuable work and will become a part of every base ball library in the country."

JOHN F. MORRILL, Boston, Mass., old time base ball star .- "I did not think it possible for one to become so interested in a book on base

ball. I do not find anything in it which I can criticise.

RALPH D. PAINE, popular magazine writer and a leading authority on college sport:—"I have been reading the book with a great deal of interest. 'It fills a long felt want,' and you are a national benefactor for writing it."

GEN. FRED FUNSTON, hero of the Philippine war:-"I read the book with a great deal of pleasure and was much interested in seeing the account of base ball among the Asiatic whalers, which I had written

for Harper's Round Table so many years ago."

DEWOLF HOPPER, celebrated operatic artist and comedian: - "Apart from the splendid history of the evolution of the game, it perpetuates the memories of the many men who so gloriously sustained it. It should be read by every lover of the sport."

HUGH NICOL, Director of Athletics, Purdue University, Lafayette, Ind.:—"No one that has read this book has appreciated it more than I. Ever since I have been big enough, I have been in professional base

ball, and you can imagine how interesting the book is to me."

Mrs. Britton, owner of the St. Louis Nationals, through her treasurer, H. D. Seekamp, writes:—"Mrs. Britton has been very much interested in the volume and has read with pleasure a number of chapters, gaining valuable information as to the history of the game.'

REV. CHARLES H. PARKHURST, D.D., New York:-"Although I am not very much of a 'sport,' I nevertheless believe in sports, and just at the present time in base ball particularly. Perhaps if all the Giants had an opportunity to read the volume before the recent game (with the Athletics) they might not have been so grievously outdone.

BRUCE CARTWRIGHT, son of Alexander J. Cartwright, founder of the Knickerbocker Base Ball Club, the first organization of ball players in existence, writing from his home at Honolulu, Hawaiian Islands, says: -"I have read the book with great interest and it is my opinion that no better history of base ball could have been written."

George W. Frost, San Diego, Calif.:—"You and 'Jim' White, George Wright, Barnes, McVey, O'Rourke, etc., were little gods to us back there in Boston in those days of '74 and '75, and I recall how indignant we were when you 'threw us down' for the Chicago contract. The book is splendid. I treasure it greatly."

A. J. Reach, Philadelphia, old time professional expert:—"It certainly is an interesting revelation of the national game from the time, years before it was so dignified, up to the present. Those who have played the game, or taken an interest in it in the past, those at present engaged in it, together with all who are to engage in it, have a rare

treat in store."

DR. LUTHER H. GULICK, Russell Sage Foundation:—"Mr. Spalding has been the largest factor in guiding the development of the game and thus deserves to rank with other great men of the country who have contributed to its success. It would have added to the interest of the book if Mr. Spalding could have given us more of his own personal experiences, hopes and ambitions in connection with the game."

Annual Meeting of the Public Schools Athletic League

Minutes of the ninth annual meeting of the Public Schools Athletic League, held at the office of the President, General George W. Wingate, 20 Nassau Street. New York City, January 3, 1913, at four o'clock P. M., the President in the chair and Dr. C. Ward Crampton acting as Secretary. Fifty-one members were present in person or by proxy. On motion of Mr. Kirby, the regular order of business was suspended and the election of directors was held. The following were re-elected by unanimous vote for full term of three years:

Egerton L. Winthrop, Jr. Victor J. Dowling Gustave Straubennüller Rodman Wanamaker Herman A. Metz Frederick Lewisohn Thomas J. Higgins Plowden Stevens, Jr. John H. Denbigh

For One Year:

Leo I. Kearney, on behalf of the Elementary Schools Games Committee.

William II. Andrews, on behalf of the High Schools Games Committee.

To fill a vacancy to serve three years: Vincent Astor.

The following address was read by General George W. Wingate, President of the League:

GENTLEMEN:

The steady progress which the Public Schools Athletic League has made in every year since its organization has increased so that I am gratified at being able to report that the year that has passed, which is the tenth since the League was organized, has been the most suc-

cessful in its history.

This is especially noticeable in the extent to which the great mass of the children attending the schools, both boys and girls, have participated in our athletic activities. The development of certain so-called "star" athletes who will make high records in champlonship games, is something that naturally results from all forms of competitive exercises. The ambition to become qualified for the honor of representing their school in athletic contests is a great factor in inducing many to interest themselves in the subject who would not otherwise have done so. The interest taken by the principals, teachers and pupils of the schools in the success of their champions creates a school spirit which is valuable in many educational respects. Yet the main purpose which the League has always had the most at heart is to stimulate and encourage the average boy—and, in fact, the one who is physically below the average—to train and practice so as to make him healthy and strong. Calisthenics, especially the improved methods recently introduced in the schools, are good, but as practiced by many have only a limited value. Work in the gymnasium produces better results. But many schools have no gymnasia, and neither method seems to appeal so strongly to the American boy, including boys of foreign birth, so as to best develop his mind, nerves

S. R. GUGGENHEIM, Treasurer Public Schools Athletic League

and muscles, as do competitive exercises, particularly when they are held out of doors.

To appeal to this sentiment, and at the same time to induce the greatest possible number to compete in the athletic activities of the League, several different methods have been successfully devised.

The first and still the most important method of interesting the individual has been the "League Badge" or "Button," which is analogous to the soldiers' "Marksman's Badge," and is annually awarded to each boy who attains certain simple standards in running a short distance, in jumping and in "chinning" himself on the bar. It has proved as beneficial in its effect upon athletics in the schools as the marksman's badges have been in promoting rifle shooting in the National Guard and in the Army. When this "Button" was first established, the number that were won was small. The boys could run fairly well, but they could not jump, and they had so little strength in their arms and chest that frequently in a good sized school the inspector would be unable to find more than six boys who could chin themselves four times.

Since 1909 the age, weight and height qualifications which formerly existed have been abolished, so that the following are the standards:

CLASS A. BRONZE BADGE.

60 yards dash-8 3-5 seconds. Standing broad jump-5 feet 9 inches. Pull up (chinning on bar) -4 times.

CLASS B. SILVER BADGE.

60 vards dash, indoors-8 seconds. Pull up (chinning)—6 times. Or 100 yards dash, outdoors-14 seconds. Standing broad jump-6 feet 6 inches.

FOR HIGH SCHOOL BOYS. SILVER BADGE.

220 yards run-28 seconds. Running high jump—4 feet 4 inches. Pull up (chinning)—9 times.

As the number of buttons which have been won has increased, the number of those who desire to wear one has increased more than proportionately, so that very satisfactory results have been obtained

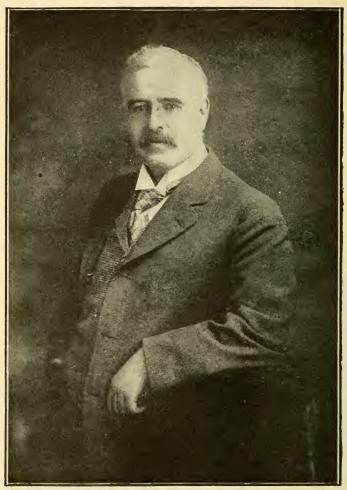

during the past year.

In 1904, when this button was first offered for competition, but 1,162 were won. This has steadily increased, so that in 1912 it rose to the enormous number of 10,476, an increase of no less than 2,177 over 1911. In one school, P. S. 62, Manhattan, an itermediary school limited to the upper grades, so much interest was evinced that 1,199 boys competed, 614 of whom won the "Button."

The Girls' Branch also offers a pin, which is awarded to each girl who completes a required record in "all around athletics" adopted for

girls, and which is also meeting with success.

As an extension of the individual "Button" contests, "class contests" have been established. In these eighty per cent, of each competing class must participate, and the average of all constitutes the record of the class. A Borough trophy is offered to the class in each grade making the best record in each branch of the contests, and a City trophy to the best records in the whole city. The contests for these are keen. As each competitor wins the "Button" for himself, and helps to give his class a chance of winning one of the tropale, class and school spirit induces—in fact, compels every boy to exert class and school spirit induces—in fact, compels every boy to exert

quence, these "class contests" are now participated in by so many that they well may be justly considered as one of the "world's greatest

competitions.'

On account of their great magnitude these contests are divided into three separate series. The "chinning" takes place in March, the "running" in May and the "jumping" during the fall, thus requiring those intending to compete to train more or less three times a year. Of course, this training is of the simplest sort. Nevertheless, it constitutes a valuable check on bad habits, and is an incentive to clean and healthy life. This was best illustrated by a principal of one of our schools which stands high in athletics in an answer to one who desired to speak to his boys about the evils of cigarette smoking when he said: "My boys don't smoke; they believe it will hurt their wind."

In the jumping contest each boy is allowed three jumps; the best jump of each is aggregated and divided by the number competing.

The highest aggregate results obtained by each of the classes in the wifth, Sixth, Seventh and Eighth years in each school are then forwarded to the Secretary of the League. Unless eighty per cent. of the register of each class has competed its scores are not considered. After the scores are received the highest classes in each Borough are selected and then tested by the officials of the League. Unless on this test they obtain an equal or higher record than that which constituted the record forwarded, such record is not allowed and another class is substituted.

In the "chinning" contest the same procedure is gone through with, except that each boy may "chin" himself as many times as he can. In "class running" the boys are lined up back of the starter. As the first runner crosses the finish line the judge standing there signals with his handkerchief, the second then starts, and the others successively until all have completed the distance. The time taken by the entire class is divided by the number of boys running and the result constitutes the class record.

In the "chinning" contest held last May 27, 162 boys from 84

schools and 894 classes participated. The highest class average was:

For the 5th year, P. S. 2, Manhattan, 12.2724 times. For the 6th year, P. S. 3, Bronx, 14.8518 times. For the 7th year, P. S. 147, Manhattan, 13.3571 times. For the 8th year, P. S. 72, Brooklyn, 13.2413 times.

In my opinion, few country boys can equal these records.

In running, reports were received from 18,247 boys from 63 schools

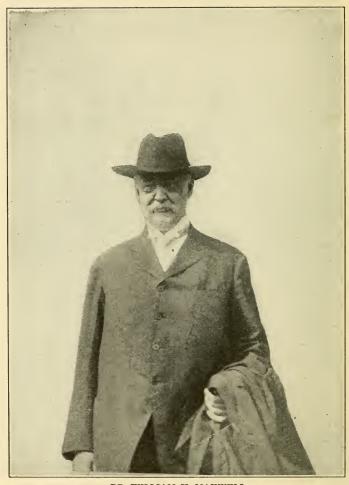

and 697 classes, an increase of nearly 6,000 over 1911.

In the "class jumping" 24,911 boys belonging to 972 classes and 85 schools took an active part. The highest class average was:

For the 5th year, P. S. 156, Brooklyn, 6.1033 feet. For the 6th year, P. S. 156, Brooklyn, 6.4236 feet. For the 7th year, P. S. 171, Manhattan, 6.9712 feet. For the 8th year, P. S. 12, Bronx, 7.2 feet.

The system of class competitions has been found to be so advantageous that in a number of schools it is extended to all branches of competitive athletics, so that in effect the school becomes a large athletic organization by itself, with senior, junior and novice teams and individual competitors, in excess of what can be seen in a large college. As an example of this, P. S. 43, Brooklyn, had 943 boys enter in its games out of a total of 1,070. Entries of 500 boys from a single school were common and there were over 80 cases where there were over 300.

Class athletics have been carried still further through the system known as "Combined Athletics," devised by Mr. Frederick J. Reilly, Principal of P. S. 33, Bronx. This was originally developed and

DR. WILLIAM H. MAXWELL, City Superintendent of Schools, New York City.

adopted by the schools in Districts Two and Three, Manhattan, with very favorable results, and is being taken up by others. It is along the lines of "Class Athletics," but goes further by making the records that have been attained by the entire school the standard upon which such school is ranked.

I also covers a number of different forms of exercise so as to prevent the selection and training of a single class in a single branch of

athletics

The system consists of three separate competitions, each consisting of two events, namely, one in the fall—the Standing Broad Jump and Combination Dip; second, in the winter—Chinning the Bar and Hop. Step and Leap; and third, in the spring—Running and Trunk Lifting.

Lifting.

All the boys in the school compete, excepting those who are physically unfit. Certain minimum standards are set in each exercise which a boy must reach in order to qualify. In the "Chinning and Combination Dip" a maximum is set beyond which he is not allowed to go. In the "Standing Broad Jump" the boys stand flat on the floor and jump off a line. In the "Combination Dip" the boy, standing erect, bends, places hands on the ground, extends his legs and then lowers his body until it touches the ground and lifts it. "Chinning" and "Hop, Step and Leap" need no explanation. In "Trunk Lifting" every boy lies on his back with his hands placed on his hips, and lifts himself to a stifting position without using the legs or allowing the himself to a sitting position without using the legs or allowing the heels to leave the floor.

In the "Jumping" five points are counted for a boy who reaches the minimum distance prescribed, which is 4 ft. 3 in. for the 5A grade; 4 ft. 6 in. for the 5B grade; 4 ft. 9 in. for the 6B grade; 5 ft. 6 in. for the 7B grade; 5 ft. 9 in. for the 8A grade, and 6 ft. for the 8B grade. One point more is given for every six inches jumped beyond the

minimum.

In the "Combination Dip" the minimum for a 5A grade is twice, and the maximum five times, which is increased by one in each of the other grades. The score is five points for each minimum and eight other grades.

points for each maximum.

In "Chinning" the minimum for a 5A grade is four times, maximum ten; for 5B minimum five times, maximum eleven; for 6A and 6B the minimum is six times, maximum twelve; for 7A and 7B the minimum is seven times, maximum thirteen; and for 8A and 8B the minimum is eight times, maximum fourteen. These count five, six, seven and eight points respectively.

In the "Hop, Step and Leap" each class is divided into three

groups; boys under four feet six inches must cover 20 feet, boys under five feet must cover 22 feet, and boys over five feet must cover

24 feet.

The running is conducted as above stated for Class Athletics. The aggregate time of the class is subtracted from 15, the remainder being

the number of points averaged by the class.

In December, April and June each principal sends a report to the Secretary of the District Committee. The Committee then visits the schools claiming the best record for each grade and tests one class in that grade. The class to be tested is chosen by lot just before the If that class equals or excels its record as reported, it is assumed that the others will do likewise, and the school is declared winner of the trophy for that grade. The Committee may, however, also test any other class on the same grade that claims a record very much above the average. If either of the classes tested fails to equal the record sent in the Committee tests a class in the school claiming the second best record. If its record on the official test surpasses that of the first school the second school is declared winner for that

grade. By this means the work of testing is reduced to a comparatively small amount

The Athletic Committee of the Board of Education has considered that it has issued a circular describing it and calling the attention of the principals and teachers to it.

In no branch of athletics has greater improvement been displayed during the past year than has been the case in respect to rifle shooting in the high schools, and none has produced a more beneficial effect upon the character, habits and physique of the boys who have participated.

Through the generosity of its friends, the League had been able to place a subtarget gun machine in fourteen of the largest high schools prior to 1912, and to add two more in the spring of that year. It had also been furnished with many valuable prizes. These subtarget gun machines are used in assimilated firing with an Army Springfield rifle, and are so constructed that a boy practising receives the same experience as if he were actually firing a ball cartridge, while there is neither noise, danger nor expense. During the year 1912 over 4,000 boys have been regularly practising. On May 1, 1912, there were reported 349 as qualifying as marksmen by making a score of 45 points out of a possible 50 (a very severe test), and 139 sharpshooters (those making a perfect score of 50). The badges for these qualifications which were won in Manhattan, Bronx and Richmond were presented by the Union Metallic Cartridge Company, while those for the boys in Kings and Queens were donated by the Brooklyn Eagle, to both of whom the League is under great obligations.

Those boys who have won their marksmanship and sharpshooters' badges are permitted to practice with cartridges in the rifle galleries of the different armories, and it is found that with the experience they have had with the gun machines they soon develop into remarkable shots. At present there is a tournament being conducted among the high schools on their subtarget gun machines, which consists of

a series of dual matches. It is not yet completed.

In the tournament which took place under the auspices of the League at the Sportsman's Show in 1912, at which a number of prizes were offered by different arms companies and others interested in the subject, over one thousand boys participated—more, in fact, than the subtarget gun machine and the target ranges that were provided would accommodate. The shooting was done at 50 feet, the target was the National Rifle Association Junior Marksman, Standard American Style; three counts in the black—ten, nine and eight. The ten ring ½ inch, the nine ring 1 inch, and the eight ring 1½ inches. The Morris High School won the New York State Rifle Association match, the Standard Bearer match and the Peters match; DeWitt Clinton High School won the Winchester match. The contests were close between the high schools which competed, and the shooting was fully equal to anything which has ever been seen in any of the National Guard competitions.

Our high schools also competed for the Astor Cup, presented by Colonel John Jacob Astor, which was shot for by 18 preparatory schools on their home indoor ranges all over the United States. It was, however, won by the Iowa City School, the Morris High School

being fourth.

The League has always felt the necessity of supplementing the practice given by the subtarget gun machines and in the rifle galleries with some actual shooting on a rifle range to convince the boys that if they could make good scores on the one they could do the same on the latter. It has been unable to do so for several years past, as the Creedmoor range was closed and that at Blauvelt unfinished. Through the courtesy of Adjutant General Verbeck, and of Colonel N. P. Thurston, it was able to secure the use of the State range at Peekskill

C. L. MYERS, Assistant Treasurer Public Schools Athletic League.

for Saturday, October 19, 1912, and a loan of the necessary rifles from General Walter B. Hotchkin, commanding the 22nd Englineer Corps, N.G.N.Y., and announced a series of rifle matches to be shot on that day at 200 and 500 yards with the army rifle and ammuni-Corps, N.G.N., and announced a series of rifle matches to be shot on that day at 200 and 500 yards with the army rifle and ammunition. The competitors were required to pay a small entrance fee for each match, but their transportation and lunch, as well as the prizes, were provided by the League. The State furnished the ammunition. The matches were in direct charge of Captain George W. Corwin, Ordinance, N.G.N.Y., who was assisted by Major Henry C. Wilson, Engineers' Corps, N.G.N.Y., and a large number of prominent riflemen, including several members of the Olympic team of 1912, acted as assistants, to all of whom the League is under great obligations. As in almost every case the boys' previous shooting experience had consisted only of practice on subtarget gun machines in their school work, and none of them had ever fired the heavy charge used in the Springfield, it was expected by the veteran riflemen who were present that they would "flinch." They were, therefore, astonished beyond measure to see lads of fourteen, weighing in the 90's, making off hand scores at 200 yards of 22 out of 25. The highest individual score at 200 yards 20 shots, half standing and half prone, was made by Irving Pullman of the Commercé team, who made 47 standing and 49 lying; H. Pickert of the Morris High and H. Dutton of DeWitt Clinton High tied for third with a score of 92, and a number of others made over 90 out of 100. Fifty boys qualified as Junior Marksmen under the rules of the N. R. A., with scores of 75 and upwards. The team champlonship was won by the High School of Commerce with a score of 192, Morris High being second with 186, and Stuyvesant High third with 182. High being second with 186, and Stuyvesant High third with 182. Morris High led the second division teams for the junior trophy with 183, Stuyvesant High being second with 176, and DeWitt Clinton third with 161. The training which the boys had subjected themselves to produced a difference between their conduct and that of other young men of their age which excited much favorable comment. They were transported in a special train without any particular control and were given perfect freedom upon the range. Yet, while they sang and otherwise enjoyed themselves in the cars as boys do, neither in coming nor going was there the slightest disorder, and on the range their conduct was such that not the least objection could be made. over, during the whole day, during which 127 young men were present in the open air, not a single boy was seen to smoke. This was not because orders had been given to refrain from doing it or because they were watched, for neither was the case. But simply because they had been instructed that if they were going to shoot well they must not use tobacco or indulge in any dissipation. That they did not do this is shown by the scores which they made. But the fact that they did not must be considered as a demonstration of the value of training in this branch of sport.

The boys were enthusiastic beyond description over their experience, and left the range with the firm determination to practice their best during the winter, so as to make a better record in the next match, which will probably be held in September, 1913. In particular they were pleased to find that the result of their practice on subtarget gun machines, which they had felt at times to be rather more play than actual work, had really been most profitable training for actual field shooting. This competition has excited much attention from military men, and has been commented upon by the press throughout the United States as being a demonstration of what few really appreciated, that the "machine-made" shooter is a dependable marksman under service conditions and that the League is doing a work of great value to the country in making sharpshooters of its schoolboys. This has given an immense impetus to the interest in shooting among the

high schools of New York, which will unquestionably extend throughout the United States. The number of young men who graduate annually from these schools is about 50,000, and if this instruction should, as I hope and think will, be made general throughout the country, so that a large proportion of our youth should become sharpshooters, the boys besides attaining the valuable qualities of quick perception, steady nerves and cool self-reliance, and having an enjoyable time, would be led to abstain from cigarette smoking and other vices and to live clean, manly lives.

While there is a certain number of peace advectors who have

While there is a certain number of peace advocates who have bjected to introducing military instruction in our schools, certainly none can object to teaching our youth the use of the rifle. This country must depend for its defense in time of war upon hasty levies of volunteers. If these are taught in their youth to shoot they will never forget it, and but a little practice will be required to make them efficient if an emergency should ever arise which would require them to volunteer to defend their country and their flag. Without such knowledge they would be worthless as soldiers. If the method which the League is now carrying out could be made general in the high schools throughout the country, so that a large proportion of our youth should become sharpshooters, a force would be provided at nominal expense which would render the nation able to defend its shores against any invader without the necessity of maintaining a large regular army.

It would, therefore, constitute the greatest possible guarantee for national peace. It is gratifying to know that in a recent publication General Leonard Wood, Chief of Staff of the Army, praised the work which the League was doing in this respect and pointed out that it was of vital necessity to the country that it should be made universal. The result of these competitions has been to make practically all

The result of these competitions has been to make practically all the boys in the high schools anxious to learn to become good shots. In consequence, the capacity of the single subtarget gun machine which the League had been able to supply to the schools has in the case of all but a few of the small institutions become inadequate to accommodate the great number of boys who desire to become good riflemen. The knowledge of this situation induced Mr. S. R. Guggenheim, our valued Treasurer, to donate two other machines (making ten in all which he has given), which have been respectively installed in the Bay Ridge and Bushwick High Schools. Mr. George B. Pratt, one of our directors, and Colonel Robert B. Thompson each also gave another, which have been assigned to the DeWitt Clinton High School and the Morris High School, and Mr. Felix Warburg, another director, has given one to P. S. 62, Manhattan, an intermediary school and the first elementary school to take up rifle shooting.

The details of the various athletic events conducted under the auspices of the League are set forth in the report of the Secretary and of the Games Committee, and show that the improvement made during the past year has been most gratifying. These events have been held both in and out of doors and cover nearly every field of athletic activity. They include running in all its forms (except for long distance), base ball, basket ball, lawn tennis, jumping, putting the shot, pole vaulting, swimming and soccer (but not Rugby) foot ball for boys, folk-dancing and appropriate athletic games and various other

exercises for girls.

Taking the whole series, the aggregate of the boys and girls taking part during the year is estimated to be over 150,000. About 25 per cent. of the grammar grades of the elementary schools are now regularly competing in base ball, soccer foot ball, basket ball, track and field athletics, and over 60 per cent. compete once or twice a year in the district and school games. The high schools have similar percentages. These figures seem enormous, but notwithstanding this,

there are fully 200,000 more of our school population of 650,000 that

are yet to be reached.

This practice is almost entirely voluntary and done after school Its great benefit is, of course, not so much the actual competition as the previous training, which the boys would not otherwise undertake, together with its influence in obliging them to keep themselves up to the prescribed standards in their schools in deportment and studies.

In the elementary indoor championship games 1.021 boys, representing 76 schools, entered, as against 624 boys from 65 schools

In the elementary schools basket ball tournament, 78 teams entered. In the elementary schools swimming contest, 167 boys, represent-

ing 25 schools, entered.

In the elementary schools outdoor novice and championship games. 1,009 boys, representing 81 schools, participated, as against 750 boys from 60 schools in 1911.

In soccer foot ball, 10 high school teams and 6 from elementary

schools competed.

In base ball there were 67 teams, and the final games were witnessed by 30,000 spectators. Every high school in the city entered a team for the 1912 base ball tournament.

The League itself has held 16 championship events.

The Tenth Annual Elementary Schools Championship Games of the League were held at Madison Square Garden on December 28, 1912. This was one of the most notable events in school athletes and in the history of the League. There were 1,188 competitors and over 8,000 enthusiastic spectators. There were over 19,000 requests for tickets, but 8,000 were all that were issued. Such a great number could not be accommodated in a building of less size and the problem of handling this army of contestants was very great. The meeting was of landing this army of contestants was very great. The meeting was opened with a parade and review of the competitors, who marching closely six abreast, extended nearly around the great building. They were then "massed up" in the center in four columns and "Saluted the Flag" in unison, in which the audience joined, a most impressive spectacle. They then marched to their respective stations in the building. As the matches went on the different squads were assembled, marched to their respective positions and started in their different events with clockwork precision which excited the surprise and admiration of the audience, which included many representatives from admiration of the audience, which included many representatives from different colleges. There was no disorder, no disputes and no protests, and the numerous matches were finished in three hours. The "Championship" was won by P. S. 42. Bronx, with 31 points, P. S. 64. Manhattan, being second with 20 points, and P. S. 62. Manhattan (which has held the Wingate championship trophy for the last three years), being third with 16 points. The athletics displayed were of a high quality and several records were broken. A. Faramon won the running high jump with a record of 4 ft. 10 3-8 in. The relay team of P. S. 6, Manhattan, in running SSO yards made the record of 1.47 2-5, and there were other high records in various events.

and there were other high records in various events. Too much praise cannot be given to Messrs. John J. McHugh, Rowland A. Patterson and Michael A. Jones, and their assistants, to whose efficiency and executive ability the success of the occasion is very largely to be ascribed. The thanks of the League are also due to the hosts of prominent athletes who volunteered indispensable services in the management of the meeting. Above all is the League indebted to Messrs. William J. Poth and Stephen Van Allan, the lessees of the Garden, who gave its use for this purpose without

The field days which the Sunday World inaugurated in 1906 have been continued with increasing success. In 1912, 157 schools held

their meets, in which 55,000 boys competed, an increase of 8,000 over last year. One thousand five hundred teachers acted as officials in these games in 1912, which in most cases were directly supervised by the schools. Three thousand five hundred and twenty boys won Sunday World medals in the year's separate school games, and 163 banners were awarded to the school classes that won the greatest number of points in the games.

boys in their games, the figures given being the actual number of com-MANHATTAN.

The various athletic meets and field days held by the schools were made interesting by the music which was furnished by the school boy bands, namely that of P. S. 21, Manhattan, and P. S. 20, Richmond These the League was enabled to organize through the generosity of our late director, Mr. John S. Huyler, who paid the entire expense, about \$4,000, of providing the instruments for two full bands, and also about \$4,000, or providing the instruments for two full bands, and also paid for the services of an instructor. As in addition to the pleasure of belonging to these bands the boys acquire a profitable occupation in doing so, there is always a long waiting list for each of them. The lamented death of Mr. Huyler deprived the League of the money required to pay for the services of the leaders of these bands. The necessary amount, however, has been raised by private contributions so that they are still continued.

The improvement in the work which is being done by the Girls' Branch is fully equal, if not greater than that which is being effected among the boys. The folk-dancing and other methods of physical exercises which have been introduced by the officers of the Girls' Branch are not only beneficial, but are extremely popular among the girls. The work, briefly, consists of encouraging after-school athletics by offering pins and trophies, conducting free instruction classes for grade teachers, who in turn volunteer their services for these ath-

letics, assisting to organize athletic clubs, supplying coaches, instructors and assistants where the Board of Education is unable to do so. and endeavoring to secure enlarged facilities for out-of-door exercise.

The Girls' Branch seeks to secure to the girls, athletic exercises distinctively suited to their sex. Vigor, and the possibility of engaging a large number of pupils at one time, as well as of eliminating individual prominence, are sought to be developed. Folk-dancing, certain games and walking are fostered, and in the high schools there are added certain track and field events. It debars pole vaulting, broad jumping and competitive high jumping as detrimental. The competition is entirely between clubs and never between individuals, and no contests are allowed between clubs unless they belong to the same school, no interschool competition being permitted. The main idea of these athletics is to encourage a love for recreative exercise for its own sake and to cultivate a variety of accomplishments. Each girl devoting a certain time to the exercises is given a pin, irrespecgirl devoting a certain time to the exercises is given a pin, irrespec-tive of any competition. The number of schools qualifying for pins given for a full season has more than doubled.

The field which the Girls' Branch has covered is most important.

Not only are there more girls than boys attending our public schools, but they are in far greater need of exercise than is the case with the While this is the case, their dress, traditions and surroundings unite to debar them from almost all opportunities to enjoy it. While the boys can have an opportunity to secure some little exercise in the

congested streets of our crowded tenement house districts, their sisters are practically debarred from doing so.

The Girls' Branch has maintained ten classes for instruction of teachers, two being senior classes for teachers who have attended this instruction at least two years, two being for new teachers. There were 626 teachers registered in these classes. The increase in its work is shown by the fact that while in 1905-06 there were 328 girls under 38 teachers in 9 schools taking this instruction, in 1911-12 there were 17,602 girls under 665 teachers in 212 schools.

were 17,002 girls under 665 teachers in 212 schools.

Through the method of instructing teachers gratuitously thousands of girls have been provided with healthful and joyous recreation.

On February 23, 1912, a benefit entertainment was given at the Waldorf by the Girls' Branch, consisting of folk-dancing and music. This realized \$1,400. In consequence, the organization is out of debt and health a comparable helping in its tracegury and has done this with and has a comfortable balance in its treasury, and has done this without any financial assistance from the Boys' Branch.

Three great park fetes were held by the Girls' Branch in May, 1912, one each being held in Central and Prospect Parks, and the third was held at Sailors' Snug Harbor on Staten Island.

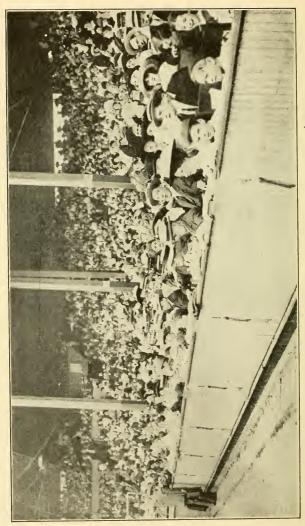

To many of the children these park fetes are a great pleasure, being for many of them their first visit to the park for years, and for hun-

dreds the year's only experience of green grass and leaves.

In addition to the system of walking clubs which was introduced in 1909 and has been carried on by the Girls' Branch, proving a great success, the Sunday World has been carrying out a definite plan for walks for both boys and girls with great success. This provides for the organization of squads of eight pupils, including a captain, the members of which are certified to by the principal of the school. The walks of not less than two miles each must be in squad, with a majority of the members present, and accompanied by a teacher or other adult person approved by the principal as supervisor. A "Tours Bulletin" has been compiled describing many interesting walks to dif-

ferent parts of the city as well as into the suburbs.

These walking trips have not only removed the children from the congested streets, giving them the best kind of exercise and fresh air, but taught them that they can walk without inconvenience distances that at first seemed impracticable, thus opening to them indefinite

fields for future enjoyment. This is particularly the case with many in the congested districts, to whom ten cents carfare is beyond their means, whose lives are spent in the little squalid circle of crowded streets and tenements, and to whom a few trees and a little grass are a mysterious wonder and delight.

In view of the wonderful facilities existing in this city for trans-

portation, walking has become almost a lost art, and the value of the

work accomplished by this system is incalculable.
On November 15, 1912, the end of the first quarter of 1912-13, the

record of the club stood as follows:

Since the club was established in the fall of 1910, 83 schools have organized walking squads, in which 16,400 boys and 3,300 girls in elementary schools of the city have been enrolled who have walked in squads under the club's rules.

The prizes consist of silver and bronze medals for the first quarter

of the year, and pendant bars (marked with the miles walked by the winner of the combined medal and bars) for each of the following quarter periods, the prizes being given quarterly during the school year.

Since the club was established, 7,000 medals and pendant bars have been awarded to members who have walked the required distances—50, 75 or 100 miles in quarter periods for boys' squads and 25 miles for girls.

The difficulty of securing proper squad leaders for the boys and chaperons for the girls has been considerable. Teachers are busy and it is a sacrifice for them to give up their Saturdays for this purpose. The proportion of men teachers is small, in fact, it is diminishing so rapidly as to constitute a serious problem in all school athletics, there being many schools in the city which have not a single male teacher. In some schools a trusted boy is appointed by his principal as a squad In some schools a trusted boy is appointed by his principal as a squad leader with satisfactory results. But with girls the squad leader must be a woman of discretion or mothers will not allow their little daughters to join the walking parties.

If it were not for this difficulty, the number of girls who participate in these beneficial exercises would be greatly increased.

To sum up the result of the year's activities is to say that the interest taken in the work of the League, both in and out of the schools, the improvement of the school children in physique, character and discluding and the enlargement and efficiency of its activities.

and discipline, and the enlargement and efficiency of its activities

among both boys and girls, still continue.

Although these ten years have involved hard and steady work among those who are charged with the direction of its activities, such labor has been a pleasure rather than a task to those engaged, as they have been ten years of continued success. To this success all of them have contributed unselfishly and diligently, so that all are entitled to the credit which has resulted. All new movements, especially of a public and philanthropic character, meet with considerable criticism and many disheartening drawbacks when first started. Our League, how-ever, has experienced but few, almost none of these. On the contrary, from its inception to the present time, it has always received a kindly word and helping hand from the school authorities, the children, the press and the public. Largely in consequence of this it has now become a fixed institution in our school system, too firmly rooted in scholastic and popular estimation ever to be disturbed.

We are, therefore, assured that although the work is not completed and will continue long after your present officers have surrendered its management to others, its future is secure.

As you all know, when our League was formed in 1903, and for months thereafer, there was no one in the schools outside of the physical instructors who knew anything about athletics, that the boys were in physique far below the standard of an average country lad, their ideas of honor and fair dealing were perhaps even more below

what was proper, and school pride hardly existed. Now there is scarcely a school in the city in which the interest in athletics is not widespread and intelligent among both boys and girls; where the children are not much stronger, more active and healthy than they were in 1903; where ideas of honor and fair play have not been created which never before were known, and where a spirit of school pride has not been developed which constitutes a most important educational factor. To day it is universally conceded that the League has become the largest athletic organization in the world. The best test of its work is the imitation which is going on all over the country. Already nineteen cities, Baltimore, Birmingham, Ala., Buffalo, Chrcinnati, Cleveland, Fitchburg, Mass., Kansas City, Mo., Newark, N. J., New Orleans, Pittsburgh, Pa., Poughkeepsie, Racine, Wis., San Francisco, Schenectady. Seattle, Springfield, Mass., Tacoma, Troy, and Winnipeg, Canada, have organized public school leagues on the model of our own, which are repeating in the schools of those municipalities the success which this League has achieved in the City of New York. Its regulations are the standard which are followed by the thousands of schools throughout the country which through its influence have introduced athletics as a part of their regular school work.

This is far more than the most enthusiastic of those who participated in the formation of our organization ever hoped to live to witness, and I am sure is felt by you all as being a full reward for your

As we have learned by experience what is best to do and what not to do, the work of the past year has been largely that of extension and progress. While the numbers which we are required to handle are constantly increasing not only in the aggregate but in the different branches of athletics, the work is really easier because it is understood by the teachers, school children and the public.

The four large athletic fields belonging to the Board of Education have been kept in good order. They have been increased during the past year by the opening of the Seventh Ward Athletic Field at Clinton and Cherry Streets, Manhattan, and the North Portland and Nostrand Avenue playgrounds. All of these have been greatly used, as has a playground which has been opened for three days a week in

P. S. 41. Manhattan, a very congested neighborhood.

The construction of the grand stand at the Brooklyn Athletic Field has somewhat affected the use of the latter during the summer. The work has been delayed, but it is expected to be completed in the spring. It will contain dressing quarters, shower baths and lavatories for 1,000 boys and girls, and seats for 2,500 spectators on the roof. This will eliminate a great drawback to the use of this field and will

make it a first-class one.

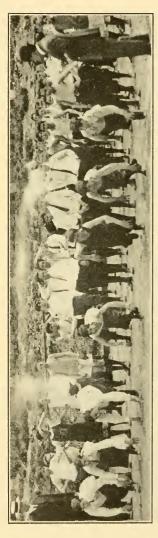

The three other large fields will be shortly improved by placing a roof over the seats on the grandstand to protect those attending the games in case of rain, and with a sufficient increase in the baths and other conveniences to provide for both sexes—which improvements are

greatly needed.

These fields have made possible the holding of many competitions which could not otherwise have taken place, and have also afforded an opportunity for practice and recreation for thousands of school

boys.

Owing to the cutting down of the budget of the Board of Educa-Owing to the cutting down of the budget of the Board of Education, no funds were available this year to pay the expenses of keeping
these fields open on Sunday afternoons during the past year. In consequence the League paid the wages of the necessary employes. It did
not feel that it was right that it should assume what was distinctly
a city function. But it would have been not only a step backward,
but a public misfortune if these fields had been closed, and the League
assumed the burden. In consequence of its action, many boys have

found recreation and pleasure at these places, and have thus been kept away from the saloons and the streets.

The League was unable to do as it did in 1910 and 1911 by arranging to keep some of these fields open during the week in summer from six to eight o'clock in the evening for the accommodation of work-

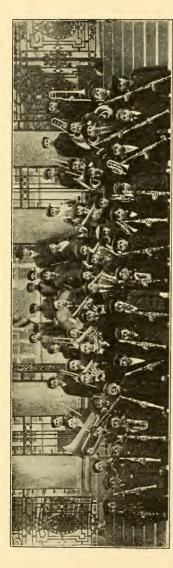

ing boys.

The system adopted in the spring of 1909 of allowing the different schools to have a field day on which the whole school, with the exceptlon of the small children, go in a body to one of the fields and hold their class exercises and school games, has steadily grown in efficiency and popularity. In 1912, this was taken advantage of by 157 schools, an increase of 57 over 1911. It is considered by the principals and teachers to be a valuable innovation, greatly helping the athletics of the school and enhancing school pride. In all it is estimated that over 200,000 children have participated in the athletics of the League during 1912. A larger army than ever was assembled in any battle of our Civil War.

There is nothing more needed in the city than places where the children attending our schools can have an opportunity to practice athletic exercises and to play. It is therefore hoped that the course which has been adopted by the Board of Education in keeping open the playgrounds and school facilities for exercises after school hours will be continued. The expense is trifling and should not be regarded for an instant when compared with the benefits which will result. As a mere business proposition a plant of any such value as that of the schools would, if belonging to a private individual, be used as much as possible. Why should not this be done by the city? If these playgrounds are kept open it will afford a chance for many to become proficient in athletic games which they do not now possess, besides keeping them away from bad influences. That many additional play-grounds are needed for the children is too clear for argument, and it is earnestly hoped that the new Recreation Commission will succeed in effecting a substantial increase in their number.

The unselfish work which has been done by many of the teachers in

the schools, both men and women, in giving their afternoons, day after day, to promote the athletic training of the boys and girls, is appreciated by but few. This has been not only given by the men to the boys of their own schools, but was extended to those belonging to other schools which in consequence of having few or no male teachers were deprived of the necessary instruction. The teachers who do this have not only lost their own time but have been prevented from attending many lectures and other methods of additional study which would have counted upon their promotion records and which they could ill afford to lose. It was, therefore, but just that the Board of Examiners have decided to give these teachers a credit for their work. In fact, it must be recognized that a teacher who spends his afternoons in coaching boys in athletic games attains a practical experience of boy nature and an executive ability which makes him more fit to teach a class than would be the case if he had spent the same time in listening to lectures or studying any pedagogical subject that could be imagined. There was some delay in determining what credit should be divertible to the characteristic for this work but it is credit should be given these teachers for this work, but it is gratifying to know that at a recent examination a credit was given by the examiners to all such teachers, both men and women, of ten points out of a maximum of two hundred, in consequence of which several of the teachers secured promotion which they would not otherwise have received. This was a very serious matter and unless changed would have been very harmful, more in the case of the women teachers than the men. the work they do in athletics outside the schools is not considered by the educational authorities worthy of consideration, they will stop doing it after a few years. When to this is added, in the case of

the boys, the rapidly diminished number of male teachers in the system, the outlook for the future would not have been bright unless a

change in this matter had been made.

The League is also under the greatest obligations to the various commanding officers of the National Guard of New York and Brooklyn, who have cheerfully granted the use of their respective armories for its many games and for those of the different schools, without the use of which it would have been impossible to hold them. To obtain this the League has given bonds to indemnify the military authorities against any injuries to the armories or to their contents. The Board of Aldermen has also given valuable aid to our work by giving school children free transportation to the games at the Curtis Field over the Staten Island ferry.

The League is also under great obligations to Dock Commissioner Calvin Tomkins, who granted the use of the recreation piers for athletic practice by the school children during the spring and until the warm weather in May required that they should be appropriated for the use of the mothers and children who have the primary claim upon

them.

They were used extensively, particularly by the children of the tenement districts who live near them, and to whom the athletic fields of

ment districts who live near them, and to whom the athletic fields of the Board of Education are so distant as to be inaccessible.

The League is also indebted to The American Sports Publishing Company for the donation of 5,000 copies of the "Official Handbook." This enabled copies to be sent to the members of the League and to the many inquirers for information in regard to its work.

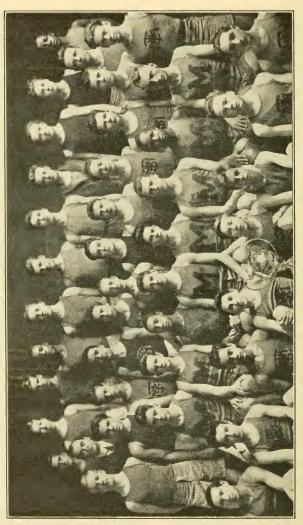

The League has now 169 trophies, many of them expensive and handsome. While a number were permanently won, others have been presented in their places as well as for new events. Among these were the Brooklyn Eagle \$500 elementary schools swimming trophy presented by Arthur McAleenan, and prizes for outdoor rifie shooting by Remington Arms, Union Metallic Cartridge Co., Peters Cartridge Co., and also the Winchester Arms Co.

It is difficult for one not familiar with life in the great congested districts of our city to appreciate what the League has accomplished, not only in giving the boys an opportunity to get some healthful amusement, but to keep them out of vice and crime. It wages a persistent and highly successful war on cigarette smoking (that bane of our youth) and other bad habits, and also keep the boys out of gangs and similar temptations. This it does, not by preaching, but because in becoming interested in athletics they are taught that they cannot excel unless they take care of their bodies, and to do this means the excel unless they take care of their bodies, and to do this means the

keeping away from these things.

With every year the standard of athletic ability in the schools becomes higher. Accompanying this is a marked improvement in carriage of the person, alertness of mind and body, and the general air of strength and health resulting from the athletic exercises which the children have pursued. Gratifying as is this from the physical side, the improvement on the side of ethics, school discipline and esprit de corps is event greater, a fact which has constituted the supervising and teaching force of the schools firm supporters of our work. no circumstances is any pupil permitted to compete in any of the League games unless he is certified by his principal to have "B" in effort, proficiency and deportment during the month previous, nor unless he shall have attended his school for twenty weeks (except when regularly transferred). No school is permitted to offer any inducement to cause a pupil of any other school to sever his connections. tion with such school for athletic purposes.

Every effort which can be made by those interested in the League is systematically made to impress upon the children of the schools that to be a good athlete means to be honorable and truthful. to

despise anything that is mean or underhanded, not to boast as winners, and to "own up" when defeated.

There is no way in which the robust, manly qualities of courage, nerve and hardihood are developed as much as in competitive athletics, and our games are having this result, particularly upon the school boys of foreign birth whose ancestors for hundreds of years before them have been so oppressed as to have been almost slaves in the countries from which they came. The records of the schools show that the manly qualities which these boys are acquiring through our athletic contests are changing their natures, or rather the mental habits forced upon them by their oppression. This cannot but be fully equal in value to the intellectual information they attain in school and cannot fail to be of equal or greater value to them when they become men.

The contributing members of the League are:

Annual members, 362; life members, 84; patrons, 91; founders, 9;

total, 546.

From this and a few other sources the League received during the year 1912 \$16,964.60, as against \$14,470.92 in 1911. It spent \$16,538.22, as against \$12,815.96 in 1911, leaving a balance of \$2,554.11, as against the balance of \$2,457.10 which existed on Decem-

ber 1, 1911.

This number of contributors is small compared with that of our citizens, and particularly of those who received their education in our public schools. In fact, if it were not for the generous contributions of Mr. S. R. Guggenheim, Mr Harry Payne Whitney, Mr. J. P. Morgan, Mr. John D. Rockefeller, Colonel Robert M. Thompson, Mr. Thomas F. Ryan, Andrew Carnegie, and the New York World and Brooklyn Eagle (each of whom contributed \$500 or more), and of others whose names appear in the Treasurer's report, it would have been without the requisite means to properly carry on the work of the League.

In conclusion, I congratulate you all upon the good work that we have accomplished in the brief period of our organization. I think that you will agree with me that in looking upon it on the ethetical side alone and ignoring the vast improvement that it has effected in the strength, health and happiness of our school children, all those who have contributed to the creation of the League, whether as subscribers or officers, have just cause for pride in having achieved some-thing which will result in a lasting good to the community and help

to keep our memory green in the future.

Report of the Secretary of the Public Schools Athletic League

The Public Schools Athletic League has just finished the ninth year

of its work.

of its work.

Beginning with the great School Boy Athletic Meet of December 26, 1903, it has added successfully both indoor and outdoor seasons of base ball, basket ball, soccer foot ball and other sports in which hundreds of teams have taken part. School districts have been organized and have held games, and over 160 schools have their own athletic meets, so that now every boy in the city, and many thousand girls, have a chance to improve through normal athletic training.

In addition, over thirty cities in this and other countries have copied our method and rules entire, even down to the form and wording of our notices and entry blanks.

The terms of office of Directors will expire as follows:

Modern sociologists are prone to state that the progress of civilization has developed human relationships to a complexity beyond the dreams of previous centuries, and to affirm that the human race of to-day has developed with this increasing complexity, they point to the growth of cities, the wonderful improvements in transportation, the stupendous aggregations of capital and business, the organization of food production and the great advances of modern thought, as though all of these indicated that the human race had become essentially different since the dawn of history.

tally different since the dawn of history. The anthropologist, however, tells a different story. Relying upon paleontological data, he affirms that the structure of the head, the shape of the hand, the mechanism of the various bodily organs have not changed materially in the last fifty thousand years. We are confronted with the fact that man has at present practically the same physical structure he had half a thousand centuries ago. The essential difference consists in the fact that he is required to adjust this old-fashioned structure to the tremendous complexities of modern

civilized life which exist undoubtedly in a degree and extent which our scientific sociologists have indicated.

That the primitive human instincts and tendencies to action, which successfully guided the cave man through a troubled existence to a biological survival, are the same which guide the successful man and woman of to-day through the various complexities of civilized life is a fact that has been disregarded, and the emphasis of education and social mechanism has been placed upon the exploitation of new processes and new adjustments with the assumption that they are new,

while they are really expressions of the old.

The same qualities which made a man a successful fighter and hunter in the days of the skin-clad cave dweller are exactly the same as those which make for supremacy in the world of business to-day. The game is the same, and it is played by the same rules, though it is more complex, exacting and exhausting. We are confronted with the necessity of training an old-fashioned mental and physical equipment to undertake a life of struggle which is vastly more severe than it has ever been before, although the mental and physical qualities which we train are exactly the same as those with which man has always been equipped. The fact that mental feats are more financially productive than physical feats at first minimized the immediate importance of physical training until it was realized that no successful mental life can be maintained under any conditions without a vigorous bodily foundation.

The work of the Public Schools Athletic League has been to intro-

duce into the educational practice of the largest city of the Western Hemisphere the ideals of extensive physical education. It has broadly gripped the tremendous problem of the anæmic tendencies of modern gripped the tremendous problem of the aniemic tendencies of modern civilization and has, after nine years of aggressive work, placed the whole of the educational system upon a broad basis of somatic integrity, until now every one of the 700,000 children in the public schools has the opportunity of developing their fundamental somatic qualities by indulging in normal athletic play.

The added mass of requirements of civilization is not the only The added mass of requirements of civilization is not the only handicap which has added to the burden of modern education. In Sparta, three hundred years before the Christian era, it was the custom to examine newly born infants and to expose infants unworthy of the high ideals of physical manhood of the state. To-day the State considers defective and unfit children its chief care. Milk stations with able physicians in charge seek to preserve fragile infant lives, and this is right, for many a child with a feeble equipment has paid for this paternalism by returning great literary and scientife service. for this paternalism by returning great literary and scientific service. The racial stock is, however, placed under a serious disadvantage, for the survival of the unfit increasingly breeds the unfit. Our philanthropic treatment of the mental and physical defectives and the insane has nourished a class which returns to the body politic an increasing number of their kind.

To train those even relatively mentally and physically deficient in addition to the ordinary burdens of education, imposes a task which is assuming tremendous importance. To this problem the Public Schools Athletic League has rendered a great service, for not only those who are biologically strong are enabled to win supremacy in the race, but even the relatively weak are encouraged to undergo and improve through a good course in hygiene and athletic sports in the normal curriculum, which will render them more sane and more wholesome members of the state, without which the tendencies of mental and physical depravity would only become accenuated. Class athletics and the button test, so clearly described in the report of the President of the League, are expressions of this magnificent working

ideal of the League.

It has been assumed that mental and physical training are things which ought to be undertaken separately and as having no definite

inter-corelation. The educational profit of a series of gymnastic exercises, basket ball game or the long and consistent training for athletic events is disregarded. The fact that the only education that the uncivilized child ever had was by mimicing adult occupations, such as hunting, housekeeping and the like, is wholly disregarded. The great mental qualities of alertness, precision, co-ordination and the moral qualities of courage, fairness and courtesy which are definitely and successfully taught in vigorous play and which still form the largest part of our mental life, are not merely exercise of mere physical intelligence in sport, but are the most fundamental and real

elements of education.

The Public Schools Athletic League has regimented its whole procedure not only upon a basis of physical improvement, but upon this mental and ethical education which are inherent in the play forms which it uses. One of its most important results is in the inculcation of a desire to live by the rules of the game. Bad play is penalized by the players themselves, rather than by an official. This is the result of a long campaign to make good and fair playing invariable by the invariable punishment of all infractions of the rules, and it is dependent upon the keenest and most unswerving management of athletic games and events. The League has developed from among the teachers of the schools a corps of highly qualified officials who are able to enforce the playing rules without exception and without favor. The spectacle of the final championship basket ball game played in an armory with ten thousand boys as spectators, practically all of whom have been trained in basket ball and know the "ins and outs" of the game, provides an opportunity to demonstrate that "foul" playing is either good or bad. If the referee permits a fault to go unpunished, ten thousand minds come to the conclusion that foul play is sometimes good. If, however, every infraction of good play is penalized, the lesson is equally definite and striking. No book of moral training could possibly present him an equally effective demonstration of good ethics.

The normal instincts of athletic play, which have been fostered by the League, form for the boy his paramount interest, and they may be used to bring him to engage in a course of athletic training which will be of great general profit. Realizing this, we have developed a new course of physical training for the grammar school boys which is nothing more nor less than a course in athletic training undertaken in the gymnasium but functioning upon the athletic playground and athletic field. By this means we insure the boy's interest and establish a motive for work. In addition, we have confidence that the exercises selected are normal to the child, for they have been taken directly from among the procedures in which the child will engage in untainted environment. Thus the Public Schools Athletic League has, in addition to providing an opportunity for after-school athletics, shown the way to develop a form of rational physical

training.

For girls a similar advance has been made, for there is under construction a new course of physical training which will provide exercises similarly interesting, similarly pregnant in motive and functioning in actual living. The games and dances utilized in the Girls' Branch of the Public Schools Athletic League have become the experimental foundation for a new course of physical training for girls.

In developing this work upon its solid ideals to its present high state of efficiency, the League has been indebted to the constant support and wise counsel of Superintendent Maxwell, to the devoted and able efforts of its President, General George W. Wingate, and to the self-sacrificing service of the principals and teachers of the public schools who have given countless hours of their after-school time to the training of the children of the school.

Report of the Chairman of the Games Committee

We are now in the tenth year of the organization of the Public Schools Athletic League and when I look back over the work that has been accomplished for the boys of our city I feel that what has been done for them has not been in vain. All one has to do who has been closely associated with this work is to look around and he will see many of the successful young men in the business world who as boys represented their school in school boy athletics and who owe their success to a great extent to the teachings of fair play, honesty and loyalty which was drilled into them by their teachers who acted as athletic caches. It fills me with pleasure when I meet these as athletic coaches. It fills me with pleasure when I meet these young men who have grown into manhood and have become strong, robust and a credit to any municipality they may represent.

During the last Olympic championships which were held in Sweden

we had on our team six young men who graduated from the ranks of the Public Schools Athletic League, whose showing against the picked athletes of the world was a credit to their country. Many of the

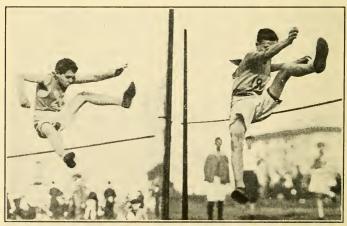

athletes of the world was a credit to their country. Many of the foreign countries now realize that the success of the victorious American team lies in the fact that great attention is paid to physical training and school boy athletics as part of the school course. The New York Sunday World Field Day Games which were held during the spring of 1912 proved to be a bigger success than ever before. One hundred and fifty-seven schools took advantage of the kind offer of Mr. Ralph Pulitzer, owner, and Mr. James E. Norton, field day editor of the New York World, to furnish free to the schools, medels programmes and competitors, numbers. It would also have been medals, programmes and competitors' numbers. It would have been impossible for most of the schools who held these field days to finance an athletic meet for their boys owing to lack of funds, and when I state that not only I, but the directors of the Public Schools Athletic League as well, are thankful to Mr. Pulitzer and Mr. Norton would be to put it mildly, for no other athletic work has done so much good to give health and strength to the great mass of boys who are attending the public schools and who compete for the Sunday World prizes.

The Elementary Schools Indoor Championships, which were held at Madison Square Garden on Saturday afternoon, December 28, were an inspiring sight. What impressed me most was the magnificent order and discipline maintained from the time the programme started until it was finished. The parade of the 1,200 boys was a sight never to be forgotten. The marching, formations, saluting the flag, and the singing of the "Star Spangled Banner" were not only an impressive but a wonderful exhibition. This in itself was a most wonderful performance, but what followed surprised even the most ardent devotee of our work in the way the boys performed in the running and field events. For one hour and one-half during the afternoon there were going on at one time nine events, and at no time was there any confusion or disorder, and the spectators could at all times know the progress of each event.

The Public Schools Athletic League is to be congratulated upon the past year's work. In every branch of sport a larger number of entries has been received and competition has been keener than ever before. The attendance at these contests has outnumbered by far those of previous years. Most of the games have been held on some

one of the five large athletic fields, and they have again proven to be a success. Looking over the reports of the year, I find that the attendance of boys making use of these fields is enormous. This in itself is an argument that the Board of Education should try and establish more of these fields and have them, if possible, located in the crowded sections of each borough.

The following is a report of the athletic events of the year which were participated in by our school boys.

Respectfully submitted.

JAMES E. SULLIVAN.

ATHLETIC FIELDS.

SEVENTH WARD ATHLETIC FIELD, MANHATTAN.

There is a very fine twelve-lap to the mile cinder track and a large infield which can be used for many kinds of athletic activities. The field is equipped with the most approved athletic material. A small, two-story house, situated in one corner, is used for dressing quarters and the storing of materials.

The field is located in one of the most crowded sections of the lower East Side. Thousands of children make use of this field during

the summer months.

CROTONA FIELD.

The Crotona Field is located at Prospect Avenue and Crotona Park, North, Bronx Borough. The field is equipped with a five-lap running track, jumping pits, basket ball court, base ball, foot ball and soccer foot ball field. A grand stand has been built on the north side of the field. Its seating capacity is about 1,500. There are a number of shower baths and lockers installed and two large dressing rooms take up most of the room underneath the stand.

An average of 700 boys per day have attended the field during April, May and June of this year. The schools of upper Manhattan and Bronx have held their Field Days on the field and have found it an excellent place for conducting games in an organized manner.

an excellent place for conducting games in an organized manner.

BROOKLYN ATHLETIC FIELD.

Situated at Avenue K and East 17th Street, Brooklyn, the most popular of any of the Public Schools Athletic League Fields is the Brooklyn Athletic Field, being on a direct car line from the most thickly populated sections of Brooklyn. On this field will be found a one-quarter mile cinder track, with a 220-yards straightaway course, a base ball diamond, soccer and Rugby foot ball field and four tennis courts, in the finest condition possible. It has been estimated that 600 children during the past four years have daily made use of this field with their school games and tournaments. The Board of Education has erected a grand stand capable of seating 2,500 people. Inside of the grand stand are dressing quarters, shower baths and lavatories. This is the best school-boy athletic field in the country.

ASTORIA ATHLETIC FIELD.

One of the most beautifully located of the athletic fields controlled by the Board of Education is Astoria Athletic Field, at Astoria, Long Island City. It is situated on the banks of the East River overlooking the rushing waters of Hell Gate. There is a six-lap cinder track and an exceptionally fine infield, used for base ball (playground and the regular game), foot ball, soccer and basket ball. The grand stand is situated on the southern end of the grounds, giving an unobstructed view of the entire track and field. The grand stand will easily access view of the entire track and field. The grand stand will easily accommodate two thousand spectators. Inside of the grand stand are the

dressing rooms, lockers—with a checking system—lavatories for boys and girls, shower baths, hot and cold water. Everything that is necessary for a first-class, up-to-date athletic field has been installed. It is estimated that about six hundred children make use of the field each day. Many of the schools of the upper East Side of Manhattan and all of Queensboro hold their field day games at this field.

CURTIS ATHLETIC FIELD.

CURTIS ATHLETIC FIELD.

The Curtis Athletic Field, under the supervision of the Board of Education, is situated at New Brighton, Staten Island, adjacent to the Curtis High School, overlooking New York Bay. It is an ideal spot for an athletic field and is fully equipped with all the necessary accessories required for an institution of this kind. It has a five-lap cinder track in the best condition that human labor can produce, a grand stand capable of seating comfortably twenty-five hundred people, dressing quarters, lockers, shower baths, lavatories for both boys and girls, three tennis courts on the north side of the grounds, kept in good condition and always available. There are also the regulation base ball diamond, foot ball and soccer fields. It is estimated that eight hundred boys make use of the track and field daily from April 1st to October 15th. During the spring of 1913 there were at least two sets of school games held daily on this field, and in addition to these games many base ball games have been contested for both the high school and elementary schools championships; while on the tennis courts the Public Schools Athletic League tennis championship tournaments have been played.

Through the courtesy of the Dock Commissioner many schools in the Boroughs of Manhattan and Brooklyn have been granted free transportation on the Municipal Ferry plying between Manhattan and Staten Island. This has been a great help to many of the schools on the lower East Side of Manhattan.

Many of the schools have taken advantage of the rule allowing one day a very to hold a field day. It was not an uncommon circh to

Many off the schools have taken advantage of the rule allowing one day a year to hold a field day. It was not an uncommon sight to see a principal take his entire school, including boys and girls, to the Curtis Athletic Field for a day's outing. The result of these outings to such a beautiful and healthful place as the Curtis Athletic Field, has worked wonders with the children, and if it were not for the kindness of the Dock Commissioner, it would have been almost impossible for the children to avail themselves of a school holiday under the supervision of the principals and teachers of the school at this field. field.

AFTER-SCHOOL ATHLETIC CENTERS.

A number of schools and sites in the Boroughs of Manhattan, Bronx, Brooklyn and Queens under the jurisdiction of the Board of Education have been opened during the past year as after-school athletic centers. Teachers have been assigned to supervise and instruct the boys in all branches of track and field athletics.

The number of boys attending the various athletic centers during the past year was 261,745.

Eleven after-school athletic centers were opened in Manhatan:

10,000 Boy Demonstration of Physical Training and Applied Athletics

BY C. WARD CRAMPTON, M.D., Secretary Public Schools Athletic League.

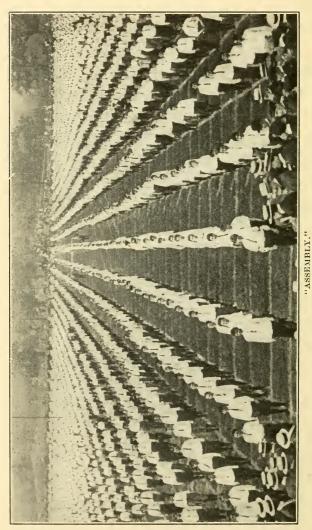

At the suggestion of General Wingate, the Elementary Schools Games Committee, composed of representative teachers from the whole city, considered the advisability of holding a great demonstration of the physical training work of the schools and the after-school athletics. It was decided to do this, and, accordingly, I drew up a plan and submitted it to the principals of the schools, asking if they desired to send one or more groups of forty-five boys to take part. I received applications for 13,500 boys. The programme was as follows:

- 1. Two-minute Drill. This was done by all.
- 2. Shuttle Relay Race. One hundred teams of forty-five boys ran a shuttle relay of one hundred yards.
- 3. Standard Broad Jump Relay. One hundred teams of forty-five boys jumped in turn, so that the position of the last boy indicated the total jump of the team.
- 4. Special Event. Interborough All Around Combination Relay. A team of twenty-five boys was selected from various schools in each of the five boroughs. Each boy ran in turn one hundred yards, jumped a hurdle and "chinned" himself on a bar five times. This event was won by the Manhattan team.
- 5. Games. Nine pairs of teams demonstrated at once upon the field, base ball, basket ball and soccer foot ball.
- 6. Hygienic and Mimetic Exercises—10,000 Boys. These exercises were selected from the new course of study. They were taught to the special teachers and to the teachers in charge of the various teams, 200 in all. They were then taught to the boys throughout the city.

Trial demonstrations were held and the pupils trained under the direction of Dr. A. K. Aldinger and Emanuel Haug, who was specially assigned to this office for this purpose. These demonstrations were held in Seward Park, Tompkins Square Park, St. Mary's Park, Central Park, and other parks. From 500 to 1,500 boys attended each, and these in themsleves presented magnificent demonstrations of physical training work.

The preparation for this demonstration included the publication of a twelve-page pamphlet of instruction to the schools, the planning of transportation, including for each school a detailed description of each step in the approach and departure from the field, and the issuance of car fares provided by S. R. Guggenheim, Treasurer of the Public Schools Athletic League.

To bring to the attention of the boys the purpose of the demonstration, which was training for health rather than for competition,

each boy was given a set of training rules. In addition, each boy was given instructions how to make a sanitary drinking cup out of a square of paper, and every boy brought two or more of these cups to

the park.

The demonstration itself, which was held on Central Park Playing Green, Friday, June 6, 1913, started on schedule time, 2 l'. M., every boy and teacher waiting on the side lines ready for the signal. They came upon the field at the blast of the bugle as if a flood had been let loose. Coming to perfect attention they went through the two-minute drill in perfect rhythm without a single noticeable error. After the games they returned to the field, and upon the signals from the flag in the hands of Dr. Aldinger, executed their exercises in perfect order. They presented a marvelously inspiring and never-to-beforgotten vision of New York City children. At the close of the exercises they assembled in close order, sang the "Star Spangled Banner," and were dismissed in perfect order in side lines to take their way back to the schools. The total time consumed was less than one and three-quarter hours. There were no mishaps.

The teachers and the two hundred and fifteen other officials in charge followed out their directions implicitly, and the whole city was given a demonstration of the fact that New York City boys could be taken from the schools through the ordinary currents of traffic and assembled in perfect order. The profit that has resulted from this demonstration is three-fold: (1) Ten thousand boys have learned exercises from the new course of study, definitely realizing that hygiene, physical training and athletic training are one; (2) They have had vigorous training for over two months; (3) The city has seen the largest and most impressive physical training spectacle that has ever

been presented.

COMMITTEES.

The various Committees connected with the Demonstration's success were as follows:

Committee on Demonstration—Vincent Astor, Luther Halsey Gulick, Edward W. Stitt, Gen. George W. Wingate, President P.S.A.L.; S. R. Guggenheim, Treasurer P.S.A.L.; Gustavus T. Kirby, Chairman, President Amateur Athletic Union; C. Ward Crampton, M.D., Secretary P.S.A.L.

Sub-Committee on Demonstration—Robert B. Brodie, Chairman; J. K. Bolen, Max Gottlieb, Ernest Kirschner, Mark Markett, Charles K. O'Hagan, Alfred Rado.

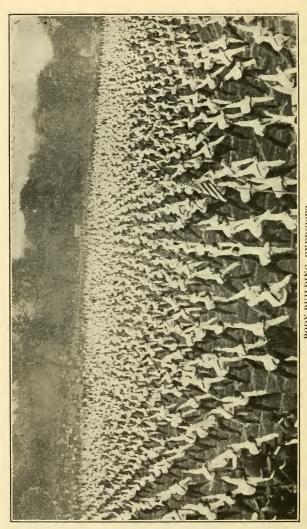

Reception Committee, Board of Education—Thomas W. Churchill, President of the Board of Education, Chairman; Francis P. Cunnion, George J. Gillespie, John Green, Arthur S. Somers, Morton Stein, Abraham Stern, James E. Sullivan, Rupert B. Thomas, Ira S. Wile, M.D., Frank D. Wilsey.

TO THE 10,000 CONTESTANTS IN THE JUNE 6TH, 1913, DEMONSTRATION.

DEAR FRIENDS:

May 20, 1913.

All athletes know very well that we can't be good runners nor can we be strong and well for the rest of our lives unless we take good

care of ourselves every day.

Athletics are put into schools for the purpose of getting boys to go into training for competition and for efficient living. The trainers of the best athletes agree with the most eminent scientists that following the rules given below will do a great deal for you. They are given to you, subject to your parents' approval, so that you may get into the habit of following them now and for the rest of your lives, for they are just as good for men as they are for boys.

TRAINING RULES.

Go to bed at 9 o'clock, after a thorough wash and a cold splash over chest and trunk; teeth and gums well scrubbed. Clothes and books ready for to-morrow.

Bedroom windows open top and bottom.

Rise not a minute later than 7 o'clock. Go through two-minute drill and hygienic exercises for demonstration. Clean face and neck and scrub hands. Finish up with a big cold splash and hard rub all over. See that feet and legs are clean, and rub them hard to get them into condition. Brush teeth and gums thoroughly.

Breakfast and all meals: No coffee. No tea. Drink milk, a little at a time. Chew all food to a pulp. Ask

your teacher what foods to avoid.

No smoking! Cut out all habits you know are bad.

Exercise in the fresh air, equivalent to a slow mile run a day. Walk ten miles a week. If you lose weight you lose vitality; stop work.

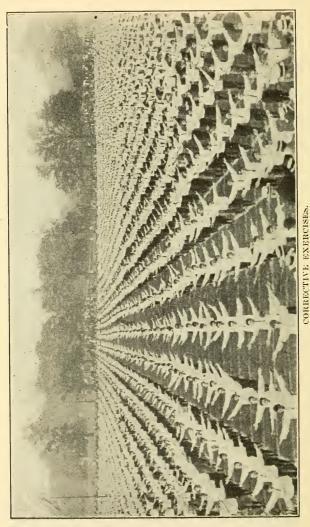

Before school look yourself over. "Am I clean from head to toe? Are all my clothes clean and in order down to the skin? Do I stand up like an athlete?"

Very truly yours,

GEO. W. WINGATE, President.

C. WARD CRAMPTON, M.D., Secretary P. S. A. L.

Elementary School Activities

SUNDAY WORLD WALKING CLUB.

With the close of the school year the Sunday World Walking Club completed its fourth year. The club was introduced in the schools in the spring of 1910 under the auspices of the Public Schools Athletic League, on plans proposed by General George W. Wingate, President of the League. Since its inauguration 21,000 boys and nearly 6,000 girls have been enrolled in squads of the Walking Club. More than eight thousand Sunday World medals and bar pendants have been awarded to members who have walked required distances under the rules of the club.

the rules of the club.

The Sunday World prizes are available for all elementary schools in the city that organize squads of the Walking Club. Eight or more boys constitute a squad, including a captain, and twelve or more members are required in a girls' squad. The walking tours of the girls must be taken in company with a teacher, but the boys may walk with an adult supervisor approved by the principal, or an honor boy from the upper grades of the school may be appointed by the principal to act as supervisor to accompany the squad on its tours.

In the school year 1912-13 forty-two schools had organizations of the Walking Club. In twenty-four schools there was a "director" of

the Walking Club. In twenty-four schools there was a "director" of the squads organized in the school, having a general supervision over all the activities of the club in the school.

In the forty-two schools having Walking Club organizations this year there were enrolled over 8,000 children. These were organized into 860 squads.

The largest enrollment of members of the club was at School No. 43, Brooklyn. Principal O'Donnell has been much in favor of the objects of the Walking Club since its organization, and for four years the school has had a large and enthusiastic club membership. This year it reached top notch by organizing 143 squads, with a total membership of 1,210 boys. At the close of the year the school had an active membership in the club of 114 squads, having an enrollment of 1,000 heavys. Some of the other schools having layers on supplied the other schools having layers on supplied to the other schools. boys. Some of the other schools having large enrollments of young pedestrians during the year are the following:

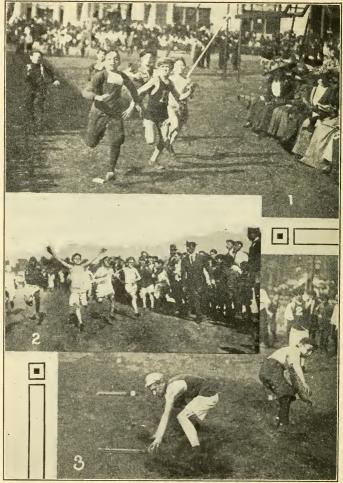

School No. 6. Manhattan, 27 squads, 270 members. School No. 65, Manhattan, 15 squads, 138 members. School No. 156, Brooklyn, 26 squads, 225 members. School No. 12, Bronx, 15 squads, 180 members. School No. 109, Manhattan, 21 squads, 212 members. School No. 74, Manhattan, 8 squads, 66 members. School No. 34, Bronx, 9 squads, 84 members. School No. 37, Bronx, 15 squads, 120 members.

RULES AND INSTRUCTIONS.

FOR BOYS' SQUADS.

The Sunday World Walking Club movement was inaugurated in September, 1910, under the auspices of the Public Schools Athletic League of New York on plans proposed by General George W. Wingate, President of the League.

1—Trial heat in 50 yards dash, 2—Finish of 50 yards dash, 3—Trial heat of potato race, Photos Courtesy N. Y. Sunday World.

Any elementary public school in the City of New York may organize branches of the Sunday World Walking Club. These branch organizations—the units that make up the complete city-wide organization are designated as Squads of the Sunday World Walking Club.

ORGANIZATION OF BOYS' SQUADS.

Eight members constitute a squad, including the captain. Squads may be organized at any time in the Walking Club year.

There is no limit placed on the number of squads that may be organized in a school.

A squad organizes by electing one of its members captain and filing its entry list with the Sunday World and the P. S. A. L. on blanks furnished by the Sunday World.

If a vacancy occurs in a squad it can be filled by the squad electing a new member, whose name must be sent promptly to the Sunday

Members acting improperly will be disqualified from membership in the Walking Club, either for a stated period or permanently, by the Supervisor who has knowledge of their conduct.

Entry blanks will be furnished at any time by the Sunday World to all principals and teachers who apply for them to organize squads of

the Walking Club.

Tours and Records.

As soon as the entry list is filed with the Sunday World and the P. S. A. L. and approved, the squad is qualified to begin its competition for the prizes given by the Sunday World.

Ribbon badges of a special color for each squad are furnished by the Sunday World to each member of the squad as soon as it qualifies, to be worn on the walking tours. Tour report blanks are sent to the

Supervisor.

No walk will be recorded except in squad and certified by the captain of the squad on the tour report blanks as to distance and time consumed, and this must be countersigned by the teacher or other adult person accompanying the squad. A majority of the squad must be present on every walk.

No walk will be recorded for a distance of less than two miles. The average speed in all walking contests must not be less than two

miles an hour

It is left with the squad to choose its own tours, with the assistance

and approval of the teacher or squad Supervisor.

The Sunday World will publish in its columns from time to time itineraries of pleasant and educational tours for the Walking Clubs in and about the city, and will furnish to captains of the squads bulletins suggesting good walks.

THE SQUAD CAPTAIN.

He shall be elected by a majority vote of the squad.

His election is subject to the approval of the principal of his school. His election takes effect on notice from the Sunday World that the squad has qualified for membership in the Walking Club.

His term of office shall expire on July 1.

Each squad captain is responsible for the proper behavior of his squad.

The squad captain can be removed from office by the principal on complaint of a Supervisor for misconduct or incompetence. In this case the principal may appoint his successor to serve until the following July 1st.

The example set by the captain as to conduct and interest in the work of his squad is an important factor in the success of the Walking

Club and the benefits to be derived from it by all its members.

RELAY "TOUCH-OFF," AT ONE OF THE SUNDAY WORLD FIELD DAYS, HELD AT SEWARD PARK, HESTER AND ESSEX STS., MANHATTAN.

A captain who cannot preserve a friendly comradeship and prevent bickering in his squad is not fit for its leadership.

He must exercise his authority as a good friend and comrade of all

the members of his squad.

He must always be ready to consult with his teacher as to the best means to perform his work.

It is his duty to call the squad together for tours and for elections

to fill vacancies.

For every tour he shall serve a written notice on each member of

the squad in substance as follows:

The (name of squad) will walk to on (date), leaving (name of exact place where the squad will assemble to begin its tour) at o'clock. You are directed to be present at the starting point not later than o'clock.

This notice should be in the hands of members of the squad not later than eighteen hours before the hour of starting on the tour.

In case a squad captain is unable to accompany his squad on a tour he may delegate his work to another member, with the approval of his teacher or the Supervisor.

THE QUARTERLY PRIZES.

Bronze and silver medals and bar pendants will be the prizes awarded for each quarter of the Walking Club year. (See special prize

bulletin.)

The regular Walking Club bronze and silver medals are of the pendant chain variety, constructed so as to be linked together, the medal and four bar pendants making the complete chain. The pendants are lettered to show the mileage for which the prize is awarded. special Walking Club medal is a handsome bronze pin.
Captains of squads will be notified in advance of each quarter period

as to the number of miles to be walked in that period to win a prize. Members who walk more than half of the distance required to win a prize in any one quarter shall have 20 per cent. of the distance thus

walked counted on their next quarter's score.

When prizes additional to the above are offered announcement will be made in the bulletins and in the Sunday World.

SUPERVISION OF SQUADS.

The success of the Walking Club movement depends largely on the interest the teacher takes in it. He can use it as a very effective means of increasing interest in the school and class, as well as in affording the pupils under his charge an opportunity for physical improvement and an extended knowledge of the vastly interesting city and its beautiful surroundings.

Whenever it is possible for a teacher to accompany a squad from his own class on its tours he has an opportunity to increase the friendly

relationship between himself and his pupils.

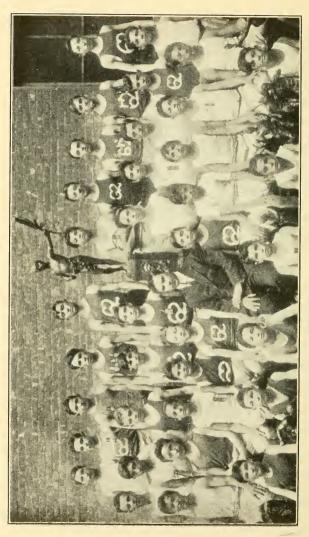

A teacher or other adult person approved by the school principal must accompany the squad on each walking tour as Supervisor.

Two or more squads, however, may agree to go on the same tour at the same time. In this case it is only required that one Supervisor shall accompany the entire party. In these joint excursions the squads must remain together during the entire tour.

The Supervisor is required to sign the captain's tour report before it becomes effective. No tour will be recorded except those correctly

reported and countersigned by a Supervisor.

The rules and information contained in this circular refer particularly to the boys' squads of the Sunday World Walking Club. The rules applying to the girls' squads are contained in a separate bulletin which will be furnished on application to the Manager of Walking Clubs, Sunday World, Pulitzer Building, New York City.

NEW YORK SUNDAY WORLD FINAL MEET.

Held at Curtis Athletic Field, New Brighton, Staten Island. on Saturday Afternoon, October 12, 1912.

On Saturday afternoon, October 12, 1912 (Columbus Day), the Pub-World Final Track and Field Championship Games at the Curtis Athletic Field, New Brighton, Staten Island. These games were the finals of 157 individual school meets held during the spring of 1912, in which fully 300,000 young athletes participated. An entry of over 1,400 boys was received for the sixteen events, which were divided into four weight classes. Only those schools which held a Sunday World Field Day athletic meet in the spring were eligible to enter boys in the final games. The performances of the embryo athletes in the various events were remarkable and were freely commented upon by many of the invited guests.

Through the courtesy of Commander Walter N. Sears of the Department of Docks and Ferries, who extended the privilege of free transportation to and from Staten Island, many children were enabled to attend the championships who might not otherwise have been able to

witness the games.

The contest for the City Championship was keen throughout and it was impossible to determine the winner until the last event was fin-ished. The scoring of points was on a basis of 5 for firsts, 3 for sec-onds, 2 for thirds and 1 for fourths. P. S. 42, Bronx, won the City Championship with a score of 22 points, closely followed by P. S. 62, Manhattan, with 18 points, P. S. 5, Manhattan, with 15 points, and P. S. 64 and P. S. 19, Manhattan, tled for fourth place with a score of 13 points aplece.

The music furnished during the games was by the school boy band from P. S. 21, Manhattan, under the leadership of Mr. John Doty, principal of the school.

ELEMENTARY SCHOOL SOCCER FOOTBALL.

For the sixth consecutive year the Public Schools Athletic League has conducted a Soccer Football Tournament for the Elementary Schools, Five schools entered teams: Public Schools 62 and 83, Manhattan, 9, 26 and 128, Brooklyn. The lack of knowledge of the game among the teachers in charge of athletics and the lack of playing space has had a tendency to keep down the number of entries.

The tournament resulted in a tie betwee Public School 83 and 62, Manhattan. These teams met each other in the last week of the tournament and neither of them had been previously defeated. The game ended in a tie score. A second game was scheduled to decide the championship and this resulted in a victory for Public School 62, Manhattan. The game was played at the Crotona Athletic Field and was witnessed by at least 6,000 spectators.

The final standing of the teams is as follows:

	Won	Lost	Tied 4	Points	
Public School 62, Manhattan	. 4	0	1	9	
Public School 83, Manhattan	. 3	1	1	7	
Public School 9, Brooklyn		2	0	2	
Public School 128, Brooklyn		2	0	2	
Public School 26, Brooklyn	. 0	4	0	0	

*Two points for each victory; one point for both teams in a tie game.

ELEMENTARY SCHOOLS INDOOR BASE BALL.

For the first time the Public Schools Athletic League has recognized and fostered Interclass Indoor Base Ball. It was decided to assist schools in conducting indoor base ball tournaments among their classes. A silk banner was offered to any school which notified the league of its plan to conduct such a tournament. This banner was awarded to the class which won the school championship. Twenty schools accepted banners and a similar number of tournaments were conducted during the months of February and March.

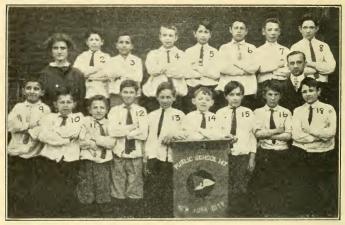

The schools reported that their tournaments aroused considerable

The schools reported that their tournaments aroused considerable enthusiasm and interest among the pupils and teachers. From the number of boys participating, it is obvious that the league in this activity has made a great step forward toward the advancement of

extensive athletics.

ELEMENTARY SCHOOLS INDOOR CHAMPIONSHIP.

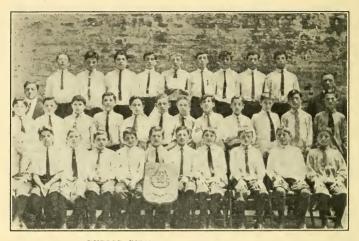

Held at Madison Square Garden, Saturday Afternoon, December 28, 1912

The Public Schools Athletic League conducted the Tenth Annual Elementary Schools Indoor Track and Field Championships at Madison Square Garden on Saturday afternoon, December 28, 1912. list of 1,188 boys was received for the sixteen events, divided into four weight classes. The afternoon's programme started with a parade of the 1,188 boys, led by the Public School 21, Manhattan, band. The boys made one complete circuit of the track and then formed into eight columns, eight abreast, facing the reviewing officer, General George W. Wingate, President of the Public Schools Athletic League. They stood at attention for several minutes. Then all the boys assembled on the floor simultaneously raised their right hands in a salute, recited "Allegiance to the Flag," and dropped their hands to their sides. The school boy band then struck up the "Star Spangled Banner" and not only the athletes on the floor sang, but the entire audience of 8,000 joined in singing. It was a very inspiring ceremony and one not soon to be forgotten by those who were fortunate to be present. The boys then marched off the floor to places assigned to each group and the athletic part of the program was started by Mr. Gustavus T. Kirby, president of the Amateur Athletic Union, who fired the shot to start the first heat of the 50 yards dash, 85-lbs. class, this being the first event on the program.

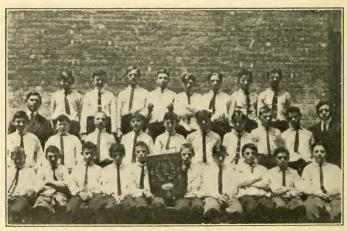

Invitations' for these games were sent to all the prominent city officials, military men, members of the Board of Education, and prominent citizens of the city, as well as to the delegates who were then attending the convention of the Collegiate Athletic Association which was being held in New York City. Many of these attended the games and were greatly impressed with the order, discipline and the athletic ability of these youngsters. During the entire progress of the games nine events were going on at once, and at no time during the afternoon was there any confusion or disorder, and at all times the spectators were kept in touch with the progress of each event. While the sprint and relay events were being run off eight field events were being held on the inside of the track and all events were marked by an oil-cloth

sign to let the spectators know what each event was.

The performances of the boys surpassed that of former years. Five of the old records were equalled and two were bettered, showing the great physical improvement which is going on in all the elementary schools.

EVENING ELEMENTARY SCHOOLS CHAMPIONSHIPS

Held at the 71st Regiment Armory on Friday Evening, April 11, 1913.

The Public Schools Athletic League conducted for the first time the The Public Schools Athletic League conducted for the first time the track and field championships for evening elementary schools. Over two hundred entries were received, which made a very interesting and pleasant evening's entertainment. The performances of the boys from the evening elementary schools was very creditable when one takes into consideration that at least 90 per cent of these boys and men are from foreign lands and have never before competed or even taken an active interest in athletic sports. In several instances, especially in the relay races one could see men who have neved the court when the relay races, one could see men who have passed the age when Americans stop competing in track and field sports. It was the spirit in which these men took part in the games that made them the success

that they proved to be.

Public School 42, Bronx (evening elementary), won the championship with a score of 17 points. Public School 49, Manhattan, was second with 14 points and the third place was a tie vetween Public School 156, Brooklyn, and Public School 83, Manhattan, with a score

ELEMENTARY SCHOOLS NOVICE GAMES.

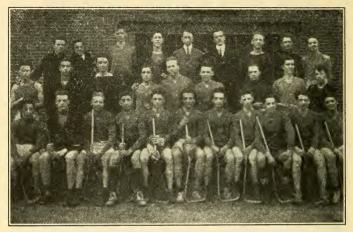

Held at Brooklyn Athletic Field, Saturday Morning, June 14, 1913.

On Saturday morning, June 14th, the Public Schools Athletic League conducted its annual elementary schools outdoor novice games at the Brooklyn Athletic Field, Avenue K and East 17th Street. Brooklyn. The games proved to be very successful. A large entry was received for all events and the competition was keen and exciting throughout the meet. Many of the performances of the boys were truly remarkable, especially in the 50 yards dash for 85-lb, boys when the winner covered the distance in the remarkable time of 62-5 seconds breaking the old record made in a championship meet by 1-5 of a second. In the 100 yards dash for boys of unlimited weight the old record was equalled. BROOKLYN DAILY EAGLE HONOR DAY.

Held at the Brooklyn Base Ball Grounds, Friday Afternoon, June 27, 1913.

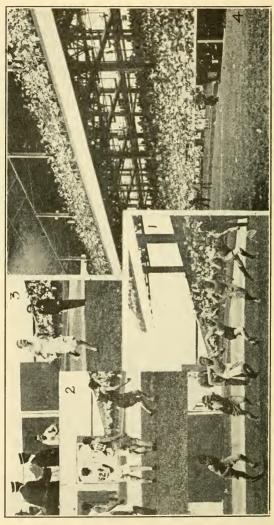

The Brooklyn Daily Eagle conducted the Annual Honor Day celebration under the auspices of the Public Schools Athletic League at the Brooklyn Base Ball Grounds on Friday afternoon, June 27, 1913, open only to the elementary schools of the Borough of Brooklyn and Queens. It consisted of an 880 yards relay race, unlimited weight class, in which twenty-four schools entered teams, and finished in the following order:

Public School 9, Brooklyn, first: Public School 20, Queens, second, and Public School 3, Brooklyn, third.

There was also a baseball game played between teams from Public School 152, Brooklyn, and Public School 58, Queens. Both of these teams won their borough championship at base ball. This game aloned for the chemical public School 152, Brooklyn, and Public School 152, Brooklyn, and Public School 154, Queens, Both of these schools are public schools and was the public school 152. played for the championship of Long Island and was won by Public School 152, Brooklyn.

Thirty thousand tickets were distributed among the schools and fully twenty-four thousand children and grown people attended the games. Two bands of music placed on opposite sides of the grand stand

furnished the music during the entire afternoon.

ELEMENTARY SCHOOL BASE BALL.

The Ninth Annual Elementary Schools Base Ball Tournament opened April 14, 1913, with an entry of sixty-four teams. Approximately 750 boys started training under their teachers in charge for the games to

boys started training under their teachers in charge for the games to be played in the coming series.

The district tournaments were finished by May 16th and the borough chairmen called meetings of the teachers in charge of the champtonship teams. These tournaments took up much time and there was little time left for the interborough series of games. It was necessary to draw up an elimination series for the interborough matches and through a tie game between the first two teams that played the schedule was delayed still more. The committee rearranged the schedule and the final games were played during the last week of school. Because of a prearranged game for the Long Island Championship between Queens and Brooklyn it was necessary to postpone the last final game from Friday to Saturday morning, the day after schools closed. This final game resulted in a victory for Public School 83, Manhattan. Manhattan.

At the final interborough games large and enthusiastic crowds of boys and girls cheered on their favorite team. The good order and excellent sportsmanship displayed by spectators and players was very

commendable. The summary of the tournament follows:

There are no age, weight or height classifications and boys were given a Class A (formerly Junior) or a Class B (formerly Senior)

badge, according to qualifications.

In 1904, when the competitions for this button were begun, but 1,162 buttons were won. This has steadily increased, so that the number who qualified during 1911 was 8,299. In Public School 62,

Manhattan, 1,141 boys competed, 500 of whom won badges.

The Girls' Branch has also adopted a plan for "all round athletics," and awards a pin to each girl who completes the required record

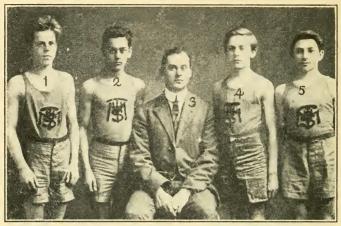

during the school year.

The following is a summary of the schools that held the Athletic

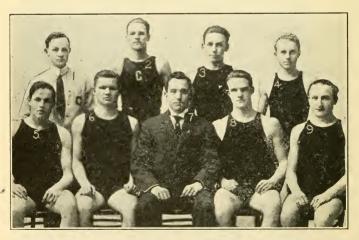

Badge test during the year and the number of badges won:

CLASS ATHLETICS.

Note-For rules on Class Athletics see Rules II., III., V.

The system of competition between classes, in which 80 per cent. of each class must participate, and the average of all constitutes the record which has been organized by the League, has become very successful, and the interest which is taken in these contests has brought into them such a large number of boys that it can now be justly considered one of the boys' "world's greatest competitions."

In the "class jumping" alone 31,866 boys belonging to 1,138 classes and 115 schools took an active part. There were 27,781 boys who competed in "chinning" and about 12,734 in "class running."

On account of the great magnitude of these contests they are divided into three separate series. The broad jumping contest is held in the fall, the chinning during March and the running during May.

In the jumping contest each boy is allowed three jumps; the highest jump made by each are aggregated and averaged. The highest aggregate results obtained by the classes in the Fifth, Sixth, Seventh and Eighth years in each school are then forwarded to the Secretary of the League. Unless 80 per cent, of the register of cach class has competed its scores are not considered. After the scores are received the highest classes in each borough are selected and then tested by the officials of the League. Unless on this test they obtain an equal constituted the record forwarded. such record is not allowed and another class is substituted.

In the "chinning" contest the same procedure is gone through with. In "class running" the boys are lined up back of the starter. As the first runner crosses the finish line the judge standing there signals with his handkerchief, the second then starts and the others successively until all have completed the distance. The time taken by the entire class is divided by the number of boys running and the

result constitutes the class record.

SUNDAY WORLD FIELD DAYS.

Early in the year the Sunday World renewed its offer to the League to assist 150 of the elementary schools of the city in each having a field day of athletic games during the spring term of school, as preliminaries to the Sunday World Grand Final Meet in October. Though the offer was at first limited to 150 schools, the demand proved so much greater that 172 schools were finally admitted to the privilege of entering for the field days. Of these 169 schools held meets, between April 15 and June 27. As a few of the larger schools, having entry lists that in some cases went beyond 1,000 contestants, held more than one meet the actual number of meets held for the Sunday World prizes during the year was 176.

In every way that has gone to make up the growing success of this great series of annual field days for grammar grade boys, the year's field days have been wonderfully successful. In the 176 separate meets sixty thousand boys were entered and contested in the track and field events, a number far surpassing that of any previous year. But even this does not tell the full story of the actual number of children that participated in the field days during the year. At many of the meets there were, in addition to the events

on the Sunday World's standard programme, mass drills and other added events that included large numbers of other pupils in the activities of the field day. Many of the schools took advantage of the Board of Education rule permitting a school to take one day a year for athletic sports and made of their field day an all-day outing to some distant athletic field nearby, the entire school going by special train or ferry boat in the morning and returning in the

late afternoon. The following Manhattan schools went to Curtis Field, Staten Island, for their games: Schools Nos. 11, 20, 23, 58, 62, 69, 79, 120, 160 and No. 6, Brooklyn. The following Manhattan schools took the long trip to Crotona Athletic Field in the Bronx for their full day's outing: Schools Nos. 5, 10, 19, 25, 27, 34, 43, 89, 132, 171, 184. Schools Nos. 77, 83, 87, and 109, Manhattan and No. 109, Brooklyn, went to Astoria Field. The field at Pelham Bay Park was used by three Manhattan schools—P. S. 40, 186, and the Vocational, and Schools Nos. 3, 40 and 43 of the Bronx had very largely attended

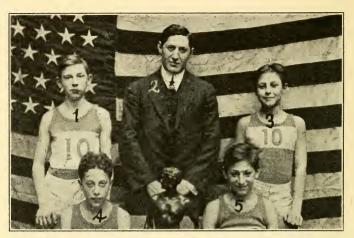

meets there.

At many of the meets during the year there were added events for girls, usually for prizes given by the school athletic organizations, though the Sunday World contributed for these events 300 bronze pins and a number of banners. In the 176 meets of the year more than 1,600 teachers acted as officials of the games. The number of prizes given by the Sunday World during the year for the separate school games was as follows: 3,740 medals—1,870 of silver and a like number of bronze; 170 class banners and 15 special banners. The entry lists from many of the schools were very large, as compared to their total enrollment of grammar grade boys. Some schools had more than 90 per cent. of their boys in the games, and more than forty schools exceeded 75 per cent. of their enrollment. The promoters of this series of field days have stated that "the object of these games is to encourage participation in healthful sports by the largest possible number of New York schoolboys, teaching fairness, cheerful though the Sunday World contributed for these events 300 bronze games is to encourage participation in healthful sports by the largest possible number of New York schoolboys, teaching fairness, cheerfulness, pluck and skill—the true sportsmanlike spirit of honorable competition, with ambition to do things and confidence in their own powers—as well as giving physical training and aiding the schools in effecting permanent organization for athletic work."

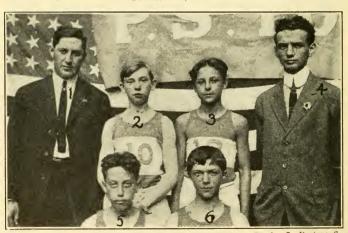

This object has come even nearer fulfillment last year than in the previous year, judging by the very large entry lists from most of the schools that held the games. Some huge meets were held by the larger schools of the city. Following are some of the schools that had great 'numbers of contestants in their meets, the figures given being the actual number of boys who competed in the athletic events for the Sunday World prizes:

1906, when the Sunday World offered to the Public Schools Athletic League to furnish prizes and other assistance to one hundred New York public schools to enable each of them to hold a field day of athletic games for their grammar grade boys.

Each year since 1906 the Sunday World has renewed its offer to the League and the schools, increasing the number of schools invited to hold the games to 125 in 1908 and to 150 in 1910. The field days have grown steadily and vastly in popularity, in the number of contestants and in the quality of the games with the increased experience of the teachers managing them and the greater amount of training that is given to the hows preliminary to the contests.

a million children and adults witnessed the athletic contests.

For the eight years of the Sunday World Field Days the statistics in the grand totals reach astonishing figures:

1.104 separate school athletic meets have been held. 295,000 boys have competed in the games. 27,000 Sunday World medals have been awarded. 1,180 banners have been presented as class trophies.

EVENING HIGH SCHOOLS CROSS-COUNTRY CHAMPIONSHIPS. Celtic Park, Saturday Afternoon, December 7, 1912.

The First Annual Evening High Schools Cross-Country Championship was held on Saturday afternoon, December 7, 1912, over the Celtic Park cross-country course, distance about 3½ miles over plowed fields, fences and a short stretch of muddy road. The winner's time was 16 minutes and 31 seconds, and is considered exceptionally good when one considers the trying course over which the boys had to run.

Five schools entered teams of eight boys each—the first five on each team to score. Brooklyn Evening High School team won the championship with 29 points, its boys finishing in the following positions; 2nd, 5th, 6th, 7th and 9th. Harlem Evening High School finished

second with 48 points.

Through the courtesy of the Irish-American Athletic Club the Public Schools Athletic League was able to conduct this championship over the Long Island course. They gave the use of their quarters at this place for dressing rooms and assisted in various ways on day of race for the comfort and convenience of the athletes and officials.

The following are the names of boys, school they represented and

HIGH SCHOOLS INDOOR TRACK AND FIELD CHAMPIONSHIPS. Held at the Twenty-third Regiment Armory on Saturday. January 25, 1913.

The Public Schools Athletic League held its Tenth Annual High Schools Indoor Track and Field Championship Games on Saturday afternoon, January 25, 1913, at the Twenty-third Regiment Armory,

Brooklyn.

These games were the most successful that the Public Schools Athletic League has ever conducted. Fifteen out of the eighteen public high schools entered teams, making an entry for the various events of over 350 boys. Only one record was broken during the afternoon. That was in the one mile run, which was covered by L. von Mechow of the Curtis High School in the remarkably fast time for a school boy of 4 minutes and 46 4/5 seconds. In the high hurdles the time was faster than the old record but the winner knocked down a hurdle, which, according to the Public Schools Athletic League rules, the record is not allowed. It was unfortunate, as the boy is by far the best school boy high hurdler in the country.

HIGH SCHOOL INDOOR SWIMMING CHAMPIONSHIPS.

Held in the College of the City of New York Natatorium, Thursday Evening, March 13, 1913,

The Public Schools Athletic League conducted the High Schools Indoor Swimming Championships at the natatorium of the College of the City of New York on Thursday evening, March 13, 1913. This the City of New York on Indusury evening, March 13, 1915. This meet proved to be a great success not only financially but athletically. The crowd was very enthusiastic throughout the entire evening. The evening's entertainment started with the 800-foot relay championship, in which the team from DeWitt Clinton High School made a new record for this distance. In every event on the program a new record was created with the exception of the 100 yards swim, in which H. Vollmer of Stuyvesant High School equalled the old record of 1 minute 4 4/5 seconds in his trial heat. In the fancy driving event. the style and execution of the dives far surpassed anything of its kind that high school boys have ever shown. This was the general opinion of the men who acted as officials at this meet. The Public Schools Athletic League was very fortunate in being able to secure most of the American amateur swimming champions to act as officials and help make the meet the great success it was.

Nine schools entered teams and eight of them scored points. DeWitt Clinton High School won the City Championship with a well balanced team that rolled up a score of 21 points; Erasmus Hall High School was second with 14 points. Townsend-Harris Hall High School was third with 13 points, and Stuyvesant High School was fourth with 11 points. Manual Training High School, Boys' High School and High School of Commerce were tied for fifth place with a score of 2 points each, and Commercial High School with 1 point was sixth.

EVENING HIGH SCHOOLS CHAMPIONSHIPS.

Held at Seventy-first Regiment Armory, on Friday Evening. April 11, 1913.

The Public Schools Athletic League conducted the annual Evening High Schools Track and Field Championships with gratifying results. This was the first time that the evening high schools held their own individual meet.

The performances of those entered in the Evening High School events were of high order. Most of the young men are graduates from the day Elementary Schools and had competed in the various athletic activities while attending school under the jurisdiction of the Public Schools Athletic League which gave them an early training and enabled them to make new records in all the events which were contested at this championship meet.

cess in every way. The record in the 100 yards dash, senior, was equalled twice during the afternoon in the trial and final heats. In the 220 yards run, senior, a new record was created. This was the first time that our high school boys ever ran a 220 yards championship on a straightaway course. Each boy had a lane to run in and this, with one of the fastest tracks in the country, may have helped in making the remarkable time of 22 1-5 seconds for the distance.

The grand stand was decorated with American flags in honor of the country of the fold and the school have hard from Public School of

HIGH SCHOOLS BASE BALL.

No series was conducted for the High Schools Base Ball Chambionship.

HIGH SCHOOLS LACROSSE.

Three New York City high schools supported lacrosse teams this year. There is promise that more teams will be organized next year. Surely the generosity of Col. Thompson in donating the handsome trophy and medals ought to encourage a larger number of schools to take up the sport.

Manual Training High School won the championship title for the

third time in four years.

Rules of the Intercollegiate Lacrosse Association govern except that substitutes are allowed for other causes than for injury and that the game consists of two halves of 20 minutes each instead of 30 unless otherwise agreed between the capitains before play begins.

Each school in the tournament was to play two games with each

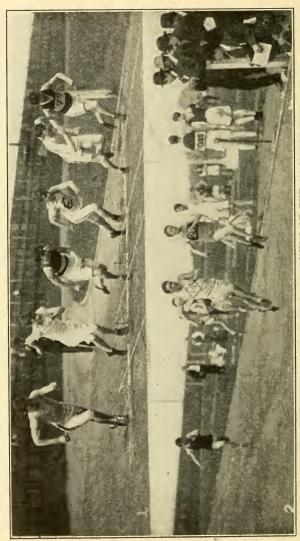

other school and a third game if each school won one.

WHITNEY ROUND-ROBIN SUB-TARGET TOURNAMENT.

Thirteen schools participated this year in the Sub-target Championship." These were divided as follows:

First Divison.—Commercial, Manual Training, Jamaica, Boys', Flush-

ing, and Erasmus Hall.

Second Division.—Bryant, Morris, Stuyvesant, Commerce, Curtis, DeWitt Clinton, and Eastern District.

In each division a round-robin series of matches was conducted between October 16th and December 13th. Interesting matches were held every Friday and the sectional tournaments terminated with Commercial and Bryant champions of their respective divisions. The teams of these schools met in a series of three matches on the 11st Regiment sub-target gun on the afternoons of January 22, 23, and 24.

Regiment sub-target gun on the afternoons of January 22, 23, and 24. The Bryant High School boys won two of the three matches and were thereby awarded the Sub-target Championship for 1912-13, and were presented with the Harry Payne Whitney Trophy.

R. Dutton of DeWitt Clinton and D. Shapiro of the High School of Commerce were tied for the medal given for the individual high aggregate score. Both had a score of 207 out of a possible 210. These boys met in a special match and this resulted in a tie score, both making the highest possible scores. It was decided to have two championship medals made and presented to both boys.

A special tournament was also conducted for the second teams, The winners of the divisions were Manual Training and Morris, The Morris High School won the Championship by defeating Manual Training in a special series.

INDOOR RIFLE SHOOTING TOURNAMENT.

The Fifth Annual Indoor Rifle Shooting Tournament of the Public Schools Athletic League was held in connection with the Sportsman's Show at Madison Square Garden between February 27 and March 5, 1913, inclusive. This allowed but six days for holding the regular team and individual matches, a fewer number of days than in pre-

THE GEN. GEORGE W. WINGATE MARKSMANSHIP TROPHY.

vious years. However, it was decided to keep open the nine (9) standing and nine (9) prone ranges from 3 P. M. to 10 P. M. every day without any intermission. This constant use of the ranges made it possible to accommodate all boys desiring to shoot and an entry was received each day larger than during any previous year. Thirty-five thousand rounds of ammunition were used during the tournament. Three hundred and four (304) boys qualified as Junior Marksmen during the six days and the shooting was remarkably above the average of former tournaments. In the team matches an entry of 50 teams was received.

The league is indebted to the many regimental officers and representatives of the various rifle and ammunition companies for their efficient services as range officers. Mr. William J. Poth and Mr. S. M. Van Allen, managers of Madison Square Garden, not only gave permission to the league to use the Garden basement for the tournament,

but also donated prizes for the individual competition.

The following is a summary of the individual and team matches:

OUTDOOR RIFLE SHOOT.

After a lapse of five years, arising from the closing of the Creed-moor rifle range, an outdoor rifle shoot was conducted by the Public Schools Athletic League for the high school boys on the State Ranges at Peekskill on Saturday, October 19, 1912.

A special train conveyed the officials and 150 competitors from New York to Peekskill and return. The P. S. A. L. defrayed the transportation expenses, and also furnished a luncheon to the officials and

the competitors.

Thirteen first teams and seven second teams entered, and a number of individuals journeyed to Peekskill to qualify as Junior Marksmen. Ten ranges were used, but on account of the large entry it was impossible to complete the program before sunset.

During the morning 59 out of 125 entrants qualified as Junior

Marksmen on their first and only attempt.

ATHLETIC BADGE CHAMPIONSHIP TROPHY.
Presented by Egerton L. Winthrop, Jr.

SUB-TARGET SHOOTING COMPETITION FOR THE WINGATE TROPHY.

During the year ending May 1, 1913, there were 536 marksmen qualifications and 186 sharpshooter qualifications. Several girls at the Curtis, Erasmus Hall and Richmond Hill High Schools succeeded in qualifying. The trophy for the school qualifying most boys was won by the Morris High School. This trophy, donated by General Wingate is awarded as follows:

For each sharpshooter qualification, 3 points, and for each marksmanship qualification, 2 points. The marksman and sharpshooter badges were donated by the Brooklyn Eagle for the Boroughs of Brooklyn and Queens, and by the Remington Arms Union Metallic Cartridge Company for the Boroughs of Manhattan, Bronx and Rich-

RIFLE PRACTICE AT THE ARMORIES.

From January to May the schools were extended the use of the various army rifle ranges for practice purposes one or two days a week. The league secured the services of Captain George W. Corwin of the Seventy-first Regiment as an instructor.

A schedule of practice was drawn up and the boys who showed efficiency on the sub-target guns in the school were taken to the

armories.

The following is a schedule of practice:

Mondays-1st Battery, Bronx: 71st Regiment, Morris H.S.; 12th Regiment,

DeWitt Clinton and Bryant H.S.

Tuesdays-13th Regiment, Commercial and Boys' H.S.; 23rd Regiment, Commercial and Boys' H.S. Wednesdays—17th Separate Company, Flushing and Jamaica H.S.; Granite

State. Commerce. Thursdays-14th Regiment, Erasmus and Manual Training H.S.

Fridays.—Tist Regiment, Morris H.S.; 69th Regiment, Stuyvesant and Curtis H.S.; 12th Regiment, DeWitt Clinton and Bryant H.S.

Athletic Courtesy

Our athletics should foster clean sport between gentlemen. the privilege and duty of every committee and person connected with the League to embody these principles in his own actions and to earnestly advocate them before others:

The rules of games are to be regarded as mutual agreements. the spirit or letter of which no gentleman would break. The stealing of advantage in sport is theft.

(2) Visiting teams are to be honored guests of the home team, and should be treated as such.

(3) No action is to be taken nor course of conduct pursued which would seem ungentlemanly or dishonorable if known to one's opponent or the public.

(4) No advantages are to be sought over others except those in

which the game is understood to show superiority.

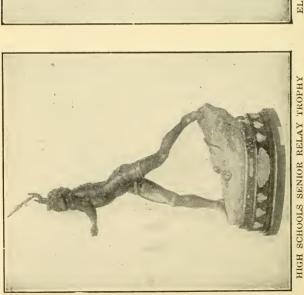

(5) Officers and opponents are to be regarded and treated as honest intention. When opponents are evidently not gentlemen, and officers manifestly dishonest or incompetent, future relationships with them may be avoided.

(6) Decisions of officials are to be abided by, even when they seem

unfair.

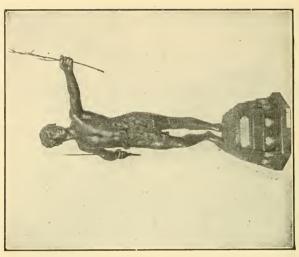

(7) Ungentlemanly or unfair means are not to be used even when they are used by opponents.

(8) Good points in others should be appreciated and suitable recognition given.

Athletic Rules

RULE I.

ATHLETIC MEMBERSHIP.

The Public Schools Athletic League recognizes as athletic members all Public School boys, members of Elementary and High Schools, Evening High Schools and Evening Elementary Schools of New York City, who take part in athletic competitions that are given under the direction of the League.

RULE II.

DEFINITION OF AN AMATEUR AS DEFINED BY THE AMATEUR ATHLETIC UNION AND ADOPTED BY THE PUBLIC SCHOOLS

ATHLETIC LEAGUE.

Any amateur athlete, not a resident of the United States, desiring to compete in any athletic competition under the rules of the Amateur Athletic Union, must apply to the National Registration Committee Athletic Union, must apply to the National Registration Committee of the Amateur Athletic Union of the United States for registration. He must submit to said Committee, through the Secretary of the Amateur Athletic Union, a certificate from the recognized governing body of the country wherein he resides that he is an amateur, eligible to compete in any amateur competition.

Any amateur athlete, a resident of the United States, desiring to

Any amateur athlete, a resident of the United States, desiring to compete in amateur competitions in any other country, must, before such competition, secure from the National Registration Committee of the Amateur Athletic Union of the United States a permit on petition of the club of which he is a member and of the District Association wherein such club is located, that will authorize him to

Association wherein such club is located, that will authorize him to compete as an amateur in any other country.

Any club, a member of any Association of the Amateur Athletic Union of the United States, which sanctions the competition of any member, or any team, under its club name or its club emblem, in unregistered sport or professional contest, or which persists in playing disqualified athletes, or which permits professionals to compete under its auspiees in any competition in a sport over which the Amateur Athletic Union assumes jurisdiction, where such competition is announced as a competition between amateurs, shall be liable to forfeit its membership in such Association.

SUSPENSION OR DISQUALIFICATION OF INDIVIDUALS.

1. Any person competing or exhibiting at open sports, or any athletic entertainment that is not given under the sanction of the Amateur Athletic Union or of one of its allied members, shall thereby disqualify himself from competing at any sports given under sanction of the Amateur Athletic Union.
2. The Registration Committee of the Association in whose territory the offense was committed shall have the power to reinstate anyone so disqualified, if it shall think fit.

3. Athletic meetings promoted by companies, incorporated bodies, individuals or associations of individuals, as private speculations or in conjunction with a benefit social or picnic entertainment are not, unless with the sanction of the Registration Committee of the Assoclation in whose territory such meetings are to take place, recognized by the Amateur Athletic Union, and any athlete competing at an

unsanctioned meeting shall thereby suspend himself from all games held under Amateur Athletic Union Rules.

No person shall be allowed to compete or exhibit at any meetlng, open or closed, held under Amateur Athletic Union Rules while disqualified or under suspension of this Union, or any of its active members.

Any person knowingly competing against one who is disqualified or under sentence of suspension by this Union, or any of its active or allied members, shall be held to have suspended himself until the expiration of such sentence, or for such period as the Registration Committee of the Association in whose territory the offense was

committed may deem proper. No person who, at any time since the organization of the A.A.U., has knowingly become a professional, shall be reinstated as an

amateur.

7. No application for reinstatement to full amateur status shall be entertained unless the applicant shall have abstained from all pro-

fessional conduct for two years, and can be acted upon only at a meeting of the Amateur Athletic Union or of the Board of Governors.

A two-thirds vote shall be necessary for reinstatement.

8. Any person receiving compensation for services performed in any capacity in connection with athletic games, or in an athletic club, will be ineligible to represent such club in games under the rules of the Amateur Athletic Union until he shall have permanently

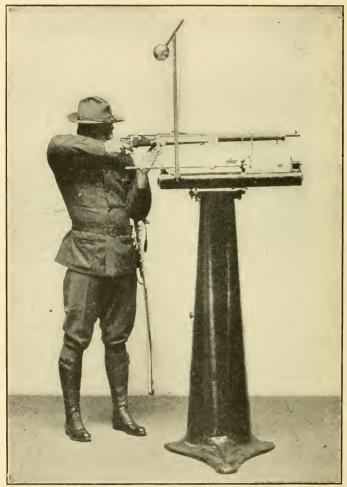

abandoned such employment.

9. Any member of any club of either of the Associations of the Amateur Athletic Union who shall have been expelled from said club for unpaid indebtedness shall not be eligible to compete in any games given by any Association of the Amateur Athletic Union, or by any club of any Association of the Amateur Athletic Union, until such indebtedness is liquidated.

10. In all cases where an athlete receives money to cover traveling expenses, whether from his own club or any other organization, he shall immediately, upon his return home, send to the Chairman of the Registration Committee of his own district a signed statement showing the amount received and an itemized account of his expenses. When any money is paid to an athlete for traveling expenses, the organization or committee making such payment shall be required to organization or committee making such payment shall be required to take a receipt therefor in duplicate, containing an itemized statement of such expenses, and forward immediately one copy thereof to the Chairman of the Registration Committee of the Association in which the athlete is registered, and one copy thereof to the Chairman of the Registration Committee of the Association in whose district the meeting is held, such receipts and statements to be kept on file by said Chairman respectively. Any athlete failing to promptly forward the statement, as required above, shall be liable to suspension; and any organization failing to secure and forward the receipt, as above provided, shall be liable to suspension or refusal of sanction, as the case may be.

The traveling expenses which an athlete is allowed to ask for, receive or accept are limited to first-class railroad fare, including parlor car and single berth sleeping car fares actually paid, and the amount actually paid for meals and lodging, which amount for meals and lodging shall not exceed \$6.00 per day in any case during the time necessarily occupied in going to and returning from a meeting. No traveling expenses or payment of any kind for trainer, rubber, friend or relative, and no payment for loss of time or wages, shall be asked for or received directly or indirectly. Any athlete violating this rule shall be disqualified from further competition as an amateur.

12. An athlete who permits anyone other than an officer of the club which he is entitled to represent in competition to make arrange-

ments for his appearance at an athletic meeting shall thereby disqualify himself from further competition as an amateur.

RHLE III.

(a) General.

ELIGIBILITY.

Boys taking part in unsanctioned events render themselves liable to suspension.

Only those pupils who maintain a grade of scholarship which will entitle them to promotion (if continued without improvement) shall be entitled to represent the school in athletics.

No pupil, under penalty of discipline in his school, shall be eligible to represent such school, the Principal of the school to be the sole judge concerning this.

Only those pupils who are in good standing as amateurs shall be

eligible to represent their school.

Boys who maintain their amateur standing may participate in ath-

letics during the summer vacation.

All boys are considered eligible for class athletics, and also for competition limited to the members of the school to which they belong, subject to the approval of their principal.

(b) Elementary Schools.

Elementary school boys are allowed to represent both their church

and their school in athletics.

No boy who has represented any outside organization shall be eligible to compete for any school organization of this League until twenty school weeks have elapsed from the time of such competition. except that summer schools and vacation playgrounds under the jurisdiction of the Board of Education and public playgrounds under the Park Department are not considered outside organizations. Outside organizations which school boys may not represent and still be eligible to represent their schools are such as athletic clubs with a formal constitution and by-laws, Y. M. C. A.'s, Settlements, Evening Recreation Centers, etc. This rule is also intended to apply to the various clubs formed within these organizations; that is, a boy may not represent in athletics a club of one organization against a club of another organization and still be eligible to represent his school. because such clubs are really departments of these organizations. This does not in any way debar boys from taking part in athletic competitions that are closed to their own organization even though it may be between different clubs within that organization.

No elementary school pupil coming from another school shall represent the school unless he has attended the school for twenty school

weeks, except

(a) He has been promoted from one school to another:

(b) He has been transferred from one school to another by order of the District Superintendent or the Board of Superintendents:

(c) He has been transferred on account of a change in residence: (d) He has been admitted from a school outside the public school system of Greater New York.

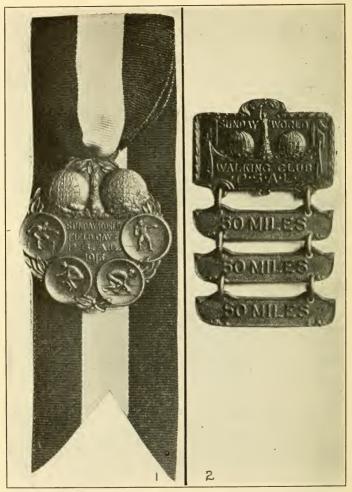

In order to be eligible for athletics, elementary boys must have received for the month previous a mark of at least "B" in effort. proficiency, and deportment.

Elementary school boys are allowed to enter one event only at any

set of games.

Spiked shoes not allowed in any athletic competition.

No entry shall be accepted unless countersigned by the Principal of the school.

1. SUNDAY WORLD FIELD DAY MEDAL—The N. Y. Sunday World furnished Medals, Programmes and Competitors' Numbers to 172 Elementary Schools that held field days during the Spring of 1913, 2, BOYS' SUNDAY WORLD WALKING CLUB MEDAL,

IN EFFECT FEBRUARY, 1913. High Schools.

(a) A boy is eligible to represent his high school upon entering by promotion from a New York City Elementary School.
(b) A boy who has attended another New York City Public High School shall be eligible at the end of twenty (20) school weeks.

(c) A boy entering from any other school or by examination shall be eligible after twenty (20) school days. (See rule XV.)

A high school pupil who is not maintaining a grade of scholarship A high school pupil who is not maintaining a grade or scholarship which will entitle him to promotion (if continued without improvement) may be declared ineligible to represent his school in athletics. Declaration of ineligibility on this ground shall issue from the Principal of said boy's school. A boy under penalty of discipline in his school may be declared ineligible to represent such school. Declaration of ineligibility on this ground shall issue from the Principal of said boy's school.

No boy shall be eligible to represent his school in athletics who has not placed to his credit 14 hours of prepared work at the last "marking" date. The "marking" date shall be interpreted to be the day set by the Principal of the school by which all marks for all boys of the school shall have been entered on the official records of the school to determine all boys' standing. In determining a boy's standing for athletic eligibility the same "marking" date shall apply to all members of the school uniformly. Shopwork, drawing, unprepared commercial subjects and physical training shall court one hour for two.

No boy who has been discharged from a school within 15 days of the date of the regular examinations in that school shall upon re-entry represent that school without qualifying anew under Rule 3, or securing approval of the H. S. G. C.

No boy who is a graduate of a four-year secondary school course

shall be eligible to represent any high school.

A graduate of a three-year course in the high schools who returns to take up post-graduate work and pursues a program of fifteen (15) hours work per week shall not be debarred from competition by reason of graduation for a period of one school year.

No high school boy who has reached the age of twenty-one shall be eligible to represent his school in any branch of athletics.

No boy who has registered, enrolled or matriculated in an institution above the grade of a high school or who has played on a team of such an institution shall be eligible to represent a high school. Only those boys who are amateurs shall be eligible to represent their

school. Reinstatement as an amateur shall be made by the H. S. G. C. hefore a disqualified boy may again represent his school. Disqualification for professionalism by the A. A. U. shall be assumed by the H. S. G. C. to establish professionalism, and reinstatement as an amateur by the A. A. U. shall be accepted by the H. S. G. C. The following rules are guides in determining professionalism:

Boys taking part in events unsanctioned by the H. S. G. C. within the limits of Greater New York render themselves liable to suspension. No entry shall be accepted unless countersigned by the Principal

or the school's representative on the H. S. G. C.

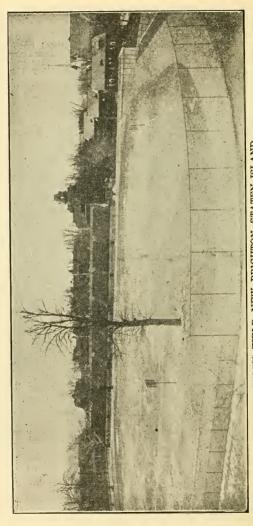

No boy who has bet or acted as agent for others in betting on athletic contests shall be eligible to represent a high school for one year from date of the occurrence of the act.

The same rules apply to second and other teams competing in

interschool athletics as to first teams.

Eligibility for intra-school athletics shall be determined by the Principal of the school.

Any extraordinary case such as transfer from one high school to another, etc., shall be submitted to the H. S. G. C.

A Public Schools Athletic League Field. Property of the Board of Education of Greater New York. CURTIS FIELD, NEW BRIGHTON, STATEN ISLAND.

A medical certificate of satisfactory physical condition of a boy is required in all sports. Such a certificate is good for one year.

Any boy who has matriculated in any college or who has played on a college team shall not be eligible to represent a high school.

RULES OF ELIGIBILITY FOR THE EVENING HIGH AND EVENING TRADE SCHOOLS.

I-Students representing the evening high schools in any athletic event whatsoever shall be amateurs according to the definition of the

Amateur Athletic Union.

II-No pupil shall be qualified to participate in any athletic event for a school until he shall have been registered for a minimum period of thirty nights prior to date of games. This constitutes one-fourth of the entire term, and no pupil shall be qualified to participate at any time unless his standing in studies is satisfactory to the Principal and his percentage of attendance up to that time has been not less than eighty per cent.

III—An athlete cannot represent an Evening High or Evening Trade School in games open to Evening High or Evening Trade Schools who has within one year competed in any open competition as an athlete registered in the A. A. U. from any other registered athletic club.

RULE IV.

CLASSIFICATION OF COMPETING ATHLETES.

Elementary Schools.

An elementary school boy shall be considered a novice until he has An elementary school boy shall be considered a novice until he has won a medal in Public Schools Athletic League games open to all elementary schools, or, in an event sanctioned by the Public Schools Athletic League and open to all elementary schools of the clty.

In track and field events, swimming, skating, etc., the following classifications are made: 85 pounds, 100 pounds; 115 pounds;

unlimited weight.

The Games Committee may arrange special classes of events to meet special needs. For example: events may be given for boys who have never even competed in a set of athletic games; or, weight classes may be arranged other than those regularly prescribed.

A boy must be accompanied by a principal, teacher, or an authorized representative from his school at time of weighing in.

High Schools.

A novice in high school is an athlete who has never won a prize A novice in high school is an athlete who has never won a prize in competition that is open to two or more secondary schools or organizations, except that there shall be two classes of novices in high schools, namely, track and field, and the loss of noviceship in one class shall not debar a boy from competing as a novice in the other class. Boys entering high schools from elementary schools shall be considered novices in athletics.

In the High School Novice Championships, a boy who competes in the novice meet retains his noviceship throughout that meet, this to include novice relay.

include novice relay.

Members of a track team in the high schools that win a trophy

whenders of a track team in the high schools that will a trophy shall not lose their noviceship unless they receive personal prizes.

Where junior and senior events are given in high school games, boys under 16 years of age shall be considered tuniors, and all other boys under 21 years of age shall be considered seniors. The boy's age on the date of competition shall determine the class in which he shall compete and date of birth of the junior shall be entered on entry blank.

In events where weight classes are used the following classifications shall be recognized: 100 pounds; 120 pounds; unlimited weight, boys of any age.

General.

Boys will be weighed in athletic costume, minus shoes. A boy shall not be allowed to weigh in a second time in any set of games in case he is found to be overweight at the first weighing. The scales will be set at the weight specified for each class, and any competitor raising the beam so that it touches above shall be ineligible to compete. The average weight of teams will not be taken for relay teams. Boys found to be too heavy for the class in which they enter will not be allowed to compete in any other class.

Boys entered in games must be accompanied by a principal, teacher, or an authorized representative from his school at time of weighing-in.

RILLE V.

ATHLETIC BADGE COMPETITION.

The standards have been set as follows:
The Athletic Badge Test may be held at any time during the year.
The names of successful boys should be sent to the office of the
Public Schools Athletic League not later than May 1. During the
month of May the official test will be held.

STANDARDS.

Class A .- Bronze Badge.

60-vard dash, 83-5 seconds. Pull-up (chinning on bar), 4 times. Standing broad jump, 5 feet 9 inches.

Class B.—Bronze Silver Badge.

60-yard dash, indoors, 8 seconds (or) 100-yard dash, outdoors, 14 seconds. Pull-up (chinning on bar), 6 times. Standing broad jump, 6 feet 6 inches,

NOTE.—All age, weight or height classifications are abolished in the Athletic Badge Test, and boys are given a Class A or Class B badge according to their qualifications.

CONDITIONS.

Only those boys shall be admitted to the Athletic Badge Test who received a mark of at least "B" for the month previous in effort, proficiency and deportment, and who are making satisfactory effort to secure good posture.

In order to win a badge a boy must qualify in all three events in

his class.

Winners of last year's badges are not debarred from competition.

RULES.

The following general rules shall govern the final competition. There shall be but one trial chinning, one in the dashes and three in the jumps.

60 Yards Dash and 100 Yards Dash.—The general rules of compe-

tition, as set forth in the P S. A. L. Handbook, shall govern this test, except there shall be no finals.

Chinning.—The boy shall extend himself to his full length before and after each pull-up, and shall be obliged to raise his body without

a kick, snap, jerk or swing to such a height as to bring his chin higher than the bar.

Jumping.—The rules of the P. S. A. L., as set forth in the Handbook, Rules XXV. and XXVII., shall govern this test, except that, as there is no real contest, i. e., there is no striving for first, second or third places, the finals shall be dispensed with. With reference to *alse starts, a competitor shall be penalized in accordance with Rule X.

The following order of events is suggested:

Chinning, Jumping, Running.—As the first two events can in most cases be tried out at the schools, thus leaving the smallest possible number of boys to take the third test of running, which must of necessity be held at some armory or athletic field.

No boy shall be admitted into any contest who has not received a mark of at least "B" for the month previous in effort, proficiency and deportment, the Principal of the school to be sole judge in this

matter.

Duplicate lists of the successful competitors, classified as "A" and "B," should be made out on blanks furnished by the Public Schools Athletic League. One copy should be forwarded to the Secretary of the League, and the other placed on file in the school.

The Athletic Badge Competition shall take place once a year, and

the reports must be sent in before May 1.

The Juniors of the elementary schools shall receive a Bronze Athletic Badge; the Seniors in elementary schools shall receive a

Athletic Badge; the Seniors in elementary schools shall receive a Bronze and Silver Athletic Badge.

The Winthrop Trophy will be awarded for one year to the school that qualifies for the Athletic Badge and highest percentage of its enrolled grammar boys (fifth, sixth, seventh and eighth year pupils). Boys below the fifth year may compete for the Athletic Badge but are not to be counted in determining the school's percentage. The school reporting the highest percentage in the Athletic Badge competition will be officially tested, and if the percentage attained at the official reporting the nighest percentage in the Athletic Badge competition will be officially tested, and if the percentage attained at the official test is still higher than any other reported percentage, the school will be awarded the trophy. If, however, in the official test the school falls below other reported percentages these other schools will be tested in the order of their standing until a school is found whose official percentage is higher than any other reported percentage.

Each school is expected to conduct its own tests. If assistance is required, application should be made to the Secretary of the P. S. A. L.

High Schools-

220-yard run, 28 seconds, Pull-up (chinning on bar), 9 times. Running high jump, 4 feet 4 inches.

In order to be eligible for the Athletic Badge competition, a high school boy must maintain the same scholastic standing that is required

in other branches of athletics.

The competition for Athletic Badges in each high school shall be in charge of the school's representative on the High Schools Games Committee. He shall forward the names of the successful candidates to the Secretary of the League on blanks furnished by the League for this purpose.

The high school boys shall receive a Silver Athletic Badge. These tests may be held twice each year in high schools, but no boy shall

receive more than one badge during any school year.

Reports must be sent in before June 1.

RILLE VI.

CLASS ATHLETICS.

Athletics for All the Boys-

In this form of athletics a record is made by the whole class instead of by an individual.

At least 80 per cent. of the boys enrolled in the class must take

part in order to have the record stand.

The number taking part must not be less than twelve. Trophies to be held one year will be awarded in each Borough by the Public Schools Athletic League to the 5th. 6th, 7th and 8th year classes for the best Class Records made in each of the following events.

Standing broad jump, tested in the fall. Pull-up, or "chinning," tested in the winter.

Running, tested in the spring.

(Distances for running: 5th year, 40 yards; 6th year, 50 yards; 7th year, 60 yards; 8th year, 80 yards.)
Classes may be tested as follows:

STANDING BROAD JUMP.

The best record made in three trial jumps is taken for each boy. The class record is determined by adding the individual records and dividing the total by the number of boys competing. Jumping must be done from a line. Many schools cannot have a "take off" without considerable inconvenience.

PULL-UP-CHINNING.

A boy shall be obliged to raise his body without a kick, snap, jerk or swing to such a height as to bring his chin higher than the bar and there shall be a momentary pause before each pull-up.

RUNNING.

In order to lessen the possibility of error in timing the competitors, the following method has been adopted: The boys are lined up behind the starting mark in the order in which they are to run; the timer, who also acts as a starter, stands at the finish line and gives the signal for each boy to start. As the first runner crosses the finish line the second runner is given the signal to start. As the last boy crosses the finish line the watch is stopped. The record is found by dividing the time elapsed by the number of boys competing. If an ordinary watch is used the first boy should be started when the second hand is over the "60" mark.

Blanks will be furnished for reporting the tests, which are to be

sent in as follows:

Standing broad jump, on or before December 1. Pull-up, on or before March 15. Running, on or before May 15.

Each school is expected to conduct its own tests.

All boys are considered eligible for Class Athletics, subject to the

All boys are considered engine for Class Athletics, subject to the approval of the Principal.

When the records are all in, the three classes in each Borough having the best records for their grade will be tested officially. If a record is then made better than any other record sent in, the trophy will be awarded to the class making it. If, however, the records made at the official test are lower than other reported records, the classes will be tested in order until a record is made at an official test that is bricker, then any other reported or official record. The trophies are perpetual. They are in the form of a shield, with bronze plates for engraving the names of schools that win them from

time to time. These trophies are offered for competition once each year. Each school winning a trophy will receive an engraved certificate as its permanent property.

This form of athletics is especially desirable, as it gives every boy an opportunity to take part, and the size of the school does

obs an opportunity to take part, and the size of the school does not in any way affect the chances of winning a trophy.

The boys should practice by themselves in the yard, on the street, at home, or elsewhere, prior to the tests.

Frequent preliminary tests are recommended.

RULE VII.

Indoor and outdoor track and field, base ball, basket ball, soccer, cross-country, indoor base ball, lacrosse, tennis, marksmanship, hockey, and swimming championship meetings shall be held annually at such times and places and with such schedules of events as may be decided upon by the Games Committee.

Indoor and outdoor track and field Novice meetings shall be held at such times and places and with such schedules of events as may be decided upon by the Games Committee.

All entries shall be sent to the Games Committee, which Committee may reject any entries it may deem objectionable.

The Games Committee shall choose all of the officials for the Championship Meetings, and shall decide all questions concerning the competitions.

RULE VIII.

RULES GOVERNING BASKET BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

Regular basket ball rules, as they appear in Spalding's Official Basket Ball Guide, shall be used, but time shall be fifteen (15) minute halves with ten (10) minutes intermission, except:

SECTION 1. Time shall be taken out whenever ordered by the Referee. He shall take time out at the request of each captain not more than four times during the game. (More than four times constitutes delaying the game and is penalized by a foul.)

SEC. 2. That Umpire be empowered to call "time out" in basket

ball games in case of injury to players in all games.

As far as possible all games shall be played on neutral courts. There shall be two classes in elementary schools basket ball, namely:

Boys weighing not to exceed 95 pounds, and boys weighing not to exceed 125 pounds.

The weighing-in for basket ball shall be done at the beginning of the basket ball season by the Borough Representative on the City Committee in each District Athletic League. Boys weighing within the prescribed limits at that time shall be eligible, as far as weight is concerned, throughout the tournament,

Members of teams must have received for the month previous to any games in which they play, a mark of at least "B" in effort, proficiency and deportment. Public Schools Athletic League Rules of eligibility shall apply in basket ball, the same as in other branches

of athletics.

or athletics.

All boys who play at any time during the tournament must be weighed in on the date set by the borough representative. In order that teams may not be handicapped by disqualifications of players on account of scholarship, deportment, etc., fifteen boys may be weighed in, if desired, and the boys' signatures shall be recorded. The players must be selected from these boys. If, for any cause, a player becomes ineligible, he cannot be reinstated during the tournament.

In each District Athletic League, if not otherwise determined by said league, the chairman of the Games Committee thereof shall have full

power to arrange and conduct its games.

The Borough Representative on the City Committee shall call a meeting of the teachers in charge of the teams that have won district championships in his borough and together they shall arrange the schedule of games to determine the borough champions. The borough representative shall be chairman at this meeting.

Representatives of the District Athletic Leagues shall send to the Chairman of the Basket Ball Committee the names of the winning

teams in their districts.

Each borough representative on the City Committee must send to the Chairman of the Basket Ball Committee the name of the team winning the championship of his borough.

No boy is allowed to play on more than one basket ball team.
Any neglect in forwarding the names of the teams to the Chairman
of the Basket Ball Committee will forfeit the right of teams to

compete.

The ball to be used in all match games shall be the Spalding Official

Basket Ball No. M.

The League will furnish paid officials for the interborough games.

The school winning the City Championship in the 125-lbs. class will hold the Pratt Trophy until the next annual tournament. The school winning the City Championship in the 95-bs, class will hold the Vanderbilt Trophy until the next annual tournament.

Eight gold medals will be given to the team winning City Chamnionship.

Eight silver medals will be given to each of the other teams winning the championships of their respective boroughs.

HIGH SCHOOLS.

The High Schools Basket Ball Championship shall be decided by a series of games whereby each school will play every other school entered. Spalding's Official Basket Ball Rules shall govern the contests except "when an official calls a Class B foul, the opposing team shall receive one point without a try for goal."

The halves shall be fifteen minutes each.

Each school shall present to the official at every game a team certificate naming the boys eligible to play. The "team certificates" are to be signed by the ollicial and forwarded with score and remarks to the Secretary of the League.

Rules as to eligibility apply to these championships as to other

contests.

The ball to be used in all match games by the high schools shall be Spalding's Official Basket Ball No. M.

The League will furnish paid officials for the Championship Games. After the selection of neutral courts for the Basket Ball Championships, no games shall be played nor practice allowed on said

RULE IX.

RULES GOVERNING SOCCER FOOT BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

Regular P.S.A.L. rules of eligibility shall apply.

The tournament shall be held during the Fall, and must be completed by January 1.

The rules as printed in Spalding's Association Foot Ball Guide shall be official, except that the game shall consist of two halves of twenty (20) minutes each, with ten (10) minutes intermission, and that any number of substitutes shall be allowed at any time during the game.

The Mackay Trophy shall be awarded for one year to the winning school.

Eleven regular and two substitute medals shall be given to the city champions.

A game won shall count two points. A tie game shall count one point for each school.

HIGH SCHOOLS.

The schedule for this tournament shall be arranged by the High Schools Games Committee. It shall take place in the Fall. P. S. A. L. rules of eligibility shall govern.

The rules in Spalding's Association Foot Ball Guide shall be official, except that the game shall consist of two halves of thirty (30) minutes each, with an intermission of ten (10) minutes, and any number of substitutes shall be allowed during the game, except when a player is removed by order of the referee.

The visiting team may refuse to play if the goal lines are not

marked.

The home team shall furnish the ball, which shall be Spalding's Official.

A game won shall count two points. A tie game shall count one point for each team.

The Maxwell Trophy will be awarded for one year to the winning school.

Gold medals will be given to the winning teams (eleven regular and two substitute medals).

RULE X.

RULES GOVERNING BASE BALL TOURNAMENTS.

ELEMENTARY SCHOOLS.

A schedule shall be arranged by the different District Athletic Leagues Games Committees for the District League championship. A committee consisting of the Chairman of Games Committees in the District Leagues of each borough will then arrange a schedule for the winners of these District League championships to play for borough championships. The teachers in charge of district championship teams shall be present at this meeting. The City Committee will have charge of the competitions, and arrange a schedule for the winners of the borough championships.

The league will furnish paid officials for the interborough games.

The general rules of athletics, as they appear in this book, shall govern these contests in all questions that may arise as to eligibility.

The ball to be used in all match games for the elementary should be Spalding's Official Boys' League Ball.

Boys are permitted to wear cleats upon their base ball shoes during tournament games.

The rules, as published in Spalding's Official Base Ball Guide for each year, shall govern all competitions in the elementary schools, except that District Athletic League tournament games shall consist of seven innings, all Interborough or City Championship games shall be nine innings.

The school winning the City Championship will hold for one year

the Spalding Trophy.

Borough trophies will be awarded for one year as follows:

Manhattan..... Huyler Trophy. Spalding Trophy. Bronx..... Eagle Trophy. Queens..... Richmond..... Spalding Trophy.

Gold medals will be given to city champions, and silver medals to borough champions. There shall be nine regular and two substitute medals.

HIGH SCHOOLS.

A schedule for the high school tournament shall be arranged by the High Schools Games Committee at its first meeting after the opening of school in the fall.

The general rules of eligibility shall govern base ball the same as

other branches of athletics.

Spalding's Official Base Ball Rules shall apply in the high schools tournament.

Officials shall be appointed by the league.

A City Championship Trophy shall be awarded for one year to the winning school.

Gold medals (nine regular and two substitute) will be given to the winning team.

RULE XI.

BULES GOVERNING CROSS-COUNTRY RUNNING.

Regular P. S. A. L. rules of eligibility shall apply.

In championship competitions there shall be eight members on a Points to be credited to the first five to finish.

The course shall be three miles in length, and must be so marked

that runners may be able to follow it without difficulty.

Only those boys shall be allowed to take part in competitions who have prepared themselves by participation in preliminary runs.

Points shall be awarded in the order in which runners finish:

for first, two for second, three for third, etc.

The W. L. Jones Trophy shall be awarded for one year to the team scoring the smallest number of points.

A gold medal shall be given to the first boy to finish, and silver medals to the next four.

RULES OF SHOOTING.

WHITNEY TROPHY.

SUB-TARGET TOURNAMENT.

The tournament shall include both first and second team matches, and the schedule shall begin as early in October as practicable. first named team in the schedule is considered the "home' team.

Each school participating shall enter a first team of eight boys and may enter a second team of five boys, but no school may enter a

second team unless a first team be also entered.

There shall be an entrance fee of \$1.50 for each first team and \$1.00 for each second team entered by a school, payable prior to the match. There shall be two divisions in the tournament, viz.:

First Division—Flushing, Jamaica, Richmond Hill, Manual Training,

Boys', Commercial and Erasmus Hall High Schools,

Second Division—Eastern District, Morris, Stuyvesant, H. S. of Commerce, DeWitt Clinton, Bryant and Curtis High Schools.

The winner of each section shall be declared on the largest number of wins.

The winners shall meet on a neutral gun in a series of three matches to decide the championship. In case of a tie, the winner

shall be decided by the largest aggregate of points.

The winning first team of the final series shall be awarded the Subtarget Championship of New York City, and shall receive silver medals to the maximum number of ten (10), and to the school represented shall be awarded the Whitney Trophy, to be held for one year, when it shall be subject to competition.

The winning second team of the final series shall receive bronze medals to the maximum number of seven (7), and to the school represented shall be awarded the Sub-target Banner, to be held for one year,

when it shall again he subject to competition. Team medals shall be given to those boys of the winning first team

who have participated in most of the matches, and in case of a tie the medal shall be awarded to the boy who has the highest aggregate. The boy making the highest individual aggregate score in the pre-

liminary series shall receive a silver medal, emblematic of the sub-

target individual championship of Greater New York.

When the first team of any school is visiting the first team of another school, the second teams of the two schools shall shoot on the gun of the former school.

P. S. A. L. rules of eligibility shall apply to all teams, and a team certificate shall be given by the captain of each team to the judge of each match.

Each coach or his deputy shall be judge of each weekly contest on his home gun, and within three days he shall transmit, on the backs of the team certificates, to the secretary of the board a report of

the scores made by each contestant.

The coach and captain of each school shall certify on the eligibility slip that the first team representing their school is, in their judgment, composed of the eight best shooters in the school. The first team shall be composed of the eight best shooters of the thirteen competing The best men are to be determined by the scores of on that day. the previous matches in the series.

Each team member shall shoot one string of seven shots for record. within a time limit of three minutes; time to begin when the boy

raises the gun for his regulation.

Two sighting shots may be taken by each boy, but no adjustment of the gun shall be made nor any coaching permitted after the final sighting shot. Each shot shall be "called" by the adjustor.

There shall be a time limit for each boy of three minutes to include sighting shots and the string, the time to begin when the boy raises the gun for regulation.

There shall be two timekeepers-one to be appointed by the home and one by the visiting team; the former to be official timer and the

latter to be the assistant.

The official timekeeper shall make announcement when there are but thirty seconds remaining for the boy to finish his string of seven shots; also when the allotted three minutes time has expired.

The gun may be adjusted by a person selected by the contestant. The target on each sub-target range shall be sufficiently large and so lighted that all of the field vision seen through the peep sight in shooting shall be equally illuminated.

The visiting team shall have 20 minutes, if they so desire, for trial

shooting prior to the match.

The radial rod shall be oiled just previous to the match.

The compensating weight (ball) shall be so set that the net weight of the gun shall be 8½ pounds.
Each contestant shall take such a position that the gun carriage gear, sliding on the radial rod, shall be half way from each terminal boundary. No part of the gun carriage may have an artificial support. The butt of the gun may be placed inside of the coat.

The manager or captain of the home team shall telephone the results of each match to the New York Times (or other paper to be agreed upon) during the evening of the day of the match. Each team must shoot as scheduled, or forfeit the match, except only if the gun be out of order, in which case the match may be held on two rows of other scheduled.

held on gun of other school.

The secretary shall send monthly to each school a report of scores of all shoots held, and of the standing of all teams in the matches won

No boy who has shot in two-thirds of the matches on the first team shall become a member of the second team in the final matches.

GENERAL.

The butt of the gun may be placed inside the coat.

In all team matches there shall be no coaching except by a member of the team shooting.

One sighting shot shall be allowed for each contestant in the team matches.

ANNUAL INVITATION SHOOT.

This contest, for which the main prize is the New York World Trophy is arranged for each year by the high school which wins the trophy

the preceding year.

The teams consist of five boys, there being also a separate contest

for second teams.

The Capt. Charles J. Dieges Trophy is given to the school whose first and second teams together make the highest score.

In the individual shooting there are three classes—A, for the first team boys; B, for second team boys, and C, for all others whose scholarship makes them eligible under the P. S. A. L. rules.

THE WINGATE TROPHY COMPETITION.

As a basis for competition for the Wingate Trophy the actual number of qualifications are considered. The credit is sharp-shooters three to marksmen two, and the school scoring the greatest number of

points is awarded the trophy. The shooting is held on the sub-target guns. The qualifying score for the sharp-shooter class is 50 and for the marksman class 45. All reports are due at the secretary's office May 1.

RULE XIII.

RULES GOVERNING THE TENNIS TOURNAMENT.

Each school shall be represented by three players for singles and one team for doubles.

The boys who play in the singles shall not compete in the doubles in

the same match. A schedule shall be arranged between the schools during the tourna-

ment. Each team shall play each other team.

Each match shall consist of three single matches (best two sets out of three) and one match of doubles.

Each match of singles shall count one point and the match of doubles, two points. The school seoring the greatest number of points wins the match.

The visiting team at each tennis match shall designate its plays in singles as one, two and three numbers, and its doubles team before the time set for beginning the match; the home team shall then

designate its players. The school winning the greatest number of school matches shall be

awarded the championship.

Each school shall pay an entry fee of \$2.50.

The home team shall provide balls for the match. The school winning the championship shall receive \$10.00 for a permanent trophy.

RULE XIV.

INDUCEMENTS.

No school, under penalty of expulsion from the league, shall through any of its officers, or by any other means, directly or indirectly, oner any inducement to a pupil of any other school to sever his connection with such school for athletic purposes.

RULE XV.

PROTESTS.

All protests referring to the eligibility of the contestant must be submitted in writing to the Games Committee.

All other protests must be submitted to the referee of the games, who has it in his power to allow the protested individuals or teams

to run under protest.

No protests with reference to scholarship, amount of work, time in school or age of boys shall be considered when the same have been certified to by the Principal by his signature on the entry blank. Evidence as to any of these points may be presented to the Principal, who shall have full power to pass upon it.

In case of a boy who is large and mature for his age, the Principal shall be requested to look up the record of his birth with all

possible care, as a precaution in case he is protested, and have him

secure a birth certificate if possible.

In case of impossibility to produce birth certificates, all evidence in regard to age of pupil shall be submitted to the Games Committee and the committee shall have full power to pass upon such evidence.

The league holds it within its jurisdiction to decide all protests made in events sanctioned by it. These protests are settled by the Games Committee, and their decision is final.

All protests must have been mailed to the office of the secretary of the league within 24 hours after the time of event or game protested.

In case a boy's amateur status is questioned, the matter shall be

referred to the secretary of the league for action.

RULE XVI.

ENTRIES.

All entries for competitions held under the Public Schools Athletic

League must be made on the entry forms adopted by the league. These entry forms must be carefully filled out and must be signed by the Principal of the school; otherwise, they shall be rejected. No

post entries shall be received.

If any competitor enters an event and then fails to compete he must send a valid excuse to the Secretary of the Public Schools Athletic league. Failing in this, he may be suspended.

RULE XVII. SANCTIONS.

All events or games, whether given by public schools or other organizations, that are open to public school boys, must be sanctioned by the Public Schools Athletic League.

Any championship emblem accepted by any school of the league should state specifically the nature of the championship and of what

organization the recipient is champion.

Any boy who competes in games or events that are not sanctioned by the Public Schools Athletic League renders himself liable to suspension, and, if he persists in this participation in unsanctioned events, he may be cut off entirely from competition in all events or games given under the sanction of the Public Schools Athletic League.

By a recent ruling of the Amateur Athletic Union, school boys competing in events given by organizations outside the league are

obliged to register with that body.

The following conditions must be complied with before sanction can be given by the league:

No sanctions shall be granted for elementary schools events to be conducted during evenings by non-educational institutions.

CONDITIONS.

A club or organization giving a public school event must secure the sanction before announcing same.

The conditions under which the race will be held must be printed

plainly on the entry blank.

At least five days before the event takes place the names of the contestants must be submitted to the secretary of the Public Schools

Athletic League for approval or disapproval.

In accepting this sanction, the club or organization agrees to abide by the decision of the Games Committee of the Public Schools Athletic League in so far as the eligibility of the different contestants or schools is concerned.

Promoters of athletic meets must distinctly state whether the scholastic event is open to the public schools of Greater New York or the Public Schools of the United States.

The secretary will notify all schools of the class invited of every event for which sanction has been issued.

All protests as to eligibility, etc., will be settled by the Games

Committee of the Public Schools Athletic League. When an event, is sanctioned and prizes duly announced, the event must be run and prizes awarded according to announcement.

RULE XVIII.

RECORDS.

No record shall be allowed unless the performance has been timed by at least three timekeepers or measured by at least three field

judges.

The Games Committee shall investigate every performance to which their attention is called, and shall reject any record which shall not be supported by the affidavits of at least six witnesses, including the officials, certifying as to the place, time of day, state of weather, condition of path or field, force and direction of wind, level or grade of grounds, weight, measurement and material of implement, and correctness of announced time or distance.

In hurdling events the competitor must clear every hurdle and all the hurdles must remain standing; otherwise no record shall be

allowed.

No record shall be allowed unless made in open competition.

A record made at any championship meet of the Public Schools Athletic League shall be known as a Public Schools Athletic League record. A record made at a meet sanctioned by the Public Schools Athletic League, but not open to all schools, shall be known as an interscholastic record.

(d) Once a week run your full distance at top speed. This may

be done oftener for distances under 100 yards.

(e) Always end practice by walking about until breathing becomes nearly normal; then take a rub-down and dress.

FOR JUMPERS.

(a) Warm up.

(b) Devote a large part of the practice to getting the "take off"

properly.

(c) Decide which foot you will jump from, then starting on this foot from the "take off" run back six, eight or some even number of strides and mark off the spot where you strike on your last stride. Let your jumping foot strike this mark in the run to the "take off." Run with the natural stride until the last two paces, which may be lengthened a few inches. If you do not hit the "take off" right, move your starting mark backward or forward by just the distance that you go over or fall short. Some jumpers have two marks. This is often helpful; the first mark serving as a guide to bring the jumper to the second mark on the proper stride.

(d) At first try easy jumps, raising the knees quickly and as high as possible when the jump is being made. I'ractice this until you

learn how to lard and to control your body while in the air.

(e) Do not try for height or distance in the high and broad jump more than once or twice a week, and take a good rub down and dress quickly when you have finished practicing.

FOR SHOT PUTTERS.

(a) Warm up by swinging the arms, bending the body and springing forward, at the same time giving the body a sharp turn forward and to the right.

(b) Practice should be done from a stand so as to get the spring

with the legs, the turn and lunge of the body and the heave with the

(c) Before making a put always limber the muscles of the arm

and shoulder by stretching the arm up to its full length. (d) Use a light shot until the fundamental motions are mastered.

FOR HURDLERS.

(a) Warm up and practice starts the same as for running.

(a) Warm up and practice starts the same as for running.
(b) Practice with one hurdle at first to get the stride and to overcome any hestrancy in taking the hurdle.
(c) Go no higher than is necessary in clearing the hurdle. Both time and strength may be saved in this way.
(d) Later practice with two or three hurdles, aiming to get a uniform stride between the hurdles and to maintain a good balance. A good preliminary exercise is to raise the legs alternately, bringing the knees to the level of the armpit.

(e) Once or twice a week take the full number of hurdles for

time.

WARMING UP PROGRAM.

- (a) Take a dozen steps rising slightly on the toes at each step. (b) Trot a dozen steps. Repeat, swinging the arms at the sides. (c) Trot thirty steps. lifting the knees well at each step. Repeat.
- lifting the heels high.

 (d) Take several deep breaths. Now trot fifty steps at a good swinging pace, then walk fifty.

(e) Breathe deeply.

Always do this, no matter what your event may be,

RULE I OFFICIALS.

Every meeting of the Public Schools Athletic League shall be under the control of the following officials:

A Games Committee,

One Director.

One Assistant Director.

One Referee.

Three or more Judges at Finish.

One Chief Field Judge. Four or more Field Judges.

One Recorder of Times.

Three or more Inspectors.
Three Timekeepers.

One Starter.

One Clerk of the Course with assistants.

One Announcer.

One Chief Scorer with assistants,

One Marshal with assistants.

One Official Reporter.

RULE II.

GAMES COMMITTEE,

The Games Committee shall have general supervision over the games, but it shall not interfere with officials in the performance of duties assigned to them by these rules.

If possible, it shall decide all protests except (a) those that must be settled immediately by the Referee, (b) those concerning a boy's amateur standing, which matter must be referred to the Secretary of the Public Schools Athletic League.

RULE III.

THE REFEREE.

It shall be the duty of the Referee to decide all questions relating to the actual conduct of the meeting, whose final settlement is not otherwise covered by these rules.

the Referee may change the order of events and add to, or change, the arrangements of heats. After heats have been drawn, however, he shall not be allowed to transfer a contestant from one heat to another.

If a foul is made in a heat other than the final, and the foul, in the opinion of the Referee, is intentional, or due to culpable negligence. he may disqualify the contestant guilty of fouling, and may allow the

hindered contestant, or contestants, to compete in another trial heat. In a final heat, however, he may disqualify the competitor who is at fault and shall use his own discretion as to ordering another race between the competitors hindered by the foul.

In the case of a dead heat in track events where the competitors cannot agree on method of settling, the Referee may decide.

Any competitor acting in an ungentlemanly manner, whether toward competitors, spectators or officials, may be disqualified by the Referee from that and all other events at the meeting. If the Referee thinks the offence worthy of further punishment, he shall make a full report on the case to the Secretary of the Public Schools Athletic League for further action.

Ir for any reason the Referee as selected cannot attend, the Senior Judge shall act as Referee and have all his powers. In this event the

second Judge becomes Senior Judge.

The Referee, and he only, shall signal the Starter that everything is in readiness for the heat, or race, and the race shall not be started until the Starter has received such signal.

The Referee may delegate to the Senior Judge this duty of signaling

to the Starter.

RULE IV. INSPECTORS.

The Inspectors shall be assigned their positions by the Referee. They shall watch closely the conduct of the competitors during the course of the race, and in case of a foul, whether a claim is made or not, they shall make a report at once, before the next heat, or race, is called, of what they have seen to the Referee. They have no power to make decisions.

RULE V.

JUDGES AT FINISH.

There shall be three or more Judges at finish, namely, a Senior Judge, Second Judge, Third Judge, Fourth Judge and so on. The Judge whose name appears at the head of the list shall be Senior Judge, second on the list Second Judge and so on.

The Judges shall stand at the finish line and pick the contestants in the order in which they cross the finish line, the Senior Judge picking first boy; Second Judge, second boy; Third Judge, third boy; Fourth Judge, fourth boy, and so on. Their decision is final and without appeal. In case of disappeapenent, a majority shall govern appeal. In case of disagreement a majority shall govern.

Any competitor crossing the finish line without a number shall not be selected by the Judges unless with the consent of the Referee. In absence of the Referee, the Senior Judge shall act as Referee.

RULE VI.

THE CHIEF FIELD JUDGE.

There shall be appointed a Chief Field Judge, who will represent the Referee. It will be his duty to see that the field events are started promptly, and that there will be no unnecessary delay in the competition. He shall receive from the Field Judges and report to the Chief Scorer the results of the competition in the field events.

RULE VII.

FIELD JUDGES.

They shall measure and judge each trial of each competitor in all events where the performance is measured. Their decision is final and without appeal. In case of disagreement the majority shall govern.

In case a boy is competing in a track event as well as a field event, they shall excuse him from his part in the field event for as long a period as is necessary to take part in the track event, and shall then allow him to take his missed turns within a reasonable time after the track event. If the boy is competing in two field events that are taking place at the one time the same rule shall apply.

RULE VIII.

RECORDER OF TIMES.

The Recorder of Times shall read the watch of each of the Timers after each heat and shall make known the official time to the Referee of the meeting and the Official Announcer. In the case of a new record he shall be careful to receive the signatures of the Timers vouching for the performance.

RULE IX.

THE TIMEKEEPERS.

There shall be three Timekeepers. They shall time all events which are recorded by time and shall report individually to the Recorder of

Times their record of the time of each heat and race.

Should two of the three watches mark the same time and the third disagree, the time marked by the two watches shall be accepted. Should all three disagree, the time marked by the intermediate watch shall be accepted.

If two watches only are started on a heat, or race, and they fail

to agree, the longest time shall be accepted.

To have a record allowed three watches must be started on a

The flash of the pistol shall denote the actual start of the race

In time handicap events the Timekeeper shall receive the time allowance of each competitor from the Clerk of the Course and shall start them with the word "GO."

RULE X.

THE STARTER.

The Starter shall be in charge of the competitors after they have

been assigned to their marks by the Clerk of the Course.

He shall start the heat, or race, by the report of the pistol, except in the case of time handicap events, when the competitors shall be started by the Timekeepers with the word "GO." The following formula shall be used by the Starter: 1. Take your mark; 2. Get set; 3. The report of the pistol.

Until the pistol has been purposely discharged it shall not be considered an actual start. In case the pistol goes off accidentally, the Starter shall recall the competitors by discharging his pistol twice.

The Starter shall not start the heat, or race, until he receives the signal from the Referee that everything is in readiness. The Referee may delegate to the Senior Judge this duty of signalling to the Starter.

A false start is one where any part of the person of a competitor touches the ground in front of his mark before the Starter purposely discharges his pistol. The competitor shall keep his hands behind the mark assigned to him.

mark assigned to him.

The following penalties are imposed by the Starter for false starts: In all races up to and including 125 yards the competitor shall be put back one yard for the first and one more for the second attempt; in races over 125 yards and including 300 yards, two yards for the first and two more for the second attempt; in races over 300 yards and including 600 yards, three yards for the first and three more for the second attempt; in races over 300 yards, four yards for the first and four more for the second attempt; in races over 1,000 yards, and including one mile, five yards for the first and five more for the second attempt; in all races over one mile, ten yards for the first and ten more for the second attempt. In all races the third false start shall disqualify the offender from that event.

Should any boy attempt to advance from his mark after the

Starter has given word to get ready, the Starter shall disqualify him from that event.

RULE XI.

THE CLERK OF THE COURSE.

The names and numbers of all the competitors in each event shall be given to the Clerk of the Course, who shall call them by name and check them off on the programme immediately before the event. After the competitors' names have been called, the Clerk of the

Course shall, in handicap events, assign them to their respective

The Clerk of the Course shall not allow any competitor to start without his number, except with the consent of the Referee.

The Assistant Clerks of the Course shall perform whatever duties are assigned them by the Clerk of the Course.

RULE XIL

CHIEF SCORER.

The Chief Scorer shall keep track of the order in which each competitor finishes and also the time for the event. He shall also keep a tally of the laps made by each competitor in all races round a turn and shall announce by means of a bell or pistol shot when the leading man is entering on the last lap.

The Assistant Scorers are subject to the Chief Scorer and shall perform whatever duties are assigned them by him.

RULE XIII.

THE MARSHAL.

The Marshal shall prevent any but officials and actual competitors

from entering into the inner circle or remaining therein.

Any competitor entering into the inner circle before or after competition, and not there for the purpose of competition, must leave the inner circle when requested by the Marshal. If, after the second request, the competitor still refuses to leave, the Marshal, or his assistants, must report the matter to the Referee who may disqualify the offender.

The Assistant Marshal shall be under the control of the Marshal and shall assist him in keeping the inner circle as clear as is

possible.

BULE XIV.

OFFICIAL ANNOUNCER.

The scorers shall make known to the Official Announcer the results of each event and he shall announce them to the spectators.

RULE XV.

OFFICIAL REPORTER.

The Official Reporter shall receive from the Scorers the order of finishing and the time made by the competitors in the running events and the height or distance covered by the competitors in the field This information he shall immediately make known to the representatives of the press.

RULE XVI.

THE INNER CIRCLE.

With the exception of officials and actual competitors, no one shall be allowed within the inner circle. Competitors must leave the inner circle immediately after the finish of their event, or when requested to do so by the Marshal.

No attendant, friend or trainer shall be allowed to accompany the competitors on the track or infield.

RULE XVII. THE COMPETITORS.

The competitors shall report to the Clerk of the Course at the starting point of each competition, after they have been called to the inner circle.

Each contestant must provide himself with a number corresponding to the number opposite his name on the programme. This number he must wear conspicuously while he is competing, and without it he shall not be allowed to start except with the consent of the Referee.

In handicap events, competitors, whether they be scratch or limit mark men, must start from positions in which they are placed by

the Clerk of the Course,

If in straightaway races the competitor does not confine himself to his own lane, but instead crosses into the lane of his opponent, the Referee shall disqualify him.

In races around a turn, the competitor shall, after turning the last corner, continue in a straight line to the finish and not cross either to the outside or the inside in front of any of the other competitors.

Any competitor who wilfully jostles, crosses in front of, or otherwise impedes an opponent, shall be disqualified by the Referee from

that event.

The Referee shall further disqualify from the meeting any com-

The Referee shall further disqualify from the meeting any competitor who, in his opinion, is trying to lose, to coach, or to impede in any way the chances of another competitor. He shall further notify the Games Committee, who will take further action.

Any competitor acting in an ungentlemanly manner, whether toward competitors, spectators or officials, may be disqualified by the Referee from that and all other events at that meeting, and if the Referee thinks the offence worthy of further punishment, he shall make a full report on the case to the Secretary of the Public Schools Athletic League for further action.

RULE XVIII.

PROTESTS.

Protests against any competitor entered in any games may be made verbally or in writing, to the Games Committee before the meet, or to the Referee during the meet.

If the protest is a claim of foul committed during the meet, the Referee shall decide the matter at once as laid down in the duties of

Referee (Rule III.).

If possible, the Games Committee shall decide all protests before the events are run off. If it is a case requiring the taking of evidence, the Games Committee shall decide the matter within one week after the date of the games. If it affects the contestant's amateur status, however, the case must be referred to the Secretary of the Public Schools Athletic League for action,

When a contestant is allowed to compete under protest, the prizes that he may win shall be withheld until the case is settled.

RULE XIX.

THE TRACK.

The distance to be run shall be measured on a line eighteen inches outward from the inner edge of the track. This edge shall be a solid curb raised three inches above the level of the track.

In straightaway races, distance shall be measured in a direct line from the starting mark, to the finishing line.

In indoor races on board floors courses may be marked plainly (with

whitewash) on the track.

RULE XX. THE COURSE.

In straightaway races the competitor must keep his own course from start to finish. In these races separate courses, called lanes, shall be laid out for each competitor by means of stakes driven into the ground, to which cord or wire is attached and which are placed about fifteen vards apart.

In all races the competitors must not cross to the pole, or inner edge of the track until he is at least two strides in advance of his

nearest competitor.

In all championship races positions shall be drawn for, numbering one, two, three, and so on, from border out, and the drawing shall be in the names of the schools. The Clerk of the Course shall then allot positions. The school having the first choice shall have the position next the pole, or inner edge of the track, the school having second choice, second position and so on, the schools alternating, so that if possible, there will not be two contestants from the one school in the same heat.

In championship events on straightaway tracks, the drawing shall be by schools, and the Referee shall see that no two contestants from the same school shall start in one heat. There shall be a drawing for the choice of lanes, the school winning first choice selecting whatever lane the first runner for that school desires, the school having second choice the next best lane and so on.

In handicap events the contestants, when called, must take any lane assigned them by the Clerk of the Course.

RULE XXI. THE FINISH.

The finish of a course shall be represented by a line between two finishing posts drawn across and at right angles to the sides of the track and four feet above which shall be placed a tape attached to both finishing posts.

The finish of any race shall be counted when any part of competitor's body, except his hands and arms, shall reach the finish line. No competitor shall be considered to have finished unless his en-

tire body shall have crossed the finish line.

RULE XXII. RELAY RACING.

A line shall be drawn twenty feet in front of each starting line, Between these two lines each runner must touch the succeeding runner. Failure to do this shall disqualify the team in that event. There shall be Judges of Relay Racing whose duties it shall be to see that all touches are properly made.

The same rules with reference to fouling, coaching or impeding

a runner in any manner, apply to relay racing as to other running

events.

In the case of a handicap relay race, the boy on the first relay is granted the total handlcap allowed each team.

Only those boys are allowed to run in the final heat of a relay race who have competed in the trial heats.

RULE XXIII. HANDICAP RULES.

The handicap allowed in the different races shall not exceed one-tenth of the distance to be run; for instance, the limit in the 50 yards dash shall be 5 yards, in the 100 yards dash, 10 yards.

The limit in the pole vault shall be 18 inches; in the running high jump 9 inches; in the running broad jump, 30 inches; in the 8-lb. shot put, 48 inches; in the 12-lb. shot pot, 60 inches; in the standing broad jump, 12 inches.

The penalty for winning shall be as follows: For races of 50 yards and under, 3 feet, 2 feet and 1 foot shall be taken off for winning first, second and third places respectively; in races over 50 yards and including 100 yards, 2 yards, 1 yard and 2 feet; over 100 yards and including 120 yards, 5, 3 and 2 yards; over 220 and including 440 yards, 10, 6 and 3 yards; over 440 yards and including 880 yards, 20, 12 and 6 yards; in races over 880 and including one mile, 40 yards, 24 yards and 12 yards; in the pole vault, 9, 7 and 4 inches; in the running high jump, 5, 4 and 2 inches; in the running broad jump, 14, 10 and 7 inches; in the 8-lb. shot put, 20, 15 and 11 inches; in the 12-lb. shot put, 24, 18 and 13 inches; in the standing broad jump, 7, 5 and 3 inches.

RULE XXIV.

POTATO RACING.

The potato race shall be one in which three or more potatoes are placed two yards apart on a direct line. The first potato shall be two yards from the receptacle which shall be either a pail, basket, box, or can, not over 36 inches in circumference at the opening.

minimum number of potatoes in a race shall be five.

The finish shall be a line five yards back of the receptacle, which must be crossed after the last potato has been placed in the receptacle. If the competitor should drop a potato, he must replace it in the receptacle before he touches another potato; otherwise, he shall

be disqualified.

In handicap events the mark is taken off back of the receptacle.

RULE XXV. THE SHOT.

The Shot shall be a metal sphere of any weight decided upon by the Games Committee. For indoor games for record purposes a filled shot covered with any material and being a perfect and solid sphere may be used.

The shot shall be "put" with one hand, and in making the at-

tempt, it shall be above and not behind the shoulder.

All puts shall be made from a circle seven feet in diameter. circle shall be a metal or wooden ring, painted or whitewashed, and sunk almost flush with the ground, and it shall be divided into two halves by a line drawn through the center. In the middle of the circumference of the front half shall be placed a stop-board four feet long and four inches high, and firmly fastened to the

four feet long and four inches high, and firmly lastened to the ground. In making his puts, a competitor may rest his feet against, but not on top of, the stop-board.

That put shall be considered a fair put when no part of the body of the competitor touches the top of the stop-board, the circle, or the ground outside of the circle, provided the competitor shall leave the circle by its rear half, which shall be the half directly opposite the stop-board. A put shall be considered foul if any part of the body of the competitor shall touch the ground outside the front half

of the circle before the put is measured.

The Field Judges shall measure each put from the nearest mark made by the fall of the shot, to the circumference of the circle on a line from the mark made by the shot to the center of the circle. Foul puts and letting go the shot in making an attempt shall

be counted as trials without result. Each competitor shall have three trial puts, and the first, second, third and fourth in the trials shall have three more trials each in the final.

The best put made by a competitor, whether made in the trials or finals shall count as his best put and the result will be decided accordingly.

RULE XXVI.

RUNNING HIGH JUMP.

A fair jump shall be one that is made without the assistance of weights, diving, somersaults or handsprings of any kind.

The bar shall be a thin stick two inches in width and shall rest on pins which shall project not more than three inches from the uprights. When this bar is removed, it shall constitute a trial jump without result.

The height at which the jump shall commence and the height to which it shall be raised at each succeeding jump shall be decided

by the Field Judges.

The height shall be measured from the middle of the bar to

the ground on a direct line.

Each competitor shall be allowed three trial jumps at each height. and if on the third trial he shall fail, he shall be declared out of the competition.

At each successive height each competitor shall take one trial in his proper turn; then those failing, if any, shall have their second trial in a like order, after which those who have failed at

the second trial may take their third and final trial at that height. A competitor may decline to jump at any height in his turn, and by so doing, forfeits his right to again jump at the height declined. If, however, a competitor takes a trial at any height and fails in

the first trial, he shall not pass the other two trials. Running under the bar in making an attempt to jump shall be counted as a balk, and three successive balks shall constitute a trial

There shall be no limit to the run a competitor may take before

attempting a jump.

RULE XXVII.

RUNNING BROAD JUMP.

A joist eight inches wide shall be sunk flush with the ground. The outer edge of the joist shall be called the scratch line and the measurement of all jumps shall be made from it at right angles to the nearest break in the soft ground, or in the turf or earth outside the soft ground by any part of the body of a competitor.

In front of the scratch line the ground shall be flush.

A foul jump shall be one where the competitor in jumping off the scratch line makes a mark on the ground immediately in front of it, or runs over the line without jumping, and shall count as a trial jump without result.

Each competitor shall have three trial jumps, and the competitors finishing one, two, three and four in the trial jumps, shall each have

three more trial jumps.

The competition shall be decided by the best of all the trial jumps of the competitors.

A fair jump shall be one that is made without the assistance of weights, diving, somersaults or handsprings of any kind.

RULE XXVIII. STANDING BROAD JUMP.

The feet of the competitor may be placed in any position, but shall leave the ground once only in making an attempt to jump. When the feet are lifted from the ground twice, or two springs are made in making the attempt, it shall count as a trial jump without result. A competitor may rock back and forward, lifting heels and toes alternately from the ground, but may not lift either foot clear of the ground, nor slide either foot along the ground in any direction.

In all other respects the rules governing the running broad jump govern the standing broad jump so well

govern the standing broad jump as well.

RULE XXIX. THE POLE VAULT.

The height at which the vaulting shall commence and the height to which the bar shall be raised at each succeeding vault shall be determined by the Field Judges.

The height of the bar shall be measured on a direct line from

the ground to the middle of the bar.

Each competitor shall have three trials at each height, and, if he fails at the third trial he shall be declared out of the competitlon.

Each competitor shall make an attempt at each successive height in the order in which he is called; then those who have failed shall have a second trial in like order. Those failing on the second trial shall then take their third and final trial.

Displacing the bar counts as a try.

Leaving the ground in an attempt shall constitute a try. A line shall be drawn fifteen feet in front of the bar and parallel with it; crossing this line in an attempt shall be a balk. Two balks shall constitute a try.

A competitor may decline to vault at any height, but, if he fails at the next height, he shall not be allowed to go back and try the

height he omitted.

If, however, contestant takes one trial at any height, he shall not pass the other two trials.

Any competitor shall be allowed to dig a hole not more than one foot in diameter at the take-off in which to plant his pole.

The poles shall have no assisting devices, except that they may be wound or wrapped with any substance for the purpose of affording a firmer grasp, and may have one spike at the lover end. poles shall be unlimited as to size and weight.

No competitor shall, during his vault, raise the hand which was uppermost when he left the ground to a higher point on the pole, nor shall he raise the hand which was undermost when he left the

ground to any point on the pole above the other hand.

RULE XXX.

THE DISCUS (GREEK STYLE).

To execute the throw, the competitor places himself in the pedestal with the feet apart, the right foot forward, provided he is right-handed, and vice versa, if he is left-handed, and holding the discus in either hand. He then grasps it with both hands and raises it straight above his head. As the discus is held aloft the body should lean forward slightly, and as the thrower starts to make his effort the trunk should be turned slightly to the right and the body bent sharply so that the left hand, when free, swings outside and below the right knee, and the right, holding the discus, is stretched as far

back as the extension of the shoulder will allow. At this moment the right knee should be bent, with the foot resting full on the sole. the left leg almost straight, and the foot resting on the toes. Then, by a sharp and simultaneous exertion of the whole body, the thrower scales the discus away in front of him. The critical part of the throw is the action of the arm at the moment of delivery. The final sweep of the arm must be distinctly by the side and be clearly in an underhand direction. Round arm, like a cricket bowler, horizontal, arch, or overarm swings to be foul. Neither must there be the least tendency of the arm to swing around the body.

The measurement of the throw to be from the center of the

nedestal to where the discus first strikes the ground.

The thrower may leave the pedestal at the moment of throwing. Trials and other conditions of competition to be the same as the hammer or shot.

BULE XXXI. THE HURDLES.

In the 120 yards hurdle race, ten hurdles shall be used; height of hurdles to be decided upon by the Games Committee. They shall be placed ten yards apart, with the first hurdle fifteen yards distant from the starting point, and the last hurdle fifteen yards before the finishing line.

In the 220 yards hurdle race ten hurdles shall be used; height of hurdle to be decided upon by the Games Committee. They shall be placed twenty yards apart, with the first hurdle twenty yards distant from the starting mark, and the last hurdle twenty yards from the

finishing line.

In hurdle races of other distances, and with different numbers of hurdles, the hurdles shall be placed at equal distances, with the same space between the first hurdle and the starting point and the

last hurdle and the finishing line as between each of the hurdles.

In making a record it shall be necessary for the competitor to jump over every hurdle in its proper position, nor shall the performance be considered a record unless all the hurdles remain standlng, after the competitor clears them.

A competitor knocking down three or more hurdles, or any portion

of hurdles in a race shall be disqualified.

RULE XXXII.

TIES.

In all contests whose results are determined by measurement of

height or distance, ties shall be decided as follows:

In handicap contests the award shall be given to the competitor who received the least allowance. In case of a tie between two or more competitors who received the same allowance, the decision shall be made as in scratch contests.

In case of a tie in a scratch contest at high jumping, the tieing competitors shall have three trials at the height last tried, and if still undecided the bar shall be lowered to the height next below, and three trials taken at that height. If no one clears it, the bar shall be lowered again and again until one of the competitors clears it. In case of a second tie, the award shall be given to the competitor who cleared the bar with the least number of trials.

In case of a tie in a scratch contest in any event decided by distance, each of the tieing competitors shall have three additional trials, and the award shall be made in accordance with the distance cleared in these additional trials. In case of a second tie three more trials shall be allowed, and so on, until a decision is reached. In case of a dead heat in track events, the competitors shall not be allowed to divide the prize or points, or to toss for them, but must compete again at a time and place appointed by the Referee. In case of a tie in the pole vault the officials shall raise or lower the bar at their discretion, and those competitors who have tied shall

be allowed one trial at each height.

RULE XXXIII.

ORDER OF COMPETITION IN FIELD EVENTS.

In all scratch events the competitors shall take their trials in the

order of their names as printed on the programme.

In all handicap events the competitor having the greatest allowance shall make the first trial, and so on, in regular order, up to the competitor at scratch or with the least allowance, who shall have the last trial.

RULE XXXIV.

COSTUME.

Only boys with pants reaching approximately to the knees and shirts that adequately cover the body shall be allowed to compete.

If any defect is discovered during the first game in which it is used, or during the first day's practice use, and, if returned at once, we will replace same under this quarantee. We do not quarantee against ordinary wear nor against defect in shape or size that is not discovered immediately after the first day's

Owing to the superb quality of our No. M Basket Ball, our customers have grown to expect a season's use of one ball, and at times make unreasonable claims under our guarantee, which we will not allow.

A. G. SPALDING & BROS.

FFICIALLY ADOPTED AND STANDARD. The cover is made in four sections, with capless ends, and of the finest and most carefully selected pebble grain English leather. We take the entire output of this superior grade of leather from the English tanners, and in the Official Basket Ball use the choicest parts of each hide. Extra heavy bladder made especially for this ball of extra quality pure Para rubber (not compounded). Each ball packed complete, in sealed box, with rawhide lace and lacing needle, and guaranteed perfect in every detail. To provide that all official contests may be held under absolutely fair and uniform conditions, it is stipulated that this ball must be used in all match games of either men's or women's teams.

SPECIAL NOTICE - In a game like basket ball, which is played generally on board floors, there is a strain on the feet altogether different from that in almost any other athletic game, and to support this strain, properly made shoes with leather uppers and correctly shaped soles are properly made shoes with leather uppers and correctly snaped soies are absolutely necessary. It is a fact that players on many teams wear canvas top shoes and we supply in our No. P shoes, listed below, absolutely the best canvas top basket ball shoes ever made, and the same style as worm by some very successful teams, but from our long experience in catering to athletes and watching closely, as we have done, the development of basket ball and its effects on the physical condition of players, we cannot consistently recommend canvas top shoes for any athletic use and especially not for basket ball.

Mike Murphy "Rub-In" Athletic Liniment

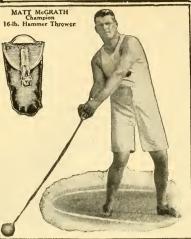

THIS PREPARATION is the same as has been used by Mike Murphy, the famous athletic trainer, in conditioning the Yale, University of Pennsylvania and other college teams which have been under his charge. He is famous for the perfect condition in which he brings his athletes into a contest, and the ingredients and proper preparation of his "Rub-In" Liniment has been a closely guarded secret. He has finally turned the formula over to A.G. Spalding & Bros. with perfect confidence that the proper materials will always be used in preparing the liniment and that no considerations will induce us to cheapen it in any way.

Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy, Without a definite and Standard Mercantile Policy, it is impossible for a

Manufacturer to long maintain a Standard Quality.

To market his goods through the jobber, a manufacturer must provide a profit for the jobber as well as for the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured

his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts,"

which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer, in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

he foregoing conditions became so intolerable that 14 years ago, in 1899. A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding Policy.

The "Spalding Policy" eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures the supply of Spalding Athletic Goods direct from the manufacturer by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The "Spalding Policy" is decidedly for the interest and protection of the users of Athletic Goods, and acts in two ways:

First.—The user is assured of genuine Official Standard Athletic Goods

and the same prices to everybody.

Second.-As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are requested to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated

exactly alike, and no special rebates or discriminations are allowed to anyone. This briefly, is the "Spalding Policy," which has already been in successful operation for the past 14 years, and will be indefinitely continued.

In other words, "The Spalding Policy" is a "square deal" for everybody.

A. G. SPALDING & BROS.

Standard Quality

An article that is universally given the appellation "Standard" is thereby conceded to be the criterion, to which are compared all other things of a similar nature. For instance, the Gold Dollar of the United States is the Standard unit of currency, because it must legally contain a specific proportion of pure gold, and the fact of its being Genuine is guaranteed by the Government Stamp thereon. As a protection to the users of this currency against counterfeiting and other tricks, considerable money is expended in maintaining a Secret Service Bureau of Experts. Under the law, citizen manufacturers must depend to a great extent upon Trade-Marks and similar devices to protect themselves against counterfeit products—without the aid of "Government Detectives" or "Public Opinion" to assist them.

Consequently the "Consumer's Protection" against misrepresentation and "inferior quality" rests entirely upon the integrity and responsibility of the "Manufacturer."

A. G. Spalding & Bros. have, by their rigorous attention to "Quality," for thirty-seven years, caused their Trade-Mark to become known throughout the world as a Guarantee of Quality as dependable in their field as the U. S. Currency is in its field.

The necessity of upholding the Guarantee of the Spalding Trade-Mark and maintaining the Standard Quality of their Athletic Goods, is, therefore, as obvious as is the necessity of the Government in maintaining a Standard Currency.

Thus each consumer is not only insuring himself but also protecting other consumers when he assists a Reliable Manufacturer in upholding his Trade-Mark and all that it stands for. Therefore, we urge all users of our Athletic Goods to assist us in maintaining the Spalding Standard of Excellence, by insisting that our Trade-Mark be plainly stamped on all athletic goods which they buy, because without this precaution our best efforts towards maintaining Standard Quality and preventing fraudulent substitution will be ineffectual.

Manufacturers of Standard Articles invariably suffer the reputation of being high-priced, and this sentiment is fostered and emphasized by makers of "inferior goods," with whom low prices are the main consideration.

A manufacturer of recognized Standard Goods, with a reputation to uphold and a guarantee to protect must necessarily have higher prices than a manufacturer of cheap goods, whose idea of and basis of a claim for Standard Quality depends principally upon the eloquence of the salesman.

We know from experience that there is no quicksand more unstable than poverty in quality—and we avoid this quicksand by Standard Quality.
